

Scale: 2 Inches Equals 1 Mile. Draw Map In Ink.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Permit No. R-881

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. William P. Strickland; residence, 3 miles south of Bruneau, Idaho; occupation, farming and livestock; postoffice address, Bruneau, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #R-881; date of permit 10/10/51; date of priority, 10/10/51.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. From Rodero Ck. or Snow Ck. which is a tributary of Mary's Ck. Point of diversion in NE¼SW¼, Sec. 15, T15S-R4E., B.M., Idaho. This is a permit to raise the dam and enclosd additional (260 Ac.ft.) of storage in addition to that already established under Permit R-717, for 1280 Ac.ft.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The area of the high water line of the reservoir is approx. 20 ac. The height of the dam above the bottom of the reservoir is 16' and above low water is 12'. The spillway is 12' wide and 6' deep, bottom of spillway is 6'-8' below the top of the dam. The outlet of this reservoir has a 10" concrete pipe. The raise of the actual dam was 4' and 2' of this was above the spillway. I have an iron headgate that screws into the control and closes over the pipe. The scaffold is made out of railroad iron and extends out to the control valve. Around the concrete pipe outlet, there is concrete and rock poured. From the outlet of the dam it is approx. 3/4 mile to the first land irrigated. The ditch which conveys this water is 4' deep, 3' at the bottom and 6' at the top. This is only used to supplement the main course of Snow Ck. Then just above the first land irrigated, which is SW¼SW¼ Sec. 11 T15S-R4E, I take out the main ditch which takes all the water out of both the channel and the little lead ditch described above. The main ditch has 5' bottom, 5' deep, 10' wide at the top, it goes in a northeasterly direction through the land to a point in the SE¼NW¼ Sec. 1, where it splits and one ditch runs all along the west side of the irrigated land for a distance of approx. 2¼ miles. This ditch has the same dimensions as the one described above. The ditch along the east side is for a distance of approx. 3½ miles with the same dimensions as described. Either of these two ditches will carry 1000" of water. All of the irrigation is by gravity, There are no sprinklers and I have lateral and lead ditches going out onto the land.

R-881

Ques. 6. State for what purpose water is used, and describe lands upon which it is applied, and amount of acres to be irrigated.

Ans. 26A.Sec.11,NW¼NW¼,26A;NE¼NW¼,11A;SW¼NW¼,38A;SE¼NW¼,12A;NW¼SW¼,31A;SW¼SW¼,7A;NE¼SW¼,6A. No natural irrigation, all is artificial. No natural meadow. All improvements have been made as a direct result of this use and the raise on the dam alone was $2,800. Cost of ditches and distribution works was $3,600 more and I spent $3,000 more on the land. This is in addition to some $20,000 I have spent on the dam and works before actual raise.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Not ground water.

NOTICE FOR PUBLICATION
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:30 A. M. on the 27th day of October, 1961, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the application to beneficial use of 260 Ac. feet per second of the waters of Rodera Lake Ck. or Snow Ck. in accordance with the terms and conditions of Permit No. R-881 heretofore issued by the Idaho Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are William, P. Strickland, Bruneau, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 260 ac. ft.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) NE¼SW¼, SE¼, S½NE¼, W½SW¼, S½-NW¼, SE¼SW¼, Lots 1, 2, 3, 4, Sec. 2; W½W½, E½NW¼, NE¼SW¼, Sec. 11, T15S-R4E, W½SE¼. SE¼SE¼, SW¼, Sec. 35; NE¼SE¼, Sec. 34, T14S-R4E.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. R-881.

The source of supply from which such water is diverted is Rodero Lake Ck. or Snow Ck. in NE¼SW¼, Sec. 15, T. 15 S., R. 4 E. B. M.

The date of priority which said user is prepared to establish is 10/10/51.

GEO. N. CARTER,
State Reclamation Engineer.

NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:30 A. M. on the 27th day of October, 1961, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the application to beneficial use of 260 Ac. ~~xxx~~ cubic feet per second of the waters of Rodera Lake Ck. or Snow Ck. in accordance with the terms and conditions of Permit No. R-881 heretofore issued by the Idaho Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are William P. Strickland, Bruneau, Idaho

The use to which said water has been applied is irrigation, and domestic

The amount applied to beneficial use is 260 ac. ft.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) NE¼SW¼, SE¼, S½NE¼, W½SW¼, S½NW¼, SE¼SW¼, Lots 1,2,3,4, Sec.2; W½W½, E½NW¼, NE¼SW¼, Sec. 11, T15S-R4E., W½SE¼, SE¼SE¼, SW¼, Sec. 35; NE¼SE¼, Sec.34, T14S-R4E.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. R-881

The source of supply from which such water is diverted is Rodero Lake Ck. or Snow Ck. in NE¼SW¼ Sec. 15, T.15S.-R.4E.B.M.

The date of priority which said user is prepared to establish is 10/10/51

APPLICATION FOR PERMIT

51-2241

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of Idaho

Application No. R 30149
Permit No. R 881

1. Name of Applicant: WILLIAM P. STRICKLAND

Postoffice address: Bruneau County Owyhee State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: $

(c) Amount paid in: $

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: $

(b) Treasury Stock: $

(c) Bonds to be issued: $

(d) Other resources:

2. Quantity of water to be stored: 260 acre feet per annum.

3. Source of water supply is Rodera Lake Creek, or Snow Creek (Creek) (River) (Spring), a tributary of Bruneau River.

4000

4. The outlet of the proposed reservoir is located S.43°35'W. (bearing) / feet, distant from the N E corner of Section 15, Township 15 S., Range 4 E., B. M. and is in the NE ¼ of SW ¼ of Section 15, Township 15 S., Range 4 E., B.M. County of Owyhee

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Rodera Lake or Snow Creek (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located feet distant from the corner of Section, Township, Range, B. M., and is in the (bearing) ¼ of ¼ of Section, Township, Range B. M.; width at bottom feet, width at top feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is 190 acres.

(b) The reservoir capacity is 1540 acre feet.

7. Height of reservoir dam 12 feet, length at top 1200 (App.) / feet, length at bottom 600 feet, size of outlet 12" pine ~~feet~~ and iron headgate- 800' outlet.
by feet. The dam is to be constructed of materials as follows: Earth

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8 (a) Will water stored in reservoir be diverted to canal or acqueduct, thence to land to be irrigated without commingling with natural flow of Snow (Creek) (River)? No

(b) Water stored in reservoir will be carried in the channel of Snow (Creek,) (River,) a distance of one miles to point of diversion located N.88°32' W. (bearing) 905, feet, distant from the S E corner of Section 10 Township 15 S., Range 4 E., B. M., and in the SE ¼ of SE ¼ of Section 10 Township 15 S., Range 4 E. B. M.

9. (a) Area of watershed above dam site 36 square miles

(b) Estimated maximum flow of stream cubic feet per second.

10. Water is to be used for Irrigation and domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water feet, distant from Corner of Section, Township, Range (bearing) B. M. and is in the ¼ of ¼ of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point feet (bearing) distant from the corner of Section, Township, Range, B. M. in the ¼ of ¼ of Section, Township, Range, B.M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. 717, which is hereby referred to and made a part hereof.

13. Kind of diversion works: Cement headgate 2' wide and 12" deep. (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: 2 feet, length at top 800 feet, length at bottom 600 feet. The dam is to be constructed of materials as follows: Cement and concrete

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width 12" ~~feet~~, Height 2 feet.

16. Diversion Canal: Width at bottom 2 feet, width at water line 4 feet, depth of water 14" ~~feet~~, Dimensions of Flume None

Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.

17. Estimated cost of Works: Storage Works: $ 1,500.00 Diversion Works: $500.00

18. Time required for completion of work Five (5) years.

19. Time required for complete application of water to proposed beneficial use is Five (5) years.

20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
15 S.	4 E.	35									40	40				40			120
		34													40			40	80
15 S.	4 E.	3	40																40

Total Number of Acres to be Irrigated 240

21. Existing rights and/or valid permits appurtenant to lands described in Sec. 20 are None

Remarks: This application is to raise the dam of Rodera Lake so that it will store additional water which will be used in the irrigation of new lands now vacant federal range, and under desert entry by my daughters in the Idaho Land and Survey Office, at Boise, Idaho. It is my plan to raise the present dam approximately 2 feet so that the storage facilities will be increased some 260 acre feet. The run-off is adequate and the site of the dam and outlet are very practically adapted to this increase. The land is tillable and when irrigated will be put to its maximum use. I will share the water with my daughters when their applications on the land are allowed and make the necessary assignments at that time.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and appropriate and store the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

WILLIAM P. STRICKLAND Applicant.

By Harley M. McDowell Agent.

Date of first receipt at Department of Reclamation: 9:30 A. M. October 10, 1951

Returned to applicant for correction

Corrected application received

APPROVAL OF STATE RECLAMATION ENGINEER

The number of this permit is R 881

Recorded in book R 3 , page 881 Approved October 10, 1951

This is to certify that I have examined the within application for a permit to construct a reservoir and appropriate and store the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of $, to be filed on or before

Work to begin on or before December 10, 1951 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One fifth of the work above specified to be completed on or before April 10, 1954

The whole of said work to be completed on or before October 10, 1956

Beneficial use of water stored in accordance herewith, to be made on or before October 10, 1961

Witness my hand this 10th day of October , 1951 .

MARK R. KULP
State Reclamation Engineer.

IN TESTIMONY WHEREOF, We, EDSON H. DEAL, Acting, Governor of the State of Idaho, and IRA H. MASTERS, Secretary of State of the State of Idaho, have caused this instrument to be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 10th day of October, 1951.

Countersigned:

STATE OF IDAHO

(SEAL)

By EDSON H. DEAL
Acting Governor.

By IRA H. MASTERS
Secretary of State.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. R-881

Comes now William P. Strickland and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-881, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

$N\frac{1}{2}SW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, Sec. 35; $E\frac{1}{2}SE\frac{1}{4}$, Sec. 34; $E\frac{1}{2}E\frac{1}{2}$, $SW\frac{1}{4}$ $SE\frac{1}{4}$, Sec. 2; $NE\frac{1}{4}$ $NE\frac{1}{4}$, Sec. 3, T 15 S - R 4 E., B.M.
$NE\frac{1}{4}$ $NE\frac{1}{4}$ Sec. 3, T 16 S - R 4 E., B.M.; $NE\frac{1}{4}$ $SE\frac{1}{4}$ Sec. 34; $N\frac{1}{2}SW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, $SE\frac{1}{4}SE\frac{1}{4}$, Sec. 35, T 14 S - R 4 E., B.M.
making a total of 680 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, this 13 day of August, 1956.

WM. P. STRICKLAND

Date of receipt at office of Department of Reclamation August 14, 1956.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-881. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-881. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ Mark R. Kulp
State Reclamation Engineer

Recorded in the Department of Reclamation
March 7, 1957.

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement of Permit No. R-881 Under the Provisions of Section 5594, Idaho Compiled Statutes.

ORDER REINSTATING PERMIT

WHEREAS, Permit No. R-881 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: October 10, 1956; and,

WHEREAS, On the 7th day of January, 1957, notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 5th day of March, 1957, the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 5th day of March, 1957, depositions of the holder and two witnesses were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

WHEREAS, After examination of the said depositions, the State Reclamation Engineer of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. R-881, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. R-881 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 7th day of March, 1957.

/s/ Mark R. Kulp
State Reclamation Engineer

Permit No. R-881

CERTIFICATE OF COMPLETION OF WORKS

To All Whom It May Concern:

This is to certify that WILLIAM P. STRICKLAND of Bruneau, County of Owyhee and State of Idaho, the holder of Permit No. R-881, issued upon Application No. R-30149, bearing date of priority of October 10, 1951, authorizing the construction of a reservoir, with the right to appropriate and store 260 acre feet per annum of the waters of Rodera Lake Creek or Snow Creek, a tributary of Bruneau River, in the County of Owyhee, State of Idaho, for Irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works set out and described in said Permit; that said works include a dam and reservoir adequate for the storage of 260 acre feet of water per annum, with adequate diversion works and conduit to the reservoir, and a conduit capable of conducting said water to the place of intended use; that the point of outlet of said reservoir is located in the $NE\frac{1}{4}$ of the $SW\frac{1}{4}$ of Section 15, Township 15 S., Range 4 E., and that the place of use, or the lands proposed to be irrigated by the use of said water, are described as follows, to-wit: 520 acres in the $E\frac{1}{2}SE\frac{1}{4}$ Section 34; $N\frac{1}{2}SW\frac{1}{4}$, $N\frac{1}{2}SE\frac{1}{4}$, $SE\frac{1}{4}SE\frac{1}{4}$ Section 35, Township 14 South, Range 4 East,B.M., $NE\frac{1}{4}NE\frac{1}{4}$ Section 3; $E\frac{1}{2}NE\frac{1}{4}$, $E\frac{1}{2}SE\frac{1}{4}$, $SW\frac{1}{4}SE\frac{1}{4}$ Section 2, Township 15 South, Range 4 East,B.M.

Witness my hand this 6th day of November, 1958

/s/ Geo. N. Carter
State Reclamation Engineer

(To increase the storage in the reservoir inthe amount of 260 acre feet--under Permit R-717, was 1280 acre feet--this permit allows for an additional 260 ac-ft)
Completion of Works completed: October 1, 1956
Proof of Completion of Works made: February 22, 1957
Certificate of Completion of Works issued: November 6, 1958.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, No. R-881

Comes now William P. Strickland, and represents to the State Reclamation Engineer of the State of Idaho. That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-881, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

NE¼SW¼, SE¼, S½NE¼, W½SW¼, S½NW¼, SE¼SW¼, Lots 1, 2, 3, 4, Sec. 2; W½W½, E½NW¼, NE¼SW¼, Sec. 11, T15S-R4E.,B.M. Idaho: W½SE¼, SE¼SE¼, SW¼, Sec. 35. NE¼SE¼, Sec. 34, T14S-R4E.,B.M., Idaho making a total of 1240 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Re: Permit No. R-881

W. P. Strickland
Brunswa, Idaho

Dear Mr. Strickland:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. R-881 shows the dam & ditches are capable of conveying 260 A.F. of water for the irrigation of 705 acres.

Upon receipt of the statutory fee of $ 62.00 -based at the rate of $2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of October 27, 1951 to the use of 260 A.F. feet of surface water with the point of diversion in the $NE\frac{1}{4}SW\frac{1}{4}$, Sec. 15, T. 15 S., R. 4 E., B.M. from Rodera Lake Creek or Snow Creek for domestic use and irrigation of 705 acres in the $NE\frac{1}{4}SE\frac{1}{4}$, Sec. 34; $SW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, $S\frac{1}{2}SE\frac{1}{4}$, Sec. 35, T. 14 S., R. 4 E., B.M.; Sec. 2, $NW\frac{1}{4}$, $E\frac{1}{2}SW\frac{1}{4}$, $SW\frac{1}{4}SW\frac{1}{4}$, Sec. 11, T. 15 S., R. 4 E., B.M.

Very truly yours,

CARL E. TAPPAN

This proof is for Beneficial Use In Water District No.

1. Name of applicant W. P. Strickland

2. Source of water supply: Rodera Lake Creek or Snow Creek

3. Location of point of diversion: Is in the NE¼SW¼ of Section 15

T. 15 S R. 4 E.B.M. County of Owyhee

Describe works as they exist, giving dimensions and capacities of same:

Earth fill dam 495' long x 9' high x 8' crest width. Upstream slope 3:1; downstream slope 2:1. Good heavy riprap upstream face. 2' freeboard. There is a spillway at each end. The east spillway is the main one used; 6' bottom x 10' top x 300' long. The west spillway is approximately 1' higher and seldom used; 10' wide x 200' long. Outlet control is a vertical screw gate with railroad rail uprights supporting catwalt, both in good condition. A new concrete outlet pipe was installed in 1963; 16" diameter.

There is a dyke dam on the SE side of lake ¼ mile long with a 12' crest width, 10' high with 3' freeboard; good riprap upstream. No springs or seep on downstream side of either dam.

R-881

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

all of Sec. 2, W½W½, E½NW¼, NE¼SW¼ Sec. 11., Twp. 15 S., Rge. 4 E.B.M.

S½ Sec. 35., NE¼SE¼, Sec. 34., Twp. 14 S., Rge. 4 E.B.M. Making a total of 1280 acres.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bruneau & Snake River

Remarks: Mr & Mrs Grant Strickland along.

Re: Permit No. R-881

W. P. Strickland
Bruneau, Idaho

Dear Mr. Strickland:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Owyhee Nugget, all submitted in proof of beneficial use on Permit No. R-881.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. R-881

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. William P. Strickland; residence, 3 miles south of Bruneau, Idaho; occupation, farming and livestock; postoffice address, Bruneau, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #R-881; date of permit 10/10/51; date of priority, 10/10/51.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. From Rodero Ck. or Snow Ck. which is a tributary of Mary's Ck. Point of diversion in NE¼SW¼, Sec. 15, T15S-R4E., B.M., Idaho. This is a permit to raise the dam and enclosed additional (260 Ac.ft.) of storage in addition to that already established under Permit R-717, for 1280 Ac.ft.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The area of the high water line of the reservoir is approx. 20 ac. The height of the dam above the bottom of the reservoir is 16' and above low water is 12'. The spillway is 12' wide and 6' deep, bottom of spillway is 6'-8' below the top of the dam. The outlet of this reservoir has a 10" concrete pipe. The raise of the actual dam was 4' and 2' of this was above the spillway. I have an iron headgate that screws into the control and closes over the pipe. The scaffold is made out of railroad iron and extends out to the control valve. Around the concrete pipe outlet, there is concrete and rock poured. From the outlet of the dam it is approx. 3/4 mile to the first land irrigated. The ditch which conveys this water is 4' deep, 3' at the bottom and 6' at the top. This is only used to supplement the main course of Snow Ck. Then just above the first land irrigated, which is SW¼SW¼ Sec. 11 T15S-R4E, take out the main ditch which takes all the water out of both the channel and the little lead [redacted] north-[redacted] ditch runs all along the west side of the irrigated land for a distance of approx. 2¼ miles. This ditch has the same dimensions as the one described above. The ditch along the east side is for a distance of approx. 3½ miles with the same dimensions as described. Either of these two ditches will carry 1000" of water. All of the irrigation is by gravity, There are no sprinklers and I have lateral and lead ditches going out onto the land.

R-881

26A.Sec.11,NW¼NW¼,26A,NE¼NW¼,11A,SW¼NW¼,38A,SE¼NW¼,12A,NW¼SW¼,31A,SW¼SW¼,7A,NE¼SW¼,6A.
No natural irrigation, all is artificial. No natural meadow. All improvements have been made as a direct result of this use and the raise on the dam alone was $2,800. Cost of ditches and distribution works was $3,600 more and I spent $3,000 more on the land. This is in addition to some $20,000 I have spent on the dam and works before actual raise.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Not ground water.

Ans. Permit #R-881; date of permit 10/10/51; date of priority, 10/10/51.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. From Rodero Ck. or Snow Ck. which is a tributary of Marys Ck. Point of diversion in NE¼SW¼, Sec. 15, T15S. R4E., B.M., Idaho. This is a permit to raise the dam and enclosed additional (260 Ac.ft.) of storage in addition to that already established under Permit R-717, for 1280 Ac.ft.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure. The area of the high water line of the reservoir is approx. 20 ac. The height of the dam above the bottom of the reservoir is 16' and above low water is 12'. The spillway is 12' wide and 6' deep, bottom of spillway is 6' be-

each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of the water is for irrigation as follows: T14S-R4E, Sec.34, NE¼SE¼, 10A; Sec.35, NW¼SW¼, 15A, NE¼SW¼, 18A, SW¼SW¼, 21A, SE¼SW¼, 15A, NW¼SE¼, 31A, NE¼SE¼, 28A, SW¼SE¼, 14A, SE¼SE¼, 34A. T15S-R4E, Sec.2, NE¼NE¼, 20A, NW¼NE¼, 40A, SE¼NE¼, 5A, SW¼NE¼, 38A, NE¼NW¼, 26A, NW¼NW¼, 7A, SW¼NW¼, 3A; SE¼NW¼, 24A, SW¼SW¼, 35A, NW¼SW¼, 19A, NE¼SW¼, 33A, SE¼SW¼, 35A, NW¼SE¼, 40A, NE¼SE¼, 29A, SW¼SE¼, 17A, SE¼SE¼, 26A. Sec.11, NW¼NW¼, 26A, NE¼NW¼, 11A, SW¼NW¼, 38A, SE¼NW¼, 12A, NW¼SW¼, 31A, SW¼SW¼, 7A, NE¼SW¼, 6A.

No natural irrigation, all is artificial. No natural meadow. All improvements have been made as a direct result of this use and the raise on the dam alone was $2,800. Cost of ditches and distribution works was $3,600 more and I spent $3,000 more on the land. This is in addition to some $20,000 I have spent on the dam and works before actual raise.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Not ground water.

R-881

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all the water I have here and under other permit to irrigate this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original applicant.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started to work on this permit immediately after it was approved and have worked at all times.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. R-717 was the original permit and these waters are used also.

(Sign) William P. Strickland

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada, State of Idaho, on this 27th day of October, A. D. 19 61.

Notary Public for the State of Idaho

My commission expires 10/11/63

Form 17

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. R-881

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred Roberson; age, 30; residence, Bruneau, Idaho; occupation, farming; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with William P. Strickland, the holder of Permit No. R-881? How long have you known him and where does he reside?

Ans. I have known him all my life and know he resides 3 miles south of Bruneau, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-881, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from Rodero Ck. Point of diversion NE¼SW¼, Sec.15, T15S-R4E. Works consist of the reservoir, dam, headgate, spillway, and ditches to convey the water from the point of diversion to the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I would estimate the works will convey at least 1000". I have seen about 200"-250" so conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation of cultivated land. All the improvements were made as a direct result of said use. Lands irrigated are: T15S-R4E, Sec.11, NE¼NW¼, 11A; SE¼NW¼, 12A; NW¼NW¼, 26A; SW¼NW¼, 38A; NW¼SW¼, 31A; SW¼SW¼, 7A. Sec.2, SE¼SE¼, 26A; SW¼SE¼, 17A; NE¼SE¼, 29A; NW¼SE¼, 40A; NE¼SW¼, 33A; SE¼SW¼, 35A; SW¼SW¼, 35A; NW¼SW¼, 19A; NE¼NE¼, 20A; NW¼NW¼, 7A; NE¼NW¼, 26A; SE¼NW¼, 24A; SW¼NW¼, 34; NE¼NE¼, 20A; NW¼NE¼, 40A; SW¼NE¼, 38A; SE¼NE¼, 5A. T14S-R4E, Sec. 35, SW¼SW¼, 21A; SE¼SW, 15A; NE¼SW¼, 18A; NW¼SW¼, 15A; SE¼SE¼, 34A; SW¼SE¼, 14A; NE¼SE¼, 28A; NW¼SE¼, 31A.

R-881

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is a volcanic ash. I would say he needs all this water for profitable irrigation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have known this land before it was cultivated, when it was in sagebrush and before the first dam was made. I have seen i. several times every year.

(Signed) Ernest Roberson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 27 day of October, A. BOISE, IDAHO

PERMIT NO. R-881

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Carl Agenbroad; age, 43; residence, 4 miles southwest of Bruneau, Idaho; occupation, farming; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with William P. Strickland, the holder of Permit No. R-881? How long have you known him and where does he reside?

Ans. I have known him 11 years and know he lives 2 miles south of Bruneau, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-881, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of the water is Rodero Ck. Point of diversion, NE¼SW¼,Sec.15,T15S-R4E. Works consist of Reservoir, dam, spillway, headgate, concrete pipe outlet and ditches to the land to be irrigated.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen 200" of water going through the ditch; however, it is capable of carrying 1000".

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation. There is no natural meadow and all the improvements have been made as a direct result of said use. Land Irrigated is as follows:T14S-R4E,Sec.34, NE¼SE¼,10A;Sec.35,NW¼SW¼,15A;NE¼SW¼,18A;SW¼SW¼,21A;SE¼SW¼,15A;NW¼SE¼,31A;NE¼SE¼,28A;SE¼SE¼,34A; SW¼SE¼, T15S-R4E,Sec.2,NE¼NE¼,20A;NW¼NE¼,40A;SE¼NE¼,5A;SW¼SE¼, 38A;NE¼NW¼,26A;NW¼NW¼,7A;SW¼NW¼, 3A;SE¼NW¼,24A; NW¼SW¼,19A,SW¼SW¼,35A;NE¼SW¼,33A;SE¼SW¼,35A;NW¼SE¼,40A;NE¼SE¼,29A;SW¼SE¼,17A; SE¼SE¼, 26A.Sec.11,NW¼NW¼,26A;NE¼NW¼,11A;SW¼NW¼,38A;SE¼NW¼,12A;NW¼SW¼,31A;SW¼SW¼, 7A.

R-881

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Volcanic ash soil, some rocky. He needs all he has available to irrigate this.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have lived in the Bruneau area for 11 years and have seen the area of the permit every year since that time and several times on some years.

(Signed) Carl Agenbroad

Mr. Harley M. McDowell,
Idaho Land and Appraisal Service,
Box 2161,
Boise, Idaho.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of ~~Completion of Works~~ Application of Water to Beneficial Use under Permit No. R-881, in the name of **William P. Strickland**. Final Proof is to be made before you, as Notary on the **27th** day of **October, 1961**, ~~1959~~, at **10:30** o'clock **A.M.**, at **Boise**, Idaho.

As of this date we have mailed the Notice to the **Owyhee Nuggett** with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

FORM 10A

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

RE: Permit No. R-881 Date August 1, 1961

William P. Strickland
Bruneau, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. R-881 is due not later than Oct. 10, 1961. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a Notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--by 40-acre legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

Also enclosed is Form 11, which is the authorization for us to have the Notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is W. P. Strickland, residence 3 miles south of Bruneau, Idaho, occupation is livestock and farming, P. O. Address is Bruneau, Idaho.

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. Number of my permit is R-881, date of permit is October 10th, 1951, this was to improve and increase the storage in the reservoir in the amount of 260 acre feet from Rodera Lake Creek and Snow Creek.

Ques. 4. Under terms of permit construction was required to be completed by October 10th, 1956.

Ques. 5. Construction was actually completed on the date of October 1, 1956

Ques. 6. Does the construction fully comply with the specifications? Yes.

Ques. 7. Of what material was the dam built? Earth and rock. It was reinforced and riprapped on the inside with rock.

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. Yes. the flow of the creek has been running in here ever since it was finished and I imagine it would be about half full by now.

Under permit R-717 was 1280 feet, then this raised it so it would hold another

Ques. 9. The capacity of the reservoir is 260 acre feet.

Ques. 10. The area of the high water line of the reservoir is 220 acres.

Ques. 11. The height of the dam above bottom of reservoir is 16 feet, above low water is 12 feet.

Ques. 12. The dimensions of the spillway are 12' wide and about 6' deep and the bottom of the spillway is 6 to 8' feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 10" concrete pipe.

Ques. 14. Describe the gate and control unit.

Ans. I have an iron headgate that screws into the control and this closes over the pipe. Scaffold made out of railroad iron that extends out to the control valve.

Ques. 15. The reservoir outlet is made of Concrete poured in and around the gravel and then the concrete pipes set in this

Ques. 16. Is the reservoir filled through a feeder canal? No. from the regular channels of the drainages.

Ques. 17. If so, where is the point of diversion for same?

Ans. ¼- - - ¼- - -Section, - - - - - -Twp. Range

R-881

Ques 18. Does the feeder canal comply with the specifications in the permit? No.

Ques 19. If not, explain None required, as filled from their natural channel.

Ques. 20. ~~Cost of constructing feeder canal?~~ ~~$~~ Cost of reservoir? $2,200.00

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. Yes. The works from the reservoir outlet to the place of use are completed and they comply with the specifications.

Ques. 22. Water has (has not) been delivered to place of intended use? No. Not from the raise, but there was water delivered from the old reservoir.

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. There are actually 2 dams. The first dam is 14' high, 12' across the top, 80' wide across the bottom. The other dam is 12' high, 80' at the bottom and approximately 12' across the top. The slope on the upstream face is 2 to 1 and the downstream face is 1½ to 1 or a little more and made a riprap of rocks for protection against the wave action.

Ques. 24 State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. Purpose is for irrigation and the place of use on this additional raise takes in 680 acres of land in the NE¼SE¼, 10 acres, in the SE¼SE¼, 2 acres in Section 34 and in Section 35, NW¼SW¼, 15 acres; NE¼SW¼, 18 acres; NW¼SE¼, 31 acres; SE¼SE¼, 34, acres; NE¼SE¼, 30 acres, In T 14 S - R 4 E., B.M. In T 15 S. - R 4, E., Sec. 2, Lot 1 (NE¼NE¼), 20 acres; SE¼NE¼, 5 acres; NE¼SE¼, 29 acres; SE¼SE¼, 26 acres; SW¼SE¼, 17 acres. In Sec. 3, Lot 1 or NE¼NE¼ is not irrigable under the present system.

Department of Reclamation

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-881

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques.1. State your name, residence, occupation and postoffice address.

Ans. William I. Tindall, residence 8 miles south of Grasmere, Idaho, occupation is livestock and agriculture, and P. O. Address is Grasmere, Idaho.

Ques. 2. Are you acquainted with W. P. Strickland, the holder of Permit No. R-881, authorizing the storage of ..... acre feet of the waters of Rodera Lake Ck. & Snow Ck. which is tributary to Bruneau River, in the County of Owyhee, State of Idaho? How long have you known him, and where does he reside?

Ans. I have known him, as far as I can remember, at least 30 years, and he resides 3 miles south of Bruneau, Idaho.

Ques. 3. Have you read or heard read said Permit? R-881 Are you familiar with its terms and conditions? Yes.

Ques. 4. Of what material and how has the dam been constructed?

Ans. Earth and rock.

Ques. 5. Is the reservoir fully constructed? yes Has water been turned into it? yes And to what extent? From the natural flow it is my estimate that it probably filled up half

Ques. 6. Where is the point of diversion of the feeder canal? No feeder canal.

Ans. ¼ ¼ Section ....., Township ..... Range .....

Ques. 7. The outlet of the reservoir is located in the NE ¼ NW ¼ Section 15 Twp. 15 S Range 4 E

Ques. 8. Describe the spillway.

Ans. Made of earth and rock and is about 6' deep and around 12' wide.

Ques. 9. How much below the top of the dam is the bottom of the spillway? 6 Ft.

Ques. 10. State the dimensions of the outlet for the reservoir 10" concrete pipe

Ques. 11. Of what material is the outlet made? Concrete and rock.

Ques. 12. How is the outlet gate operated? by a manual screw and gate, constructed on a railroad iron structure extending out into the water.

Ques. 13. Of what material has the dam been constructed? Rock and earth

Ques. 14. Are the works from the reservoir to place of use fully completed? yes.

Ques. 15. Describe these works as they now exist, and give your estimate of their capacity.

Ans. The works consist of a ditch between 8 and 9 miles in length, 4' bottom, 6' across and 4' deep and it is capable of conducting more than 1000 miner's inches.

Ques. 16. For what purpose is the water to be used?

Ans. Irrigation.

R-881

Ques. 17 If for irrigation purposes, are you acquainted with the land to be irrigated? yes.
How much water is required for its profitable cultivation?

Ans It requires around 1 miner's inch per acre.

Ques 18. Give the legal description of the land to be irrigated, or the place of use.

Ans. T 14 S - R 4 E., Sec. 34, $NE\frac{1}{4}SE\frac{1}{4}$, 10 acre; $SE\frac{1}{4}SE\frac{1}{4}$, 2 acres; Sec. 35, $NW\frac{1}{4}SW\frac{1}{4}$, 15 acres; $NE\frac{1}{4}SW\frac{1}{4}$, 18 acres; $NW\frac{1}{4}SE\frac{1}{4}$, 31 acres; $SE\frac{1}{4}SE\frac{1}{4}$, 34 acres, $NE\frac{1}{4}SE\frac{1}{4}$, 30 acres. In T 15 S - R 4 E., Section 2, Lot 1 ($NE\frac{1}{4}NE\frac{1}{4}$), 20 acres; $SE\frac{1}{4}NE\frac{1}{4}$, 5 acres; $NE\frac{1}{4}SE\frac{1}{4}$ 29 acres; $SE\frac{1}{4}SE\frac{1}{4}$ 26 acres; $SW\frac{1}{4}SE\frac{1}{4}$, 17 acres. In Section 3 none of this is irrigable under the present system.

Re: Permit # R-881

William P. Strickland
Bruneau, Idaho

Dear Mr. Strickland:

Statutes requires a field inspection in connection with the proofs on Permit # R-881 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on October 8, 1957

As soon as I can drive from Boise

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

E. N. Humphrey.

Form A

R-881

Application for Amendment

To Permit to Appropriate the Public Waters of the State of Idaho, No. R-881

MAR 1 1957
Department of Reclamation

Comes now W. P. Strickland, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-881, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

E½SE¼, Section 34; N½SW¼, N½SE¼, SE¼SE¼, Section 35, T 14 S - R 4 E., B.M.
NE¼NE¼, Section 3; E½NE¼, E½SE¼, SW¼SE¼, Section 2; T 15 S - R 4 E., B.M.

, making a total 520 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, this 26 day of February, 19 57

W. P. Strickland

Date of receipt at office of Department of Reclamation March 1, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-881. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Mark R. Kulp R-881

State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement of Permit No. R-881 Under the Provisions of Section 5594, Idaho Compiled Statutes.	**ORDER REINSTATING PERMIT**

WHEREAS, Permit No. R-881 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: October 10, 1956 ; and,

WHEREAS, On the 7th day of January , 1957 notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

WHEREAS, On the 5th day of March , 1957 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 5th day of March , 1957 depositions of the holder and two witnesses were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

WHEREAS, After examination of the said depositions, the State Reclamation Engineer of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. R-881 , and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. R-881 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 7th day of March , 1957 .

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO }
County of Ada } ss.

William P. Strickland, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No R881, and that his postoffice address is Brunean State of Idaho

Second: That the name of the stream from which said water is to be diverted is Snow Creek.

Third: That the point of diversion of said water is South 43° 35' West, 4000 feet distant from the NE corner Sec. 15, T 15 S - R 4 E., B. M. and in NE¼SW¼ Sec. 15.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by October 10th, 19 56.

Fifth: That the use for which said water is intended is Irrigation.

Sixth: That on the date above mentioned, the works constructed under said permit were (or were not) fully completed and consisted of the following:

I. Kind of works: Reservoir. The 2 dikes being raised 2 feet on each dike.
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work: as completed. #1, 600', Just a little short of the top
(a) Height of dam #1, 550 12 feet, length of dam at top #2, 1280 feet, length of dam at bottom #2, 1200 feet. Material used in construction Rock and Earth
(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir 3300 acre feet. (3040 Ac. ft. originally and 260 ac. ft. by the raise).

(c) Size of headgate: Width 10" pipe feet, height feet.

(d) Conduit 8' width at bottom 4 feet, width at water line 6
(State whether ditch, flume or pipe)
feet, depth of water 2 feet; diameter of pipe 10 inches, average grade per mile is 25 feet. Length of conduit is 6 miles. main ditch.

Seventh: That said works are capable of conducting to the place of intended use 20 second feet of water.

Eighth: That water appropriated under said permit is available for acres of land described as follows: N½SW¼, NW¼SE¼ Sec. 35; E½SE¼ Sec. 34; E½E½, SW¼SE¼ Sec. 2; NE¼NE¼ Sec. 3, T 15 S - R 4 E., B. M.
NE¼NE¼ Sec. 3, T 16 S - R 4 E., B. M.
NE¼SE¼ Sec. 34; N½SW¼, NW¼SE¼, SE¼SE¼ Sec. 35, T 14 S - R 4 E., B. M.

Ninth: Remarks: That the primary purpose of this water is for agricultural irrigation of lands included in Desert Entry belonging to my daughters. All these entries are allowed and the water is available for irrigation.

RE: Permit Nos. R-881 and R-717

Mr. Harley M. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We enclose Permit No. R-881 in the name of William P. Strickland and direct his attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer

In regard to submitting plans and specifications, unless the plan details shown on the map which accompanied the application are sufficient, it will be necessary to submit more detailed plans or file an application for waiver of provision requiring same.

Upon Mr. Kulp's return to the office, we will write you again in regard to this matter.

We enclose two copies of this permit and also of Permit No. R-717, one of which has been certified. We also enclose departmental receipt No. 13845 for $9.25, which includes $5.25 filing fees on Permit No. 881, and $4.00 for the two sets of copies.

Very truly yours,

MARK R. KULP

November 15, 1951

RE: Permit No. R-881

Mr. Harley E. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

In answer to your request for waiver of plans and specifications on a dam to be raised under Permit No. R-881, will state that it will be necessary to make an inspection before any waiver is granted.

A check of the drawings as submitted, does not include a spillway which, as a rule, is required any time water is being reservoired back of the dam. State Law is quite specific regarding dams impounding over 100 acre feet of water, and I note that this one will impound 1540 acre feet which is quite a volume of water, especially if it were released in a body through a dam failure.

If you will let us know when inspection can be made and at a time when Mr. Strickland can accompany us, we will make the required inspection and advise you further.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Boise, Idaho

Dear Mr. McDowell:

Enclosed are amendment to the point of diversion on Permit No. 25861, and amendment to the land list on Permit No. R-881.

Also enclosed is departmental receipt No. 30765 in the amount of $2.00 covering the fees for recording the amendments.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permits No. R-881 and R-894
William P. Strickland

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

Enclosed is the Certificate of Completion of Works issued under Permit No. R-881 for the storage of 260 acre feet per annum of the waters of Rodera Lake Creek or Snow Creek (which amount increased the amount under Permit R-717) with point of outlet in the NE¼SW¼ Section 15, Township 15 South, Range 4 East, B.M., for irrigation of 520 acres in E½SE¼ Section 34; N½SW¼, N½SE¼, SE¼SE¼ Section 35, Township 14 South, NE¼NE¼ Section 3, E½NE¼, E½SE¼, SW¼SE¼ Section 2, Township 15 South, Range 4 East, B.M. Also, enclosed is departmental receipt #28477 for $5.00, issued as receipt of the fee for the Certificate of Completion of Works.

Permit No. R-894

The field engineer's report on his inspection of the completion of works under the terms of Permit No. R-894 states that the reservoir is adequate for storage of 950 acre feet per annum (estimated) from Louse Creek. A Certificate of Completion of Works can be issued upon receipt of the statutory fee of $5.00, for the diversion and storage of 950 acre feet, with point of diversion (outlet at dam) in the SW¼NW¼ Section 30, for irrigation in the S½NE¼, SE¼NW¼ and SE¼ Section 30 and NE¼NE¼ Section 31, Township 11 South, Range 6 East, B.M.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

R-881

Amendment

To Permit to Appropriate the Public Waters of the State of Idaho, No. R881

RECEIVED
AUG 14 1956
Department of Reclamation

Comes now William P. Strickland, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R881, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

N½SW¼, NW¼SE¼, Sec. 35; E½SE¼, Sec. 34; N½N½, SW¼SE¼, Sec. 2;
NE¼NE¼, Sec. 3, T 15 S - R 4 E., B.M.
NE¼NE¼, Sec. 3, T 16 S - R 4 E., B.M.
NE¼SE¼, Sec. 34; N½SW¼, NW¼SE¼, SE¼SE¼, Sec. 35, T 14 S - R 4 E., B.M.

Corrected - See next amendment 7-26-57

, making a total of 680 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, this 13 day of August, 19 56

Wm P Strickland

Date of receipt at office of Department of Reclamation August 14, 1956

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-881. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. William P. Strickland
Brunesu
Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. R-881 you are required to complete your diversion works on or before October 10, 1956. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of $5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

Dear Mr. Kulp: Re: Permit #R881

With reference to Permit #R881 in the name of William P. Strickland which was forwarded to your office on October 12, 1951 along with a tracing of the expected plans, I have discussed this matter with Mr. Strickland and we would appreciate your consideration of this letter as application for waiver of the provisions which require additional plans and specifications to be submitted.

As this may necessitate an investigation of the project by a representative of your office, we will be glad to cooperate in any way you suggest to show your engineer the project location and the plans which we have.

We will appreciate your advice in this matter and if it is necessary that we furnish any further data, we will do so upon your request.

Very truly yours,

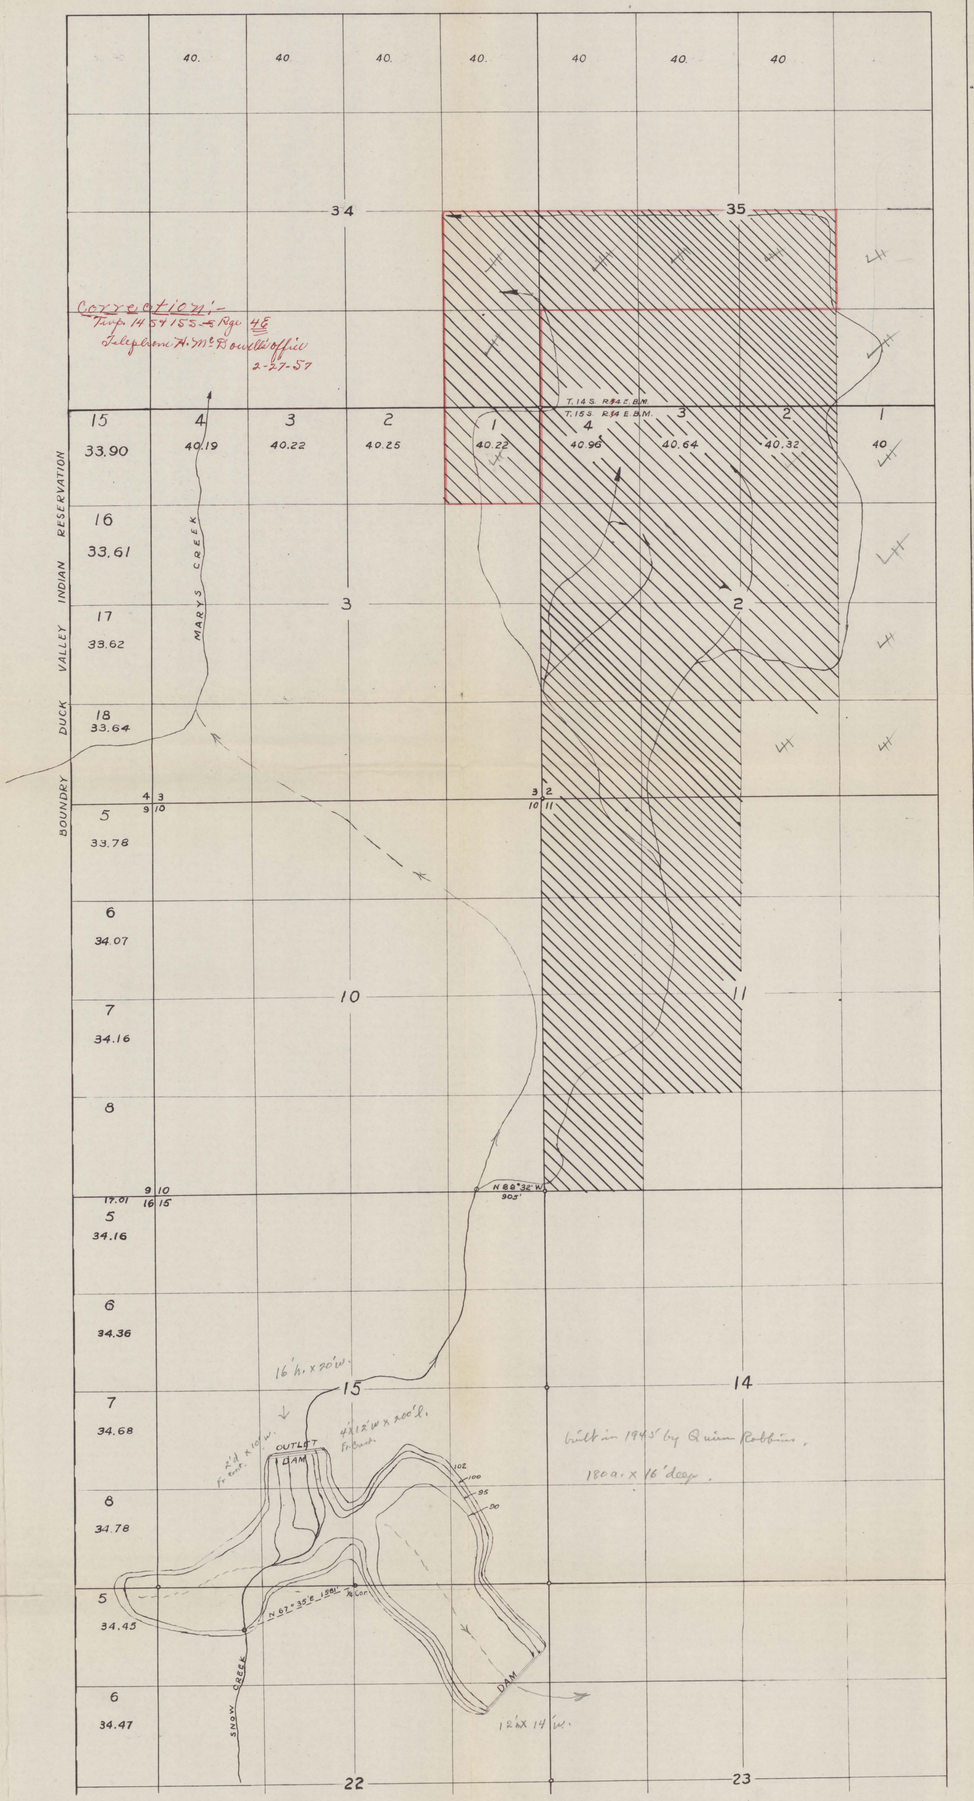

Harley M. McDowell

Harley M. McDowell 1426 Fel Bldg.

Talked to McDowell by phone on Nov 15 TH.
advised inspection necessary before waiver.
called att: no spillway.
No way to waive our responsibility under the law.
Dam already raised.

E. N. H. Nov 15-51.
