Department of Reclamation

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 18 day of January, 1958, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary, 619 Idaho Bldg., proof will be submitted on the application to beneficial use of 1.6 cubic feet per second of the waters of Rattlesnake Ck in accordance with the terms and conditions of Permit No. R-805 heretofore issued by the Idaho Department of Reclamation of the State of Idaho:

The name and postoffice address of the person holding said permit Leota E. Tindall, 313 S. Roosevelt St., Boise, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.6.

The place where said water is used S $\frac{1}{2}$ NW $\frac{1}{4}$, Section 28, T 12 S - R 5 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

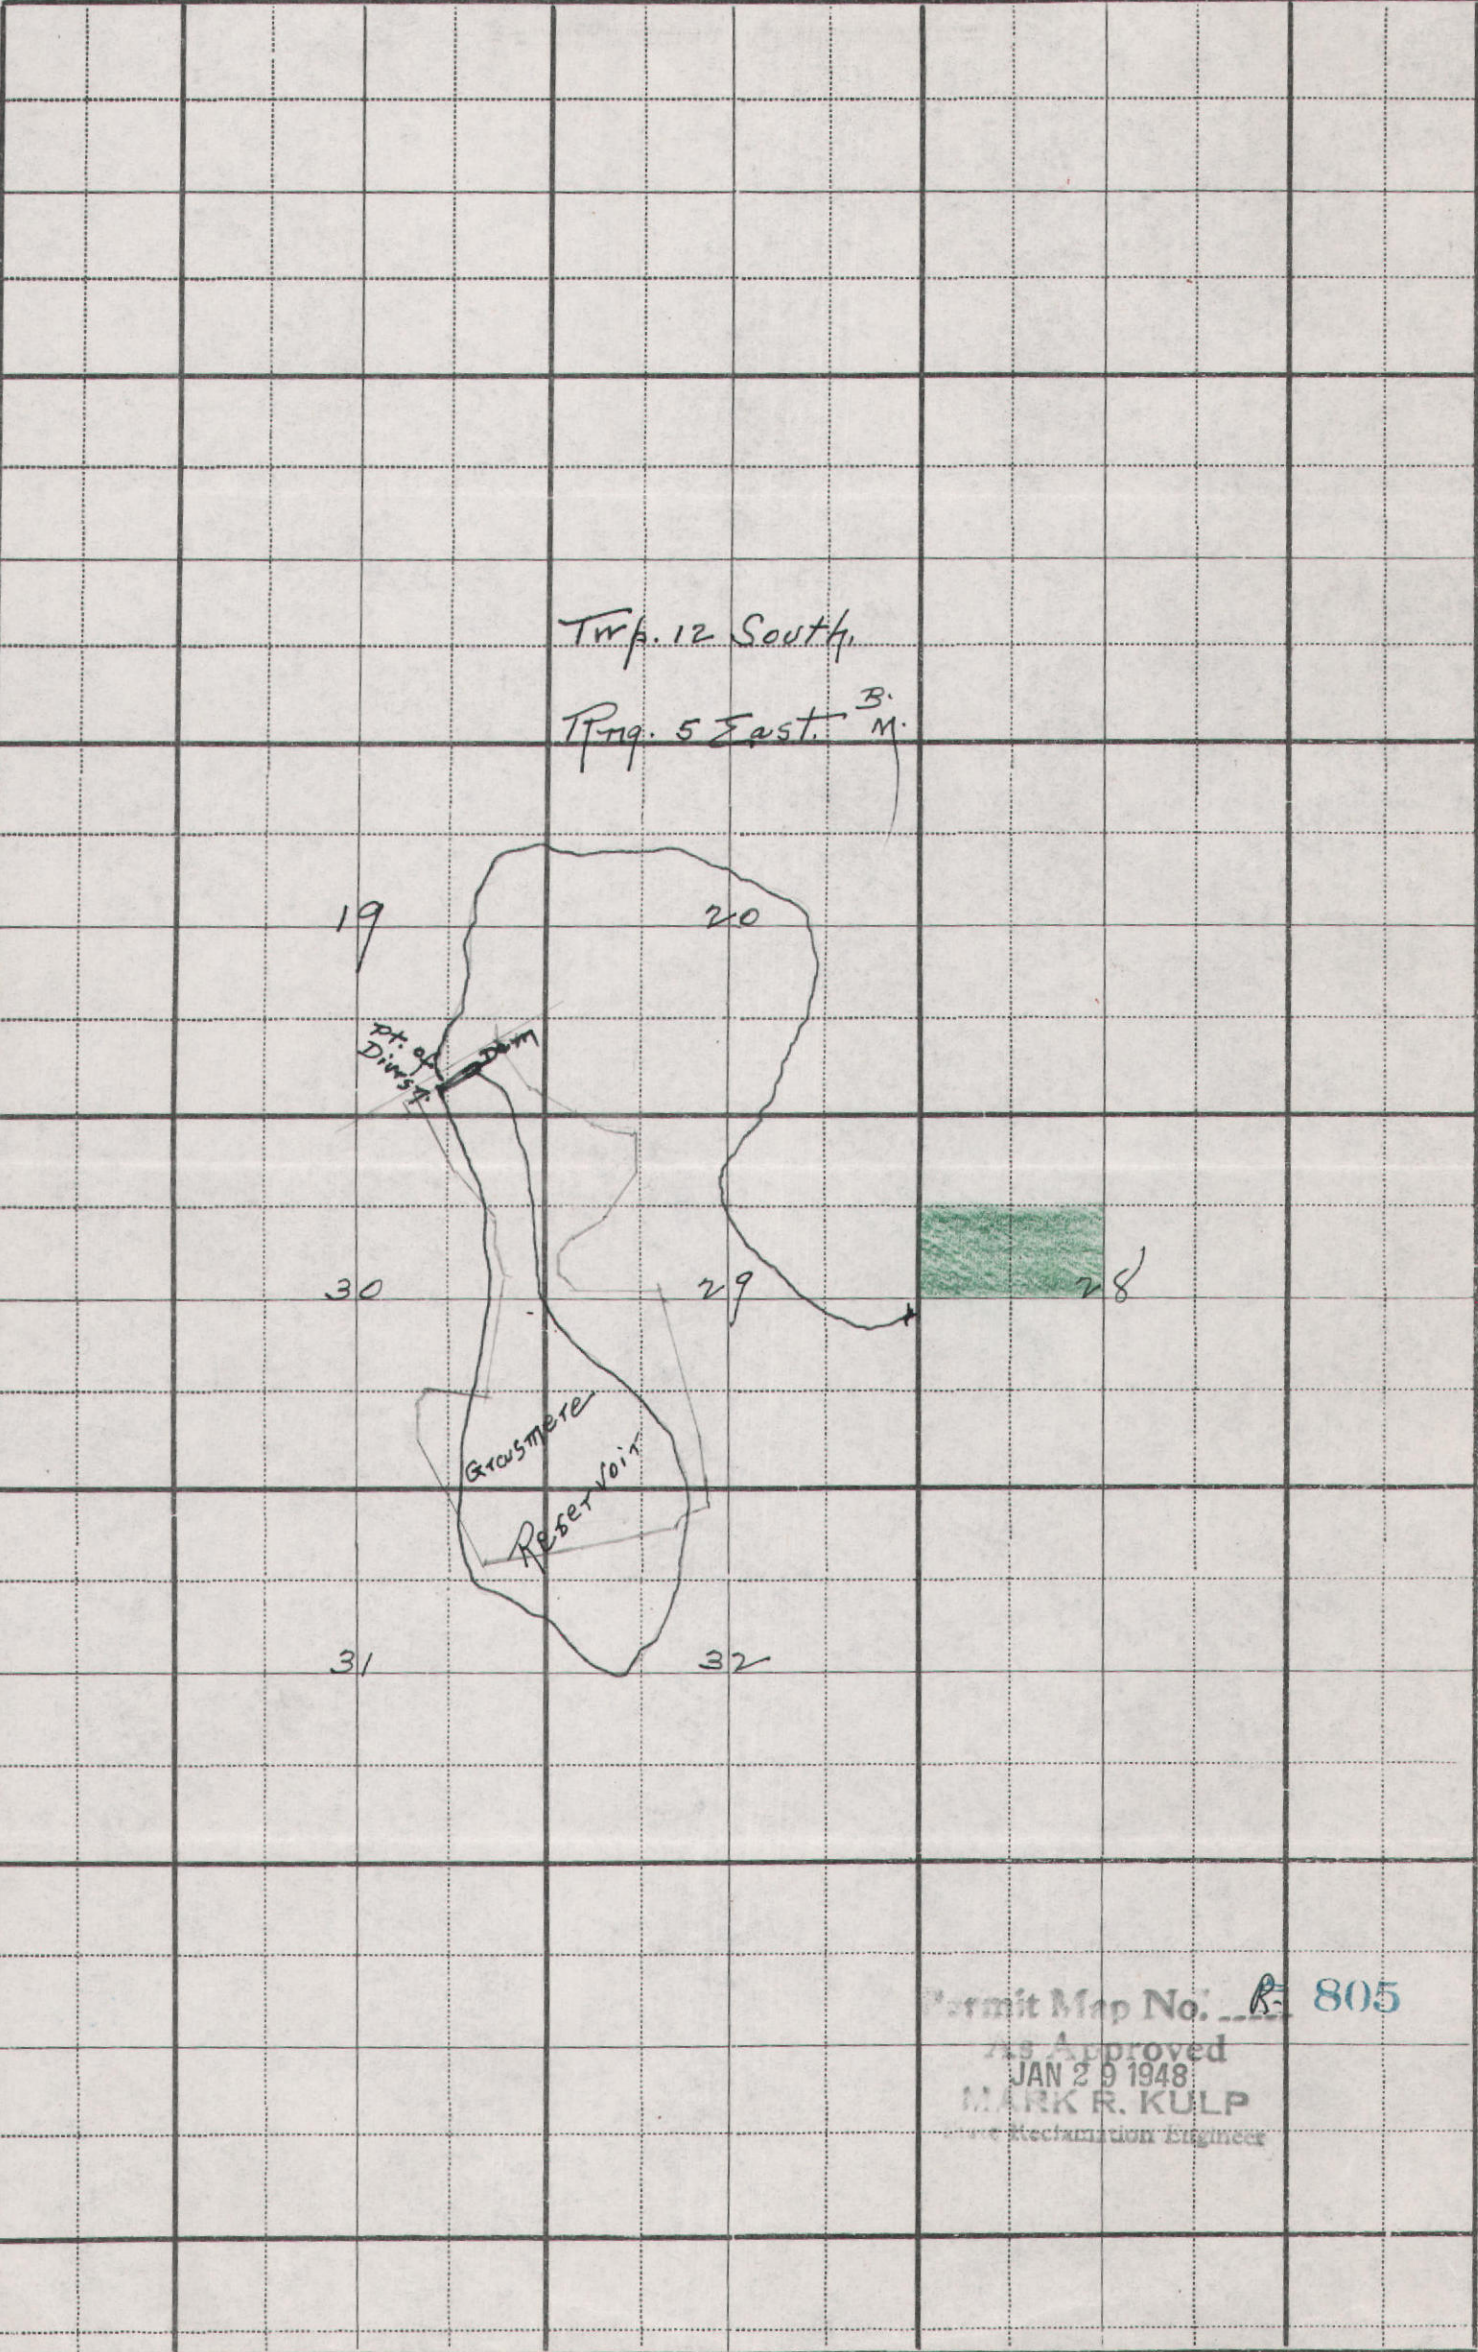

The right to take water from such works is based upon Permit No. R-805.

The source of supply from which such water is diverted is Rattlesnake Ck. stored in Grasmere Reservoir.

The date of priority which said user is prepared to establish is 1/22/48.

MARK R. KULP
State Reclamation Engineer.

APPLICATION FOR PERMIT

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of IdahoStanton Park
Mountain Home, IdahoApplication No. R 27879
Permit No. R 805

1. Name of Applicant: LEOTA E. TINDALL

Postoffice address: Bruneau

County Owyhee

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 400

acre feet per annum.

3. Source of water supply is Rattlesnake Creek ~~(Creek) (River) (Spring), a tributary or~~ stored in Grasmere Reservoir River.4. The outlet of the proposed reservoir is located (bearing) feet, distant from the corner of Section , Township , Range , B. M. and is in the SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 19 , Township 12 S. , Range 5 E. , B. M. County of Owyhee

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of ~~previously constructed under Permit No. R-501~~ (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from

the corner of Section , Township , Range , B. M., and is in the NW $\frac{1}{4}$ of SW $\frac{1}{4}$ of

Section 20 , Township , Range , B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is acres.

(b) The reservoir capacity is 1500 acre feet.

7. Height of reservoir dam feet, length at top feet, length at bottom feet, size of outlet feet

by feet. The dam is to be constructed of materials as follows: Already constructed under Permit No. R-501

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Rattlesnake Creek (Creek) (River) ? Yes

(b) Water stored in reservoir will be carried in the channel of (Creek,) (River,) a distance

of miles to point of diversion located (bearing) feet, distant from the corner of Section

Township , Range , B. M., and in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range

B. M.

9. Amount of water claimed from (Creek) (River) (Spring) in addition to that

stored in reservoir cubic feet per second.

10. Water is to be used for Irrigation purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section , Township , Range

B. M. and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range , B. M.

(b) Amount of power generated: H. P. under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet

distant from the corner of Section , Township , Range , B. M., in

the $\frac{1}{4}$ of $\frac{1}{4}$ of Section , Township , Range B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. R-501

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: Ditch from reservoir (Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width feet, Height feet.
16. Diversion Canal: Width at bottom 4 feet, width at water line 6 feet, depth of water 1 feet, Dimensions of Flume Diameter of Pipe inches; Length of Conduit 2 $\frac{1}{4}$ miles. Average grade per mile 4 feet.
17. Estimated cost of Works: Storage Works: \$ Constructed Diversion Works: \$ 250.00
18. Time required for completion of work Five (5) years.
19. Time required for complete application of water to proposed beneficial use is Five (5) years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
12 S.	5 E.	28							40	40									80

Total Number of Acres to be Irrigated 80

Remarks: The water claimed in this application is to be diverted from Grasmere Reservoir (Permit No. R-501) Existing water rights and/or valid permits appurtenant to land described in Paragraph 20- None.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

LEOTA E. TINDALL Applicant.

By Stanton Park Agent.

RE: Permit G-24188
Mateo Zubizarreta

Mr. Harley M. McDowell
P.O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

This acknowledges the Notice of proof of Completion of Works and application of water to Beneficial Use under Permit No. G-24188 in the name of Mateo Zubizarreta. Final proof is to be made before you as Notary on the 24th day of May, at 10:00 A.M.

As of this date we have mailed the Notice to the Owyhee Nugget, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit Holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, the date, and before you as Notary as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each, and that all depositions (Holder and Two Witnesses) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear ~~Mrs~~ Madam:

Statutes requires a field inspection in connection with the proofs on Permit # R-805 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday,

October 23, 1958 I will be at Grassmere as soon as I can ~~drive over from Boise~~
If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

**NOTICE FOR PUBLICATION
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 18 day of January, 1958, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary, 619 Idaho Bldg., proof will be submitted on the application to beneficial use of 1.6 cubic feet per second of the waters of Rattlesnake Ck in accordance with the terms and conditions of Permit No R-805 heretofore issued by the Idaho Department of Reclamation of the State of Idaho:

The name and postoffice address of the person holding said permit Leota E. Tindall, 313 S. Roosevelt St., Boise, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.6.

The place where said water is used S $\frac{1}{2}$ NW $\frac{1}{4}$, Section 28, T 12 S - R 5 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No R-805.

The source of supply from which such water is diverted is Rattlesnake Ck. stored in Grasmere Reservoir.

The date of priority which said user is prepared to establish is 1/22/48.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 18 day of January, 1958,
at Boise, County of Ada, State of Idaho, before
Harley M. McDowell, Notary, 619 Idaho Bldg., proof will be submitted of the
application to beneficial use of 1.6² cubic feet per second of the waters of Rattlesnake Cr.
in accordance with the terms and conditions of Permit No. R-805
heretofore issued by the Idaho Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is ///

Leota E. Tindall, 313 S. Roosevelt St., Boise, Idaho

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.6

The place where said water is used ///

81 NW 1/4, Section 28, T 12 S - R 5 E., B.H.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

private ditch.

The right to take water from such works is based upon Permit No. R-805

The source of supply from which such water is diverted is Rattlesnake Cr. stored in Granger
Reservoir.

The date of priority which said user is prepared to establish is 1/22/48

MARK R. KULP

BOISE, IDAHO

RECEIVED
JAN 22 1958
Department of Reclamation

Permit No. R-805

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Leota E. Tindall, residence 313 S. Roosevelt, Boise, Idaho, occupation housewife,
P. O. Address 313 S. Roosevelt St., Boise, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. R-805, date of permit Jan. 29, 1948 and the date of priority is Jan. 22, 1948.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Rattle Snake Creek. Point of diversion is in NW $\frac{1}{4}$ Sec. 20, T 13 S - R 5 E.
In Sections 31, 32, 29, 30 and 19 and 20 of T 12 S - R 5 E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The diversion out of Rattle Snake Creek is about 10' thick, 4' high and is 10' long at the top and bottom. The ditch from Rattle Snake Creek to the reservoir is approximately 5 miles long. The ditch is 10' on the bottom, 4' deep and 16' wide at the top. This flows into the Grasmere reservoir, which has a storage capacity of 2490'. This reservoir has embankments of earth and rock construction. The rock is rip rapped on the upstream side, is 19' across the top, 3 to 1 slope upstream, and 2 to 1 lower side. The north embankment is 1500' long, 18' high. The center embankment is 575' long and 6' high. The south embankment is 1125' long, 16' high and the east embankment will allow storage up to the 95' contour. The diversion from

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. this reservoir is in the SE $\frac{1}{4}$ Sec. 19, T 12 S - R 5 E., and the feeder ditch goes through Sec. 20 and 29, into Sec. 28 coming onto this land at the center of the 80 acres applied for for beneficial use (SW $\frac{1}{4}$ Sec. 28, T 12 S - R 5 E.) All the ditches and works described herein are private ditches. The distribution on this 80 acres is by gravity. 12" bottom, 2' deep and 3' across the top.

The purpose of this water is for irrigation on SW $\frac{1}{4}$ Sec. 28, T 12 S - R 5 E. I irrigate 28 ac. in SW $\frac{1}{4}$ and 15 acres in SE $\frac{1}{4}$. 35 acres of this has had the brush cleared the soil prepared and a crop has been raised. On the remaining 8 acres in SW $\frac{1}{4}$, this is just irrigated pasture. There is no natural meadow on any of this land and all the improvements made here (considering other work has been done on this reservoir) I feel that about \$800.00 of this improvements would be for the irrigation of this area, under this permit.

R-805

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I am irrigating 43 acres out of here and I feel the least you can possibly get by with here and raise good crops, is an inch to the acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person that applied for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started work on this immediately after taking out the permit, and was able to put the land to beneficial use in 1952, and I have been farming this land and using it since that time.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have in this same reservoir, under old original permit R-501 additional storage, (this is now carried in the name of Tindall & Sons). This is myself and my sons, William, Chester, Robert and James.

Notary Public for Idaho

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
DEPARTMENT OF RECLAMATION

PERMIT NO. R-805

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address.

Ans ~~Fay R. Orcutt, age 44, residence 8 miles S of Grasmere Idaho, occupation is farming and livestock, P. O. Address is Grasmere, Idaho.~~

Ques. 2 Are you acquainted with Leota Tindall, the holder of Permit No R-805? How long have you known him and where does he reside?

Ans. ~~I have known Mrs. Tindall over 20 years and know that she now lives at 313 Roosevelt St., Boise, Idaho.~~

Ques 3 Have you read or heard read said Permit No R-805, and are you familiar with its provisions and conditions?

Ans Yes.

Ques. 4. State source of water supply, place of diversion and describe works for conveying water from point of diversion to place of use.

Ans ~~The diversion out of Rattle Snake Creek is about 10' thick, 4' high and 10' long at the top and bottom. The ditch, 10' bottom, 4' deep and 16' wide at the top, from Rattle Snake Creek to the reservoir is approximately 5 miles long. This flows into Grasmere Reservoir. This reservoir has embankments of earth and rock. The rock is rip-rapped on the upstream side, is 10' across the top, 3 to 1 slope upstream and 2 to 1 lower side.~~

Ques 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans ~~These main works would conduct over 400 second feet, but the actual ditch onto this land probably would carry around 100 miner's inches.~~

Ques 6 State for what purpose water is used and at what place (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use

Ans Irrigation on 15 acres in SE $\frac{1}{4}$ NW $\frac{1}{4}$, 28 acres in SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 28, T 12 S - R 5 E
This is all cultivated land, and all improvements have been as a direct result of this irrigation use.

R-805

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a black loam soil. It raises good hay when it is irrigated. You need at least 1 inch to the acre for the minimum.

Ques 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have known the country generally out there for over 20 years and I have been very familiar with it for the last 5 years and I have seen the water distributed out on this and know that the areas that I mentioned have been irrigated, by this water being used as the source.

PERMIT NO. R-805

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Billy Joe Bell, age 30, residence 8 miles South of Grasmere, Idaho
Occupation farming and P. O. Address is Grasmere Idaho.

Ques. 2. Are you acquainted with Leota Tindall, the holder of Permit No R-805? How long have you known him and where does he reside?

Ans. I have known Mrs. Tindall less than 1 year and I know that she lives at 313 Roosevelt St. Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No R-805, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans. The diversion is from Rattle Snake Creek. The ditch from Rattle Snake Creek is about 5 miles long, 10' bottom, 4' deep and 16' wide at the top. This flows into Grasmere Reservoir. The reservoir has embankments of earth and rock, and the rock is rip-rapped on the upstream side. This has a 3 to 1 slope on the upstream and 2 to 1 on the lower side.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen the ditch conveying around 100 miner's inches.

Ques. 6. State for what purpose water is used and at what place (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use

Ans. This is used for irrigation. In the ^{NW 1/4} SE 1/4, 15 acres is irrigated, in the SW 1/4 NW 1/4 28 acres is irrigated. This is in ^{Sec. 28} T 12 S - R 5 E. There is no natural meadow land here and all the improvements have been as a direct result of this use.

R-805

Ques 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Used only for irrigation.

Ques 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is black sandy loam soil. Good land when irrigated. It takes around 1 inch to the acre here for irrigation.

Ques 9 Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

None.

Ans. I have been familiar with this land for the last year. I have seen the water taken from Rattle Snake Creek into the Reservoir and out onto this land. In fact I have

Ques 10 State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. done irrigating on this, and know that all the works here are complete and that the water can be distributed here as I have mentioned.

DEPARTMENT OF RECLAMATION

RE: Permit No. R-805

Date November 1, 1957

Miss Leota E. Tindall
Bruneau, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. R-805 is due not later than January 29, 1958. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclosed Form 10, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date or before the time you intend to make proof. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit Nos. R-805 & R-501

Mr. A. C. Kiser
P. O. Box 2773
Boise, Idaho

Dear Mr. Kiser:

In December 1952 you asked if the water covered in Permit No. R-805 could be secured by additional proof made under R-501 and you were advised that by showing legal transfer of rights established under R-501 to present owner it would be possible to make additional proof under R-501. By bringing it to license under R-501 a better priority will be secured.

However, in checking the records we do not find plans and specifications for the dam, neither do we find a topographic survey to show the reservoir capacity. Both will be necessary before a license can be issued.

And in order to straighten out the records, please submit a relinquishment of Permit No. R-805.

Very truly yours,

Permit No. R-805

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Leota E. Tindall, 313 Roosevelt St. Boise, Idaho - Farming

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. Permit # R 805, filed Jan. 22, 1948 for 400 acre feet of water from rattlesnake Creek.

Ques. 4. Under terms of permit construction was required to be completed by January

29 1953.

Ques. 5. Construction was actually completed on the date of October 30, 1952.

Ques. 6. Does the construction fully comply with the specifications? Yes.

Ques. 7. Of what material was the dam built? Earth and rock.

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. Reservoir previously constructed under Permit # R-501. Reservoir storage capacity increased.

Ques. 9. The capacity of the reservoir is 1900 acre feet.

Ques. 10. The area of the high water line of the reservoir is 350 acres.

Ques. 11. The height of the dam above bottom of reservoir is 15 feet, above low water is 12 feet.

Ques. 12. The dimensions of the spillway are 5 ft. wide 1 ft. deep and the bottom of the spillway is 4 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 24 inches in diameter.

Ques. 14. Describe the gate and control unit.

Ans. gate valve

Ques. 15. The reservoir outlet is made of Steel pipe.

Ques. 16. Is the reservoir filled through a feeder canal? Yes.

Ques. 17. If so, where is the point of diversion for same?

Ans. NW ¼ SW ¼ Section, 20 Twp. 13 S Range 5 E

R-805

Ques. 18. Does the feeder canal comply with the specifications in the permit? yes.....

Ques 19. If not, explain

Ques. 20. Cost of constructing feeder canal? \$ 250.00 Cost of reservoir? \$ -----

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. Have been completed.

Ques. 22 Water has (has not) been delivered to place of intended use? Yes

Ques. 23 Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. See Permit # R. 501

Ques. 24 State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans For irrigation SW $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 28, Township 12 South,
Range 5 East, B. M.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Leota E. Tindall

Boise, Idaho

November 1, 1952

Bruneau, Idaho

Dear ~~Mr.~~ Mrs. Tindall:

Under the terms of your Permit No. R-805 you are required to complete your diversion works on or before January 29, 1953..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP

State Reclamation Engineer

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 18 day of January, 1958, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary, 619 Idaho Bldg., proof will be submitted on the application to beneficial use of 1.6 cubic feet per second of the waters of Rattlesnake Ck in accordance with the terms and conditions of Permit No. R-805 heretofore issued by the Idaho Department of Reclamation of the State of Idaho:

The name and postoffice address of the person holding said permit Leota E. Tindall, 313 S. Roosevelt St., Boise, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.6.

The place where said water is used S $\frac{1}{2}$ NW $\frac{1}{4}$, Section 28, T 12 S - R 5 E, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. R-805.

The source of supply from which such water is diverted is Rattlesnake Ck stored in Grasmere Reservoir.

The date of priority which said user is prepared to establish is 1/22/48.

MARK R. KULP

State Reclamation Engineer.

APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 18 day of January, 1958, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary, 619 Idaho Bldg, proof will be submitted on the application to beneficial use of 1.6 cubic feet per second of the waters of Rattlesnake Ck in accordance with the terms and conditions of Permit No. R-805 heretofore issued by the Idaho Department of Reclamation of the State of Idaho:

The name and postoffice address of the person holding said permit Leota E. Tindall, 313 S. Roosevelt St, Boise, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 1.6.

The place where said water is used S $\frac{1}{2}$ NW $\frac{1}{4}$, Section 28, T 12 S - R 5 E, B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No R-805.

The source of supply from which such water is diverted is Rattlesnake Ck stored in Grasmere Reservoir.

The date of priority which said user is prepared to establish is 1/22/48.

8-805
MARK R. KULP

State Reclamation Engineer.
