Dear Sir:

Regarding Permit No. 33305/51-2222. I am forced to apply for an extension of time. Due to reasons beyond my control I am unable to finish this project properly this fall. I have a pump installed now and a small portion of line and sprinklers, but not enough. It's only a beginning. I can't get the pump I want to supply enough water to the full project. Line & sprinkles I have some but need more, and this is available, whenever I can get my pump. Every thing is so slow perhaps I can get the desired pump by spring. I hope you can grant me more time on this project, I believe if I can get it set up, all I want, it will be well worth the time it take. Please inform me.

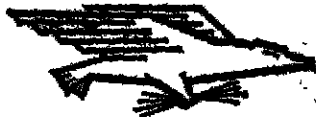

Sincerely,

Michael Rew

Dear Mr. Row:

One of the conditions of approval of your water Permit No. 33305/51-2222 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 15, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33305 (New No. 51-2222)

Mr. Maarl W. Row
Rogerson
Idaho 83302

Dear Mr. Row:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Rogerson,

Dear Mr. Row:

We received your application for permit to divert water from Hayes Canyon for irrigation on 240 acres of U. S. land and 40 acres of deeded land, along with attached check for \$6.25.

The amount of water claimed has to be reduced to 5.6 CFS as you show 280 acres to be irrigated.

This office does not issue permits for irrigation of land included in a Desert Land Entry until the land has been classified as fit for agriculture.

We will place the application in the pending file and the permit will be issued upon receipt of notice from the Bureau of Land Management that the land is agricultural land, or-----

we will eliminate the Desert Land and approve it for 0.8 CFS to irrigate NW¹/₄ NW¹/₄, Section 22, T16S-R11E which you indicated was deeded land, or--we will return the application to you.

I regret overlooking the fact if you had the desert land noted on the Form 2 you first sent.

Kindly advise action you desire in regard to this application.

Dear Mr. Row:

Returned herewith are your check for the amount of \$6.25, which is out of date, and your application to appropriate the public waters of the State of Idaho.

The current policy of the department, as to applications for water filed in connection with desert land entries, is to receive and receipt the fees, then hold the application without action until notification that the desert entry has been allowed or disallowed.

The correct fee for filing on 5.6 c.f.s. is \$6.25 plus \$1.00 for the copy of your application which would be sent to the Bureau of Land Management should your application be approved.
