

**NOTICE OF EXISTING
WATER PERMIT**

Notice is hereby given that Mr. or Mrs. Eustaquio Ocamica, Bruneau, Idaho have received an approved permit No. G-32488/51-2205 issued by the Idaho State Reclamation Department authorizing the diversion of 5.6 cubic feet per second of water from a ground-water source, subject to all prior rights. The priority to be established under this permit is August 17, 1965 and the permit was approved August 20, 1965. Water is to be diverted by ditches and well from a point within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21, T. 7 S, R. 6 E, B.M., Owyhee County, to be used for irrigation in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 22, T. 7 S, R. 6 E, B. M.

Proof of the application of the water to beneficial use is to be submitted to the department on or before August 20, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Re: Artesian Well Located in the NW1/4 SE1/4, Sec. 21, Twp. 7S., Rge. 6E.

Dear Mr. Urquidi:

On April 9, 1986, Mr. Paul Castelin of this office made an inspection of the above referenced artesian well, which was the subject of an ORDER TO SHOW CAUSE issued by this office on December 5, 1985.

Mr. Castelin reported that the old valve and the top portion of the casing have been encased with a monolithic block of concrete, and a DRESSER valve has been installed on the discharge line of the well. Mr. Castelin observed no leakage anywhere around the well. However, he noted that it will be difficult to conclude if the casing is leaking until this summer.

The purpose of this letter is to thank you for your timely response to the Order to Show Cause. Because we believe the geothermal aquifer in the vicinity of the well to have a limited capacity, it is important that diversions from the aquifer be limited to those amounts that are needed to satisfy requirements for beneficial use. Your timely assistance is appreciated.

IN THE MATTER OF AN ARTESIAN WELL)	
OWNED BY JOHN URQUIDI (HOT SPRING)	ORDER

(DBC1), SECTION 21, TOWNSHIP 7)	CAUSE
SOUTH, RANGE 6 EAST, B.M.,)	
OWYHEE COUNTY.)	
_____)	

This matter having come before the Idaho Department of Water Resources (Department) as a result of investigation by Department personnel, the Department finds as follows:

FINDINGS OF FACT

1. On November 13-20, 1985, Department personnel conducted a survey of flowing wells in the Bruneau River Valley located within a six mile radius of Indian Bathtub Hot Springs, located in Section 3, Township 8 South, Range 6 East, B.M., Owyhee County.

2. On November 15 and 19, 1985, Department personnel inspected a flowing well located on land owned by John Urquidi (Hot Spring Ranch) in the NW1/4SE1/4 (DBC1), Section 21, Township 7 South, Range 6 East, B.M., Owyhee County.

3. Inspection of the well revealed a pool of water around the well head caused by water flowing from around the casing of the well.

4. The flow indicates that inadequate well construction techniques were used when the well was drilled or that the well casing or seal has failed.

5. Wells found to be leaking water at land surface from

around the well casing will frequently also be leaking water to subsurface zones.

6. The well is located within the boundaries of the Grandview-Bruneau Ground Water Management Area which was established by order of the Director of the Department on October 29, 1982, pursuant to the provisions of Section 42-233b, Idaho Code.

7. The ground water resources within the Grandview-Bruneau Ground Water Management Area are approaching the conditions of a critical ground water area as described in Section 42-233a, Idaho Code.

CONCLUSIONS OF LAW

1. Idaho Code § 42-237a (1977 and Supp. 1985) provides in part as follows:

In the administration and enforcement of this act and in the effectuation of the policy of this state to conserve its ground water resources, the director of the department of water resources is empowered:

a. To require all flowing wells to be so capped or equipped with valves that the flow of water can be completely stopped when the wells are not in use.

b. To require both flowing and nonflowing wells to be so constructed and maintained as to prevent the waste of ground waters through leaky wells, casings, pipes, fittings, valves or pumps either above or below the land surface.

2. The uncontrolled flow of water from the well results in the waste of ground water.

3. The well should be modified so that the flow can be shut-in without leakage above or below land surface, or the well should be abandoned using procedures approved by the Department.

ORDER

IT IS HEREBY ORDERED that John Urquidi (Hot Spring Ranch) show cause before the Director of the Department of Water Resources, within 30 days of the receipt of this order, why the well located in the NW1/4SE1/4 (DBCL), Section 21, Township 7 South, Range 6 East, B.M. should not be repaired to a condition which allows the well to be shut-in without leakage above or below land surface, or abandoned using procedures approved by the Department.

Dear Mr. and Mrs. Ocamica:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit G-32488/51-2205.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted, please advise.

Very truly yours,

Donald W. McKidowney

Re: Permit No. G-32488/51-2205

Mr. or Mrs. Eustaquio Ocamica
Brunau,
Idaho

Dear Mr. or Mrs. Eustaquio Ocamica:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
