NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Mrs. Eustaquio Ocamica, Bruneau, Idaho, has received an approved permit No. G-32318/51-2201 issued by the Idaho State Reclamation Department authorizing the diversion of 3.0 cubic feet per second of water from a groundwater source subject to all prior rights. The priority to be established under this permit is April 27, 1965, and the permit was approved April 16, 1965. Water is to be diverted by well and ditches from a point within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 21, T. 7 S., R. 6 E., B. M., Owyhee County, to be used for irrigation in the S $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 21, T. 7 S., R. 6 E. B. M.

Proof of the application of the water to beneficial use was submitted to the department on April 30, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

LICENSE OF WATER RIGHT

License of Water Right No. 32318/51-2201 Priority April 27, 1965 Amount 1.11 cfs
(late proof)

THIS IS TO CERTIFY, that Mr. or Mrs. Eustaquio Ocamica
of Bruneau, Idaho, has complied with the terms and conditions of Permit
No. 32318/51-2201 issued pursuant to Application for Permit dated April 13, 1965,
and has submitted proof to the Department of Water Administration on April 30, 1970,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 1.11 cfs, and that the water has in fact been applied to a
beneficial use, a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:

Amount 1.11 cfs for Irrigation from April 15 to Oct. 15 (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Amount _____ for _____ from _____ to _____ (both dates inclusive)

Subject, however, to the condition that no more than 1.11 cfs of water be diverted at
any one time, said waters to be diverted within the _____

NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, Twp. 7 S, Rge. 6 E, B.M.

in the county of Owyhee, and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 391.5 acre feet per year or _____
4.5 acre feet per acre.

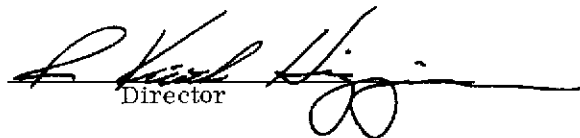

Description and location of place of use:

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-32318/51-2201)
)
in the name of Mr. or Mrs. Eustaquio Ocamisa)
)

ORDER OF REINSTATEMENT

WHEREAS, on April 13, 1965, Mr. or Mrs. Eustaquio Ocamisa applied to the Department of Reclamation for a permit to appropriate 3.0 cubic feet per second of water from a ground water source to be diverted within the NE 1/4, Sec. 21, T. 7S, R. 6E, E.M., Owyhee County, Idaho, for the irrigation of 155 acres of land in Sec. 21, T. 7S, R. 6E, B.M.; and,

WHEREAS, on April 16, 1965, the Department of Reclamation issued Permit No. G-32318/51-2201 with the condition that the whole of said work and proof of the application of the water to beneficial use be submitted to the Department on or before April 16, 1970; and,

WHEREAS, on August 1, 1968, Permit No. G-32318/51-2201 was brought under the requirements of Chapter 2, Title 42 of the Idaho Code as amended by the 1967 session of the Idaho Legislature; and,

WHEREAS, on January 30, 1970, the permit holder was notified by certified mail that he was required to submit proof of beneficial use and was instructed as to the steps to be taken to make that proof; and,

WHEREAS, the required proof of beneficial use was not received on April 16, 1970, and Permit No. G-32318/51-2201 lapsed; and,

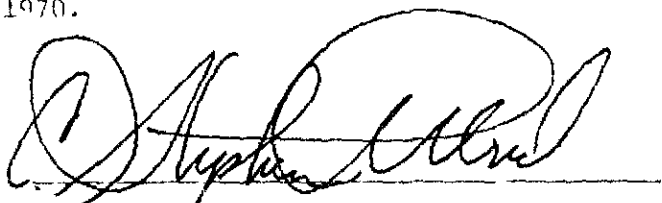

WHEREAS, on April 30, 1970, the Department of Reclamation received the required proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that a permit may be reinstated upon a showing of reasonable cause within 60 days from the date of lapsing; and,

WHEREAS, the permit holder has provided a reasonable showing as to why the permit should be reinstated;

THEREFORE, IT IS HEREBY ORDERED that Permit No. G-32318/51-2201 be REINSTATED and the priority be reduced to April 27, 1965.

Dated this 1st day of May, 1970.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 40466
Permit No. G- 32318
District No.

1. Name of Applicant: Mr. or Mrs. Eustaquio Ocamica
Postoffice address: Bruneau County: Owyhee State: Idaho
2. Quantity of water claimed: 3.0 CFS
(a) Rate of withdrawal in cubic feet per second or Idaho
Miners' inches or gallons per minute
(b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 21
Twp. 7 S., Rge. 6 E., B.M., County of Owyhee
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Ditches
8. Estimated cost of works: \$ 5000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years
11. If applicant is a corporation, give:
I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources.
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are.
Artesian well drilled in 1914
(a) 150 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights
(b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Mrs. Eustaquio Ocamica, Bruneau, Idaho, has received an approved permit No. G-32318/51-2201 issued by the Idaho State Reclamation Department authorizing the diversion of 3.0 cubic feet per second of water from a groundwater source subject to all prior rights. The priority to be established under this permit is April 27, 1965, and the permit was approved April 16, 1965. Water is to be diverted by well and ditch at a point within the NW 1/4 Sec. 21, T. 7 S., R. 6 E. B. M., Owyhee County, to be used for irrigation in the S 1/2 NE 1/4, NE 1/4 SW 1/4, N 1/2 SE 1/4, Sec. 21, T. 7 S., R. 6 E. B. M.

Proof of the application of the water to beneficial use was submitted to the department on April 30, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Re: Artesian Well Located in the NW1/4 SE1/4, Sec. 21, Twp. 7S., Rge. 6E.

Dear Mr. Urquidi:

On April 9, 1986, Mr. Paul Castelin of this office made an inspection of the above referenced artesian well, which was the subject of an ORDER TO SHOW CAUSE issued by this office on December 5, 1985.

Mr. Castelin reported that the old valve and the top portion of the casing have been encased with a monolithic block of concrete, and a DRESSER valve has been installed on the discharge line of the well. Mr. Castelin observed no leakage anywhere around the well. However, he noted that it will be difficult to conclude if the casing is leaking until this summer.

The purpose of this letter is to thank you for your timely response to the Order to Show Cause. Because we believe the geothermal aquifer in the vicinity of the well to have a limited capacity, it is important that diversions from the aquifer be limited to those amounts that are needed to satisfy requirements for beneficial use. Your timely assistance is appreciated.

Sincerely,

A handwritten signature in dark ink, reading "David R. Tuthill Jr.", is written over a horizontal line.

TO: Dave Tuthill *DT* DATE: April 14, 1986

FROM: Paul Castelin *PC*

SUBJECT: Periodic inspection of spring flows and well pressures in the upper Bruneau Valley,
April 9, 1986

On this measurement/inspection trip, I visited the following sites and performed the indicated actions:

- 1) Well 7S 6E 9 BAD 2 - (Ray Colyer) - measured shut-in pressure at 0938 as 41.87 feet above land surface, up 3.64 feet from 3/14/86.
- 2) Well 7S 6E 23 DCB 1 - (Bill Rose) - measured shut-in pressure at 0945 as 9.10 feet above land surface. Relating this to the pressure port 1.0 feet above land surface where Bill Rose mounts his pressure gage (an Ashcroft 30-lb gage), the pressure would be 3.51 psig. Rose's gage read 3.8 psig, approximately a quarter-pound high.
- 3) Well 7S 6E 34 DAD 1 - (Owen Ranches) - well was pumping, but meter was inoperative, so no discharge could be determined. Temperature of the water was 36.5°C. (97.7°F.). Power meter read 76002 KWH @ 1102 hrs. Flowmeter stopped at 823499000 gals.
- 4) Well 7S 6E 22 CDC 1 - (Owen Ranches Hatchery Well) - flowing about 1500 gpm w/minor surging. Totalizer read 743.053 acre-feet at 1120 hrs. Main booster pump to hatchery also running; all other valves closed. Calculated average flow since reading at 1200 hrs on 3/14/86 was 1579 gpm.
- 5) Hot Creek 250' below Indian Bathtubs - Q = 77 gpm, up from 74 gpm on 3/14/86. More warm water flowing at slightly higher elevation from small alcoves above main falls.

- 6) Hot Creek 200 yds above Bruneau River - Q = 542 gpm, down from 580 gpm on 3/14/86. Way flow at mouth should not show an increase as at Bathtubs is something of a mystery, but may be related to pumpage of well 7S 6E 34 DAD 1 which is about 4000 feet from the mouth and about 6000 feet from the Bathtubs.
- 7) Well 7S 6E 21 DBC 1 - (John Urquidi) - measured shut-in pressure at 1430 hrs as 31.89 feet above land surface, down from 3/14/86. This is somewhat surprising, considering that 21 DBC 2, only about 50 feet away, is now shut-in, and not flowing as with previous measurements.
- 8) Well 7S 6E 21 DBC 2 - (John Urquidi) - this well was the subject of an order from the IDWR to repair leaks at either the valve or casing seal. The solution, conceived by the owner, or Ron Hiddleston, was to pour a block of concrete about 3 feet wide, 4 feet high, and about 5-6 feet long around the discharge elbow and original valve, thus encasing it in a monolith of concrete. A new Dresser valve was installed on the discharge line of the well.
- There was no visible leakage anywhere around the well; however, occasional inspections in summer, once soil moisture around the well is removed, will show up any subsurface leaks to land surface. I don't expect any further problem from this well; and though the solution was both unique and unexpected, John Urquidi should be thanked for his cooperation.
- 9) Well 7S 5E 7 ABB 1 - according to Ace Black, the well belongs to Paul Miller, although the USGS notes the owner as Davis. Ace noted that the well was the subject of IDWR action in the past when it was owned by Carl Agenbroad.

Water was fountaining from the valve stem, leaking from the main discharge pipe, and discharging from a 2" pipe on the east side of the well. Aggregate flow was not measurable, but was estimated to be about 50 gpm. Shut-in pressure and temperature was not measured. This well should be a candidate for maintenance, so that it can be completely shut-in to eliminate waste of water.

Pat Olmstead of Boise District BLM accompanied me on this trip and showed me the Miller-Davis-Agenbroad well.

Mountain Home, ID 83647

Dear Mr. Hiddleston:

Per your telephone conversation with John Beal of this Department, the Urquidi well was inspected on January 8, 1986. At that time the well was flowing with the only apparent leakage coming from the end of the valve stem.

Your plan to install a new valve on the horizontal pipe and place concrete around the existing valve is approved. However, you and Mr. Urquidi may want to consider removing the existing valve and installing a compression joint rather than concreting. Initial costs will probably be more but if future repairs are needed such an installation may save time and money in the long run.

If you concrete the old valve open, plan to provide at least 4 feet of concrete below the valve surrounding the casing and a good cover of concrete around the valve.

Please contact this office before performing the work so the Department can have personnel on site.

Sincerely,

A handwritten signature in black ink, reading "David R. Tuthill, Jr.", is written over the typed name.

FROM: Paul Castelin ^{PC}

SUBJECT: Proposed Rehabilitation of Well 7S 6E 21 DBC1
(John Urquidí)

This well was visited by Lee Sisco and me on January 8, 1986. Soil material had been excavated from around the valve on top of the casing, which had been below land surface, and for a couple of feet below the valve, exposing the casing. The outer surface of the casing was very rusty and somewhat tuberculated, but seemed fairly sound. A minor amount of leakage was escaping from the threaded portion of the casing where the discharge valve was attached. Although the flow could not be measured, apparently the valve had been opened completely, relieving backpressure on the valve as much as possible, thereby reducing what apparently had been a moderate leak. There appeared to be no leakage from around the casing under full-open flow conditions.

The degree to which leakage occurs around the outside of the casing cannot be appraised until the valve is completely closed, and aquifer system pressure allowed to recover. I would recommend that this be done in the presence of an IDWR employee, so that any leakage occurring from the valve can be distinguished from the potentially more serious leakage occurring around the casing.

RE: Artesian Well Owned by John Urquidi (Hot Spring Ranch)

John Urquidi
2006 Curtis Circle
Boise, ID 83705

Dear Mr. Urquidi:

Enclosed is an Order to Show Cause why the well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ (DBC1), Section 21, Township 7 South, Range 6 East, B.M. should not be repaired to a condition which allows the well to be shut-in without leakage above or below land surface, or abandoned using procedures approved by the Department.

Note that any response to this Order must be submitted to this office within 30 days of receipt of this Order.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

Wtr. RE Files 51-2201 & 51-2205

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF AN ARTESIAN WELL)	
OWNED BY JOHN URQUIDI (HOT SPRING)	ORDER
RANCH), LOCATED IN THE NW1/4SE1/4)	TO SHOW
(DBC1), SECTION 21, TOWNSHIP 7)	CAUSE
SOUTH, RANGE 6 EAST, B.M.,)	
OWYHEE COUNTY.)	
_____)	

This matter having come before the Idaho Department of Water Resources (Department) as a result of investigation by Department personnel, the Department finds as follows:

FINDINGS OF FACT

1. On November 13-20, 1985, Department personnel conducted a survey of flowing wells in the Bruneau River Valley located within a six mile radius of Indian Bathtub Hot Springs, located in Section 3, Township 8 South, Range 6 East, B.M., Owyhee County.

2. On November 15 and 19, 1985, Department personnel inspected a flowing well located on land owned by John Urquidi (Hot Spring Ranch) in the NW1/4SE1/4 (DBC1), Section 21, Township 7 South, Range 6 East, B.M., Owyhee County.

3. Inspection of the well revealed a pool of water around the well head caused by water flowing from around the casing of the well.

4. The flow indicates that inadequate well construction techniques were used when the well was drilled or that the well casing or seal has failed.

5. Wells found to be leaking water at land surface from

around the well casing will frequently also be leaking water to subsurface zones.

6. The well is located within the boundaries of the Grandview-Bruneau Ground Water Management Area which was established by order of the Director of the Department on October 29, 1982, pursuant to the provisions of Section 42-233b, Idaho Code.

7. The ground water resources within the Grandview-Bruneau Ground Water Management Area are approaching the conditions of a critical ground water area as described in Section 42-233a, Idaho Code.

CONCLUSIONS OF LAW

1. Idaho Code § 42-237a (1977 and Supp. 1985) provides in part as follows:

In the administration and enforcement of this act and in the effectuation of the policy of this state to conserve its ground water resources, the director of the department of water resources is empowered:

a. To require all flowing wells to be so capped or equipped with valves that the flow of water can be completely stopped when the wells are not in use.

b. To require both flowing and nonflowing wells to be so constructed and maintained as to prevent the waste of ground waters through leaky wells, casings, pipes, fittings, valves or pumps either above or below the land surface.

2. The uncontrolled flow of water from the well results in the waste of ground water.

3. The well should be modified so that the flow can be shut-in without leakage above or below land surface, or the well should be abandoned using procedures approved by the Department.

ORDER

IT IS HEREBY ORDERED that John Urquidi (Hot Spring Ranch) show cause before the Director of the Department of Water Resources, within 30 days of the receipt of this order, why the well located in the NW1/4SE1/4 (DBCl), Section 21, Township 7 South, Range 6 East, B.M. should not be repaired to a condition which allows the well to be shut-in without leakage above or below land surface, or abandoned using procedures approved by the Department.

DATED this 5TH day of December, 1985.

A. KENNETH DUNN
Director

Dear Mr. or Mrs. Ocamica:

A representative of this Department has made an examination of the works covered by your Permit No. 32318/51-2201 and has found the following:

Quantity of water diverted: 1.11 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.11 cfs

The maximum quantity diverted shall not exceed 391.5 acre feet per season.

Beneficial use: Irrigation of 87 acres within the S $\frac{1}{2}$ NE $\frac{1}{4}$ (40), NE $\frac{1}{4}$ SW $\frac{1}{4}$ (2), N $\frac{1}{2}$ SE $\frac{1}{4}$ (45), Sec. 21, Twp. 7 S, Rge. 6 E, B. M.

Point of diversion: NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21, Twp. 7 S, Rge. 6 E, B. M.

The priority date established is: April 27, 1965 (late proof)

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR

REPORT OF EXAMINER

⑤

Permit No. G-32318/51-2201

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant Mr. & Mrs. Eustaquio Ocamica, Bruneau, Idaho, 83604
2. Source of water supply: ground water
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 21
T. 7 S R. 6 E County of Owyhee
4. Describe works as they exist, giving dimensions and capacities of same: _____

ditches

drill well - artesian

5. Water is used for: irrigation
6. State whether or not water has been turned into works of diversion: yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

T. 7 S, R. 6 E, Sec. 21, S $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ 155 TOTAL

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bruneau River

Remarks: There are 2 artesian wells located within 75 feet of each other. This permit is for the smaller well which flood irrigates 82 acres by means of earth ditches and head gates. Water from this well was measured with a piggy meter at 1.1 cfs.

This examination was made on the 29th day of June, 1977

(Signed) Paul E. Smith Co. Examiner.

See 51-2205 for photo

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Mrs. Eustaquio Ocamica, Bruneau, Idaho,

has received an approved permit No.

G-32318/51-2201 issued by the Idaho State Reclamation Department authorizing the diversion ~~storage/~~ of 3.0 cubic feet per second ~~4400/ feet per annum/~~ of water from a groundwater source.

subject to all prior rights. The priority to be established under this permit is April 27, 1965, and the permit was approved April 16, 1965.

Water is to be diverted by well and ditches
from a point within the NW 1/4 of Sec. 21, T. 7S, R. 6E, B.M., Owyhee County,

to be used for irrigation

in the S¹/₄NE¹/₄, NE¹/₄SW¹/₄, N¹/₄SE¹/₄, Sec. 21, T. 7S, R. 6E, B.M.

Proof of the application of the water to beneficial use is ~~is~~ ^{was} submitted to the department on or ~~or~~ ~~before~~ April 30, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Mr. & Mrs. Eustaquio Ocamica
Bruneau, Idaho 83604

Dear Mr. & Mrs. Ocamica:

One of the conditions of the approval of your permit G-32318/51-2201 was that proof of application of the water to beneficial use be submitted to this office on or before April 16, 19 70.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32318 (New No. 51-2201)

Mr. and Mrs. Eustaquio Ocamica
Bruneau, Idaho

Dear Mr. and Mrs. Ocamica:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit ~~and are now submitting proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
