NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that David Lahtinen, Route B, Box 164, Bruneau, Idaho, has received an approved permit No. G-32050 issued by the Idaho State Reclamation Department authorizing the diversion of 3.2 cubic feet per second of water from a ground water source subject to all prior rights. The priority to be established under this permit is September 4, 1964 and the permit was approved September 8, 1964. Water is to be diverted by well, pump, motor and existing ditches from a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27, T. 7 S., R. 4 E., B. M., Owyhee County to be used for irrigation in the S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 27, T. 7 S., R. 4 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before September 8, 1969. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

WATER LICENSE

Water License No. G-32050/51-2199 Priority September 4, 1964 Amount 3.01 c.f.s.

THIS IS TO CERTIFY, that DAVID LAHTINEN
of Bruneau, Idaho, made application for a permit to appropriate the public waters of
the State of Idaho, dated September 4, 1961; that Permit G-32050/51-2199 was issued pursuant
to said application, that the proposed works were completed on or about August 10, 1969,
with a storage/or carrying capacity of 3.01 c.f.s., said works consisting of
well, pump, and motor; and that on August 17, 1969,
proof was made to the satisfaction of the State Reclamation Engineer, of the beneficial use of 800
acre feet per season, with a maximum rate of diversion of 3.01 cubic feet per second of the waters
of ground-water, tributary of _____,
for the purpose of Irrigation from March 30 to October 30;
and for _____ from _____ to _____; and for
_____ from _____ to _____; and that the use
of said waters has been made in accordance with the laws of Idaho, and is hereby confirmed by the State Recla-
mation Engineer and entered in the records of the Idaho Department of Reclamation the point of diversion is
located in SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec 27, T 7 S, R 4 E, B M, and
other additional points _____, in the County of
Owyhee, and that the amount of water to which such right is
entitled and which is hereby confirmed, for the purposes aforesaid is limited to an amount actually beneficially
used for said purposes and shall not exceed 800 acre feet per year.

RE: Approval for Temporary Permit for Water Withdrawal, from
the well identified in Water Right No. 51-2199

Dear Mr. Lahtinen:

This letter is a follow-up to your request for a temporary diversion of water from a well located in the SW1/4 NW1/4, Section 27, T7S, R4E, B.M. The well is identified as a point of diversion for licensed water right no. 51-2199. Mr. Gary Spackman wrote a letter in response to your request on December 29, 1992, in which he suggested that you file an application for transfer to enable the use of water for the prescribed purpose. This letter is a follow-up based on additional information that you have provided, and discussions with Mr. Spackman and Mr. Young of our state office.

It is my understanding that the water in the well has a temperature of 76 degrees F. As such, the aquifer tapped by the well is different from the much-warmer geothermal aquifer under close observation in the Bruneau Hot Springs Study Area. Also, you have indicated that the use of water from the well will last only 26 hours. This use is anticipated to take place this month, and will save considerable water transportation requirements for the Northwest Pipeline hydrostatic testing process. When the testing is completed, the water will be drained back into the upper ground water aquifer. You have stated that the eligibility of your well for the proposed use needs to be determined soon.

You have identified a need for about 1.5 million gallons of water. This is roughly the amount of water required for the irrigation of one acre of ground. The use is intended to be for one time only. The purpose of this letter is to allow the proposed use, subject to the following conditions:

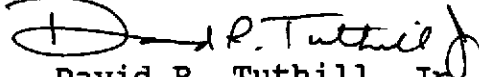

1. During 1993, one acre in the SE1/4 NE1/4 will be withheld from irrigation under license no. 51-2199, to reduce the irrigation requirement by the amount of pipeline-fill water.

2. This letter allows the filling of the pipeline one time only, for a maximum diversion of 1.5 million gallons.

Page 2
David Lahtinen

Please advise if during the filling process any aspect of the diversion is not in accordance with this approval.

Sincerely,

A handwritten signature in dark ink, appearing to read "David R. Tuthill, Jr.", with a stylized flourish at the end.

David R. Tuthill, Jr., P.E.
Manager, Western Regional Office

RE: Request for Temporary Approval to Divert Water from Well
Related to Water Right No. 51-2199

Dear Mr. Lahtinen:

I acknowledge receiving your request for temporary diversion of water from a low temperature geothermal well located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 27, T7S, R4E, B.M. The well is identified as a point of diversion for water right no. 51-2199. You propose diversion of water for hydrostatic testing of a Northwest Pipeline loop. The Department has approved other surface water diversions for the same hydrostatic testing project.

I interpret your letter as seeking temporary approval from the Department for the withdrawal of water. Although the quantity of water which you propose to divert is rather small, the Department technically does not have the authority to approve a temporary transfer of water right no. 51-2199, nor does it have the authority to temporarily approve withdrawal of water without a water right. The pending listing of the Bruneau Hot Springs Snail as an endangered species also heightens the necessity for public review.

I encourage you to file an application for transfer with the Department of Water Resources. I have enclosed the necessary forms. Employees of the Department of Water Resources will be happy to assist in preparing the application for transfer. The application can be processed within approximately two to three months, if the application is not protested.

Sincerely,

A handwritten signature in cursive script that reads "Gary Spackman".

RECEIVED

DEC 17 1992

Department of Water Resources
Western Regional Office

Dear sir,

I am writing you requesting permission
to pump & use the water from a well
in Sec 27 T. 7 S. 4 E. license # 32098/91 2199

The water is needed to infuse &
test for leaks, a portion of the north east
pipe line now under construction.

The amount of water will be
approximately 1,250,000 gal. approximately
one day of use and the water will be
drained back into the aquifer in the
same area.

as this pump is shut down several
days in the summer we will be
using no extra water than we are
allowed for.

Your prompt attention to this request
will be appreciated.

Sincerely

David Lahtinen

Mr. David L. Lahtinen
Route B, Box 164
Bruneau, Idaho 83604

Dear Mr. Lahtinen:

A representative of this department has made an examination of the works covered by your Permit No. 51-2199 and has found the following:

Quantity of water diverted: 3.01 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 3.01 c.f.s.

The maximum quantity diverted shall not exceed 800 acre feet per season.

Beneficial Use: Irrigation of 160 acres within the S¹N¹ Sec. 27,
T. 7 S., R. 4 E., B. 3 E.

The priority date established is : September 4, 1964

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Very truly yours,

Donald W. McFildowney

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact the Department of Reclamation immediately.

The expense of the publication is to be paid by David L. Lahtinen, Route B, Box 164, Bruneau, Idaho 83604, to whom you should furnish an affidavit of publication.

Very truly yours,

Donald W. McEldowney

51-2199

**NOTICE OF EXISTING
WATER PERMIT**

Notice is hereby given that David Lahtinen, Route B, Box 164, Bruneau, Idaho, has received an approved permit No. G-32056 issued by the Idaho State Reclamation Department authorizing the diversion of 3.2 cubic feet per second of water from a ground water source subject to all prior rights. The priority to be established under this permit is September 4, 1964 and the permit was approved September 8, 1964. Water is to be diverted by well, pump, motor and existing ditches from a point within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27, T. 7 S., R. 4 E., B. M., Owyhee County to be used for irrigation in the S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 27, T. 7 S., R. 4 E., B. M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before September 8, 1969. Any protests against the issuance of a license for the above

referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Re: Permit No. G-32050

David Lahtinen
Bruneau,
Idaho

Dear Mr. Lahtinen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

32050

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-32050)
in the name of David Lahtinen)
Bruneau, Idaho)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

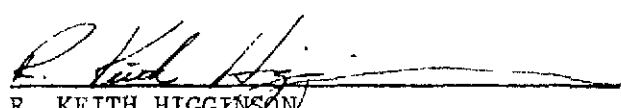

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-32050 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

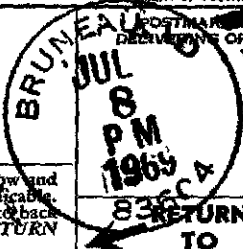

Dated this 23rd day of JUNE, 1969.

Re: Permit No. G-32050

Dear Mr. Lahtinen:

One of the conditions of the approval of your permit
G-32050 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
Sept. 8, 1969.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.
