During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Re: Permit No. G-31614

Mr. Floyd T. Wheeler,
Box 734,
Castleford, Idaho.

Dear Mr. Wheeler:

We enclose Permit No. G-31614 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

Departmental Receipt No. G-8467, which was issued covering payment in the amount of \$6.25 for the filing fee, and Receipt No. G-8500 issued in the amount of \$2.00 for the copies sent to the Bureau of Land Management, were given to Mr. Ed Wheeler when he was in our office.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Dear Mr. Wheeler:

Returned herewith is your application for permit with attached check for \$8.50.

You are claiming 6.4 c.f.s., however you show only 255 acres to be irrigated. The maximum amount you can claim to irrigate 255 acres is 255 inches or 5.1 c.f.s., for which the fee is \$6.25 or \$6.00 for 5.0 c.f.s.

Kindly correct the amount claimed and return.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer
