NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that James Wheeler, Castleford, Idaho, has received an approved Permit No. 31590/51 - 2185 issued by the Idaho Department of Water Administration authorizing the diversion of 5.8 cubic feet per second of water from a ground water source. The priority to be established under this permit is December 9, 1963, and the permit was approved December 13, 1963.

Water is to be diverted by well and pump from a point within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 9 S., Rge. 12 E., B. M., Owyhee County, to be used for irrigation purposes in the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 20; N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 29; Twp. 9 S., Rge. 12 E., B. M.

Proof of the application of the water to beneficial use was submitted to the Department on March 22, 1973. Any protest against the issuance of the license for the above referenced permit should be filed with the Idaho Dept. of Water Administration, Statehouse, Boise, Idaho, 83707, within ten (10) days of the last date of publication of this notice.

Dear Mr. Wheeler:

We are in receipt of the correspondence concerning ownership of the above referenced water right claim.

In Idaho, a claimed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right claim, if the previous land owner did not exclude the water right from the sale. Therefore, we will place your correspondence in the file for future reference only and no further action will be taken.

If you have any questions, please let us know.

The capacity for the diversion works is the only change for these licenses. There appeared to be a measurement from one of the wells that belonged to another license included under the capacity of the diversion works. I have corrected the field exams to read the proper capacity of diverting works. There are several wells in the same forty acre tract, and two of these wells were mixed up.

Idaho law: 5.80 cfs

Point of diversion: SW $\frac{1}{4}$ NE $\frac{1}{4}$ (3 points), Sec. 29, Twp. 9 S, Rge. 12 E

Beneficial use: Irrigation of 290 acres within the S $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 20;
N $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 29; Twp. 9 S, Rge. 12 E, B.M.

Priority date established: December 9, 1963

* Subject to the condition that the maximum rate of diversion shall not
exceed 8.73 cfs when combined with Licenses No. 51-2186 & 51-2189.

Since your permit only covers one point of diversion, it will be necessary to amend the permit to include all three points of diversion. We have enclosed a partially completed application for amendment for your use in this matter. Please sign the application and return it to this office with a \$10.00 filing fee within 20 days of the date of this letter in order that we may issue your water license as set forth above.

If you do not concur with these findings or have any questions, please contact us within the 20-day period.

Dear Mr. Wheeler:

One of the conditions of approval of your water Permit No. G-31590/51-2185 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before April 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Wheeler:

O This letter is to notify you as a permit holder in the Blue Gulch area that a portion of the land west of Salmon Falls Creek has been declared a critical ground-water area and closed to further appropriation of ground water. This designation went into effect December 9, 1970 and will remain until it is shown that ground-water withdrawals do not exceed the estimated natural recharge to the area.

P A public hearing will be held at the Buhl Senior High School, January 7, 1971 at 8:00 P.M., to accept any testimony or comment regarding the closure. A copy of the notice and hearing and description of the area is enclosed for your information.

Re: Permit No. G-31590

James Wheeler
Castleford, Idaho 83321

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.
