- b. Description of diverting works See Attachment II for change as a result of transfer.
- c. Describe the reasons for the proposed changes Applicant desires to establish a fish propagation use with a year around period of use. This transfer is intended to allow irrigation flows to be diverted during the winter and stored for use the next year. Storage ponds will be located in Secs. 3, 4, 9, 10 T 7S, R 5E; Sec. 33, T 6S, R 5E. Max number of ponds is 32, at 50 AF each, for a total of 1600 AF.

3. Change in place of use
- a. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed change
- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer
The proposed ponds will result in an anticipated increase in evaporation loss of 574 AF/yr.* To compensate for this loss 92 irrigated acres will be taken out of production, pursuant to another transfer filed in conjunction with this one. Also, about half of the ponds are anticipated to be constructed on lands that are presently irrigated. Consumptive use of these ponds will be aobut equal to consumptive use of irrigated lands.

D. REMARKS

1. The maximum irrigation storage and irrigation from storage parameters are both limited to 1600 acre feet, for all 5 water rights combined; This storage volume is based on 32 ponds at 50 acre feet each.
2. Consumptive use of the ponds is described and compensated in Applications for Transfer of Licensed No. 51-7022.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

CONDITIONS OF APPROVAL

For Transfer of Water Right
Nos. 51-2137/2139/2146/2154/2173

1. The maximum annual volume of water to be diverted under the rights identified herein shall not exceed 2886.4 acre feet.
2. A totalizing flow meter and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diverting water for fish propagation.
3. The maximum number of acres of land irrigated under the combined rights herein shall not exceed 744 acres.
4. Evaporation of water in storage shall be determined by using the following rates (feet) per month as identified in Department memo dated 12/11/86:

Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec
0	.15	.29	.43	.58	.74	.74	.75	.55	.42	.21	0

Before May 1 of each year, the water right holder shall advise the Department of the monthly average surface area of water in storage for the prior fiscal year of May 1 to April 30. The monthly evaporation rates shall be multiplied by the monthly average surface area to determine evaporation volume.

- (a) A reduction of acres irrigated will be made at the rate of 1 acre per 3.5 acre feet of water evaporated to account for water loss.
 - (b) The location and number of acres to be irrigated after the reduction for evaporation loss shall be identified by the water right holder prior to the start of the irrigation season.
5. Violation of the conditions identified herein will be cause for the Department to void the approval of this transfer and cancel permit 51-7277.
 6. A portion of the water diverted under rights covered by this transfer will be diverted to storage for irrigation following use of the water for fish propagation under Permit No. 51-7277.
 7. The Director retains jurisdiction over this transfer to modify the method of determining mitigation for evaporation loss, the number of acres irrigated, and the annual volume of water diverted.

ATTENTION: Robert A. Tippet

Dear Mr. Tippet:

Reference is made to your letter of June 16, 1970, in which you have requested information as to the water rights of a C. H. Loos. We find two licenses numbered G-30932/51-2173, and G-26487/51-2142. The first, numbered G-30932/51-2173, being in the amount of 2.94cfs, covering 147 acres, with a priority of 2-25-63. The second numbered G-26487/51-2142, in the amount of 8.0cfs, covering 517 acres, with a priority of 8-13-56.

The other two permits, G-28383/51-2153, and G-33084/51-2216, are still in the permit stages, as evidence of beneficial use is not due yet.

We have been advised by the office of the Idaho Attorney General that a permit not licensed is not a water right. Therefore, your mortgage may not cover the permits.

The only way the permit could be included in the mortgage is by listing the permit specifically by its number, or by having it assigned to the mortgage company by the permit holder.

If we can be of any further assistance in this matter, please feel free to contact us.

Very truly yours,

Gentlemen:

I write as correspondent for Connecticut General Life Insurance Company, who holds a Mortgage on certain lands owned (including water rights) by the above named party.

Mr. Loos has the following numbered Water Permits:

- 1 G-30932, for 6.00 c.f.s. covering 310 acres, dated 2-4-63.
- G-28383, for 4.00 c.f.s. covering 320 acres, dated 1-20-60.
- 2 G-26487, for 8.00 c.f.s. covering 800 acres, dated 10-23-56.
- G-33084, for 10.00 c.f.s. covering 1,025 acres, dated 8-15-66.

I would appreciate your letting me know the status of these Permits. Mr. Loos was supposed to have filed final proof and request these Permits be permanently licensed last year.

Dear Mr. Loos:

We acknowledge receipt of the depositions and affidavit of publication in the
Owyhee Nugget submitted as proof of com-
pletion of works and beneficial use on Permit G-30932.

Before a certificate and license of water right can be issued, a field
examination must be made by a representative from this department. We
cannot tell just when this examination will be made, but our field examiner
will try to contact you at the time he makes the examination so that you
may show him the system.

Dear Mr. McDowell:

We are in receipt of your letter of January 17, 1968 and the letter of Mr. C. H. Loos. Please be advised that inasmuch as the permit, prior to licensing, is personal property until such time as the permit becomes licensed, we will require as an assignment a copy of a deed of sale. This must mention the permit by number or an actual assignment from Mr. Jacobsen to Mr. Loos.

We were in touch with your office on Wednesday, January 17, 1968 with Miss Henderson. We advised Miss Henderson that we will proceed with the advertising of this notice of publication. However, before the proof of beneficial use of Mr. Loos will be acceptable, we will require an acceptable assignment.

Please contact us if we may be of further assistance.

Re: Permit No. G-30932

December 1, 1967

James A. Jacobsen
1709 Longmont Avenue
Boise, Idaho

Dear Mr. Jacobsen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than February 4, 1968.

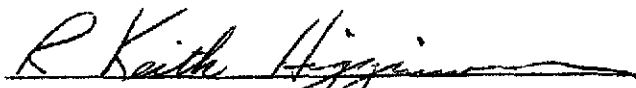

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

POINT OF DIVERSION

Permit No. G-30932

Comes now James A. Jacobsen and
represent to the State Reclamation Engineer of the State of Idaho:

That he is (~~was~~) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-30932.

That the point of diversion is described in said Permit as being located:

NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 9, T7S-R5E, B.M.

That he now requests that the point of diversion be changed to a point
located: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 9, T7S-R5E, B.M.

That the reason for desiring to make such change is as follows:

This is a better location for the irrigation of all the lands ~~xxx~~ that are
intended to be irrigated from this source.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Dear Mr. Jacobsen:

We enclose Permit No. G-30932 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

By this same mail, we have sent to the Bureau of Land Management two copies of this permit, one of which has been certified, to be used in connection with the Desert Land Entry filed in that office. A copy of that letter is enclosed.

~~Washington~~ Departmental Receipt No. G-7684 which was issued covering payment in the amount of \$ 8.25, which includes \$ 5.25 for the filing fee and \$ 2.00 for the copies sent to the Bureau of Land Management, was given to you while in our office.

Well logs are an important part of your recorded water right and State Statutes require that well drillers supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
