Re: Permit No. G-30749

Mr. J. E. Sullivan,
Bruneau, Idaho.

Dear Mr. Sullivan:

We enclose Permit No. G-30749 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7459 which was issued covering payment in the amount of \$ for the filing fee of the above mentioned permit. ~~was changed to 100.00~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

Very truly yours,

GEO. H. CARTER
