Re: Permit No. G-30309

Idaho Land & Appraisal Service
Box 2161, Boise

Dear Mr. McDowell:

We have the report of the examiner of the works under the noted permit.

The well was measured as flowing 1.12 CFS of water to irrigate 64 acres in S $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 26 T7S R6E.

Water Licenses No. 22233 for 1.0 CFS and No. G-24188 for 0.48 CFS have been issued for this same land. In addition there is a well in SW $\frac{1}{4}$ Sec. 26 which flows an estimated 0.36 to 0.4 CFS which is not on any permit.

We can issue the Certificate of Completion of Works for 1.12 CFS, however the amount of water is greater than the amount of land now cultivated and no further license can be issued at this time. The Certificate would stop further work under this permit.

Possibly future development will require a pump and pipe line to irrigate additional land.

We can hold the record until the proofs are due at which time you can decide the course to follow. Kindly advise at your earliest convenience.

Yours very truly,

GEORGE J. CARTER
