Re: Permit No. G 29617

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29617 are due not later than April 14, 1966.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

LAND LIST AMENDMENT ✓

Comes now Bruneau Cattle Company and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-29617, and requests that the list of lands to be irrigated, as described in said Permit, be changed to read as follows: T 6 S., R 5 E., B.M., Section 21, NW¹/₄NE¹/₄, SW¹/₄NE¹/₄, NE¹/₄NW¹/₄, SW¹/₄SE¹/₄; Section 32, SW¹/₄SE¹/₄; Section 28, NW¹/₄NE¹/₄, making a total of 100 acres. That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change. Signed at Boise, Idaho, this 22nd day of June, 1966.

/s/ EUGENE C. DAVIS

Date of receipt at office of Department of Reclamation: June 27, 1966

APPROVAL OF STATE RECLAMATION ENGINEER

I, R. Keith Higginson, Deputy State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-29617. This approval constitutes a new permit and is issued as amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

/s/ R. KEITH HIGGINSON, Deputy
State Reclamation Engineer

MEMORANDUM

TO FILES: 51-2164

FROM: Jim Johnson

SUBJECT: Conditions on Transfer of Water Right

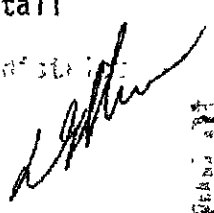

It should be noted that License No. 51-2164 combines groundwater with Little Valley Creek and rediverts water on place of use.

No measuring device was required for issuance of the Water License and now the License holder is applying for a Water Right Transfer which partially changes the place of use and adds another artesian well as a point of diversion.

There is a possibility that without measuring devices located on the artesian wells and the point where Little Valley Creek is rediverted down stream rights may be injured through overdiversion, however, even if measuring devices were installed, without a watermaster appointed to distribute water, there would be no means available to insure ~~that~~ downstream rights weren't being injured.

I suggest, until a water master district is created, measuring device installation not be required.

Perhaps the Department could enclose a letter with the approved Water Right Transfer application ^{that} strongly encourages the applicant to install measuring devices on the diversion works in the event that a water district is created.

Bruneau, Idaho 83604

Dear Mr. Davis:

Enclosed herewith are copies of the Water Licenses issued on the above referenced permits.

Pursuant to our conversation of last week, I made an attempt to abstract the water rights in the name of Bruneau Cattle Co., Little Valley Ranch, Inc., or Agenbroads. In reviewing our records I find numerous permits in Agenbroads' name that have been cancelled or relenquished. However, if you could send me the legal descriptions of your property with locations of points of diversion for wells or surface water, perhaps I can determine the recorded water rights pertaining to the land now owned by Bruneau Cattle Company. Am enclosing several plat sheets which may be of use in mapping the acreage and sources involved.

Sincerely,

D. DARLENE REICH

Dear Mrs. Deroin:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-29617, in the name of Bruneau Cattle Company. Final Proof is to be made before you, as Notary on the 2nd day of June, 19 66, at Boise, Idaho.

As of this date, we have mailed the Notice to the Owyhee Nuggett, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29617 are due not later than **April 13, 1966**.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
