Boise, Idaho

Dear Sirs:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29181 are due not later than Dec. 6, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Dear Mr. Cook:

In accordance with your verbal request we are forwarding the following information on your above numbered permits.

- G-24292 - This permit is licensed for the amount of 2.2 cubic feet per second. It is our understanding that the amount of the artesian water is not equal to the licensed amount and that you have installed a pump on this well and it now produces the 2.2 cubic feet per second.
- G-29181 - This permit is licensed for 1.2 cubic feet per second.
- G-32655 - This is an active permit and should produce 4.0 cubic feet per second. Proof of completion of work or beneficial use has not been made. However, they are not due until December 12, 1970.

Dear Mr. Cook:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29181 shows the well(s) is (are) capable of conveying 51 miner's inches, or 1.02 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 13.00, we will issue the Certificate of Completion of Works for 1.02 c.f.s. and the License and Certificate of Water Right for 1.02 c.f.s. confirming the right, with priority of December 2, 1960, to the use of subterranean water with the point of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 13 for irrigation of 51 acres in the SW $\frac{1}{4}$, Sec. 12, T. 7 S., R. 4 E., B.M.

Permit No. G-29181

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant Clarence Cook

2. Source of water supply: Subterranean

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13

T. 7 S. R. 4 E. B. M. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same:

artesian well and ditches

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W $\frac{1}{2}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ Sec. 12., Twp. 7 S., Rge. 4 E. B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: The flow of this well depends on the use of other wells in the vicinity. At the time of inspection usage was heavy and flow was about 100 inches. Judging from the water marks in the ditches flow exceeds 200 inches at times.

Dear Sirs:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29181 are due not later than Dec. 6, 1963

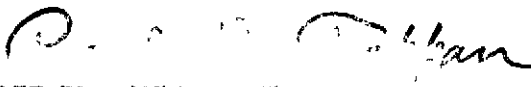

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
