ATTENTION: Robert A. Tippet

Dear Mr. Tippet:

Reference is made to your letter of June 16, 1970, in which you have requested information as to the water rights of a C. H. Loos. We find two licenses numbered G-30932/51-2173, and G-26487/51-2142. The first, numbered G-30932/51-2173, being in the amount of 2.94cfs, covering 147 acres, with a priority of 2-25-63. The second numbered G-26487/51-2142, in the amount of 8.0cfs, covering 517 acres, with a priority of 8-13-56.

The other two permits, G-28383/51-2153, and G-33084/51-2216, are still in the permit stages, as evidence of beneficial use is not due yet.

We have been advised by the office of the Idaho Attorney General that a permit not licensed is not a water right. Therefore, your mortgage may not cover the permits.

The only way the permit could be included in the mortgage is by listing the permit specifically by its number, or by having it assigned to the mortgage company by the permit holder.

If we can be of any further assistance in this matter, please feel free to contact us.

Very truly yours,

RE: Permit No. 26487/51-2142, C. H. Loos

Dear Mr. Reynolds:

I refer to your letter of May 9 and our conversation in your office May 13 concerning the above permit and the amendment you are requiring before this permit can be licensed.

No amendment whatsoever is required on this permit, all lands you state are irrigated which were not covered by the above designated permit were never intended to be covered by said permit.

NE 1/4, Section 4, T. 7 S., R. 5 E., B.M. this subdivision is vacant federal land, it was not included in the proof submitted on the above permit.

NW 1/4, Section 4, T. 7 S., R. 5 E., B.M. this subdivision is covered by license No. G-27697, Transfer No. 1073, and was not included in the proof of the above permit.

SW 1/4, Section 3, T. 7 S., R. 5 E., B.M. you did not include this in your letter, however, there was some question about it during our discussion in your office, it is covered by license G-28384 and was not included in our proof on the above permit.

The use of the proof submitted on this permit, which is a sworn statement, would have avoided this problem.

Please send us a copy of the revised fee letter which you submit to Mr. & Mrs. Loos.

Very truly yours,

IDAHO LAND & APPRAISAL SERVICE

DEPARTMENT OF RECLAMATION

Re: Permit No. **26487**

Date: **June 1, 1967**

Gable A. Ranch, Inc.
James Agenbroad, Sec.
Nampa, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. **26487** is due not later than **Aug. 23, 1967**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 26487

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before August 23, 1961. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

Geo. N. Carter

Dear Mr. Agenbroad

Enclosed are Forms 14 and 15.

You were to make depositions on three permits at the same time, Permit No. 26487 under one notice, and Permits G-27697 and 20973 under a second notice.

The depositions for Permits G-27697 and 20973 were received. The depositions for Permit No. 26487 are not in the file and are probably lost in the mail.

It will be necessary for you and two witnesses to complete the enclosed forms before Mr. Ford at Murphy in regard to Permit 26487. Mr. Ford will have to make an affidavit that the depositions were completed Feb. 20, 1959 and that no protests were received in regard to the proofs of completion of works under Permit 26487.
