C. DESCRIPTION OF RIGHT OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. General Information
- a. Amount of water to be diverted 13.48 c.f.s. &/or 5 acre feet per acre for 919 acres = 4595 acre feet
- b. Description of diverting works See Attachment II for change as a result of transfer.
- c. Describe the reasons for the proposed changes Applicant desires to establish a fish propagation use with a year around period of use. This transfer is intended to allow irrigation flows to be diverted during the winter and stored for use the next year. Storage ponds will be located in Secs. 3, 4, 9, 10 T 7S, R 5E; Sec. 33, T 6S, R 5E. Max number of ponds is 32, at 50 AF each, for a total of 1600 AF.

2. Change in point of diversion No Change
- Point of diversion _____ ¼ _____ ¼, Section _____ Township _____
Range _____, B.M., _____ County
Additional points _____

3. Change in place of use
- a. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed change.
- b. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer
The proposed ponds will result in an anticipated increase in evaporation loss of 574 AF/yr.* To compensate for this loss 92 irrigated acres will be taken out of production, pursuant to another transfer filed in conjunction with this one. Also, about half of the ponds are anticipated to be constructed on lands that are presently irrigated. Consumptive use of these ponds will be about equal to consumptive use of irrigated lands.

*See memo from Bill Andrechen to Dave Tuthill dated Dec. 11, 1986, and letter from Dave Tuthill to Bill Andrechen dated Dec. 11, 1986.

c. Describe the lands or place of use to which the right will be transferred.

No Change (see other transfer of Lic. No. 51-7024 for identification of

[illegible]

92 acres from which water right is removed to compensate
for increased evaporation) Total

Total number of acres to be irrigated _____

4. Describe any other water rights used for the same purpose as described above. All are described in this transfer.
5. Draw a map indicating the new point(s) of diversion and/or the new land to be irrigated. Show clearly the land involved by section, township and range number.

~~No Change in P/D or P/U by this transfer. See Attachment II for change in use and period~~

SCALE: 2 inches equal 1 mile. Draw plan in ink

D. REMARKS

1. The maximum irrigation storage and irrigation from storage parameters are both limited to 1600 acre feet, for all 5 water rights combined. This storage volume is based on 32 ponds at 50 acre feet each.

2. Consumptive use of the ponds is described and compensated in Applications for Transfer of Licensed No. 51-7022.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

CONDITIONS OF APPROVAL

For Transfer of Water Right
Nos. 51-2137/2139/2146/2154/2173

1. The maximum annual volume of water to be diverted under the rights identified herein shall not exceed 2886.4 acre feet.
2. A totalizing flow meter and lockable controlling works of a type acceptable to the Department shall be permanently installed and maintained as part of the diverting works prior to diverting water for fish propagation.
3. The maximum number of acres of land irrigated under the combined rights herein shall not exceed 744 acres.
4. Evaporation of water in storage shall be determined by using the following rates (feet) per month as identified in Department memo dated 12/11/86:

Jan	Feb	Mar	Apr	May	June	July	Aug	Sept	Oct	Nov	Dec
0	.15	.29	.43	.58	.74	.74	.75	.55	.42	.21	0

Before May 1 of each year, the water right holder shall advise the Department of the monthly average surface area of water in storage for the prior fiscal year of May 1 to April 30. The monthly evaporation rates shall be multiplied by the monthly average surface area to determine evaporation volume.

- (a) A reduction of acres irrigated will be made at the rate of 1 acre per 3.5 acre feet of water evaporated to account for water loss.
 - (b) The location and number of acres to be irrigated after the reduction for evaporation loss shall be identified by the water right holder prior to the start of the irrigation season.
5. Violation of the conditions identified herein will be cause for the Department to void the approval of this transfer and cancel permit 51-7277.
 6. A portion of the water diverted under rights covered by this transfer will be diverted to storage for irrigation following use of the water for fish propagation under Permit No. 51-7277.
 7. The Director retains jurisdiction over this transfer to modify the method of determining mitigation for evaporation loss, the number of acres irrigated, and the annual volume of water diverted.

Dear Mr. Agnewbroad:

The above numbered permits and license are all for water from the same well.

This is to advise you that proofs have been made on G-27697 and G-26034, and are ready to be processed prior to licensing.

However, 21748 and G-25381 have higher priorities. Also G-25381 is in the name of Mrs. Edna Agnewbroad, Brannan, Idaho.

Now, if license is issued on G-27697 and G-26034, that along with License G-26116 will cover all the water delivered by the well and none will be left available for 21748 and G-25381.

In view of the above facts will you please send in a letter to the department relinquishing back to the state the last two mentioned permits.

Yours truly,

Nampa, Idaho

Gentlemen:

We have the report made by our field engineer of the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-26116, which shows that the well is capable of producing 2.5 second feet of water for irrigation of 160 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fee of \$13.00, we can issue the Certificate of Completion of Works (\$5.00) and the License (\$8.00—based at the rate of \$2.00 for each 40-acre subdivision) which confirm the right with a priority of December 19, 1955, to your use of 2.5 second feet of the water from an artesian well with the point of diversion in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 9, Township 7 South, Range 5 East, B.M., for irrigation of 160 acres in the SE $\frac{1}{4}$ of Section 33, Township 6 South, Range 5 East, B.M.

RE: Permit No. G-26116

Mr. James Agenbroad
Route # 3
Nampa, Idaho

Dear Mr. Agenbroad:

Relative to the proof of Application of water to Beneficial Use and Completion of Works on the above stated Permit received in this Office as of March 29, 1956.

We wish to state that under Question 4, "state source of water supply and give exact location of Point of Diversion," you gave the point of diversion in the proof of the Holder as well as the witnesses as the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 33, Township 6 South, Range 5 East.

The records of Permit No. G-26116 gives the location of the well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, Township 7 South, Range 5 East. There is no record of an Amendment to this Permit changing the point of diversion for this water right.

We also observe under Question 6, where you stated the place of use you state, NE $\frac{1}{4}$ SE $\frac{1}{4}$ 40 acres, NW $\frac{1}{4}$ SW $\frac{1}{4}$ 38 acres, SW $\frac{1}{4}$ SE $\frac{1}{4}$ 40 acres, SE $\frac{1}{4}$ SE $\frac{1}{4}$ 40 acres. These are all correct and comply with the Permit except the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 6 South, Range 5 East. This 40 acres (NW $\frac{1}{4}$ SW $\frac{1}{4}$) does not appear in the Permit and no Amendment is on file changing the land use as stated in said Permit.

We are enclosing herewith an Amendment form to be used in changing the point of diversion which if amended will have to be approved by the State Reclamation Engineer. If corrections are to be made in the proofs please give us written permission to make said changes .
