Dear Mr. Davis:

Re: Water Right Nos. 51-2138, 51-4023 & 51-7145

Pursuant to our telephone conversation of this date, enclosed are the copies you requested.

One thing I learned after talking with you is that the department does not review information on claims when researching water rights for overlapping uses and licensing. When you determine the amount of water produced by the wells, do not include the amount claimed on the water right claim.

A water right claim is just a method of recording a water right use. Unlike the water right permit the use of water has not been verified by a field inspection.

If I can be of further assistance, please feel free to contact me.

Dear Mr. Taylor:

In reviewing your amended license we came across an additional error. On our maps that the field examiner completed it shows the irrigation of 30 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 30 rather than SE $\frac{1}{4}$ SE $\frac{1}{4}$ as previously listed. Therefore, we have changed the amended license to show this and are forwarding a copy to you, Lynn Norberg (Federal Land Bank), and Walt Walgamuth.

If you have any questions, please contact us.

Sincerely,

Dear Mr. Hassen:

We find no other water rights other than 51-2138 pertinent to the lands involved.

Your letter of October 9, 1972 will be adequate to put in the filing to show that the property's ownership has been changed. There are no official forms to have the name changed on the permit. The water right, once it is licensed, is pertinent to the land.

If we may be of further assistance, please contact this office.

Dear Madam:

Upon checking the legal notice on the above mentioned permits we find that under 4, point of diversion, it reads "SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, T7S, R4E BM and SEW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 19 T7S, R5E BM."

It should read SW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 25, T7S, R4E BM and SEW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 19, T7S, R5E BM. Please correct this in subsequent issues and send us a tear sheet for proofing.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-26043

Comes now William H. Taylor and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-26043.

That the point of diversion is described in said permit as being located SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 19, Twp. 7 S., Range 5 E..

That he now requests that the point of diversion be changed to a point located SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 19, Twp. 7 S., R. 5 E., and an additional well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 25, Twp. 7 S., R. 4 E..

That his reasons for desiring to make such change are as follows:
That most of the land under this Permit can be watered by gravity from the well located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, where it would be necessary to put in a booster pump from well in Section 19,

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, Idaho, this 4th day of December, 1956
