Re: Permit # 0-24188

Mateo Zubizarreta
Brunau, Idaho

Dear Mr. Zubizarreta

Statutes requires a field inspection in connection with the proofs on Permit # 0-24188 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Thursday

October 23, 1958.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

P.O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

This acknowledges the Notice of proof of Completion of Works and application of water to Beneficial Use under Permit No. G-24188 in the name of Mateo Zubizarreta. Final proof is to be made before you as Notary on the 21st day of May, at 10:00 A. M.

As of this date we have mailed the Notice to the Owyhee Nugget, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit Holder and his two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, the date, and before you as Notary as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each, and that all depositions (Holder and Two Witnesses) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 0-21388

Date April 1, 1958

Mateo Zubizarreta
Bruneau, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. 0-21388 are due not later than June 6, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made on no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point or points of diversion; and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
