If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well drilled to a depth of 120', 8" casing (22' cased as I hit solid rock at that time) Water will stand within three or four feet of the surface. It did run off at one time but I take it and lift it through a pipeline 45' horizontal distance. Pipeline is 600' of 8" steel pipe and runs due west of the well. I run this with a 50 John Deere wheel tractor. The pump will discharge 125". I bought it from the Parpa Waterlifter and believe it is a Carver or Carter. I am estimating my measurements by having seen water measured. I have not had it measured by an engineer. All distribution is by gravity.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is irrigation. Place of use: SE¹/₄SE¹/₄, Sec. 34, T7S-R6E., B.M., 30 acres; Lot 3, Sec. 2, 18 acres; Lot 2, Section 2, 7 acres, T8S-R6E., B.M. SW¹/₄SW¹/₄, Sec. 35, T7S-R6E., B.M., 8 acres. I have spent \$5,000 in doing this work. This is all cultivated land.

22877

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need at least 1" to the acre on all of the land that is a little more solid but I have 15 acres here that I need 2" to the acre so to farm this right, I need 78" of water at

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original person.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started this work right after the permit was issued and have carried through with it to put it to beneficial use.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water permit at all on this but I intend to make another filing right now and put some of the water I am pumping here on the rest of my land. I have 200 acres of land here. My works put out 125" so I can irrigate some more land with this same water but I haven't put it to beneficial use yet.

Permit No. G-22877

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred L. Smith; age, 77; residence, Bruneau, Idaho; occupation, retired; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with Richard J. Benham, the holder of Permit No. G-22877? How long have you known him and where does he reside?

Ans. I have known him all his life and know that he lives right next to Bruneau, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22877, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is raised from subterranean well in SE 1/4, Sec. 34, T7S-R6E., B.M. Works consist of 420' well cased 22" with 8" casing. Pipeline 600' long. Parma Waterlifter pump and gravity ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Main ditch will carry 200" of water if needed to. Well produces about 125". I have estimated this from seeing water measured.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 125". This is an estimate.

22877

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation of 30 acres in SE¹/₄ SE¹/₄, Sec. 34; 8 acres in SW¹/₄ SW¹/₄, Sec. 35, T7S-R6E., B.M. 18 acres in Lot 3, Sec. 2; 7 acres in Lot 2, Sec. 2, T8S-R6E., B.M. There is no natural meadow.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Some of the land is sandy loam and some a little bit gravelly but good land. He needs all the water he has for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this well from the time it was drilled right on through. As a matter of fact, I was living on this place when they drilled the well and have seen it quite often through the whole development.

the completion of work

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Thomas C. Hall; age, 36; residence, five miles south of Bruneau, Idaho; occupation, farming; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with Richard J. Benham, the holder of Permit No. G-22877? How long have you known him and where does he reside?

Ans. I have known him all my life and know he resides near Bruneau, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22877, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A 420' well is drilled in SE¹SE¹, Sec. 34, T7S-R6E. It is cased with 8" casing for 22'. There is a 600" pipeline, Parma waterlifter pump and gravity ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the works will safely convey 125" or more. I have seen this much so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 125". If there was more power, this well would produce more water. This is an estimate from my past experience in farming.

22877

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation of the following acres:
T 7 S - R 6 E., B.M. Section 34, SE¹SE¹, 30 acres; Section 35, SW¹SW¹, 8 acres,
T 7 S - R 6 E., B.M. Lot 3, Section 2, 18 acres; Lot 2, Section 2, 7 acres, T 8 S -
R 6 E. All of the land is cultivated and the improvements are the result of said
cultivation.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land has some gravel but is mostly sandy loam. I think it is necessary for him to have all the water now produced for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was in this area when the well was drilled and have seen it several times each year since the drilling.

Dear Sir:

Today we received a tear sheet of the May 7th publication of Notice of Completion of Works and Application of Water to Beneficial Use under Permit No. G-22877, in the name of Richard J. Benham.

Our records show that Paragraph 5 should read:

The place where said water is used is ~~Sec. 34~~, Sec. 34
W¹SW¹, Sec. 35, T. 7 S., R. 6 E., B. M., Lots 2 & 3,
Sec. 2, T. 8 S., R. 6 E., B. M.

Since the entire paragraph is mixed up we request that you make corrections starting with the next publication and send us a tear sheet which shows that the corrections have been made.

Very truly yours,

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-22877, in the name of Richard J. Benham. Final proof is to be made before you, as Notary, on the 6th day of June, 1959, at 10:00 A.M., 618 Idaho Bldg., Boise, Idaho.

As of this date we have mailed the Notice to the Owyhee Nugget, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, and that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned.

Very truly yours,

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-22877 are due not later than June 28, 1959.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
