Dear Mr. Agenbroad:

We are this morning in receipt of Affidavit of Publication in the Owyhee Chronicle, in connection with Beneficial Use Proof on your Permit No. 21827.

This completes your proof, but before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.
