OF THE STATE OF IDAHO, NO. 20973

Comes now Carl Aganbroad and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20973.

That the point of diversion is described in said permit as being located SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 34, Twp. 6.S. R. 5.E. and in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Twp. 7.S. R. 5.E.

RE: Permit No. 20973

Mr. Carl Aganbroad

Dear Mr. Aganbroad:

We return your affidavit in proof of completion of works on Permit No. 20973 for the following corrections:

1. Question 2 should state the source of the water which of course is subterranean water from a well or wells.

2. Answer Question 5.

3. Question 6 should state whether the works were or were not completed.

4. Question 6 should doubtless include a pump, giving the kind and power and describing the casing.

5. Question 8 includes the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 3, Township 7 South, Range 5 East B.M., but the permit includes the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 3. We think this is a typographical error in your affidavit.

6. Since the point of diversion has been changed, it will be necessary for you to file an application for amendment on the form enclosed.

Meanwhile we hold to your credit, your check for the \$5.00 fee in connection with this proof.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Carl Agenbroad
Route 1
Homedale, Idaho

Boise, Idaho January 2, 1954

Dear Sir:-

Under the terms of your permit No. 20973 you are required to complete your diversion works on or before March 10, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

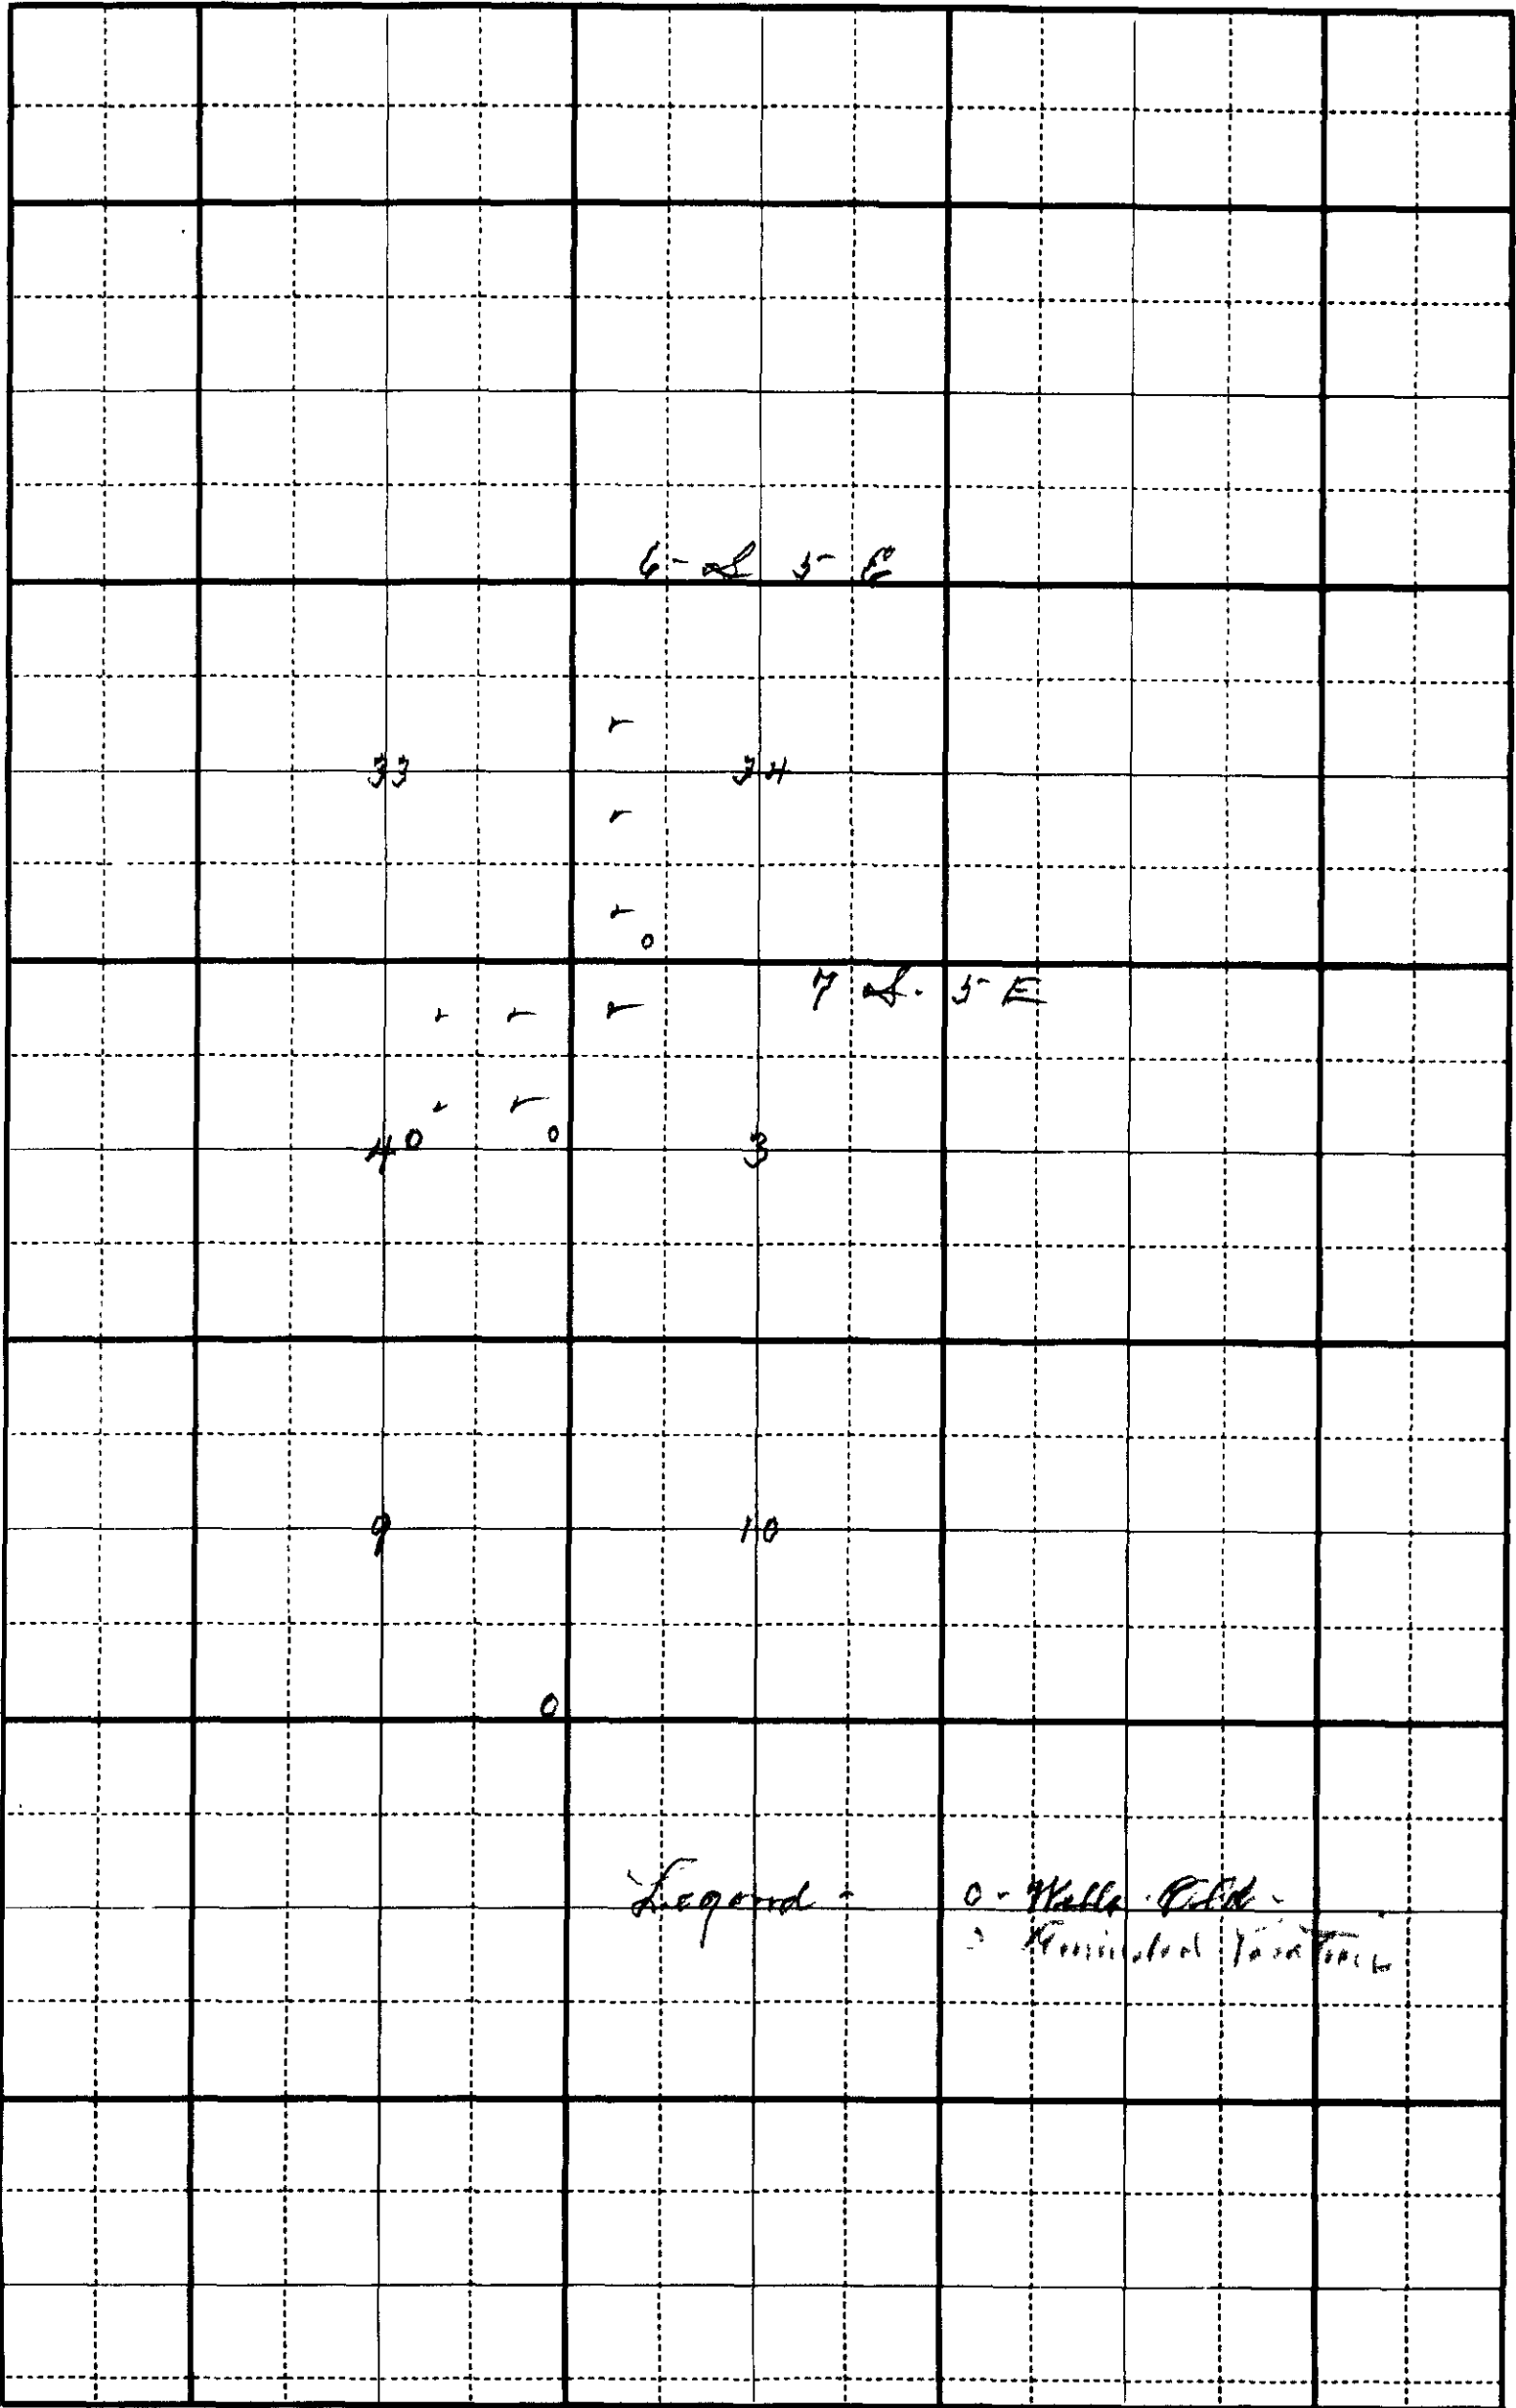

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,
