

Department of Reclamation

**Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. 19374**

Comes now WILLIAM I. TINDALL, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 19374, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

W1/4, S2/4, N1/4, Sec. 26, T. 15 S., R. 4 E., B. M.

....., making a total of acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

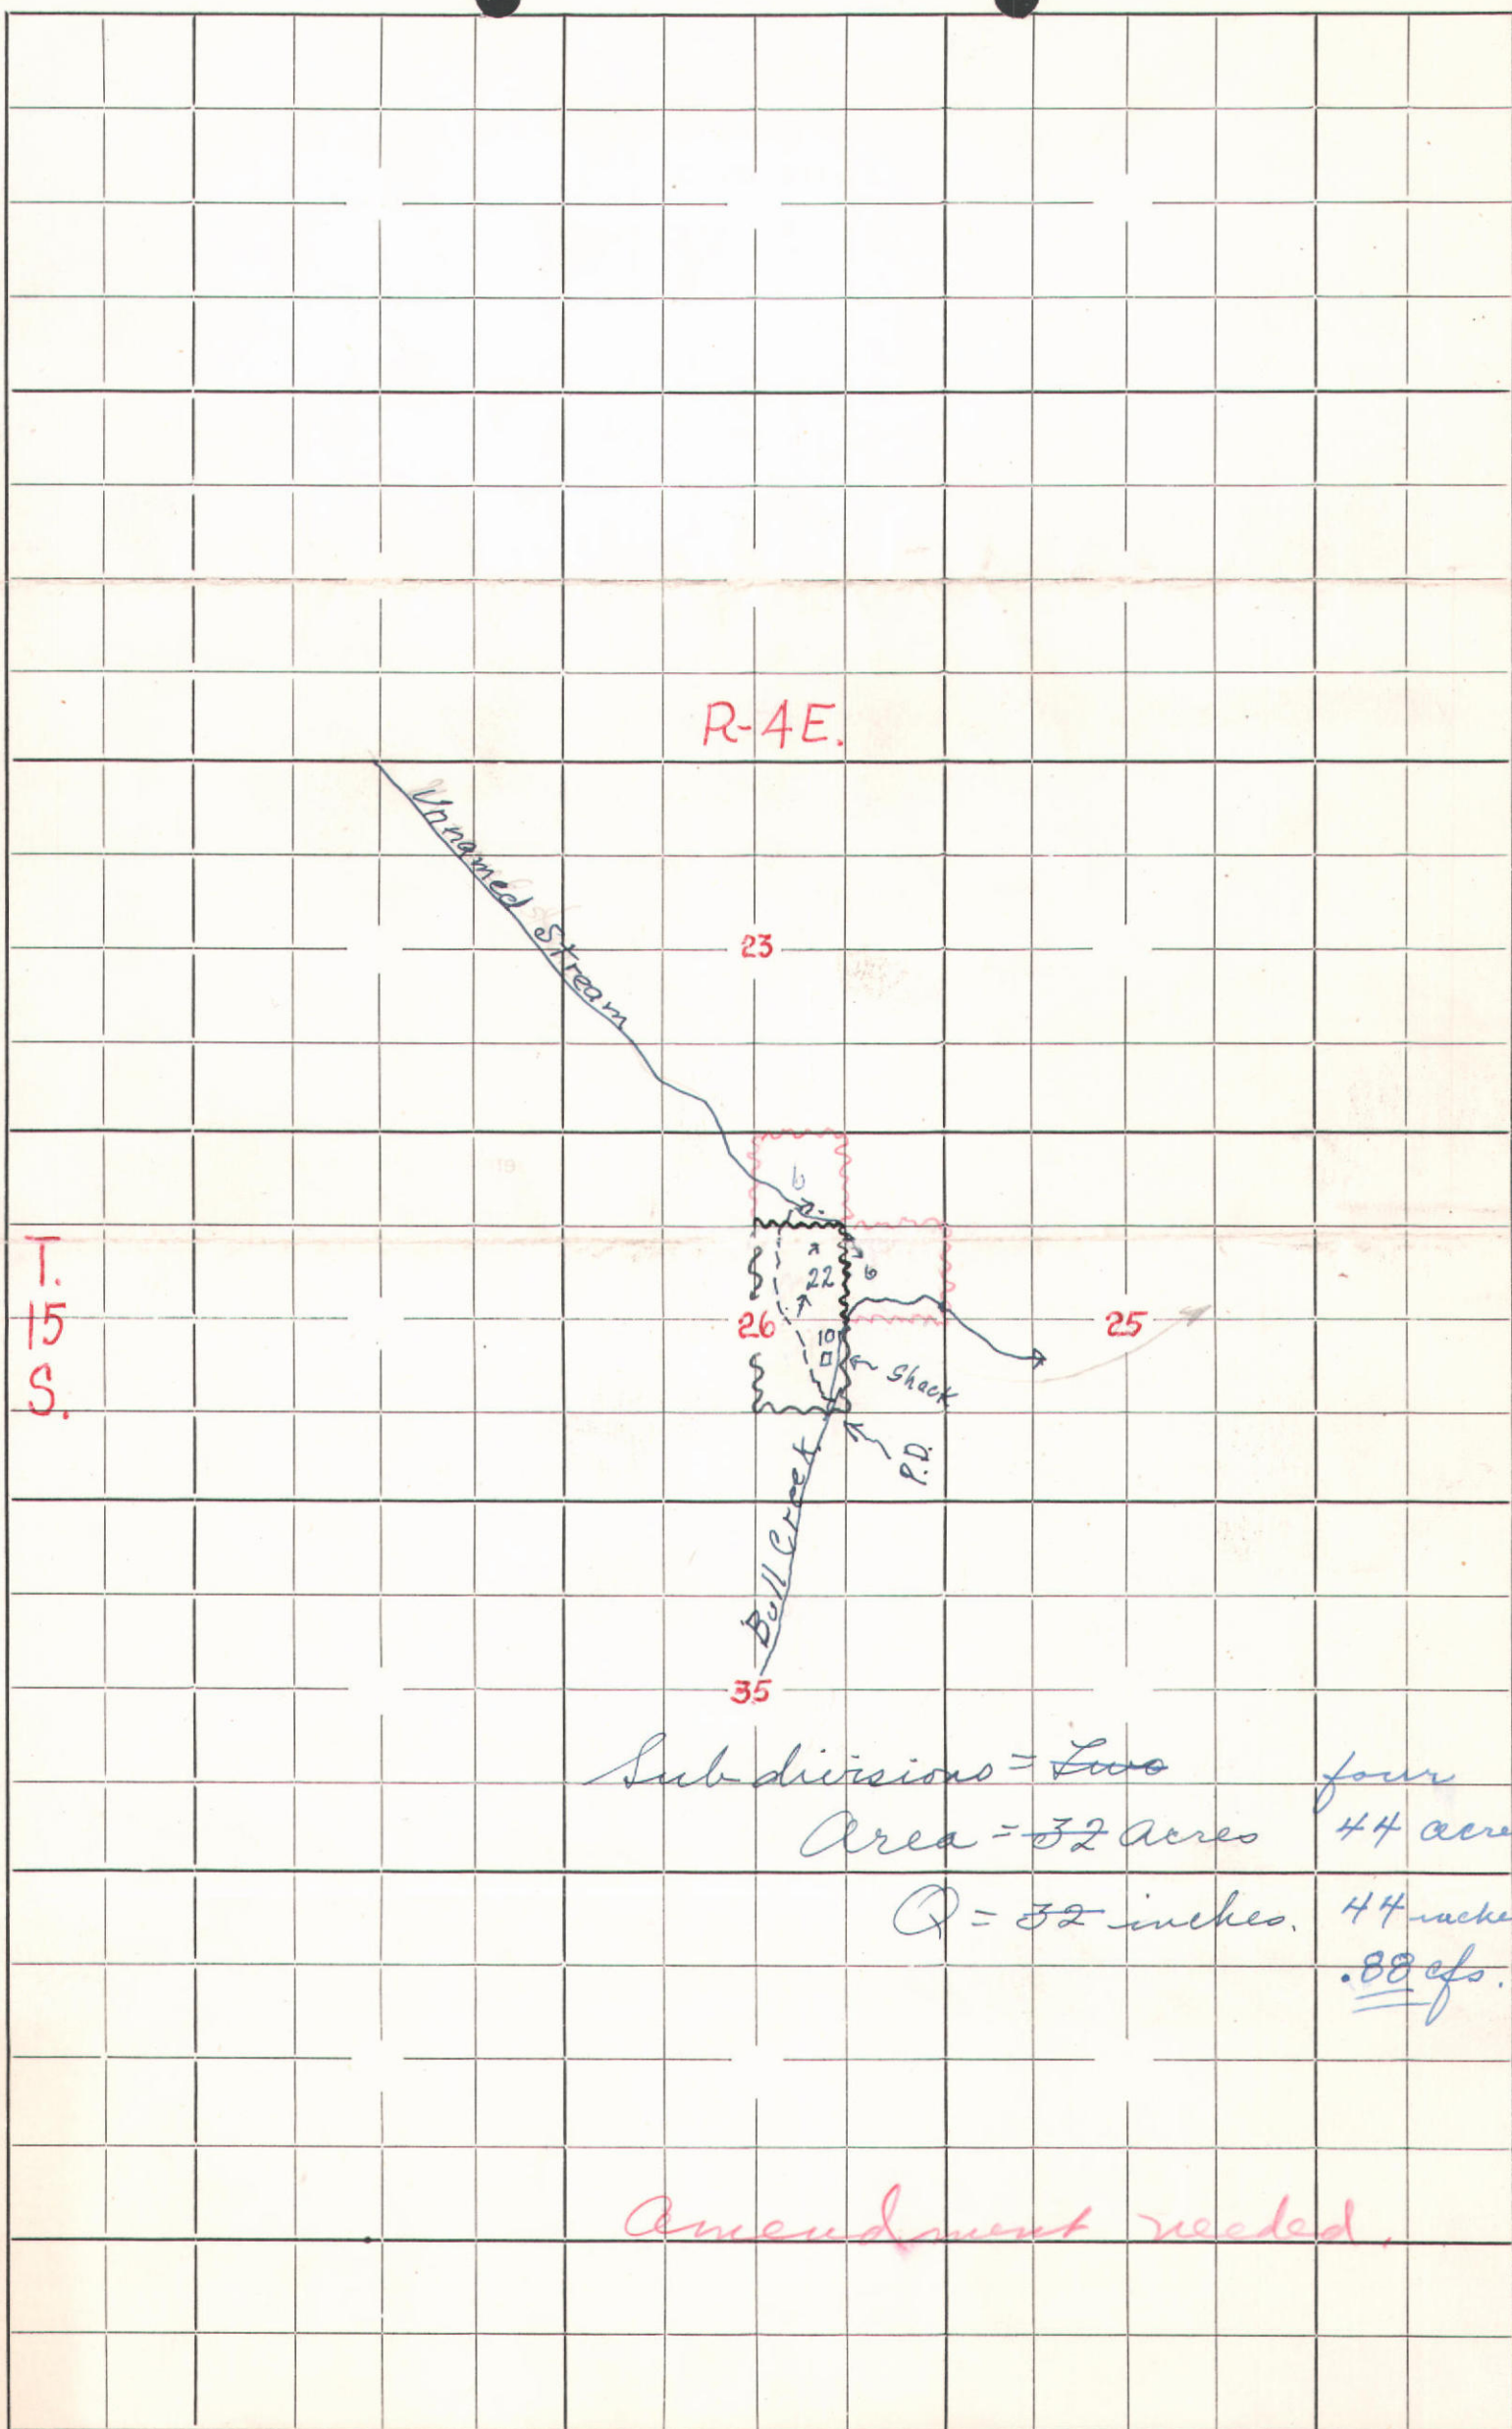

Signed at Grosmont, this 15 day of December, 1959

William I. Tindall

Date of receipt at office of Department of Reclamation December 21, 1959

APPROVAL OF STATE RECLAMATION ENGINEER

I, GEO. H. CARTER, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 19374. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 20th day of August, 1954, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the application to beneficial use of 1 cubic foot per second of the waters of Bull Creek in accordance with the terms and conditions of Permit No. 19374 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are William I. Tindall, Grasmere, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is one cubic foot per second.

The place where said water is used SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 26, T 15 S, R 4 E., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is private ditch.

The right to take water from such works is based upon Permit No. 19374.

The source of supply from which such water is diverted is Bull Creek.

The date of priority which said user is prepared to establish is August 30, 1943.

PETITION TO AMEND APPLICATION FOR A PERMIT AND THE PERMIT ISSUED THEREON

TO THE BUREAU OF RECLAMATION OF THE STATE OF IDAHO:

COMES NOW the petitioner, Ethel Coig, and makes petition for the amendment of application No. 26869 for permit to appropriate the public waters of the State of Idaho and also to amend permit No. 19374 issued thereon to Katie E. Ratliff, and by her assigned to Ethel Coig on the 28th day of February, 1944, for the following reasons, to-wit:

That said application inadvertently described the source of the water supply as Bull Creek, a tributary of Sheep Creek, thence Bruneau River, whereas in fact the source of said water supply was then and now is and has at all times been a spring situated in the northwest quarter of the southeast quarter of Section 26, Township 15 South, Range 4 East of the Boise Meridian, in Owyhee County, Idaho, and not Bull Creek proper.

That your petitioner is now the present holder of said permit and makes this petition for and desires to have said application and permit amended as above set forth, nunc pro tunc.

That the applicant does not ask for the permit to be amended to include any other or additional water than as covered by the original application and permit and the granting of this petition to amend said application and permit will not adversely or otherwise affect the rights of others.

WHEREFORE, PETITIONER PRAYS THAT THE Department of Reclamation amend said application and permit as above set forth to conform to the facts as they have at all times existed since the filing of the original application and the issuance of the original permit.

/s/ ETHEL COIG

Re: Permit No. 19374
William Tindall

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

Our field engineer's report on his inspection of the application of water to beneficial use under the terms of Permit No. shows that Bull Creek is capable of conveying 1/4 miner's inches, or .85 c.f.s. of water for the irrigation of 1/4 acres.

Upon receipt of the statutory fee of \$ 8.00 -based at the rate of \$2.00 for each 40-acre subdivision - we will issue the License and Certificate of Water Right, confirming the right with priority of August 20, 1943 to the use of .85 second feet of surface water with the point of diversion in NW 1/4, Sec. 26, for the irrigation of 1/4 acres in NW 1/4, SE 1/4, NE 1/4, Sec. 26, T. 15 S., R. 4 E.

PERMIT NO. 19374

REPORT ON PROOF OF Beneficial Use

WILLIAM I. TINDALL, Grasmere, Idaho

Scale: 2 Inches Equals 1 Mile. Draw Map In Ink.

19374

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 19374

This proof is for Beneficial Use In Water District No. _____

1. Name of applicant William I. Tindall, Grasmere, Idaho

2. Source of water supply: Bull Creek

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 26

T. 15 S. R. 4 E. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same: This land is entirely pasture and utilizes some water from Bull Creek and some from an un-named stream to produce pasture grasses. Mr. Tindall believes that this filing was amended to include the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26 also. This water will reach the Bruneau River.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 26, Twp. 15 South, Range 4 East, B.M.

NOTE: Proof includes NW $\frac{1}{4}$ NE $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26, which are not in the permit.

Proof also mentions a spring as a source of water in addition to Bull Creek, but this is not mentioned in the permit.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Bruneau River

Remarks:..

This examination was made on the 16 day of October, 1935

(Signed) E. N. Humphrey Examiner.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 19374

Mr. Harley M. McDowell
519 Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We have filed the depositions of William I. Tindall and two witnesses also affidavit of publication in the Owyhee Chronicle, all submitted in proof of beneficial use on Permit No. 19374.

We note however, that the proof includes six acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and six acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 26 which are not included in the Permit or the published notice, which only include the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of the Section.

Before final action is taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Tindall at the time he makes the examination so that arrangements may be made to show him over the grounds.

2. That during the time of the publication of the notice hereinafter mentioned, I was and now am the editor and co-publisher of THE OWYHEE CHRONICLE, a newspaper of general circulation printed and published weekly, on Thursday of each and every week, in the City of Homedale and County of Owyhee and State of Idaho.

3. That the said THE OWYHEE CHRONICLE has been printed and published continuously and uninterruptedly in said County during a period of seventy-eight weeks prior to the first publication of the attached notice.

4. That said notice Notice of Proof Application
of Water To Beneficial Use

of which a printed copy, taken from said newspaper, is hereto annexed, was published in the regular issue thereof, and not in a supplement thereto, in said newspaper, in Four (consecutive) calendar weekly issue(s) of said newspaper, on the following date(s):

July 15, 22, 29, August 5, 1954.

Signed Carol E. Gough

Subscribed and sworn to before me this 15 day of Sept.
A. D., 1954.

Jesse Echeverria
Notary Public in and for the State of Idaho.

RECEIVED
SEP 3 1954
Department of Reclamation

Permit No. 19374

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is William I. Tindall; residence, 8 miles south of Grasmere, Idaho; occupation, agriculture and livestock; postoffice address, Grasmere, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting as an individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit. The number of my permit is 19374; date of permit, November 7, 1942; date of priority, November 7, 1942.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is from Bull Creek (and a spring), both being located and diverted in NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, T15S-R4E, B.M. approx. 200' west and 150' north from the SE corner of above designated subdivision and in this subdivision (NW $\frac{1}{4}$ SE $\frac{1}{4}$).

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works of diversion consist of dam put in the creek approx. 3' high with 1' width at the top and 3' width at the bottom. This is made of earth and rock approx. 10' long. The drainage channels from the spring are drained into a ditch along with the above diversion of water. This ditch is approx. 3/4 mile in length, has about 2' bottom, 1 1/2' deep, 4' top. This is an individual ditch and is adequate to conduct all the water from the diversion to the place of use. Small lateral ditches off from this are made to irrigate all the irrigable area. These ditches are capable of conducting 50 Miner's inches or more to the place of use. I have seen some 4 1/2" of water being diverted at these points and through this ditch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is for agriculture; place of use, Sec. 26, T 15 S - R 4 E, B.M., 6 acres in (NW $\frac{1}{4}$ NE $\frac{1}{4}$); 22 acres in (SW $\frac{1}{4}$ NE $\frac{1}{4}$), (6 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$); 10 acres in NW $\frac{1}{4}$ SE $\frac{1}{4}$. This is all irrigated to produce an artificial irrigation crop of pasture and hay meadow. Domestic species of grass and hay have been introduced here to improve the meadow land and carrying capacity. All improvements have been made as a direct result of this use. These consist of diversion dam, ditches, planting of grass and irrigation along with the surface irrigation spreader system.

19374

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. In my opinion the 44 inches applied on the acreage would be the minimum amount which could be used for the purpose of irrigation and agriculture.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. This permit was originally made by Katie Ratliff, assigned to Ethel Coig and still later assigned to me. Ownership acquired through proper assignment through Dept. of Reclamation.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Waters have been diverted in the amount of 44 inches beginning in the early spring, April 1 and continuing through the entire irrigation system during the years of 1953 and 1954.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. To my knowledge, no other waters permitted have been diverted and applied to beneficial use on these lands.

(Sign)

William J. Tindall

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada,

State of Idaho, on this 20 day of August, A. D. 1954,

Harley W. McDowell
Notary Public for the State of Idaho

My commission expires 10/11/55

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 19374

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is William P. Strickland; age, 70; residence, 3 miles south of Bruneau, Idaho; occupation, farming and livestock; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with William I. Tindall, the holder of Permit No 19374? How long have you known him and where does he reside?

Ans. I have known him all his life and that he now resides 8 miles south of Grasmere, Idaho.

Ques. 3. Have you read or heard read said Permit No 19374, and are you familiar with its provisions and conditions?

Ans Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans The source of this water is from Bull Ck. and a spring immediately adjacent thereto; place of diversion is NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, T15S-R4E, B.M. Works consist of a small diversion dam (3 ft. high, about 10' across made of rock and earth) and approx. 1/2 to 3/4 mile of diversion ditch which has 4' top, 1 $\frac{1}{2}$ ' deep and 2' bottom, this along with the small spreader ditches is capable of conveying all the water from the point of diversion to the place of use.

Ques 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

I estimate these works will safely conduct 50 miner's inches or more and I have seen
Ans at least 44 miner's inches of this water conveyed from the diversion to the place of use.

Ques. 6 State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use

Ans. The purpose of this water is for agriculture and place of use as follows: NW $\frac{1}{4}$ NE $\frac{1}{4}$, 6 acres; 22 acres SW $\frac{1}{4}$ NE $\frac{1}{4}$, 22 acres; 6 acres, SE $\frac{1}{4}$ NE $\frac{1}{4}$; NW $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres. This is a good grass and wild hay meadow along with cultivated species which have been seeded into the area. All of the improvements have been made as a direct result of this use and consist of the diversion and distribution ditches, planting of seed, production for agriculture.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is a lava ash soil, very productive and after being reclaimed and irrigated this water is very productive for meadow land, hay and irrigated pasture. I believe that at least a miner's inch per acre is necessary for profitable cultivation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in these works or the water above mentioned.

Ques 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I own land immediately adjacent and have seen this project since it was first developed and many years before. I see it almost every day during the spring, summer and fall seasons when work is being carried on.

(Signed) William R. Strickland

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise,
County of Ada, State of Idaho, on this 20 day of August,
A. D. 19 54.

BOISE, IDAHO

PERMIT NO. 19374

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Earl L. Graham; age, 34; residence, Bruneau, Idaho; occupation, farming and livestock production; postoffice address, Bruneau, Idaho.

Ques. 2. Are you acquainted with William I. Tindall, the holder of Permit No 19374? How long have you known him and where does he reside?

Ans. I have known him for over 20 years and know that he now resides 8 miles south of Granger, Idaho.

Ques 3 Have you read or heard read said Permit No 19374, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans. Source of water supply, Bull Cr. and a spring adjacent; place of diversion, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 26, T 15 S - R 4 E, B.M. Works are: small diversion dam 3 ft. high, 10' across; 1/2 to 3/4 mile of diversion ditch with 4' top, 2' bottom, 1 1/2' depth. Small spreader ditches are also in place and complete the works for conveying water from pt. of diversion to place of use.

Ques. 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate 50 Miner's inches and have seen 44 being so conveyed.

Ques 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is for irrigation and agriculture. Place of use: NW $\frac{1}{4}$ NE $\frac{1}{4}$, 6 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$, 22 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 6 acres; NW $\frac{1}{4}$ SE $\frac{1}{4}$, 10 acres. There is good grass and wild hay meadow and some domestic species of grass and hay have been seeded into the area. All improvements are as a direct result of this use as described above.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of land is lava ash and I estimate the amount of water required for its profitable cultivation to be at least 1 miner's inch per acre.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No, I have not.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have known Mr. Tindall over a long period of years and have had frequent occasion to visit this place and see its development.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 20th day of August, 1954,
at Boise, County of Ada, State of Idaho, before
Harley M. McDowell, Notary Public,
application to beneficial use of 1 cubic feet per second of the waters of Bull Creek
in accordance with the terms and conditions of Permit No. 19374
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

William I. Tindall - Grasmere, Idaho

The use to which said water has been applied is 1 cubic ft. per second. irrigation.

The amount applied to beneficial use is one cubic foot per second
~~SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 26, T 15 S - R 4 E, B.M.~~
1 cubic ft. per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)

SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 26, T 15 S - R 4 E, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is _____

private ditch

The right to take water from such works is based upon Permit No. 19374

The source of supply from which such water is diverted is Bull Creek.

The date of priority which said user is prepared to establish is August 20, 1943

MARK R. KULP

State Reclamation Engineer.

September 1, 1953

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 19374. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than November 7, 1953, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

Permit No. 19374

STATE OF IDAHO
Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of Ada

ss.

ETHEL COIG, being first duly sworn, upon his oath deposes and says:

First: That she is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 19374, and that his postoffice address is Bruneau, State of Idaho.

Second: That the name of the stream/which said water is to be diverted is Bull Creek.

Third: That the point of diversion of said water is the northwest quarter of the southeast quarter of Sec. 26, Twp. 15 S., R. 4 E. B.M., Owyhee Co., Idaho.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by November 7, 1947.

Fifth: That the use for which said water is intended is irrigation and domestic.

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(not yet completed)~~ fully completed and consisted of the following:

I. Kind of works: ditch
(Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam (none) feet, length of dam at top feet, length of dam at bottom feet. Material used in construction.

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width 2 feet, height 2 feet.

(d) Conduit Ditch width at bottom 2 feet, width at water line 2 1/2 feet, depth of water 1 feet; diameter of pipe inches, average grade per mile is 15 feet. Length of conduit is 1/2 miles.

Seventh: That said works are capable of conducting to the place of intended use one second feet of water.

Eighth: That water appropriated under said permit is available for forty acres of land described as follows:

The southwest quarter of the northeast quarter (20 acres), and the northwest quarter of the southeast quarter (20 acres), all in Section 26, Township 15 South, Range 4 East, B.M., Owyhee County, State of Idaho.

Ninth: Remarks: That

Ethel Coig

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Ethel Coig

Bruneau, Idaho

Boise, Idaho **September 8, 1947**

Dear ~~Sir~~:- Madam:

Under the terms of your permit No. **19374**-----you are required to complete your diversion works on or before **November 7, 1947**.... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KOLP

State Reclamation Engineer
