APPLICATION FOR AMENDMENT

TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, No. 11282.

Comes now Fay A. Black, and represents to the Commissioner of Reclamation of the State of Idaho,

That she is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 11282, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows: South Half of North East Quarter (SE 1/4) of Section Twenty seven (27) Township Seven (7) South of Range Four (4) East of Boise Meridian; said land having been erroneously described in the original application as South Half of Southeast Quarter (SE 1/4) of said section, making a total of 80 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by said change.

Signed at Boise, this 21st day of June, 1920.

Fay Black Lahtinen, being first duly sworn, upon her oath deposes and says:

That she is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 11282.

That she intends to change the point of diversion, as described in said decree or permit, to the following described point:

Near the northeast part of SE $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 28, T. 7 S., R. 4 E., B.M.

That such change will be made for the following reasons, to-wit:
To avoid any further conflicts or disputes with other water users of the creek.

Mr. Lawson denies that any such arrangement or agreement was made as that claimed under "Remarks" on permit No. 11282.

That no one will be injured by such change and that deponent will make such change at his own risk.

And further deponent saith not.

Ques. 2. Are you acquainted with Fay Black Lahtinen, the

holder of Permit No. 11282? How long have you known him and where does he reside?

Ans. Yes; ten years; Bruneau, Idaho

Ques. 3. Have you read or heard read said Permit No. 11282, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Wickahoney fork of Dry Creek; NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 27; main ditch of earth and rock

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.6 cubic feet has been applied under my observation

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation; 20 acres in SE $\frac{1}{4}$ NE $\frac{1}{4}$ and 3 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$ of said section; it is all irrigated and cultivated land. Alfalfa and grain in a mixed crop looks mighty good.

11282

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for profitable irrigation.

Ans. Sandy loam; 1.6 cubic feet

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. The interest which attaches to one who has charge of the work of making it a ranch. Claimant is my wife.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. March, April and May annually, during which an aggregate of 23 acres of land is cultivated and irrigated by myself

Dear Madam:

Your letter of April 30 received,
with notices for proof of use of water under
the above permit. In checking these with the
record of the permit we find the date of prior-
ity correct, May 25, 1916. One copy of the notice
has today been mailed to the Owyhee Nugget, at Bruneau,
for the required publication prior to June 9, the date
set for proof. Deposition blanks will be mailed to
the notary public later.

Dear Madam:-

Replying to your letter of the 17th would say proof of beneficial use of the water has not been made under the above permit. The proof of completion of works was made, the permit reinstated and the certificate issued, but the proof of use of the water was not made at that time. I am accordingly enclosing herewith blank notices for such proof. Notice of this proof is required to be advertised for a period of four weeks prior to the date set for making the proof, and the depositions of the holder and two witnesses submitted.

Dear Sirs:

This is in regard to
water permit 11282.

In May 1922 I obtained
permission to change
the point of diversion
on the main creek
and to construct
another ditch.

The purpose of completion
of works and of the
beneficial use of the
water was made
on the old point of
diversion.

No new use made -

We have now finished the new ditch and have used water thru it for about a month. Is it necessary that we make another proof of the completion of the work and usage of the water? I mean must we "prove up" on this second ditch?

Our desert entry must be proved in July. What are the necessary steps in the proof of the water before we can prove up the land? -

Application For Amendment

To Permit to appropriate the Public Waters
of the State of Idaho, No. 11282

Comes now Jay A. Black and represents to the Commissioner
of Reclamation of the State of Idaho,

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho,
No. 11282, and requests that the list of lands to be irrigated, as described in said permit, be changed
to read as follows:

South Half of North East Quarter (S¹/2 NE¹/4)
of Section 36, Township 7N, Range 12E, Boise
Meridian, said land having been erroneously
described in the original application as South
Half of Southeast Quarter (S¹/2 SE¹/4) of said Section.

making a total of 80 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely
affected by such change.

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT

Section 2255 of the Revised Codes provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me

and correctly shows position of points indicated thereon.

December 3, 1918.

Dear Sir:—

Under the terms of your permit No. **11282**-----, you are required to complete your diversion works on or before **March 6, 1919**----- I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

FRED A. WILKIE,

State Engineer.

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
 No. 11282

Under the terms and conditions of said permit, construction work thereunder was required to be
 completed by December 19 _____, 1915.

That he has heretofore performed the following work described under said permit: the appli-
cation for permit No. 11282, under remarks, states- "Applicant has
arranged to use same point of diversion and same ditch described in
Permit No. 11059, the owners thereof being Oliver R. Lawson, Effie A.
Tate and C. L. Hurless." That the time given under said permit No. 11059
to complete works is March 6, 1919, and this applicant cannot complete
work under permit No. 11282 prior to completion of work under permit
11059.

THAT he is unable to complete the remainder of the work within the required time, for the follow-
 ing reasons, to-wit:

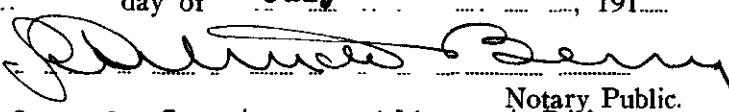

Because the ditch to be used is owned by said Lawson, Tate and Hurless
and under their said permit No. 11059 the work on their ditch is not
to be completed prior to March 6, 1919

WHEREFORE, He asks that the State Engineer extend the time for the completion of construc-
 tion work under said permit, to March 6, 1919, the time fixed for completion of
work under permit No. 11059.

STATE ENGINEER'S OFFICE.

*Rules and Regulations for Extension of Time for
Construction of Work Under Permit.*

House Bill No. 123 approved March 9th, 1911, provides that, where the State Engineer has limited time for completion of construction of necessary works under a permit to appropriate the public waters, to less than five years, he may, for good cause shown, extend such time as he may deem necessary.

To obtain such extension of time, the permit holder should fill out and file with the State Engineer two copies of the affidavit found upon the reverse side of this sheet.
