Dear sir:

This will acknowledge receipt of your deposition and that of your witness' on proof of application of water to beneficial use.

Under question "6" you described the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 5, Twp. 15 South, Range 6 East, B. M. as being part of your land under cultivation and irrigation. Our records do not show this forty as being described in the permit issued, but do show the SE $\frac{1}{4}$ SW $\frac{1}{4}$, said section, township and range.

If you desire to use the water on the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 5, it will be necessary to make application to amend the permit.

Kindly advise.

Gentlemen: Fred Roberson requests me to write in reply to yours of the 12th inst., wherein error in reply to question "6" in his proof of application of water to beneficial use is pointed out, specifically calling attention to the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 5, T.15 S., R.6 E., as not showing in the permit issued as land under cultivation, and to say that this is error, which should read SE $\frac{1}{4}$ SW $\frac{1}{4}$ of said section, township and range, with the request that the correction be made to conform with the record; that he does not desire to amend his application to include the forty erroneously described in the proof of himself and witnesses.

I am enclosing his letter to me and a rude diagram, initself leaving something more to be desired; but the intent of the writer is perhaps clear.

Tindally, Idaho.

Dear sir:

This will acknowledge receipt of your deposition and that of your witness' on proof of application of water to beneficial use.

Under question "6" you described the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 5, Twp. 15 South, Range 6 East, B. M. as being part of your land under cultivation and irrigation. Our records do not show this forty as being described in the permit issued, but do show the SE $\frac{1}{4}$ SW $\frac{1}{4}$, said section, township and range.

If you desire to use the water on the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 5, it will be necessary to make application to amend the permit.

Kindly advise.

Yours very truly,
W. G. Swendsen,
Commissioner of
Reclamation.

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred B. Hall, 38 years, stockman, Bruneau, Idaho

Ques. 2. Are you acquainted with Fred Roberson, the holder of Permit No. 10980? How long have you known him and where does he reside?

Ans. Yes; 25 years; Tindall, Idaho

Ques. 3. Have you read or heard read said Permit No. 10980, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Sheep Creek; SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 6; SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6, and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 5, T.15 S., R.6 E., B.M.--3 points of diversion known as Nos. 1, 2 and 3. Each has a rock dam, with headgates and ditches carrying the water to the points where spread over the land irrigated

Ques. 5. How many second-feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I should say that the works will carry at least 30 inches of water; I believe I've seen that much going through

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

It irrigates 2 acres in SE $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres in SW $\frac{1}{4}$ SE $\frac{1}{4}$, 3 acres in SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 6; 10 acres in NW $\frac{1}{4}$ SW $\frac{1}{4}$, 3 acres in NE $\frac{1}{4}$ SW $\frac{1}{4}$, 1 acre in SW $\frac{1}{4}$ SW $\frac{1}{4}$ & 1 acre in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 5; it's all cultivated land

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. only for irrigation

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is a sandy loam and requires a full inch of water to the acre for its proper cultivation

10980

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I've seen the application of water since claimant first began living there--about 10 years, which includes the present year, irrigating the land, perhaps 30 acres all told have been under irrigation at once; I've seen that much I believe.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Fred Roberson,

Tindall, Idaho.

Boise, Idaho, **November 3rd, 1916.**

Dear Sir:

Under the terms of your Permit No. **10980**---, you are required to complete your diversion works on or before ~~February 13, 1917~~---. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
