

REPORT OF ENGINEER

This proof is for Beneficial Use....

In Water District No. 57-C
L4.

Duck Valley Irrigation Co.-Permit 1173.

1. State name of applicant and number of permit: Duck Valley Irrigation Co. 414
2. State source of water supply: Alder Springs and Mary's Creek
3. Location of point of diversion: N. 87° 02' W. 1392' from SE Cor. Sec. 8-153-4E.
4. Describe works as they exist, giving dimensions and capacities of same:
Reservoir length 98 ft; height 23 ft; at bottom 130 ft wide; at top 12 ft. Co.
Capacity 1440 acre feet. Continuous flow 28.6 second feet.
Main ditch 8 1/2 miles into Squaw Creek thence by laterals to lands.
(Details in map)

5. State whether or not water has been turned into works of diversion:

YOE

5. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):
- 80 acres 80 ac 80a 40 a 80a 80a
 132nd Sec. 5; 81 Sec. 8; 81 1/2 Sec. 16; N 1/2, SW 1/4, W 1/2, E 1/2, NE 1/4,
 SW 1/4 Sec. 19; 81 1/2 Sec. 19; All 1/4, 20; 81 1/2, NE 1/4, SW 1/4, Sec. 21;
 NE Sec. 29; NE Sec. 30, Twp. 35 S., R. 3 E., B.M.

7. Submit map on enclosed plat, showing location and details of above description.

3. How many parties conduct water in this system?

Six

9. Give names and amount of each right: Geo. E. Dille 200 shares; Harry S. Riddle 100 shares; Grant Riddle 100 shares; Frank W. Riddle 100 shares; J.A. Savell 100 shares; Barbara Stone 100 shares

10. What large stream would the water here appropriated finally reach? None

11. Describe the various tributaries en route, from point of diversion to the principal drainage

Remarks: Excellent work in constructing the entire system. Ditches
very close to of doubt. Irrigated flood areas, taking water out of
ditches at any point so as to cover land.

REPORT OF ENGINEER

This proof is for Beneficial Use

In Water District No. 57-C

Duck Valley Irrigation Co.-Permit 1173.

1. State name of applicant and number of permit: Duck Valley Irrigation Co. 1000
2. State source of water supply: Alder Springs and Mary's Creek
3. Location of point of diversion: N. 87° 02' W. 1392' from SE Cor. Sec. 8-158-4E.
4. Describe works as they exist, giving dimensions and capacities of same:
Reservoir length 15' ft; height 23 ft; at bottom 120 ft wide; at top 120 ft. Ca.
Capacity 1400 acre feet. Continuous flow 28.6 second feet.
Main ditch 5 1/2 miles into Squaw Creek thence by laterals to lands.
(Details in map)

5. State whether or not water has been turned into works of diversion:

5. Give exact location of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if for other than irrigation):
- 80 Sec. 16; SW 1/4 Sec. 17; S 1/2 Sec. 19; All 1/4 Sec. 20; S 1/2 NW 1/4, SW 1/4, W 1/4 Sec. 21; NE 1/4 Sec. 29; NE 1/4 Sec. 30, Twp. 15 N., R. 4 E., P.M.

7. Submit map on enclosed plat, showing location and details of above description.

3. How many parties conduct water in this system?

\$1x\$

8. Give names and amount of each right: Geo Riddle 200 shares; Harry S. Riddle 100 shares; Grant Riddle 100 shares; Frank W. Riddle 100 shares; J... Sewell 100 shares; Barbara Stone 100 shares

10. What large stream would the water here appropriated finally reach? None

11. Describe the various tributaries en route, from point of diversion to the principal drainage stream:

Remarks: Excellent work in constructing the entire system. Deserve every benefit of doubt. Irrigated flood waste, taking water out of ditches at any point so as to cover land.

Permit 1372

Instructions to Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plot same.
3. Pick out how many parties own right to the ditch or canal and give their names and amount of right.
4. When present in for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plot same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Permit No.

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address,

Ans. Bess Slack; 58; Riddle; stockman; Riddle, IdahoQues. 2. Are you acquainted with Frank W. Riddle, the holder of Permit No. 1173? How long have you known him and where does he reside?Ans. Yes; 30 years; Riddle, IdahoQues. 3. Have you read or heard read said Permit No. 1173, and are you familiar with its provisions and conditions?Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Alder Springs, Marys Creek and Reservoir; N 87 de. 2' W 1392 ft from SE corner Sec. 8., T. 15 S., R. 4 E., B.M.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 28.8 cubic feet, which I have so seen conveyed

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. N $\frac{1}{2}$ Sec. 29, N $\frac{1}{2}$ Sec. 30, E $\frac{1}{2}$ Sec. 19, all Sec. 20, W $\frac{1}{2}$ Sec. 21, SW $\frac{1}{4}$, E $\frac{1}{4}$ SE $\frac{1}{4}$, W $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 17, E $\frac{1}{2}$ Sec. 8, S $\frac{1}{4}$ NE $\frac{1}{4}$, W $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, S $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 5, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18, T. 14 S., R. 3 E. B.M. Cultivated land

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam; an inch of water to the acre

1173

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

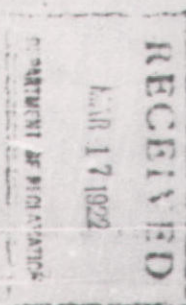

Ans. Since 1913 I have annually seen during the irrigation seasons—May, June, July and August—all the water which the terms of the permit allow

(Sign) R. Slack

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Bruneau, County of Owyhee, State of Idaho, on this Idaho day of June, A. D. 1922.

Cultivated land.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam; inch of water per acre

1173

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During all the irrigation seasons from 1913 to the present time, and all the water which is granted in the permit

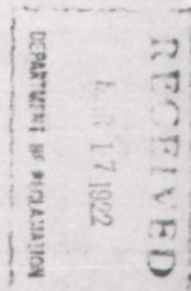

(Sign)

John J. Brochman

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Bruneau, County of Cayuse, State of Idaho, on this 15th day of March, A. D. 19 22

Charles Pearson
Notary Public.

My commission expires June 27th, 1923

PERMIT NO. 1173

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Frank W. Riddle; 63; Riddle; stockraiser; Riddle, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Duck Valley Irrigation Co., Ltd.; Riddle, Idaho; Secretary; authority of
Pres. George C. Riddle; V. Pres. J. A. Sewell, Riddle, Idaho

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 1173; March 22, 1905; March 22, 1913

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Alder Springs, Marys Creek and Reservoir; N 87 deg. 2' W 1392 ft from
SE corner Sec. 8, T. 14 S., R. 5 E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Dam in Marys Creek of earth and rock diverting water through a cement gate wing 55 ft
controlled by a wooden gate 5x6 ft. into a ditch 6 ft wide on bottom, 10 ft wide
on top, $\frac{1}{2}$ in. grade to the head, conveying water to a reservoir $1\frac{1}{2}$ miles, thence
to land by means of canal and laterals

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivate or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Irrigation. N $\frac{1}{2}$ Sec. 29, N $\frac{1}{2}$ Sec. 30, E $\frac{1}{2}$ Sec. 19, All Sec. 20, W $\frac{1}{2}$ Sec. 21,
SW $\frac{1}{4}$, W $\frac{1}{2}$ Sec. 21, W $\frac{1}{2}$ Sec. 17, E $\frac{1}{2}$ Sec. 8, S $\frac{1}{2}$ Sec. 21, S $\frac{1}{2}$ Sec. 5,
SE $\frac{1}{4}$ Sec. 18, T. 14 S., R. 5 E., B.M. Cultivated land

Ques. 7. If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. Irrigation only

Ques. 8. What is the minimum amount of water required for the specified above?

Ans. All the water granted by the terms of the permit

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the corporation's representative

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. During the irrigation seasons annually since the year 1913; all the water has been continuously applied.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and right claimed thereunder.

Ans. From the beginning all of the water of Squaw Creek is picked up and conducted onto the land by canal and laterals. Squaw Creek water is sporadic, and hence is difficult to estimate in any unit of measurement.

(Sign)

Francis Riddle

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me at my office in Bruneau County of Owyhee State of Idaho, on this 15th day of March A. NOTICE FOR PUBLICATION

NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 a. m. on the 15th day of March, 1922,
at Bruneau, County of Owyhee, State of Idaho,
before Charles Pascoe, Notary Public, proof will be submitted
of the application to beneficial use of 28.8 cubic feet per second of the
waters of Alder Springs and Mary's Creek in accordance with the terms and conditions of
Permit No. 1173 heretofore issued by the State Engineer
of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Duck
Ltd.
Valley Irrigation Co., Riddle, Idaho

The use to which said water has been applied is Irrigation

The amount applied to beneficial use is 28.8 Cubic Feet

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) All or part of every legal subdivision following: Sec. 5
S1/4; Sec. 8. E1/4; Sec. 16. S1/4SW1/4; Sec. 17. N1/4NE1/4, SW1/4, W1/4; S1/4SW1/4
S1/4SW1/4; Sec. 19. S1/4NE1/4, S1/4; Sec. 20. All; Sec. 21. S1/4NE1/4, N1/4; SW1/4; W1/4
Sec. 29. N1/4; Sec. 30 N1/4, Twp. 13, S., R. 4 E., S.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use
is Duck Valley Irrigation Company, Ltd.
Ditch

The right to take water from such works is based upon Permit No. 1173

The source of supply from which such water is diverted is Alder Springs and Mary's
Creek and Reservoir

The date of the priority which said user is prepared to establish is March 22, 1913

W. G. Swanson,

Commissioner of Reclamation.

1173

Report of Engineer

1. State name of applicant and number of permit: Duck Valley Irrigation Co.-Permit 1173
 2. State source of water supply: Mary's Creek & Alder Springs
 3. Location of point of diversion: N. 67° 02' W. 1392' from SE corner Sec. 8, Tp. 15 S., R. 4 E.

4. State whether or not the works of diversion are fully completed and in accordance with terms of permit: *Yes*

5. Describe works as they exist, giving dimensions of same as follows: *Headgate 8' x 3'*

- (a) Width of conduit at bottom: *4 Feet*
 (b) Width at water line: *5 Feet*
 (c) Depth of water: *2 Feet*
 (d) Grade per mile: *12 Feet*

6. State whether or not water has been turned into works of diversion and if so, to what extent:

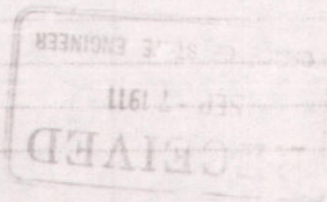

Yes
Ditch has carried 20 to 30 cubic feet water since completion

7. Give exact location of lands to be irrigated. Give exact number of acres under cultivation in each forty acre tract:

Sections 5, 6, 7, 8, 17, 18, 19, 20 and 21
Tp 14 S 38 E, M.

8. Submit map on enclosed plat, source of supply, point of diversion, route of ditch or ditches and cross hatch lands to be irrigated.

Remarks:

CKnight

STATE OF IDAHO,

County of

J.C. Knight being first duly sworn, deposes and says that the statements contained in the within report are correct to the best of his knowledge and belief.

Subscribed and sworn to before me this *7th* day of *Sept* 19*11*.

My Commission Expires *2/23/13*

Elana M. Brown
 Notary Public.

1173

The Depositions of two Witnesses, in this form, taken separately, required in each case.

PERMIT No. 1173

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Frederick F. Belknap, 28 yrs old, Laboon,
P.O. Riddle, Blaine Co. Idaho

Ques. 2. Are you acquainted with Duck Valley Irrigation Co., the

holder of Permit No. 1173, authorizing the diversion of 2 1/2 second-feet of the waters of

Menas Creek and Alder Springs N 87° 02', N 139 1/2 ft from

for irrigation of domestic purposes? How long have you known him, and where does he reside?

Ans. Yes. I have known them 10 yrs. They are residents of
Riddle Idaho

Ques. 3. Have you read or heard read said Permit No. , and are you familiar with its terms and conditions?

Ans. Yes. I am acquainted with its terms and conditions

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Yes. I am acquainted with the land. It is situated in T 14 S. R. E. S. M. Sandy loam desert land amount for profitable cultivation about 3 1/2 in to three

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

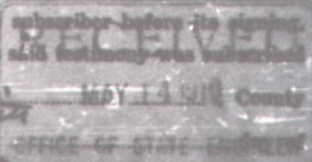

Ans. Canal 6 ft on bottom, 3 ft bank, 13 ft water line. The capacity is 28 cubic ft per second. Also a reservoir covering 124 acres, by a dam 95 ft long 16 ft 5 inches high, 80 wide on bottom and 10 ft wide in top

(Sign here.) Fred F. Belknap

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

Blaine County, State of Idaho, on this 6th

Work examined
Dec. 9th 1909.

Notice of Proof of Completion of Works.

(This blank must be filled out by holder of permit and forwarded by registered mail to the State Engineer at least 60 days before the time set for completion of works.)

(P. O.) Riddle, Idaho.

(Date) January 18, 1910.

TO THE STATE ENGINEER OF THE STATE OF IDAHO, BOISE, IDAHO:

DEAR SIR: Notice is hereby given that at 2 P.M. on the 22nd day of March 1910 at Stickahoney County of Dwyer State of Idaho, before Now Running proof will be submitted of the completion of works for the diversion of 2.8 cubic feet per second of the waters of Mary's Creek, & Alder Springs. in accordance with the terms and conditions of a certain permit heretofore issued by the State Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Duck Valley Irrigation Co. Ltd.
2. The postoffice address of such person or the place of business of such corporation is Riddle, County of Dwyer State of Idaho.
3. The number of such permit is 1173 and the date set for the completion of such work is March 22-1910.
4. Said water to be used for Irrigation purposes.
5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is Twenty-eight cubic feet per second.
6. The amount of lands for which said water is available is 212.0 acres, particularly described as follows: SE 1/4 and E 1/2 SW 1/4, Sec. 1; W 1/2 SW 1/4 and SE 1/4 SW 1/4 Sec. 4; all of Sec. 5; E 1/2 of Sec. 18; all of Sec. 17; W 1/2 of Sec. 16; W 1/2 NE 1/4 and W 1/2 SE 1/4 Sec. 21; W 1/2 of Sec. 21; all of Sec. 20; all of Sec. 19; all of Sec. 30; all of Section 29, all in T. 14 S Range 3 E. 73. M.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well known and competent engineer.)

I hereby certify that the facts set forth in the above notice are true.

Engineer.

I desire that the above notice be published, according to law, in the Silver City Nugget of Dwyer Co. published in the county in which said works are situated; the expense of which publication will be borne by Duck Valley Irrigation Co.

SUPPLEMENTAL REPORT Oct. 1st 1961

An examination of the Marys Creek Dam (locally known as the Alder Dam) was made by Mr. E. N. Humphrey and the undersigned upon the above date, at which time repairs were being made to the original structure.

The dam was being widened and raised, and the old outlet pipe replaced by a 30 inch corrugated designed for slope type gate control.

Two Cat and Carryall were in use, the fill material being obtained a short distance below the dam; It was noted in this connection that the borrow pit material was in a very dry condition, was not being plowed or broken up ahead of the Carryalls, thus the Cats were compelled to pull in a zig zag course in order to make any progress in the dry material.

The material thus scraped was not being watered in the fill, and compaction was done by traveling equipment; The backfill material over the new pipe was of a darker, and more pure type of gumbo which was in hard chunks of up to several inches in diameter, with considerable atmosphere between said chunks.

One of the equipment operators was asked about this type of compaction, and he stated in effect that it became solid a little way from the surface. He also stated that there was one cutoff wall or collar around the outlet pipe, that being at a distance of twenty feet from the headgate.

Mr. Earl Riddle, the principal owner stated that a constant watch is maintained at the dam during the runoff season, and under the circumstances appears to be a good idea.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Permit File # 1173

MEMORANDUM

October 2, 1951

Subject Alder Creek Dam

File

This is an off stream dam taking water from ^{North} Alder Creek. Storage capacity is quite large. If failure occurred, the water would flow down the Branesu River, into the Snake River.

This dam is being enlarged and increased in height this year. A cut has been made through the center of the dam, and a 30 inch diameter culvert with riprap pipe put in. A concrete head wall will be installed in both inlet and outlet. We were unable to determine how well the fill had been keyed into the old bank. The dam is being finished in two sections, the East end having been done first. It has been well riprapped. Work is not yet completed, but there appears to be some rather large voids in the gumbo clay that is going into the central portion of the dam.

There is no spillway at the dam. Mr. Riddle says that the water is spilled at the upper end on intake of the dam, and that a party is stationed at the dam all during the season that the dam is filling and being used. Mr. Riddle states that there is considerable water in Alder Creek, and that the dam is actually filled 2 or 3 times during the summer and immediately used out again. This dam has rather large capacity, holding probably from 700 to 1000 acre feet of water.

E. W. Humphrey

RE: PERMITS NOS. 5512, 8905, 1173, 16723

December 12, 1932

Blue Creek Land & Livestock Co.
Elko, Nevada

Attention: Mr. Gedney

Dear Mr. Gedney:

Acting upon your request to check up on the status of your water rights upon Big Blue Creek, Little Blue Creek, Indian Creek, and Alder Spring and Marys Creek, I find as follows:

Permit No. 5512 has license bearing the same number for 18.7 second feet of the waters of Blue Creek with date of priority of November 30, 1906. Permit No. 8905 has a license for 18.5 second feet of the waters of Blue Creek with priority of November 15, 1912. Neither of these filings give the location of any dam. The former, however, does describe the structure, but names the point of diversion several miles below the point where the dam is situated.

Permit No. 8905, also for the waters of Blue Creek, makes no mention of any reservoir, and names the same point of diversion as Permit No. 5512, with license for 19.5 second feet. There are, however, approved plans of these dams which do give the location of the reservoirs and dams. The plans for the Big Blue Creek dam were approved October 5, 1905, and those for the dam on Little Blue Creek were approved May 22, 1905.

Plans for the Buck Valley Irrigation dam were approved November 28, 1904.

Permit No. 1173 for the waters of Alder Spring and Marys Creek received a license for 26.8 second feet, with a priority date of March 11, 1913. Permit No. 16723 for the waters of Indian Creek has been given field examination, and will receive later the license to which it is entitled.

Trust this information may be of value to you, I am,

Very truly yours,

Field Engineer

NOTICE FOR PUBLICATION
Notice of Proof of Application for Water
for Beneficial Use

Notice is hereby given that at 10 a.m. on the 15th day of March, 1922, at Bruneau, County of Owyhee, State of Idaho, before Charles Pascoe, Notary Public, will be submitted of application to beneficial use of 28.8 cu. feet per second of the waters of Alder Springs and Mary's Creek in accordance with the terms and conditions of Permit No. 1173 heretofore issued by the State Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are: Duck Valley Irrigation Co., Ltd., Riddle, Idaho.

The uses to which said water has been applied is irrigation.

The amount applied to beneficial use is 28.8 cubic feet.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated). All or part of every legal subdivision following: Section 5, S1/2SE1/4; Sec. 10, S1/2; Section 14, S1/2SW1/4; Section 17, N1/2NE1/4, SW1/4NE1/4, SE1/4SE1/4, T1/2SW1/4, SW1/4SW1/4; Section 19, S1/2NE1/4, SE1/4; Section 20, all; Section 21, S1/2NE1/4, NW1/4, SW1/4, W1/2SE1/4; Section 23, N1/2; Section 24, N1/2; Township 14 North, Range 2 East, T. 14 N., R. 2 E.

The name of the canal, ditch, or other works by which said water is conducted to each place of use is Duck Valley Irrigation Company, Ltd.

The right to take water from said works is based upon Permit No. 1173.

The source of supply from which said water is derived is Alder Springs and Mary's Creek and Reservoir.

The date of the priority which said user is prepared to establish is March 2, 1910.

INSTRUCTIONS
PROOF OF BENEFICIAL USE

BOISE, IDAHO,

March 3, 1922.

Duck Valley Irrigation Co.,

c/o Mr. Charles Pascoe,

Bruneau, Idaho.

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of application of water to beneficial use under Permit No. 1173

DEPOSITION OF PERMIT HOLDER.

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On March 15, 1922, the date set for the proof of application of water to beneficial use, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to at Bruneau, before Charles Pascoe, notary public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice. When these have been received, together with report of examining engineer, you will be further advised as to fees due before issuing license.

Yours truly,

W. G. SWENDSEN,

Commissioner of Reclamation.

1173
February 21, 1922.

Re: Permit 1173. Duck Valley Irr. Co.

Mr. Charles F. Scoe,
Brunesi, Idaho.

Dear Sir:-
Replying to yours of the 20th would say that the range
number should be changed to read 14.5 and not 15. This was an
error in making out the notice.

Very truly yours,

W. G. SWANSON,

Commissioner of Reclamation.

By

Chief Clerk.

Gentlemen:

The enclosed communication reached me this morning and is of course self-explanatory. Descriptions have been compared for the second and third time and are printed in the paper exactly as submitted to me from your office. Will you kindly advise me to change or not to change the township number from 15 to 14 S.? Even the writer may be in error, and I'd like to have your instruction at once, please.

Very truly yours

Charles Pascoe

1173

Riddle Idaho.
Feb. 16, 1922.

Mr. Charles Pascoe
U. S. Commissioner
Bureau Ida.

Sir - In your advertisement of the
Beneficial Use of Water for the
Ruck Valley Irrigation Co., Ltd.
there is an error in the description
of location of the land.
The land is in Township
14 S. Range 3 E. As the diversion
point is in Township 15 S. Range 4 E
probably this is the reason of the
mistake.

Yours Respectfully
N. V. I. Co. Ltd.

INSTRUCTIONS.

Proof of Completion of Works

Boise, Idaho,

January 27, 1910.

Duck Valley Irrigation Co.
Dow Dunning,
Dear Starbuck, Idaho.

I enclose herewith the following forms to be used in connection with
proof of completion of works under your permit No. 1173.

Deposition of Permit Holder.

Depositions of Two Witnesses.

In submitting this proof the following instructions should be
CAREFULLY followed out, since failure to do so may result in the loss of
your rights:

1. On the date set for proof of completion of
works, the enclosed deposition forms (one for permit holder and one each
two for witnesses) should be filled out and sworn to, at Starbuck,
Idaho.

2. When the depositions have been taken they should be mailed to
this office, together with affidavit of publication of notice and fee of
\$5.00. When these have been received, together with report of the exam-
ining engineer if everything is properly executed, Certificate of Completion
of Works will issue.

Yours truly,

JAS. STEPHENSON, JR.,

State Engineer.

State Engineer

INSTRUCTIONS

Proof of Completion of Works

Boise, Idaho, December 1, 1909

Snake Valley Irrigation Co., Ltd.,

Middle Idaho

Dear Sir:

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your Permit No. 1173

This form should be filled out and mailed to the State Engineer at least 60 days before the date upon which is to be submitted, which proof MUST be on or before March 22, 1910. Upon receipt of the blank, properly filled out, notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place, convenient to you and two witnesses, where there is a Notary Public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

JAS. STEPHENSON, Jr.,
State Engineer.

November 26, 1909.

Permit 1173

Frank W. Riddle, Secretary
Duck Valley Irrigation Co.,
Riddle, Idaho.

Sir:-

Am returning you herewith application for amendment of Permit
No. 1173, same having been duly recorded in connection with the permit
in this office. Please to remit fifty cents recording fees.

Very truly yours,

State Engineer.

Submitted and sworn to at Boise

Sept 23rd 1907

By J. Stephenson Jr
Idaho State Engineer

Boise, Idaho, August 28, 1907

Permit No. 1173.

Duck Valley Irrigation Co.,
Middle, Idaho.

Gentlemen:--

I would be pleased if you would kindly furnish me with an affidavit of the persons, who are constructing your canal, under permit 1173, showing the amount of work that has been done to the present time, how much land is being irrigated, if any. I wanted this for the reason that Mr. R. B. Stone, has applied for patent to his lands at the General Land Office. They require of me a certificate to the effect that the water right is exercised and that sufficient work has been done under the project to enable the company to make proof at the proper time.

Kindly furnish me with this as quickly as possible, so that I may certify the the General Land Office the conditions of the work under this permit.

Very truly yours,

State Engineer.

State of Idaho
License and Certificate of Water Right

Water License No. 1173
Water District No. 57-C

Amount 26.80 sec. ft.
Priority 3-11-13

THIS IS TO CERTIFY that Duck Valley Irrigation Company, Limited of Riddle, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated March 18, 1905; that Permit No. 1173 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 28 second feet, was issued thereunder on September 12, 1911, showing that said works were completed on the 22nd day of March, 1910, and that on the 15th day of March, 1922,

Duck Valley Irrigation Company, Limited

of Riddle, State of Idaho, made proof to the satisfaction of the Commissioner of Reclamation of Idaho, of the right to use the waters of Alder Springs & Mary's Creek, a tributary of --, for the purpose of irrigation & domestic use, under Use Permit No. 1173 of the State Engineer and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the Commissioner of Reclamation of Idaho and entered of record in Volume 6 of Licenses, at page 3038, on the 27th day of February, 1923;

The right hereby confirmed dates from March 11, 1913;

The Point of Diversion is located N. 87° 02' W. 139.2' from SE Corner in the 1/4, Sec. 8, Tp. 15 S., R. 4 E., B. M. County of Owyhee.

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 26.8 cubic feet per second. from Mary's Creek.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
14 S.	3 E.	5	S $\frac{1}{4}$ SE $\frac{1}{4}$	80	80
		16	S $\frac{1}{4}$ SW $\frac{1}{4}$	80	80

Ques. — Is for irrigable waste character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED

Q. Now, the water is used for
irrigation, is it not?
A. Yes.

Q. How much water is used for irrigation?
A. The water is used for irrigation.

A. Since 1913 I have annually seen during the irrigation seasons—May, June,
July and August—all the water which the terms of the permit allow

Rose Black

I, the undersigned, being a duly qualified Notary Public in and for the
State of Idaho, do hereby certify that the foregoing is a true and correct
copy of the original of the same as the same was presented to me for
recording and as the same was recorded in my office on the 27th day of
June, 1923.

Proof of Application of Water to Beneficial Use

DEPOSITION OF WITNESS

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John H. Crocheron; 45 years; Bruneau, Idaho; stockman; Bruneau, Idaho

Ques. 2. Are you acquainted with Frank W. Riddle the holder of Permit No. 1173? How long have you known him and where does he reside?

Ans. Yes; ten years; Riddle, Idaho

Ques. 3. Have you read or heard of the said Permit No. 1173 and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion and describe works for conveying water from point of diversion to place of use.

Ans. Alder Springs, Marys Creek and Reservoir, N 67 deg. 2' 1392 ft. from SE corner Sec. 8, T. 18 S., R. 4 E.

Ques. 5. How many cubic feet of water will said works will safely conduct to place of use in the minimum water flow being so conveyed?

Ans. 28.8 cubic feet; seen this volume conveyed

Ques. 6. State for what purpose water is used at the place of use for irrigation give a description of the works which water has been used and number of acres irrigated in each sub-division. State character of the land to be irrigated and the nature of all improvements that have been made on said lands for such use.

Ans. Irrigation. N $\frac{1}{2}$ Sec. 29, N $\frac{1}{2}$ Sec. 30, E $\frac{1}{2}$ Sec. 19, all Sec. 20, W $\frac{1}{2}$ Sec. 21, S $\frac{1}{2}$ Sec. 21, W $\frac{1}{2}$ Sec. 17, E $\frac{1}{2}$ Sec. 8, S $\frac{1}{2}$ Sec. 21, S $\frac{1}{2}$ Sec. 5, N $\frac{1}{2}$ Sec. 18, T. 14 S., R. 3 E., S. 1. Cultivated land.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Irrigation; lack of water for same

Ques 9. Have you any interest in the works, water or lands of the project
what way and to what extent?

Ans.

Ques 10. State when, how, in what amount and to what extent you have water used
application to beneficial use of water diverted under said permit

Ans. During all the irrigation season from 1911 to the present time, I have used
the water which is granted by the permit.

PERMIT NO 1175

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques 1 State your name, age, residence, occupation and postoffice address

Ans. Frank W. Riddle; 63; Riddle; stockraiser; Riddle, Idaho

Ques 2 If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf

Ans. Duck Valley Irrigation Co., Ltd.; Riddle, Idaho; Secretary; authority of
Pres. George C. Riddle; V. Pres. J. A. Sewall, Riddle, Idaho

Ques 3 State number and date of permit, and date of priority you propose to establish under the permit

Ans. 1175; March 22, 1905; March 22, 1913

Ques 4 State source of water supply and give exact location of point of diversion

Ans. Alder Springs, Marys Creek and Reservoir; N 87 deg. 2' W 1502 ft from
SE corner Sec. 8, T. 20 S., R. 9 E., S. 10.

Ques 5 Describe your works of diversion and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use

Ans. Dam in Marys Creek of earth and rock diverting water through a cement gate wing
controlled by a wooden gate 8x8 ft. into a ditch 6 ft wide on bottom, 10 ft wide
on top, 2 in. grade to the head, conveying water to a reservoir 1 1/2 miles, thence
to lands by means of canal and laterals

Ques 6 State for what purpose water is used and describe place of use (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water) State whether cultivate or natural meadow land and the nature of all improvement which have been made as a direct result of said use

Ans. Irrigation. E 1/2 Sec. 29, E 1/2 Sec. 30, E 1/2 Sec. 19, All Sec. 20, W 1/2 Sec. 21,
E 1/2 Sec. 22, E 1/2 Sec. 17, E 1/2 Sec. 8, E 1/2 Sec. 21, E 1/2 Sec. 2,
E 1/2 Sec. 20, T. 24 S., R. 9 E., S. 10. Cultivated land

Ques 7 If for other than for irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. Irrigation only

Ques 8 State the estimated amount of water required for the specified purpose?

Ans. 1000 acre feet per year for the purpose of the permit

Ques 9 State the estimated value of the water so applied to the land, and the estimated value of the land so irrigated?

Ques 10 State when the water was first used and how much of the water has been used

Ans During the irrigation seasons annually since the year 1918; all the water has been continuously applied.

Ques 11 State whether or not the water has been diverted under the mentioned permit have been diverted for any other purpose than the one mentioned and whether or not there are any other appropriations and right claims to the water.

Ans From the beginning all of the water of Squaw Creek is picked up and conducted onto the land by canal and laterals. Squaw Creek water is sporadic, and hence is difficult to estimate in any unit of measurement.

I, the undersigned, being a Notary Public in and for the State of Idaho, do hereby certify that I believe in the truth of the foregoing statements and that I believe in the truth of the statements made by the parties to the foregoing instrument.

APPLICATION FOR PERMIT

1618

To appropriate the Public Waters of the State of Idaho.

1. Name of applicant - DUCK VALLEY IRRIGATION CO., LTD.

Postoffice address: P. O. Riddle, Idaho.

County - Owyhee

I. If applicant is a corporation give

(a) Date and place of incorporation Jan. 16, 1901, Riddle, Idaho.

(b) The amount of capital stock \$700

(c) The amount paid in \$700.

(d) The names and addresses of directors Grant Riddle, A. W. Stone, H. S. Riddle, F. W. Riddle, R. B. Stone, and G. C. Riddle, all of Riddle, Ida.

II. The financial resources of the applicant are:

(a) Cash on hand \$6000

(d) Other resources Ranches, stock, etc. valued at \$20,000.

2. The quantity of water claimed is 2 sec. ft. continuous flow from Alder Springs, and the equivalent of 26.8 sec. ft. continuous flow from the surplus and flood waters of Mary's Creek.

3. Source of water supply - Alder Springs and Mary's Creek, Owyhee County.

4. Location of point of diversion N. 87° 02' W. 1392 ft. from S. E. cor. of Sec. 8, T. 15 N., R. 4 E. B. M.

5. To be used for:

I. Irrigation and domestic use:

(a) Number of acres to be irrigated 1440 acres.

(b) In the following legal subdivisions - SW4 NE4 Sec. 8; NW4 SE4 Sec. 8; S2 SE4 Sec. 8; SE4 SW4 Sec. 8; E2 NW4 Sec. 17; W2 NE4 Sec. 17; NE4 NE4 Sec. 17; N2 SW4 Sec. 17; SE4 Sec. 16; S2 NE4 Sec. 20; E2 SW4 Sec. 20; SE4 Sec. 20; NE4 Sec. 29; W2 Sec. 21; all of T. 14 S., R. 3 E. B. M.

6. Estimated cost of works - \$10,000

7. Description of Works for Diversion:

I. Kind of works - Dam, reservoir and ditches.

II. Dimensions of Works:

(a) Height of dam 18.8 feet, length of dam at top 953 feet, length of dam at bottom.....feet, material used in construction earth and loose stone.

(b) Capacity of reservoir 1240 acre-feet.

(c) Size of headgate diameter 20 inches.

(d) Ditch (flume or pipe) width at bottom 4 feet, width at water line 9 feet, depth of water 2.5 feet. Average grade per mile is 6.6 feet. Length of ditch is 6.1 miles, and it crosses the following quarter sections - SE4 Sec. 32; NE4 Sec. 32; SW4 Sec. 29; NE4 Sec. 30; NW4 Sec. 30; T. 14 S., R. 4 E. B. M. NE4 Sec. 25; NW4 Sec. 25; NE4 Sec. 26; NW4 Sec. 26; NE4 Sec. 27; SE4 Sec. 22; SW4 Sec. 22; NW4 Sec. 22; NE4 Sec. 21, SE4 Sec. 21; T. 14 S. R. 3 E. B. M. which is the point

of intended use.

8. Time required for the completion of the construction of such work is five years
9. Time required for the complete application of the water to the proposed use is nine years.

Approval of State Engineer.

The number of this permit is 1173

Date of first receipt of application 2:30 P. M. March 18, 1905.

Recorded in Book 4, page 1173. Approved March 22, 1905.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

One-fifth of the work above specified to be completed on or before September 22, 1907.

The whole of said work to be completed on or before March 22, 1910

The time for the proof of beneficial use of water appropriated in accordance herewith, to extend to March 22, 1914.

Witness my hand this twenty-second day of March, 1905.

Jas. Stephenson, Jr.

State Engineer.

To Jas. Stephenson, Jr.

State Engineer of the State of Idaho

Application for Amendment of Water Permit No. 1173.

Your applicant herein respectfully shows that on March 18, 1905, the Duck Valley Irrigation Company, Limited, filed its application in your office for a Permit to appropriate the public waters of the State of Idaho. Said application was recorded in Book 4 at page 1173, and was approved March 22, 1905. Said applicant desires said Permit to be amended in the following particulars, to-wit:

FIRST: To make more definite and certain the quantity of water claimed by the said applicant in the said Permit; that said permit describes the quantity of water claimed by the applicant in the following language:-

"The quantity of water claimed is two sec. ft. continuous flow from Alder Springs, and the equivalent of 26.8 sec. ft. continuous flow from the surplus and flood waters of Mary's Creek". That the same be amended to read as follows: "The quantity of water claimed and hereby appropriated is two second feet continuous flow of the waters of Alder Springs, Owyhee County, Idaho, and also the equivalent 26.8 second feet continuous flow of the waters, surplus or flood waters, of Mary's Creek, Owyhee County, Idaho".

Second: That said Permit be amended so as to definitely describe the lands irrigated by said water so appropriated; that said amendment and definite description is as follows:-

Number of Acres to be irrigated 5320, in the following legal subdivisions:

SE $\frac{1}{4}$ and E $\frac{1}{2}$ SW $\frac{1}{4}$	Section 5	
W $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$	"	4
All of	Section 8	
E $\frac{1}{2}$ "	"	18
All "	"	17
W $\frac{1}{2}$ "	"	16
W $\frac{1}{2}$ NE $\frac{1}{4}$ and W $\frac{1}{2}$ SE $\frac{1}{4}$	"	21
W $\frac{1}{2}$ of	"	21
All of	"	20
" "	"	19
" "	"	30
" "	"	29

All of above described lands lying and being in Township (14) South, Range (3) East Boise Meridian.

The above amendments being filed without prejudice, and expressly reserving to the applicant all rights and privileges heretofore granted

1173

said applicant, under and by virtue of the terms and conditions of said Permit No 1173, of which the above is an amendment thereof.

And the said State Engineer is hereby requested to file and grant the above amendments to said Permit, and to note the application thereof on the records of the original application or Permit, and to issue to this applicant a new Permit noting said amendments therein, and specifying that it is issued as an amendment to the original.

DUCK VALLEY IRRIGATION COMPANY, LTD, Applicant

RE: License No. 1173
Duck Valley Irrigation Company

Riddle Ranches, Inc.
Riddle, Idaho

Dear Mr. Riddle:

Enclosed is a copy of Certificate and License of Water Right No. 1173 as you requested. There is a fee of \$1.00 for copy work which you may remit to this office.

You will note the quantity of water is 26.8 cubic feet per second or 1340 miner's inches for a total of 2185 acres shown on the license. The total of the acres shown in the land list is 2465 acres, which, at one miner's inch would allow a total of 2465 miner's inches of water or 22.1 cubic feet per second of additional water for the same land. The engineer's report showed that there was considerable more land actually irrigated, possibly under some other right from a different source of supply.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

At the completion of the Marys Creek Dam (locally known as the Alder Dam) and
under the supervision of the undersigned upon the above date, at which time
the dam was being built to the original structure.

The dam was being widened and raised, and the old outlet pipe replaced by
a new one designed for slope type gate control.

At the time the dam was in use, the fill material being obtained from
the area above the dam. It was noted in this connection that the house
was in a very dry condition, was not being plowed or broken up along
the dam, thus the gate was compelled to pull in a big sag across the
dam, and the progress in the dry material.

The dam was thus exposed was not being watered in the fill, and consequently
the dam was in a very dry condition; The backfill material over the dam
was in a very dry condition, with considerable atmosphere between the dam
and the backfill material.

The dam operators who asked about this type of dam, and
the dam was in a very dry condition, with considerable atmosphere between the dam
and the backfill material.

Re: permit 170

Mr. ALLEN M. EATON,
Boise, Idaho.

Dear Sir:

We are inclosing herewith Water License
issued under the above numbered permit, together
with receipt for fees.

Very truly yours,

J. S. SWENSON,
Commissioner of Reclamation

By

Chief Clerk.

August 25, 1933.

The Farmers Re. 1172. East Valley Irr. Co.

Re. Frank E. Halls.
Special Agent.

Dear Sir:

The report of the consulting engineer for beneficial use of water under the above numbered permit has just been filed. This report shows all or part of approximately forty acres suitable under cultivation and irrigation. At \$2.00 per acre, or fraction. The fee for this office will amount to \$80.00 and, upon receipt of this amount, license will be issued.

Very truly yours,

W. C. SHERMAN,

Commissioner of Agriculture.

By

Chief Clerk.

March 28, 1920.

Re: Permit 1175-Jas. Wiley Loring, U.S. A.

Mr. Frank W. Riddle,

Riddle, Idaho.

Dear Sir:-

On March 28, 1920, a permit of publication
for proof of use of water under the above named permit. These will
be placed on file pending the examination of our engineer later in the
season, after which you will be advised of the fees required before
issuing the release.

Very truly yours,

J. W. Stoughton,

Minister of Reclamation.

Chief Clerk.

•/• Mr. ...

I am so fortunate to have the forms of the water connection with proof of application of water to be obtained from the Board. No

It is strongly recommended that the following instructions should be **CAREFULLY** followed out, since failure to do so may result in loss of the property and the rights.

should be done on a separate sheet of paper, and the same should be done for the proof of application of water to the land (see the form for the proof of application of water to the land and use each for two witnesses).

2. Who has the application been referred to be mailed to this office, together with affidavits of public utility of the project. When these are received together with report of examining engineer, you will be referred to section of fees and are issuing license

W G SWENDSEN.

Commissioner of Reclamation.

James F. Lee

110

Piccolo Idaho
Feb. 16, 1922.

Mr. Charles Pascoe
U. S. Commissioner
Bureau of Land

Sir. - In your advertisement of the
Proposed Use of Water for the
Black Valley Irrigation Co., Ltd.
there is an error in the description
of location of the land.
All the land is in Township
15 S. Range 3 E. as the diversion
is in Township 15 S. Range 4 E.
Probably this is the reason of the
mistake.

Yours Respectfully
N. V. I. Co. Ltd.

RECEIVED

JUN 7 1910

Indian Valley, Ore May 30th 1910

In the matter of the completion of works
for the Indian Valley Irrigation Co. and
for account of the water of Mays Creek and
Older Springs in accordance with permit
No 1173 issued by the State Engineer of Idaho,
said work has been ordered to be made before
me at Indian Valley, Ore in O. Idaho on the
22nd day of March, 1910. I, the Indian Valley
Irrigation Co., I hereby certify that I was
necessarily absent on the said above date,
as that it became necessary to postpone
the the said work until a later date
in Indian Valley

Subscribed and sworn to before me, a Notary Public, in and for
the State of Oregon, this 30th. day of May, 1910.

W. H. H. H.
Notary Public for Oregon.

Permit 1173

May 23, 1910.

Duck Valley Irrigation Co.,
Riddle, Idaho.

Gentlemen:-

I am today in receipt of \$10.00 to cover fee for proof of completion of works under above permit. I have issued receipt for \$8.40, which I inclose herewith together with balance due you of \$1.60.

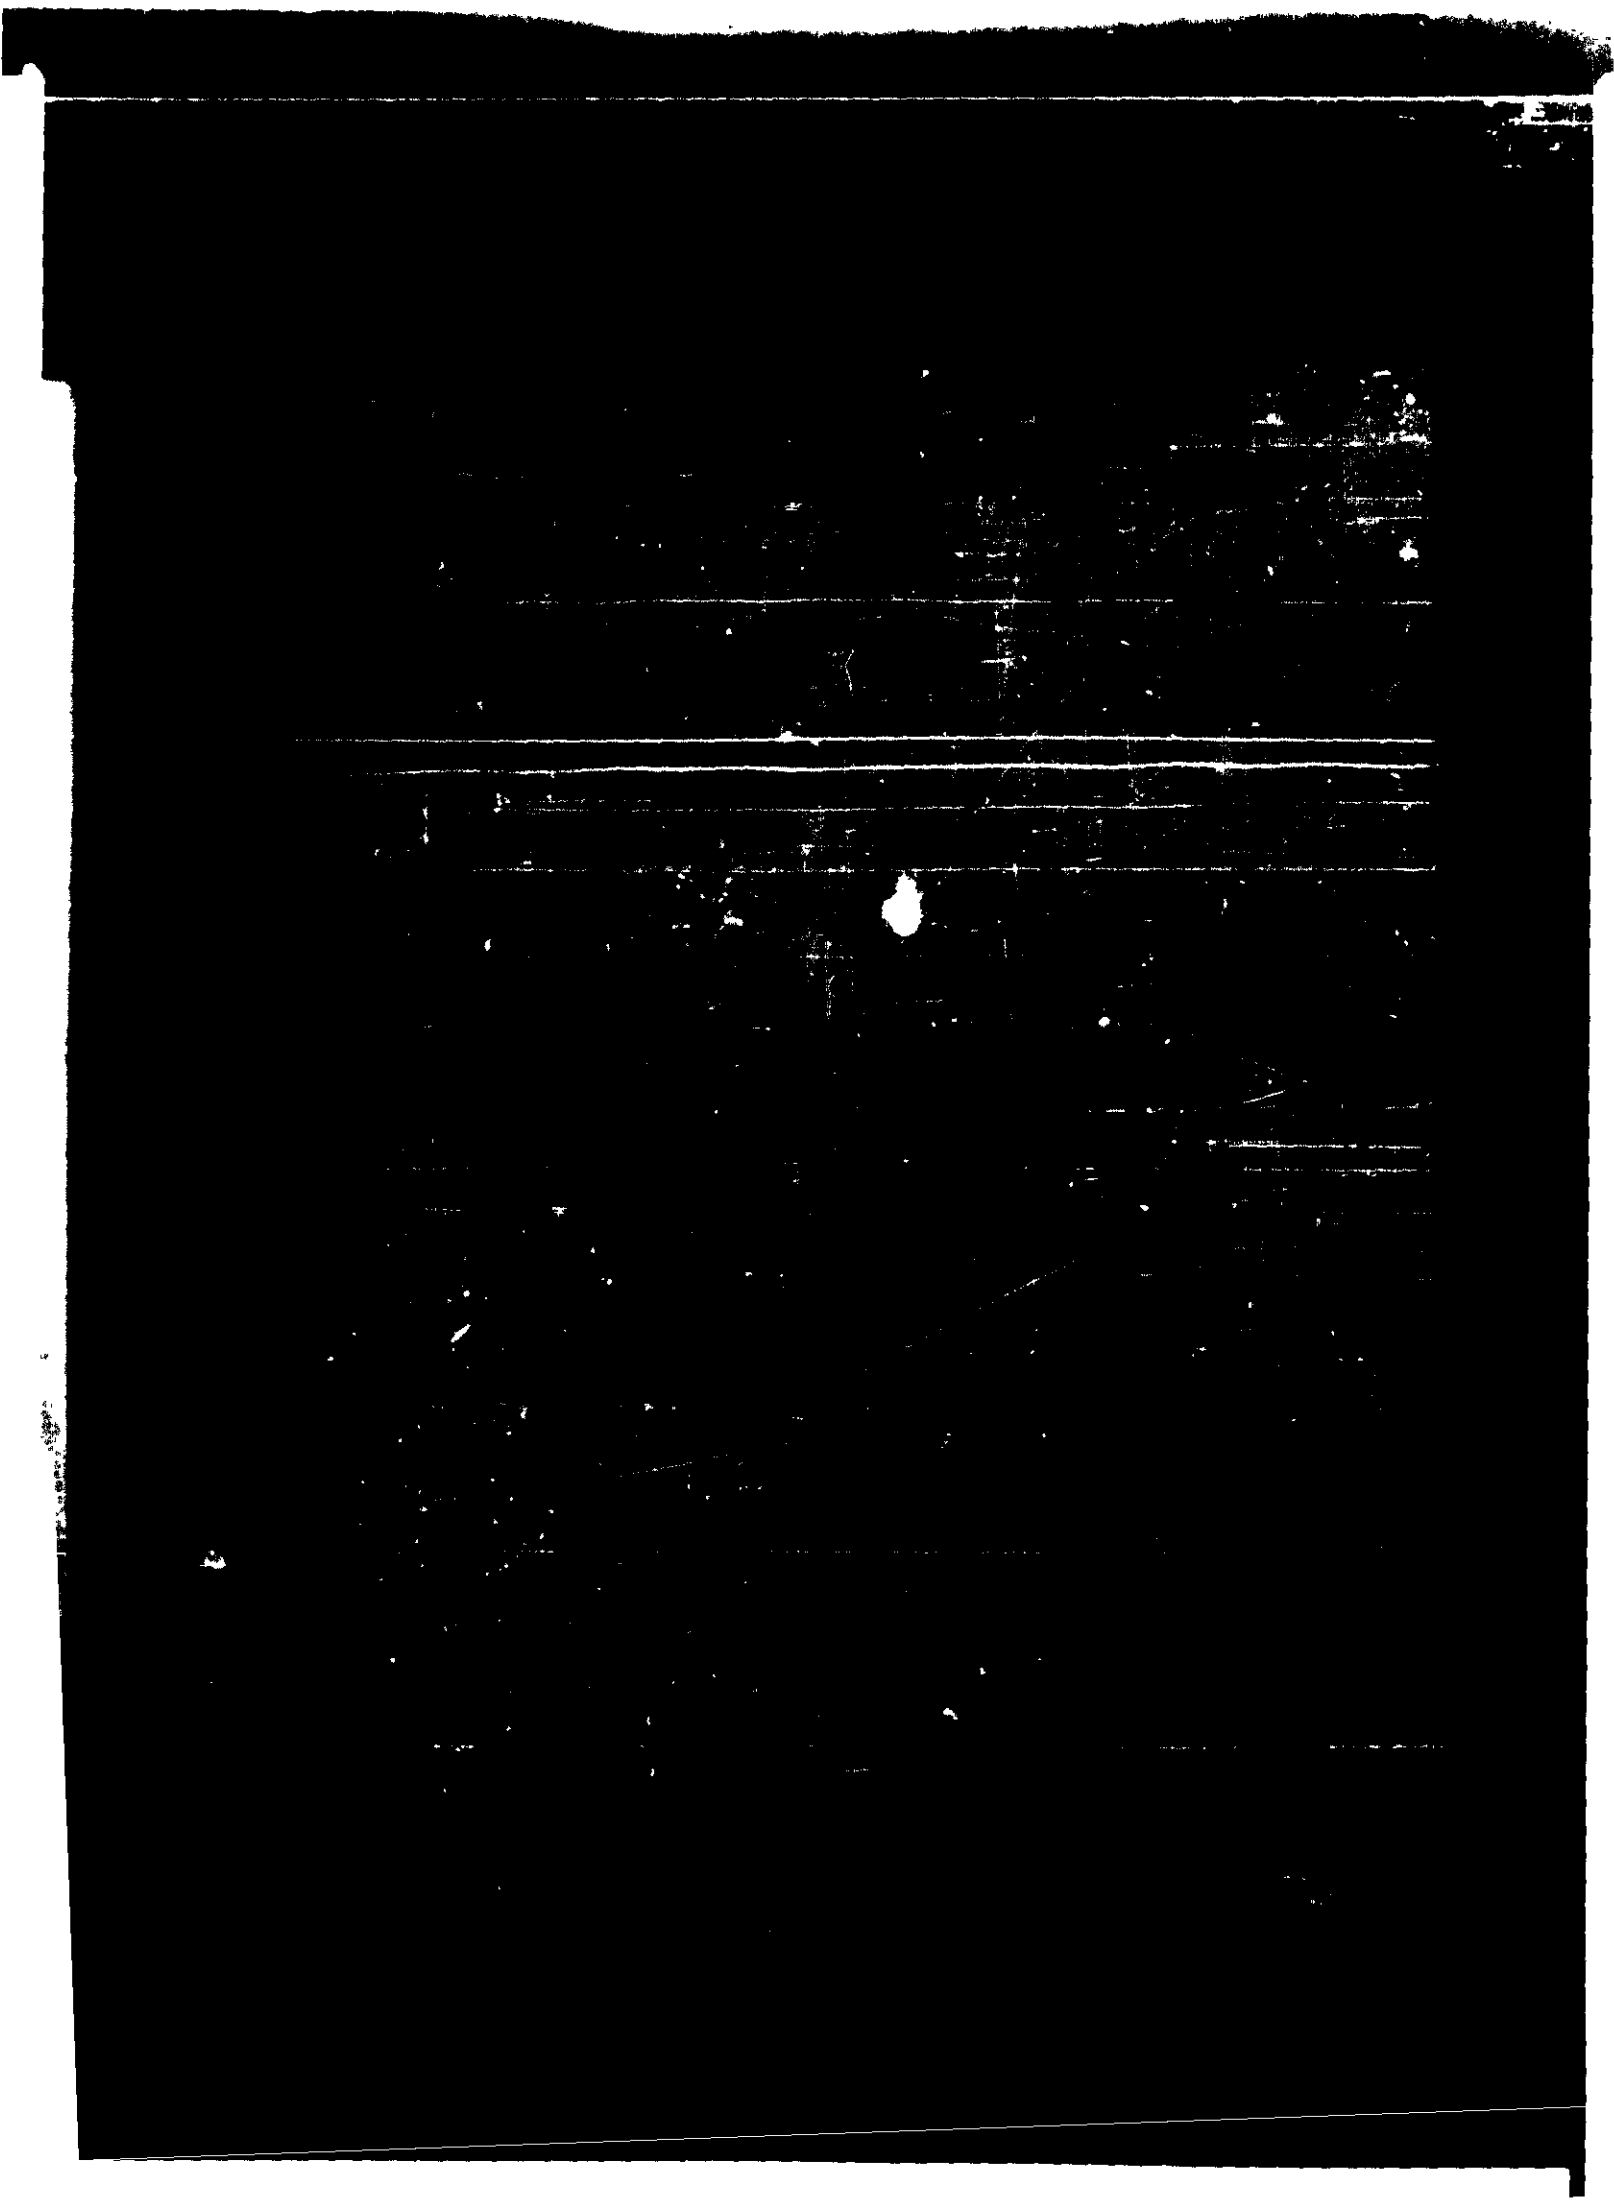

As soon as the report of the water commissioner is received, the matter of issuing certificate of completion of works will be taken up.

Very truly yours,

State Engineer.

Permit 1173

Deak Valley Irrigation Co.,
Riddle, Idaho

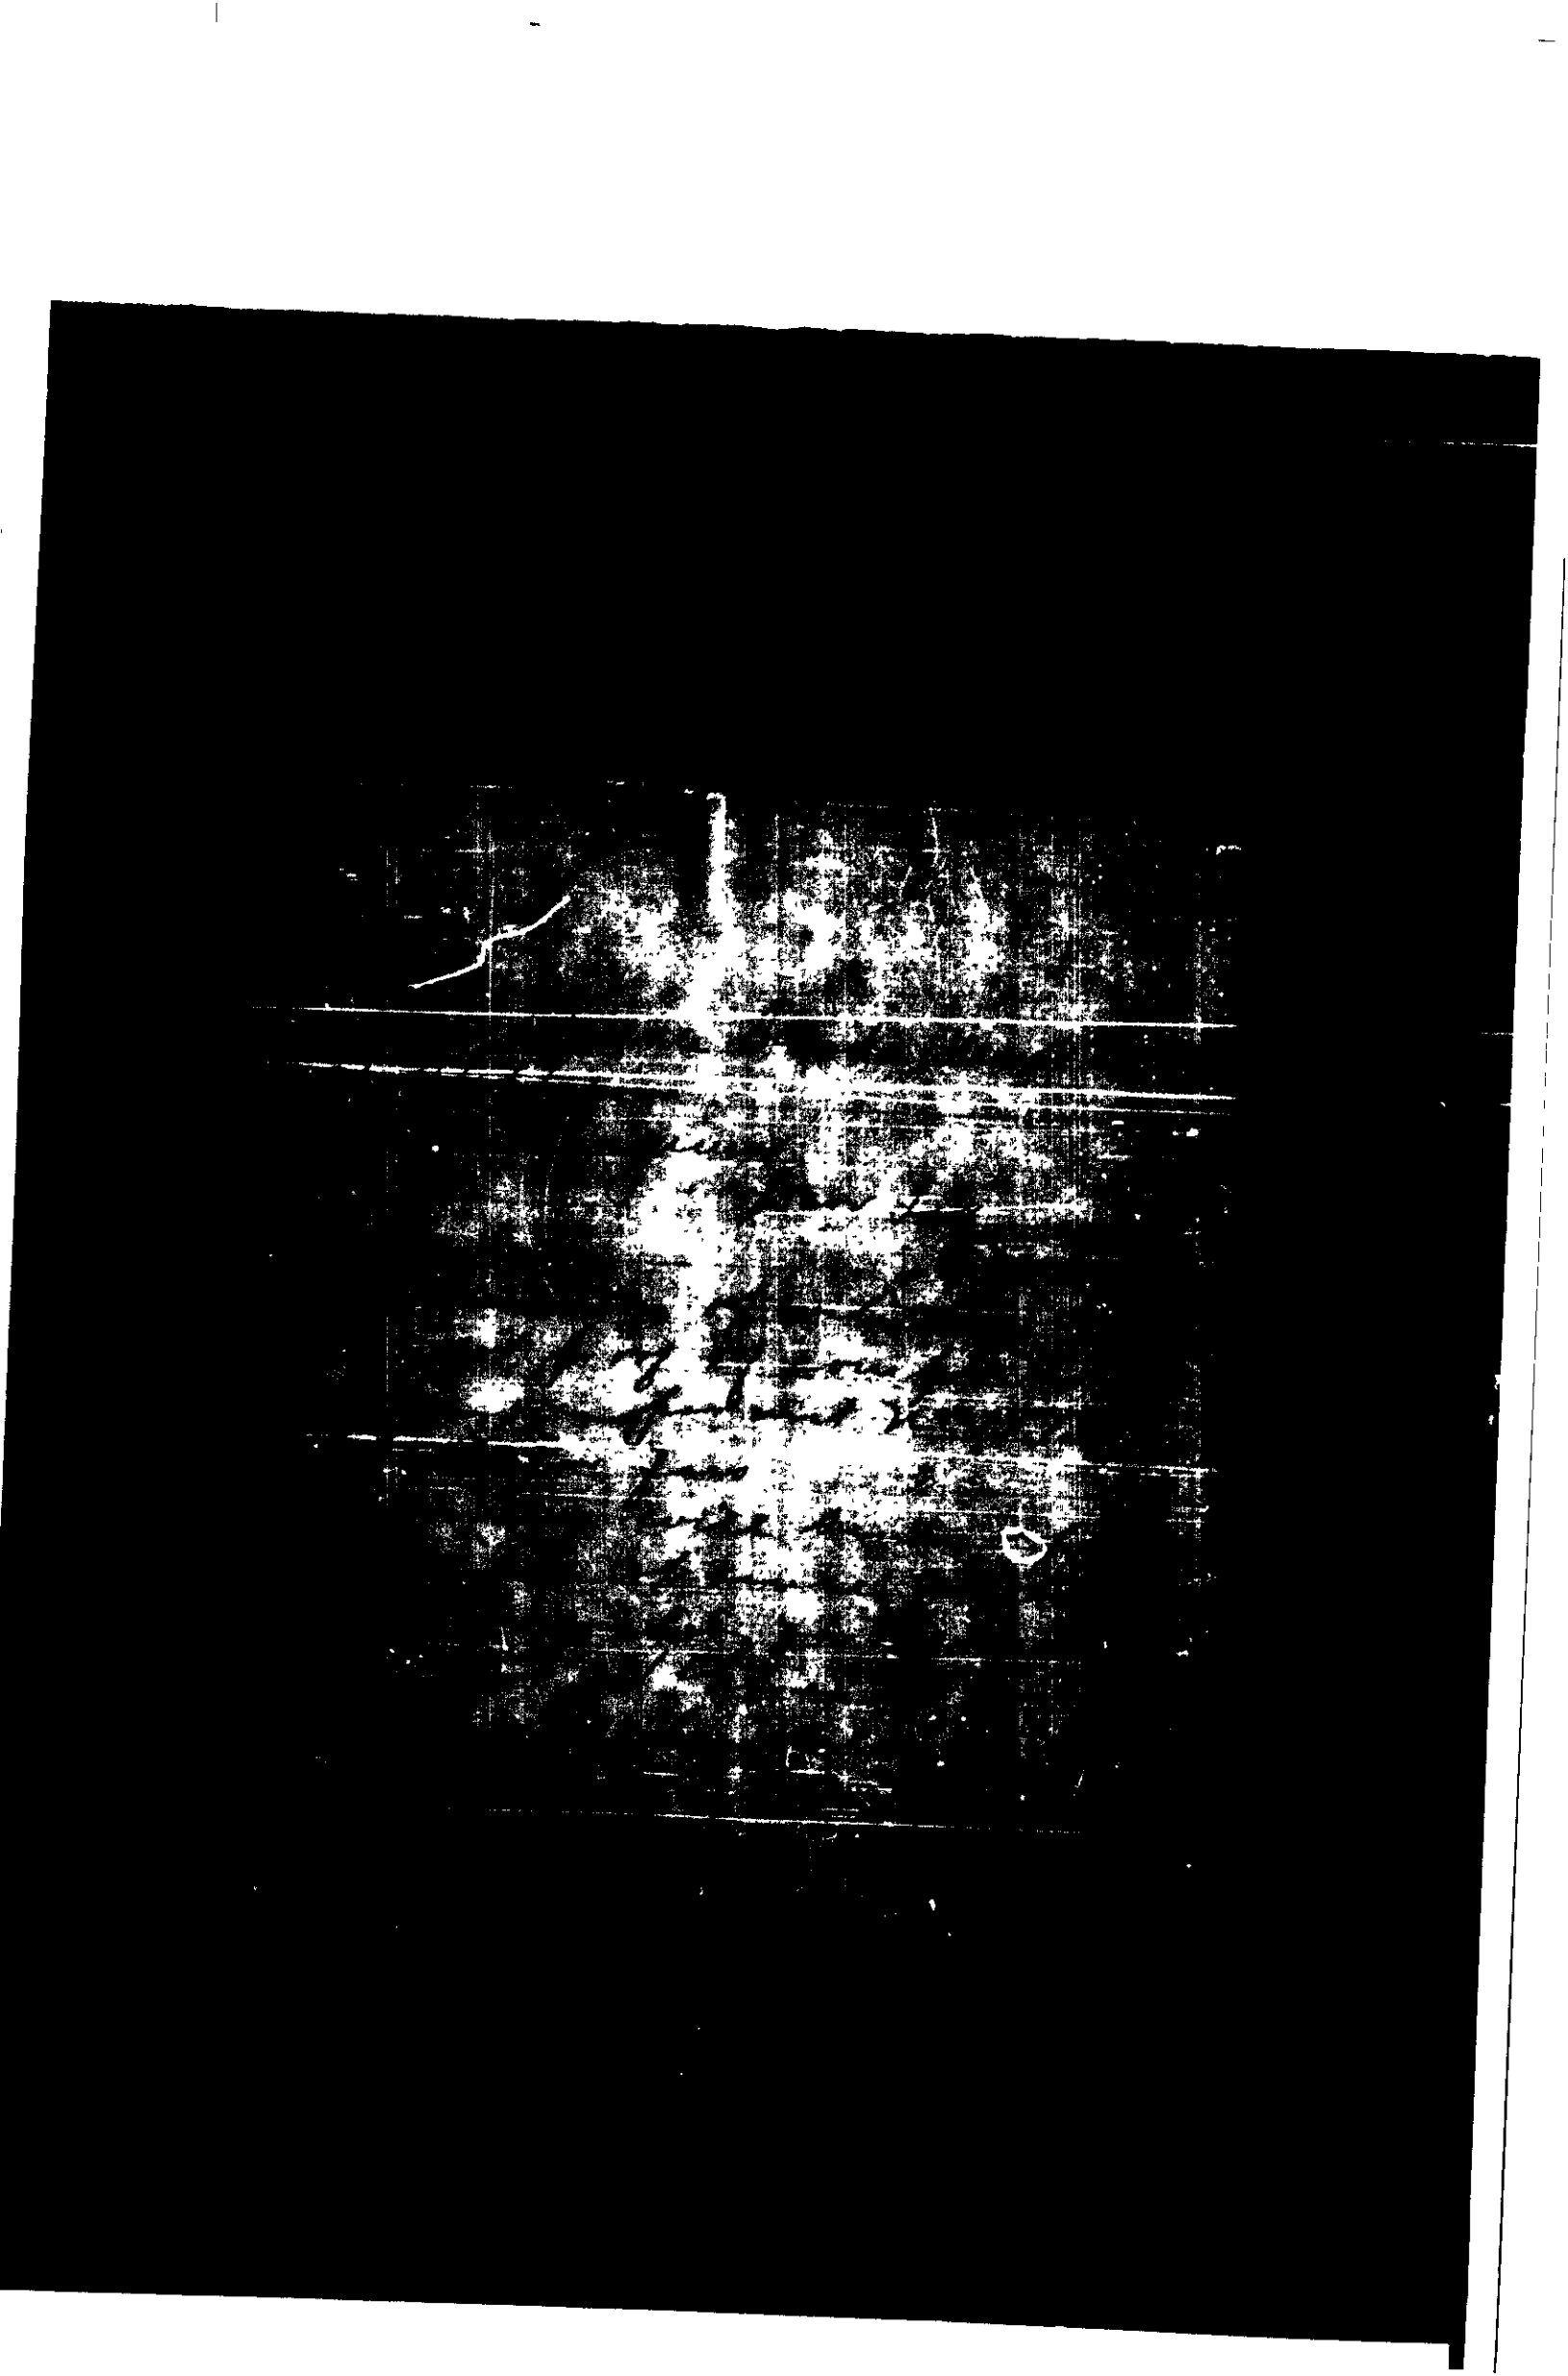

Gentlemen:-

I am today in receipt of your letter of the 6th inst., inclosing depositions and affidavit of publication under above permit, also \$5.00 bill for fee. I am returning you herewith the money as it is insufficient to cover the fees in this case. Where the permit calls for more than 10 second feet the law requires a charge of thirty cents a second foot to be charged. As there are 20 second feet asked for in this permit the fee would be \$6.00. As soon as this is received, together with the water commissioner's report, the matter of issuing certificate of completion of works will be taken up.

Mr. H. S. Williams, of Caldwell, is now the water commissioner of the 3rd division, and will no doubt be able to attend to the report in a few weeks.

Very truly yours,

State Engineer.

March 31, 1910.

Receipt 1198

Geo. C. Riddle, Pres.
Buck Valley Irrigation Co.,
Nédele, Idaho.

Sir:-

Your letter of the 25th inst. to hand and contents noted. In reply would say that under the circumstances it will not be necessary for you to readvertise your notice of proof. As soon as Mr. Dunning substantiates you should make proof before him and at the time proof is submitted Mr. Dunning can submit an affidavit setting forth the facts in the case.

Trusting this will be satisfactory to you, I remain

Very truly yours,

State Engineer.
