H. REMARKS AND OVERLAP REVIEW ANALYSIS

This is a nice natural area with restrooms, picnic tables, & a swimming/fishing pond. No fish were seen in the pond. Except during high flows, all available water goes to the recreational pond. The other ponds were dry during the exam, but showed evidence of having water in the past. Tree cover stops a short distance below pond. Pond outlet not found. Some of the vegetation around the pond would not exist without the pond. Would be low sagebrush instead.

No fish propagation use.

Wet pond is original development. ^{Large} Dry ponds were developed under this permit. When valve on stock pipe is closed, water backs up into main channel & its ponds.

Wildlife is 10 deer, assorted waterfowl, etc. Small pond is probably from 1940's.

Spring flow is reduced due to recent dry years.

Recreation use is for swimming/wading in the 2 large ponds. Wildlife storage in the 2 on-stream ponds

RE: 43-7280

Dear Mr. Milesnick:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

Field examinations must be done while the system is in operation. For this reason we concentrate on irrigation permits during the summer months and do examinations on permits for other uses during the non-irrigating months.

If you have any questions regarding the field examination, please contact our office.

Very truly yours,

Twylla Jasper

Gentlemen:

The Department of Water Resources acknowledges receipt of your water right applications for permit. The applications have been assigned identification Nos. as listed above. Please refer to these numbers in all further correspondence.

This office advertised the applications on 8/6 & 8/13/87. The advertisements were published correctly for two weeks, and a period of ten days following the second publication were allowed for the submittal of protests. August 24, 1987 is the deadline for the submittal of protest.

If the applications are protested, you will be sent copies of the protest. The protests must be resolved before the applications are approved or denied. If the protests are not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, they will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed are copies of applications on which minor changes were made by this office based on a telephone conversation with Dewayne Wilson of your office on June 23, 1987.

Please contact this office if you have any questions.

Very truly yours,

Loren O. Holmes
