STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT
Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant SOUTHERN IDAHO PRODUCTION CREDIT ASSOCIATION
post office address P. O. BOX "D", Burley, Idaho 83318
2. The point of diversion is in SE $\frac{1}{4}$ of SW $\frac{1}{4}$ Section 28 Township 10 South
Range 26 E. B.M. located on subterranean waters
(name of source)
tributary to _____ in Cassia County.

3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.

a. Date of priority claimed.

License 27019 July 31, 1957 amount: 2.76 c.f.s. or 138" ~~XXXXXX~~
July 11, 1962 amount: 1.906 c.f.s. or 95.3" ~~XXXXXX~~
_____ amount: _____ c.f.s. or _____ ~~XXXXXX~~
Total claimed 4.666 c.f.s. or 233.3" ~~XXXXXX~~

- b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:

use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)
use _____ period of use from _____ to _____ (both dates inclusive)

3b.

The purpose for which the water has been used is irrigation; from the time that the well was completed and beneficial use first applied, 2.76 c.f.s. of water was applied to irrigation during the irrigation season of each year which generally ran from April 1 to October 31 of each year up until the year 1962. On July 11, 1962, the capacity of the well was increased 1.906 c.f.s., making a total production of the well of 4.666 c.f.s., or 233.3 miners inches. During the year 1962 from July 11 until October 31, the total of 4.666 c.f.s. was used for irrigation purposes. Each year thereafter, to-wit, 1963, 1964, 1965, 1966 and 1967, 4.666 c.f.s. of water was used for irrigation purposes. The same amount is still being used in the year 1968 and will continue to be used thereafter for irrigation purposes during the irrigation season of each year. Generally, the irrigation season starts between the 15th of March of each year and ends on or about the 31st day of October of each year.

43 1010

4.c

101 acres is irrigated by sprinkler system and is located as follows:

39 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 29;
20 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 29;
2 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 29;
35 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 28; and
5 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 28

43 4010

The sprinkler system has a 10" pipe from the well along the south boundary line of the above-described lands and is approximately 1 mile long; however, the sprinkler line follows U.S. Highway #30 right-of-way on a northwest direction at a point approximately one-half mile west of the well. From the well running north underneath the Interstate Highway 80 North a 12" steel culvert goes over the Highway into a cement ditch that extends north approximately one-half mile with two branches off of the north ditch. The first branch being approximately 1200 feet north of the well and extends to the east approximately 4455 feet although the same goes on a somewhat meandering line. The second branch of the cement ditch extends from the topmost part of the first ditch to the east approximately 4455 feet. All of the ditches above-described are cement and are approximately 40 inches wide at the top and 20 inches wide at the bottom, and are approximately 30 inches deep. The grade of the ditch per thousand feet is 12 inches.

has there been any enlargement of the reservoir since it was first built_____, if so, give dates and describe_____

5. a. Where water is used for irrigation, describe area irrigated by 40-acre subdivisions and give total acres:

TWP.	RANGE	SEC.	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				TOTALS
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
10 S	26	28									28		35	31	15	14	40	40	203
10 S	26	27										9	40						49
10 S	26	29												2			20	39	61

Total number of acres to be irrigated 313

Explain any significant increase in area irrigated since first use, give dates and acreages if known_____

b. Do you get water through a ditch owned by several users? _____ If yes, give the name of the ditch _____ The other users and their respective interests in the ditch are (if known) _____

6. Where water is used for stock watering, give number of each kind of stock watered _____

7. Where water is used for domestic or municipal purposes give number of families served _____ name of town supplied _____

8. Where water is used for other purposes not above enumerated, give the nature of use, the extent of use, and any details regarding the initiation of the right or subsequent later expansion Be as specific as possible, giving dates and quantities _____

9. Remarks please explain any details of your claim which you feel need clarification or additional explanation
Southern Idaho Production Credit Association acquired certain real estate from Clyde E. Smith, together with all water rights. The real estate acquired from Clyde E. Smith is described as follows: E $\frac{1}{2}$ of Section 28; E $\frac{1}{2}$ W $\frac{1}{2}$ of Section 28; SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 28, subject, however, to certain road rights-of-way and other easements. That part of the appurtenant water rights to said premises is water pumped from a well located in the Southeast Quarter of the Southwest Quarter of Section 28, Township 10 South, Range 26 EBM; that said well was duly licensed under the Laws of the State of Idaho, with a priority date of July 31, 1957, License #27019 at 2.75 c.f. or 138 miners inches; that since July of 1963, there has been used from the said well 233.3 miners inches or 4.66 c.f.s. to irrigate the lands hereinbefore described. By reason thereof, the undersigned claims a right to use 4.66 c.f.s. or 233.3 miners inches upon the said lands hereinbefore described.

BE IT KNOWN that the undersigned hereby makes claim to a water right as described above together with all attached information and certifies that all statements are true and accurate to the best of his knowledge.

INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	May 18, 1871	amount:	0.8 c.f.s. or	_____	acre feet
	June 1, 1901	amount:	0.4 c.f.s. or	_____	acre feet
	Total claimed:		1.2 c.f.s. or	_____	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Claim No. 43-4011 - "

South Idaho press
Arley, Idaho

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McAdowney
Appropriation Examiner
