Mr. R. Keith Higginson
State Reclamation Engineer
State of Idaho Department of Reclamation
107 State House
Boise, Idaho

Dear Mr. Higginson:

Re: Permits G-29685, G-30476, G-30477

I received a letter dated July 9, 1967, from Mr. Donald J. Watts, Engineer, of your office, advising me that no Affidavits of Proof had been received in your office in connection with the above listed permits. When I received this information, I was quite surprised because our records reflect that on March 15, 1965, the Depositions for Permit Holder and two uninterested witnesses covering Well Permits G-29685, G-30476, and G-30477 had been sent to Mr. Glen R. Kusanu at Burley, Idaho, who was to act as Notary at 2:00 p. m., April 27, 1965, on all three permits. It was my understanding that this had been done at that time as planned, and that you had received the completed Depositions and Affidavits of Proof as required.

I heard nothing more on this until I received Mr. Watts' letter of July 9, 1967. After receiving this letter, I called Mr. Watts on the phone and advised him that it was my understanding that all the necessary paper work had been completed in 1965. Mr. Watts explained that your office had never received the three well permits, depositions and affidavits back; therefore, his letter of July 9.

I immediately got in touch with Mr. Kusanu in Burley, and he advised that he thought all the papers had been handled and sent in, but apparently they never reached your office.

I checked back with your office again and it was then determined that if we could again get the same people all together and prepare new

30477

BOISE, IDAHO

Mr. R. Keith Higginson
Page 2
September 18, 1967

forms, your office would accept them and grant licenses for all three wells if the information was received by August 26, 1967, which it was. Mr. Kunau picked the forms up personally at your office. After your office received the three depositions on August 25, 1967, I received a letter from Mr. Donald W. McEldowney, water rights clerk, that Permits 30477 and 30476 would be issued licenses subject to field examination. However, in addition, I was advised by Mr. McEldowney that Permit 29685 had been cancelled, and he returned the Depositions and Affidavits of Publication. This puzzled me since I had been advised earlier that all three permits would be accepted if we would get to you the necessary depositions and affidavits by August 26, which we did.

I talked with Mr. McEldowney on this, and he told me that you had advised him that "under no circumstances" would you issue a license for Permit No. 29685. I did not quite understand why, and Mr. McEldowney said that since a letter was sent to Raft River Cattle Company at Declo in December, 1966, advising them that if your office did not hear back from Raft River Cattle Co. the permit would be cancelled. Apparently no reply was made to you by Raft River Cattle Co. Actually, the letter never should have been sent to Raft River Cattle Co. at Declo since all the paper work involving these permits go through this office. This fact was known to Mrs. Edna P. Rule, chief clerk, and I assumed your files on these three wells so indicated that any correspondence should also come to my office in Boise. It is interesting to me that all correspondence regarding the notice that if Raft River Cattle Co. did not give certain information back to you by a certain date went to Declo with nothing to me, but Watts' letter of July 9, 1967, came to me with nothing to Declo. I mentioned this to McEldowney, and he said you could not send mail to anyone other than the permit holder unless you received written request to do so. However, going back through the history of Permit 29685, sometimes I got the notice here in Boise, sometimes Raft River Cattle Company got notices at Declo, with no carbon copy to me.

If the December, 1966, letter that was sent to Raft River Cattle Company, Star Route, Declo, had been sent here to me in Boise or even a carbon copy of your letter had been sent to me here in Boise, this

whole mixup would not have occurred. If I had been advised of the problem, I could have taken the proper steps to handle as you required.

We will appreciate your further consideration on granting license for Permit 29685, since it was my understanding that if the information requested by Watts' letter of July 9, 1967, was received in your office by August 26, licenses for all three wells would be issued.

Very truly yours,
