Re: Permit No. G - 29815

Fred & Arlo P. Lloyd
Elba, Idaho

Gentlemen:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29815 are due not later than **June 15, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Re: Permit No. G- 29815

RECEIVED
DEC 16 1965

Dear Sirs;

Department of Reclamation

On December 10, 1963 all depositions and affidavits for completion of works and proof of beneficial use for this well permit were mailed to your Boise office.

We have no further correspondence concerning these papers. There is deep concern here now that we ^{have} some written statement on this matter.

In a conversation with Mr. H.G. Haight during March or perhaps April of this year We asked what he knew of why we had not heard something of the papers for this permit. He said that he would try to find out what had taken place and that he thought that a paper had been returned. We have no memory of a letter from your office and no papers of this nature in our file. Mr. Haight also said that he understood that our papers had arrived at your office.

I saw Mr. Johnson in Malta a few days ago and he told me that Mr. Haight had not been with your office since June of this year. We are writing to try to get things cleared up as soon as possible. We are at a loss for what might have been wrong with the papers sent in 1963. I have knowledge that considerable care and expense went into the preparation of the final papers and that they seemed to be in good order.

I am now actively interested in this matter as I am using this well along with Arlo Lloyd since our father, Fred Lloyd, has retired.

Yours very truly,

Stanley Lloyd

Returned herewith are the two Forms 36 and Form 11, with two blank forms 36 and form to amend the land list.

You show place of use of the water "Section 17 and 18" . . . The permit does not show any land in Section 17. You may amend the permit by completing the enclosed amendment form and returning with \$1.00 fee for recording.

The answer to 5 must show the land to be irrigated, such as SE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$, Section 18, plus any land in Section 17 shown in the amendment.

Return Forms 36 and 11, with amendment, if desired, at your earliest convenience, or the day for making proof may have to be advanced.
