Re: 19047

Mr. John E. Hadley
Rockland, Idaho

Dear Mr. Hadley:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Power County Press, all in connection with Beneficial Use proof under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

The statutory fee in connection with beneficial use proof amounts to \$3.00, being at the rate of \$2.00 for each 40-acre tract, or fraction thereof, on which the water is applied.

You may send your check for this amount at your convenience, and when the Engineer's report is filed a license will be issued in accordance therewith.

Very truly yours,

E. V. BEER.
Commissioner of Reclamation.

Permit No. 19047

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. John F. Hedley, Rockland, Idaho, farmer, Rockland, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. acting only for myself

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 19047, Sept. 13, 1940, Date of priority Sept. 13, 1940

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, about 45 feet northeast from the southwest corner of the SE 1/4, Sec. 21, Twp. 11, S. 31, E. 31, M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Well from which the water is pumped is right on the place of use, and the water is carried over the land by main ditch about 2 1/2 ft. deep, 2 ft. wide at bottom, a depth of water of perhaps 1 1/2 feet; and one place of about 16 feet flume, no pipe, the total ditch and flume will be about 1 1/4 miles

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, 38 acres, on SE 1/4 Sec. 21; 38 Acres on NE 1/4 Sec. 21; 40 acres on NW 1/4 Sec. 22, and 4 acres on SW 1/4 Sec. 22, Twp. 11 S., R. 31, E. 31, M. The land is all cultivated, about 44 acres in alfalfa has been irrigated in the Fall of 1940 and the balance of the land just wet up with water from this well in the Fall of 1940.

Ques. 7. If for other than for irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

190-17

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Should be 100 inches

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I owned the land and drilled the well

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used. Used to Fall irrigate last Fall for about forty acres, and perhaps wet up some more. The works have just been

Ans. completed, and as it is too early for irrigation in 1941, the whole acreage has not yet been watered from the well.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Have a decreed water right for about 100 acres of this land, out of the South Fork of Rock Creek with priorities of 1883. This water right was insufficient for profitable cultivation and the well is intended as a supplemental water supply. The twenty acres watered by ~~decreed~~ well that is not watered by the decreed water is right near the well on SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, Twp. 11 So., R. 31, EBM.

BOISE, IDAHO

PERMIT NO. 19047

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Verlon Hess, 21, Rockland, Idaho, farmer, Rockland, Idaho

Ques. 2. Are you acquainted with John E. Hadley, the holder of Permit No. 19047? How long have you known him and where does he reside?

Ans. Yes, 21 years, and he resides, about 9 miles south of Rockland, Idaho

Ques. 3. Have you read or heard read said Permit No. 19047, and are you familiar with its provisions and conditions?

yes

Ans.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, 45 feet northeast of the southwest corner of the southeast quarter of the northeast quarter of Sec. 21, T. 11, S., R. 31, E. B. M.

Ditches and flume

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. works will carry 2.4 second feet; and I would estimate I have seen it carry two

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

It is to be used for irrigation

Ans. Have seen the water running in the ditch a little better than a quarter of a mile from the well. Have seen it on ditches on SE 1/4 Sec. 21, and SW 1/4 Sec. 22, all in Twp. 11, S., R. 31, E. B. M., can water about 38 acres on the first forty and about 4 in the last named forty. The land is cultivated land. Irrigation was started last fall, but the irrigation could then only be used for some fall irrigation of some alfalfa. Too early in 1941 for irrigation. The improvements are the well and irrigation ditches for irrigation; the only direct result of the use of the water would be the effect on the alfalfa.

19047

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. _____

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. good loam soil, reasonably level and easy to irrigate, soil
is heavier in northern portion of the ~~the~~ irrigated land than in southern.
Would estimate that an inch to the acre would be required for profitable cultivation

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

In the Fall of 1940, I saw about 100 inches being pumped for Fall
Ans. irrigation. The water was being used to irrigate alfalfa
and had reached into the second forty from the well.

Dear Sir:-

Under the terms of your permits No. **19047** you are required to complete your diversion works and make proof of beneficial use on or before **March 18, 1941.**

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

I also enclose blank notice for proof of application of water to beneficial use under this permit, which should be filled out and returned to this office at least forty (40) days before the date upon which you wish to make proof. The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths. The date for proof as set out in your permit, is **March 18, 1941.** , and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date proof should have been made and the date proof is actually made.
