LICENSE OF WATER RIGHT

License of Water Right No. 30925/36-2562 Priority Jan. 24, 1963 Amount 2.09 cfs

THIS IS TO CERTIFY, that ARTHUR J. DUNFORD
of Paul, Idaho, has complied with the terms and conditions of Permit
No. 30925/36-2562 issued pursuant to Application for Permit dated January 24, 1963
and has submitted proof to the Department of Water Administration on September 9, 1968
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 2.09 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from a ground water source
tributary of _____, is hereby confirmed in the following amounts:
Amount 2.09 cfs for irrigation from March 15 to Nov. 15 (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Subject, however, to the condition that no more than 2.09 cfs of water be diverted at
any one time, said waters to be diverted within the _____

NE 1/4 Sec. 24, Twp. 9 S, Rge. 21 E, B.M.

in the county of Minidoka and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 1,024.10 acre feet per year or
4.0 acre feet per acre.

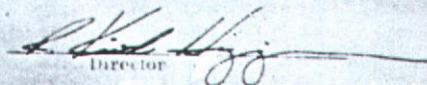

Description and location of place of use:

TRANSFER NO. 4915
WATER RIGHT NO(S). 36-02562/36-08161

CONDITIONS OF APPROVAL AND REMARKS

1. The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
2. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
3. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
5. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
6. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
7. The right holder shall install a suitable measuring device or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
- * 8. Right No. 36-02562 is limited to the irrigation of 277.0 acres in the place of use described above in a single irrigation season.
9. Right Nos. 36-02562 and 36-08161 when combined shall not exceed a total diversion rate of 3.89 cfs, a total annual diversion volume of 1643.5 af, and the irrigation of 466.0 acres.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

APPLICATION FOR PERMIT

Ident. No. 36-8161

To appropriate the public waters of the State of Idaho

APR 5 1983

1. Name of applicant ARTHUR J. DUNFORD Phone 438-8835
Post office address Rt 2 Box 2400 Paul, Idaho 83347
2. Source of water supply GROUNDWATER which is a tributary of _____
3. Location of point of diversion is NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 24 Township 9S
Range 21E B.M. MINIDOKA County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 4.0 for IRRIGATION purposes from 3-15 to 11-15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 4.0 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. 100 HP pump & 60 HP
booster, sprinkler system - SEE REMARKS

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year -- maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
9S	21E	13																40	40
9S	21E	24	40			40									40				120
9S	22E	18											40	40					80
9S	22E	19					40	40	40	40	40	40					20		260

Total number of acres to be irrigated 500

c. Describe any other water rights used for the same purposes as described above.

36-2562 is A&B IRRIGATION DISTRICT.

9. a. Who owns the property at the point of diversion Applicant

b. Who owns the land to be irrigated or place of use Applicant

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks This permit is filed to include additional lands irrigated since lic. 36-2562 was issued. A booster has been installed on the well and pump identified under said license.

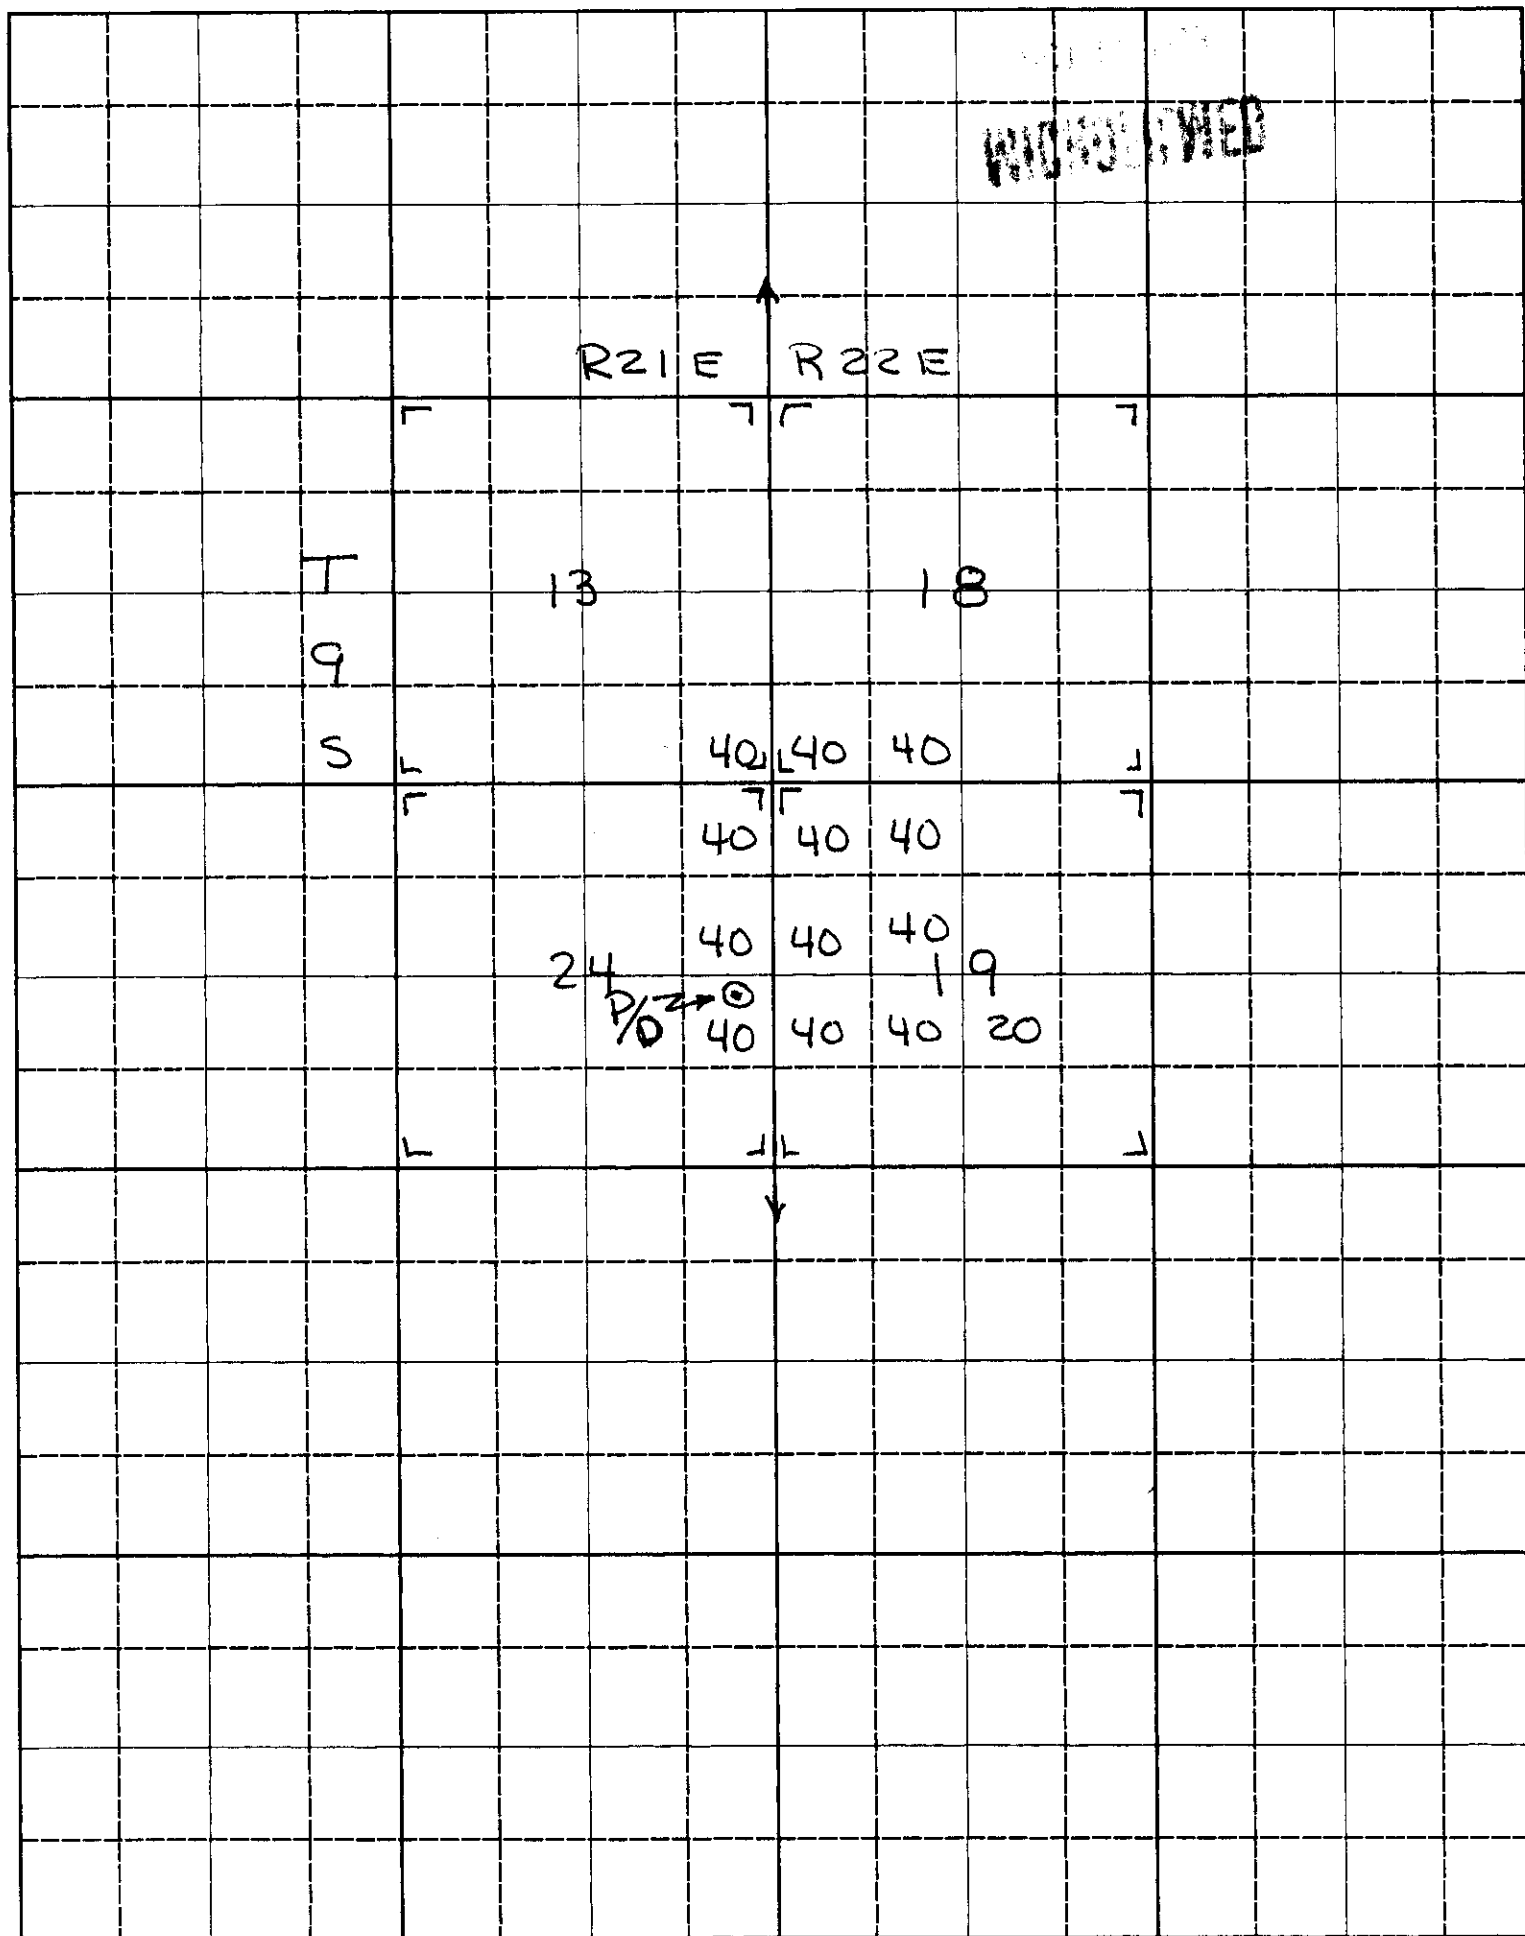

Ground water from A&B irrigation district is used in sec 19

Applicant may change pump & booster with higher horse power pump motor.

RE: Transfer No. 4915
Water Right No(S). 36-02562/36-08161

Dear Water Right Holder:

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water right (Transfer No. 4915). Please be sure to thoroughly read the Conditions and Remarks listed on the transfer.

The accompanying transfer approval should be considered and treated as a preliminary order of the department issued pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the agency.

MICROFILMED
APR 10 1997

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties, if any, to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

MICROFILMED
APR 10 1997

APPEAL OF FINAL ORDER TO DISTRICT COURT

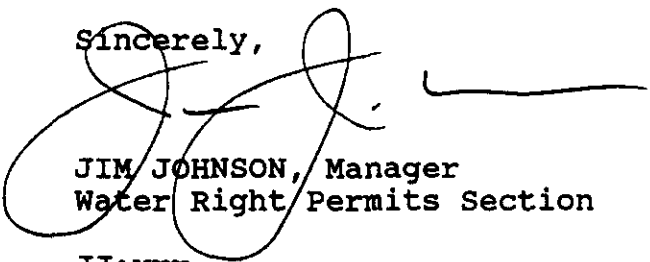

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

If you have any questions, please feel free to contact me.

Sincerely,

JIM JOHNSON, Manager
Water Right/Permits Section

RE: WATER RIGHT NO. 36-08161

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed Application for Amendment contains information that will be included on the license when it is issued. The amendment reflects a change in the location of the place(s) of use description. Please review carefully and if you concur, sign the amendment and return with the \$50.00 filing fee within 14 days.

The last page of the Application for Amendment form contains a list of CONDITIONS/REMARKS proposed for the license when it is issued. These conditions/remarks may be modified upon further administrative review.

If you do not concur, or if you have any questions about this information, please contact me as soon as possible. My telephone number is (208) 327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

SUBJECT: Licensing Exam for 36-08161, Arthur Dunford Department of Water Resources

I recently reviewed the P/U with the ASCS office in Rupert, viewing slides of aerial photos going back to before 1990. I specifically looked at the NE/SW Sec. 19, which is the tract Mr. Dunford was complaining about. According to him, he irrigated this tract for 3 years in the early 1980's, then stopped watering it for until 1990. Since 1990, the farm has been leased to someone else, so Dunford isn't sure what has been irrigated since then. Proof of beneficial use was filed in September of 1990.

The ASCS slides show no irrigation in this tract before 1991. In 1991 & 1992, about 3 acres in the NW corner of the tract were irrigated. Another 11 acres were added in 1993.

Since there was no irrigation in the NE/SW Sec. 19 in the year that proof was filed or for six or so years before that, I do not plan to change the recommended P/U on my licensing exam. The 14 acres added since 1990 have no water rights, and are therefore being irrigated illegally. Whether this extra land can be irrigated with A & B Irrigation District water I do not know. I will notify Mr. Dunford of my findings.

TO: FILE 36-08161

FROM: PAM SKAGGS *CS*

RE: RE-EXAM

DATE: 10-NOV-1992

NOV 13 1992

Department of Water Resources
Southern Region Office

Mr. Dunford came to the State Office today to discuss the licensing amendment sent to him. He was concerned about the reduction of acres and felt that some land previously irrigated had been excluded from the proposed license. After discussion with the examiner, Jim Stanton, it was agreed that a re-examination of the system would be done to see if there was evidence to add the acres in question. The exam was returned to the region on this date.

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 446 \times 4 = 1784$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 3.89 \times 246 \times 1.9835 = 1898.1$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 1784 - 1028 \text{ AFA previously licensed} = 756 \text{ AFA to be lic.}$

2. Volume Calculations for Other Uses:

522
RECORDED
JUL 19 1995

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Form has 272 acres of A&B water at 3/9 to 1" per acre. Well runs all season. Both the well & A&B water are needed to properly farm the place. System raises row crops & pasture. Place will eventually be completely sprinkled, but still has some gravity ground. Not to exceed 10.02 cfs/yr. or 4.0 AFA/yr. or 288 cfs when combined with all other rights on this farm. Not to exceed 287 cfs or when combined with lic. 36-02562. Original license was for 0.38"/yr & 2.7 AFA/yr. for 277 ac. This permit should be licensed for the original ground plus additional ground for a total of 446 acres. System capacity is 0.44"/acre & 4.0 AFA/yr. A&B water is used as much as possible because it is cheaper than the private well.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use From To	Rate of Diversion Q (cfs)	Annual Volume V (ata)
Irrigation	3-15 11-15	1.80	759.9

Totals:	1.80	759.9
---------	------	-------

2. Recommended Amendments

- ☐ Change P.D. as reflected above
- ☒ Change P.U. as reflected above

MEMORANDUM

TO: FILE 36-08161

FROM: PAM SKAGGS *CS*

RE: RE-EXAM

DATE: 10-NOV-1992

Mr. Dunford came to the State Office today to discuss the licensing amendment sent to him. He was concerned about the reduction of acres and felt that some land previously irrigated had been excluded from the proposed license. After discussion with the examiner, Jim Stanton, it was agreed that a re-examination of the system would be done to see if there was evidence to add the acres in question. The exam was returned to the region on this date.

RE: WATER RIGHT NO. 36-08161

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Sincerely,

A handwritten signature in cursive script that reads 'Pamela Skaggs'.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08161

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the SOUTHERN Regional Office in Twin Falls at (208)734-3578.

Sincerely,

Rita Fleck

PROOF DUE NOTICE
RE: PERMIT NO. 36-08161

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P36-08161

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

MICROFILMED

OCT 18 1989

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

TO: Application No. 36-8161
FROM: Gary Spackman *GS*
DATE: September 28, 1989

RE: Waiver of Rule 4,5. Additional Information Requirements

Application 36-8161 was filed prior to July 1, 1985 and represents development that occurred in 1981. The location of the point of diversion falls outside of the trustwater area. Normally, additional information would be required under Rule 4,5. of the Water Appropriation Rules and Regulations. Possible issues that the additional information should address have probably already been raised during development and operation, however.

Pursuant to Glen Saxton's memo of July 19, 1989, the Rule 4,5. informational requirement should be waived.

Re: Application for Permit No. 36-08161

Dear Mr. Dunford:

The Department is now beginning the processing of applications which have been held as a result of the Swan Falls controversy. In connection with this processing, the Department requests the information described below.

From the Department's review of the above referenced water right application, it appears the application is only subject to the usual water right processing described in Section 42-203A, Idaho Code, and is not subject to the public interest criteria processing required of some applications in the Swan Falls settlement.

The Department asks that you advise us within 15 days of this letter if you no longer have a continued interest in developing a water right as proposed by the application. If you do not respond in this time period, the Department will proceed with the usual processing of the application including advertisement in the North Side News on 6/21 & 6/28/89..

Please feel free to contact the Department if you have questions.

Very truly yours,

James E. Stanton
Sr. Water Resource Agent

MEMORANDUM

TO: LOREN HOLMES
SOUTHERN REGION

FROM: TIM LUKE *TL*
STATE OFFICE

RE: APPLICATION FOR PERMIT NO. 36-8161
DISMISSAL/EXEMPTION FROM SWAN FALLS PROCESSING
DATE: 5-17-89

Attached is an amendment to application no. 36-8161 and related correspondence between myself, the applicant and Idaho Power Co. (IPCO) attorneys.

The applicant had been working with IPCO's attorneys on dismissing the application based on prior development (see attached correspondence). The applicant had submitted documentation to IPCO, who in turn submitted the same documentation to the department for our review and analysis. After reviewing the documentation and aerial photography available here at the state office, I found about 40 acres listed under the application which had not been irrigated prior to the October 1, 1984 Swan Falls contract date. I therefore contacted both IPCO and the applicant and advised them to amend the permit to delete the undeveloped acreage or wait until such time as the app. came up for review and the department would at that time count the 40 acres as trust water acres. The applicant obviously moved toward the former option.

We did not request an application amendment fee from the applicant since our file shows that the app. had never been advertised due to the Swan Falls moratorium.

NOTE:

I recommend that this application be advertised as soon as possible. Please make certain that the advertisement contains applicable language concerning prior development and existing subordinated hydropower rights. An example of this language can be found in a January 3, 1989 memo from Glen Saxton to the regions. I have noticed that grandfathered Swan Falls

MICROFILMED

applications which were advertised earlier this year did not contain any Swan Falls references and were instead advertised as normal applications.

Dear Mr. Smith:

Enclosed is a copy of Mr. Dunford's application along with a blank application form. I suggest that you and/or Mr. Dunford complete the blank form and include the changes which you outlined in your letter to me dated April 18, 1989. Mr. Dunford must sign the amended application.

The amended application will retain the original priority date. If the amended version is acceptable, then I will recommend that the application be exempt from the review of Section 42-203C, Idaho Code. The exemption would be based on the fact that the lands identified under the application were irrigated prior to October 1, 1984 and that the application was filed prior to the October 1, 1984 deadline specified in the Swan Falls Agreement.

Please contact me if you have any questions concerning this matter.

Sincerely,

TIM LUKE

Re: Application for Permit #36-8161

Department of Water Resources
Southern Region Office

Dear Tim:

Today I met with Mr. Dunford in reference to your letter of March 27, 1989 and the approximately 40 acres which you identified as not being irrigated and subject to question.

In going through Mr. Dunford's maps and application it is apparent there are indeed 40 acres which were not irrigated. Mr. Dunford is willing to drop those acres from his application. The areas which you questioned included the NESW Section 19, SENE Section 13, and the western half of the NESE Section 24.

As to the acreage in Section 24, Mr. Dunford indicated there are about 15 acres in the western half of the NESE that are not irrigated. Therefore, these should be deleted from the application. Mr. Dunford thought you were questioning more than these particular acres.

Although you identified some questionable acres in the SENE of Section 13, in talking with Mr. Dunford, it is apparent he does not own land in the SENE of Section 13. Mr. Dunford's land is in the SESE of Section 13. He indicated that approximately 10 acres in that portion of Section 13, which is unshaded on his map, are not irrigated. Therefore, 10 acres from the SESE of Section 13 can be deleted on the application.

MICROFILMED

OCT 18 1989

Mr. Tim Luke
April 19, 1989
Page Two

As to the acreage in the NESW of Section 19, Mr. Dunford indicated that approximately 15 acres there are also not irrigated. Therefore, 15 acres in the NESW of Section 19 on the application can be deleted.

The above changes should take care of the questionable 40 acres which you pointed out in your letter. I assume with this clarification that you would recommend that Mr. Dunford's application be approved. If you have any questions concerning any of this, please feel free to give me a call.

Sincerely,

Bruce M. Smith

Department of Water Resources
Southern Region Office

Thomas G. Nelson
Nelson, Rosholt, Robertson, Tolman & Tucker
P.O. Box 2139
Boise, ID 83701-2139

Dear Tom:

I am writing in response to the material you sent me concerning the above referenced application.

I have reviewed Mr. Dunford's letter and accompanying map along with some infrared aerial photography owned by the Department. The photography was taken in June of 1983. We do not have any photography from 1984 which would provide the most updated cropping patterns prior to October 1, 1984 (the critical date for which irrigation development must have been completed).

Mr. Dunford's letter to you dated January 30, 1989 seems to provide a fairly accurate accounting of his past water use. However, I did not entirely understand the third paragraph of his letter. Nearly all of the land shaded in blue appears to have been irrigated for many years and, therefore, probably was irrigated with both the well and A&B surface water since 1963. The only exception is the blue shaded tracts in the NESE and SENE of Section 24. We have photography showing that most of these tracts were not irrigated at all prior to 1976. Furthermore, our maps show that Sections 24 and 13 of T9S, R21E are not within the A&B district boundaries.

Our 1983 photography shows that nearly all of the land shaded in either blue or grey was irrigated in that year. The only tract that did not appear to be irrigated was the most western-half of the NE1/4SE1/4 of Section 24 (I have highlighted this tract on the map). The wheel lines that Dunford drew indicates that this tract is not presently being irrigated with any sprinkler system. Also, the unshaded areas in the SENE of Section 13 and the NESW of Section 19 do not appear as developed or irrigated land in the 1983 photo.

In summation, it appears that most of the land under Application No. 36-8161 was developed prior to October of 1984. There are perhaps some 40 acres listed under the application which were not irrigated before 1984 (i.e.; the areas listed in the above paragraph). If these acres were developed or irrigated after October of 1984 then they technically would have to be counted as trust water acres.

MICROFILMED

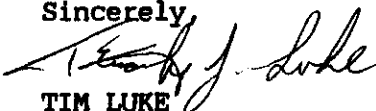

OCT 18 1989

Page 2
Thomas G. Nelson
March 27, 1989

I would suggest that Mr. Dunford provide additional information about these 40 or so acres which are in question. He must prove that the land was irrigated prior to October of 1984 or indicate that he does not intend to irrigate that land under this application. If he chooses the latter option, then I will recommend that the application be approved and exempt from any review requirements of Section 42-203C, Idaho Code. If he does not provide the necessary information, then processing of the permit will be delayed until such time as we reach his priority date and review the file under the requirements of Section 42-203C.

Please feel free to call me if you have further questions concerning this matter.

Sincerely,

TIM LUKE
Sr. Water Resource Agent

30 January 1989

Mr. Tom Nelson
1020 Main Street
P. O. Box 2139
Boise, Idaho 83701-2139

Dear Mr. Nelson:

I received a letter from Mr. Slette of your Twin Falls office in which he advised me to furnish you with dates that the water was first applied to ground other than that on my original permit. I am enclosing a sheet with the dates of first use and the dates of expanded use. I am also enclosing a map which I obtained from the A & B Irrigation District to attempt to further explain how the water has been applied to the ground.

On the map I have used blue to designate where water was used in 1963. The water was co-mingled with water from A & B Irrigation District and used on tract A and tract D also. The color green shows where the nine wheel lines were set up in 1980.

The farm has a water right for 277 acres, 131 acres and 141 acres, or a total of 549 acres. We are presently farming 532 acres. I think an error was made in Boise at the time the water right in question was applied for. It shows acres that are already covered by A & B water. I have no desire for additional water. I would like to be able to utilize the water for which I have permits on the 549 acres and no more.

I appreciate the help you have given me in the past. I think if I can be dropped from the Idaho Power Company action I can have this cleared up through the adjudication.

Yours truly,

Arthur J Dunford
