RECEIVED

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF TRANSFER NO.)	
66087 IN THE NAME OF YOUNG &)	
YOUNG PARTNERSHIP)	PRELIMINARY ORDER CORRECTING
_____)	TRANSFER APPROVAL

This matter having come before the Department of Water Resources (Department) as a result of an application for transfer of water rights, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On May 14, 2002, the Department approved Application for Transfer No. 66087 (transfer) changing the place of use under Water Right No. 36-2058B and 59 other water rights diverted from the same points of diversion and used for irrigation of the same lands.
2. Water Right No. 36-2058B as described on pages 8, 9 and 10 of the transfer approval listed 40 points of diversion authorized under the water right. Department review revealed that the transfer approval erroneously listed several points of diversion due to a clerical error. The transfer approval referenced the same list of authorized points of diversion described under Water Right No. 36-2058B for all other rights involved in the transfer.

CONCLUSIONS OF LAW

1. The transfer approval should accurately describe each established water right as changed by the transfer pursuant to Section 42-222, *Idaho Code*.
2. The Department should correct the transfer approval to show the correct points of diversion authorized under Water Right No. 36-2058B and, by reference, all the other water rights involved in the transfer.

ORDER

IT IS HEREBY ORDERED that the authorized points of diversion listed on pages 8 and 9 of the transfer approval for Water Right No. 36-2058B are **CORRECTED** as shown on the amended pages 8 and 9 attached to this order. The correction to Water Right No.

36-2058B will effectively correct the authorized points of diversion for all other rights involved in the transfer.

Dated this 9th day of May, 2003.

Case No. 39576)

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on December 29, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-01 10-31

THE USE OF WATER FOR IRRIGATION UNDER THIS RIGHT MAY BEGIN AS EARLY AS MARCH 15 AND MAY CONTINUE TO AS LATE AS NOVEMBER 15, PROVIDED OTHER ELEMENTS OF THE RIGHT ARE NOT EXCEEDED. THE USE OF WATER BEFORE APRIL 1 AND AFTER OCTOBER 31 UNDER THIS REMARK IS SUBORDINATE TO ALL WATER RIGHTS HAVING NO SUBORDINATED EARLY OR LATE IRRIGATION USE AND A PRIORITY DATE EARLIER THAN THE DATE A PARTIAL DECREE IS ENTERED FOR THIS RIGHT.***

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

Important Information About Your Water Right

August 27, 2001

YOUNG & YOUNG PARTNERSHIP

RUPERT, ID 83350

Dear Water Right Claimant(s):

The reverse side of this letter contains a copy of an *Order Amending Irrigation Period of Use Element in Partial Decree and Incorporating into Partial Decree An Express Statment Regarding General Provisions, Nunc Pro Tunc* (hereinafter "*Order*") for water right number 36-02620. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The Purpose of the *Order* is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the *Order*, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This *Order* also incorporates into the *Partial Decree* an express statement that the *Partial Decree* is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This *Order* in combination with the *Partial Decree* that was issued for this water right on December 29, 1997, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the *Partial Decree* to show evidence of the water right. Case No. 39576)

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on December 29, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-01 10-31

THE USE OF WATER FOR IRRIGATION UNDER THIS RIGHT MAY BEGIN AS EARLY AS MARCH 15 AND MAY CONTINUE TO AS LATE AS NOVEMBER 15, PROVIDED OTHER ELEMENTS OF THE RIGHT ARE NOT EXCEEDED. THE USE OF WATER BEFORE APRIL 1 AND AFTER OCTOBER 31 UNDER THIS REMARK IS SUBORDINATE TO ALL WATER RIGHTS HAVING NO SUBORDINATED EARLY OR LATE IRRIGATION USE AND A PRIORITY DATE EARLIER THAN THE DATE A PARTIAL DECREE IS ENTERED FOR THIS RIGHT.***

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

MEMORANDUM

TO: Young & Young Water Right Files

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5167

DATE: May 6, 1998

Transfer 5167 changes and adds points of diversion, and creates an 8,574.0 acre permissible place of use. The applicant is combining multiple groundwater rights, wells & pivots in a single large interconnected system.

The rights involved have been previously transferred under Transfers 4829, 4830, 4831 and 4895, and additional rights recently purchased. 77 rights or parts of rights were on the original application. 30 of these rights, unencumbered by limiting conditions, have been combined by common priority into 12 new rights. 59 rights appear on the final approval document.

Region staff identified possible errors in a couple of the past approvals referring only to previous file information. I researched the rights and files in question and did not find supporting information to modify the previous approvals. I have attached an overlap of all the original rights, table of combined rights and a draft of rights for the final approval.

Recommended conditions include drilling permit requirements, annual measuring & reporting, irrigation overlap, permissible place of use, combined limits, trust water conditions (36-08251E), enlargement right condition where applicable and standard transfer conditions.

Attention R. Keith Higginson

Dear Sir,

Enclosed are proofs of two legal notices
scheduled to be run Sept. 3 and Sept. 10 in the
Lincoln County Journal, Shoshone, Idaho.

You asked for a preview of the notices. Since
my type is set at Jerome for use on their offset
web press, the work was done there, which rather
explains why the proofs are a bit late.

In the meantime, I cannot locate the original
orders you sent for the notices--Nos. G-32723/36-2642
and G-32469/36-2620 or the yellow sheets to be filled
out for payment--in fact I can't locate any of it.
Guess the rather unusual request for advance proofs
threw us off balance.

Anyhow, would be obliged if you would send us
duplicates of the originals.

Dear Mr. Nielson:

We have attempted on several occasions to call you concerning this matter, but we have been unsuccessful. Please forgive our tardiness in responding to several of your inquiries.

Claim no. 36-4006 is now referenced in the name of the Northwest Mutual Life Insurance Co., and the evidence is apparently satisfactory to show their interest instead of Kerbs and Mayall. Permit nos. G-32468/36-2619 and G-32469/36-2620 are now both under the name of the Northwest Mutual Life Insurance Co. The assignments are recorded. Enclosed are copies of the permits and assignments for these permits.

The amendment and the affidavit of beneficial use for permit no. G-32469/36-2620 have been received and are acceptable. Please find enclosed a copy of the amendment and departmental receipt no. 5019. As there is no requirement for the application for extension of time, we are returning it to you under this cover.

The legal notice for permit no. G-32469/36-2620 is being published in the Lincoln County Journal of Shoshone, Idaho on September 3 and September 10, 1970. An affidavit of publication must be submitted to this department. The affidavit may be obtained from the Lincoln County Journal upon payment of the bill of publication.

Also be advised that permit no. G-32468/36-2619 automatically lapsed on August 6, 1970. A notice of lapsing will be sent to you in September. You will have sixty

Pursuant to our telephone conversation, we are transmitting the enclosed copies of the above referenced permits and claim.

As we now understand the situation, the holders of the above referenced permits have defaulted and the permits are to be assigned to the Northwest Mutual Life Insurance Company. We will require that a formal assignment of the water permits be submitted to the department before we can change the ownership on our records. The assignment must identify the permits by number. We are enclosing documents for your use in this matter. What is required under these permits is that evidence of beneficial use be submitted to the department on or before August 6, 1970.

We also understand that Claim to a Water Right No. 36-4006 executed on April 1, 1970, was for the purpose of establishing beneficial use on the N $\frac{1}{2}$ Sections 32 & 33, Twp. 6 S., Rge. 23 E., B.M. We feel that the claim under Section 42-225a of the Idaho Code may not have been what you desired to do, in as much as, the claim is used to record water rights established by diversion and application to beneficial use. In the case of Carl Tappan - vs - Clyde and Bonnie Smith, the Supreme Court of the State of Idaho found that all ground-water rights developed after March 25, 1963 must have been developed under

36 2620

Page 2
Norman H. Nielson

the permit system and could not have been developed under the constitutional or use right method.

From the claim it appears that there has been no development in the S $\frac{1}{2}$ Sections 32 & 33, Twp. 6 S., Rge. 23 E., B.M., as covered by Permit No. 36-2619. If this is not correct, include this land on the beneficial use affidavit. It is required by law that notice of existence of a permit be published in a newspaper when beneficial use is submitted.

Should Permit No. 36-2620, which covers N $\frac{1}{2}$ Sections 32 & 33, be the only permit you are going to submit beneficial use evidence on you will be required to file an amendment to this permit to change the points of diversion. We are enclosing a partially completed amendment form for your use. The amendment fee is \$5.

If you have any questions on this matter, please contact us directly.

Very truly yours,

Gentlemen:

One of the conditions of the approval of your permit no. G-32469/36-2620 was that proof of application of the water to beneficial use be submitted to this office on or before August 6, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32469
William Kerbs and Clarence Mayall

Dear Mr. McEldowney:

We wrote you on April 10, 1970, relative to the above permit and the proof under said permit and I called you on the phone on May 12, 1970 concerning this water right. At that time you stated you would look this up and call me back. To date, we have heard nothing from you and are wondering about the status of the water rights as they are in litigation and we do not want to lose the water rights on this property.

May we please hear from you immediately in regard to this matter.

Very truly yours,

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

RE: Permits 36-2619 and 36-2620

Gary C. Hansen, Loan Supervisor
The Northwestern Mutual Life Insurance Co.
1402 Third Avenue
Seattle, Washington 98101

Dear Mr. Hansen:

We have two permits covering the land in Sections 32 and 33, issued to William Kerbs and Clarence H. Mayall, doing business as the Lost Lake Land and Livestock Company. These permits are still valid and beneficial use is due August 6, 1970. No action has been taken since the permits were filed on August 6, 1965.

If the Northwestern Mutual wants to complete the permits to license they would have to get them assigned from the original owners. We are enclosing the form for assignment of the permits:

Information on the permits is as follows:

- 36-2619 - priority of August 6, 1965
amount - 12.8 c.f.s.
point of diversion - SE $\frac{1}{4}$ Sec. 33, T 6 S.,
R 23 E., B.M.
place of use - S $\frac{1}{2}$, Section 32, and
S $\frac{1}{2}$, Section 33
- 36-2620 - priority - August 6, 1965
amount - 12.8 c.f.s.
point of diversion - NE $\frac{1}{4}$ Sec. 33, T 6 S., R 23 E., B.M.
place of use - N $\frac{1}{2}$, Section 32; N $\frac{1}{2}$, Section 33

If we can help you further please let us know.

Mr. R. Keith Higginson
State Reclamation Engineer
Department of Reclamation
State House Annex 2
Boise, Idaho 83707

Dear Mr. Higginson:

I would like to know the status of the well permit(s) covering the two wells in the W $\frac{1}{2}$ Section 33, T 6 S, R 23 E, of the Boise meridian in Lincoln County, Idaho. I have been unable to locate the permit number.

These wells were drilled in about 1964 and used for irrigation of approximately 730 acres of farm land through 1968. Due to financial difficulties on the part of the owners the property was not farmed in 1969.

The Northwestern Mutual Life Insurance Company has a first mortgage on the property which has been called due and is in the hands of an attorney at Burley, Idaho. We are thus concerned that action be taken to protect the water right under the existing permit(s). It is my understanding that the necessary proof of completion was never filed by the owner.

I thus need to know the status of the permit(s) and specifically what action is required on our part to establish a permanent water right under the existing permit.

Sincerely,

Gary C. Hansen
