Re: Permit No. 30654

Rangen, Inc.
Buhl, Idaho

Gentlemen:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 30654 shows the pipeline and ponds are capable of conveying 2500 miner's inches, or 50 c.f.s.

Upon receipt of the statutory fees, totaling \$22.00, we will issue the Certificate of Completion of Works for 50 c.f.s. and the License and Certificate of Water Right for 50 c.f.s. confirming the right, with priority of July 31, 1962, to the use of surface water from an underground spring of Billingsley Creek with the point of diversion in SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 32, T. 7 S, R. 14 E, B.M. for fish culture and domestic use in SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31, T. 7 S, R. 14 E, B.M.

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 30654, in the name of Eugene H. Rangen, Inc.. Final Proof is to be made before you as Notary on the 2nd day of September, 19 64, at 10:00 o'clock A.M., at Buhl, Idaho. Eugene H. Christoffer-son

As of this date, we have mailed the Notice to the Gooding Leader Gooding, Idaho, with instructions to publish it once a week for 10 consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Gentlemen:

On February 9, 1967, we sent you a notice of correction of a legal notice to be published for two weeks. The last date for protests was March 19, 1967.

In checking our files, we find you never acknowledged receiving this notice, nor have we seen it published.

This notice was to be published at your expense because it was originally published incorrectly after two requests to have it corrected.

Enclosed are two copies of the legal notice which is to be published once a week for two consecutive weeks. Complete one copy showing the dates of first and last publication and return to this office, furnishing us with an affidavit of publication after the advertising has been completed.

Gentlemen:

Enclosed you will find two copies of a legal notice to be published once a week for two consecutive weeks. Complete one copy showing the dates of first and last publication and return to this office, and furnish us with an affidavit of publication as soon as the advertising has been completed.

The Attorney General has ruled that the point of diversion and place of use must be published correctly before the final water license can be issued. Since this error was made by the paper, and since this department requested twice that the publication be corrected, this corrective notice will be published at your expense. See the enclosed copies of the legal notice which was mailed to the paper, and our letters to you dated August 6, 1964 and August 14, 1964.

Dear Mr. Rangen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the GOODING LEADER, all submitted in proof of completion of works and beneficial use on Permit No 30654

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Rangen:

Your Proof of Application of Water to Beneficial Use has been received. However, the deposition of Mr. E. H. Bean of Hagerman is not acceptable. The law states the witnesses must be disinterested persons.

A new form 17 is being forwarded for completion by a new qualified witness. The deposition of Harry F. LeMoynes is being returned for completion of Question 6 (witnesses must state place of use, i. e. SE¹/₄NE¹/₄, Section 31, T7S-R11, EBM---if this is correct). No further processing can be accomplished until receipt of the depositions by this office. Please reply promptly.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 30654, in the name of Eugene H. Rangen, Inc.. Final Proof is to be made before Eugene H. Christofferson as Notary on the 2nd day of September, 1964, at 10:00 o'clock A.M., at Buhl, Idaho.

As of this date, we have mailed the Notice to the Gooding Leader Gooding, Idaho, with instructions to publish it once a week for two consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done hereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been returned, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Gentlemen:

Thank you for your letter of July 13th relative to the above permit.

In your letter you indicate that our notice varies in referring to the point of use and suggest that we either correct it or submit an application for amendment. The form of application which you sent is for an amendment for the point of diversion.

Perhaps we are confusing this matter somewhat but what we are intending to submit proof on is not a change in the point of diversion (which has remained unchanged) but the fact that a larger area of use is involved. Do you have a specific form for amendment in this respect?

DEPARTMENT OF RECLAMATION

Re: Permit No. 30654

Date:

July 1, 1964

Rangen's, Inc.
Buhl, Idaho

Dear Sir:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. 30654 is due not later than **Sept. 11, 1964**. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

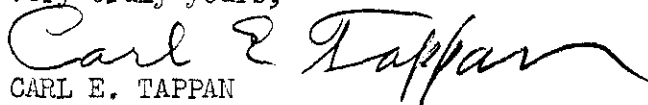

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated -- by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

CARL E. TAPPAN

That he is the President of Rangen, Inc., a corporation,

corporation in connection with Permit No. 30654 issued by the
Department of Reclamation;

That as President of the said Corporation your affiant
is required to be absent from the State of Idaho on numerous
occasions on behalf of the business of the Corporation and further
is obliged to travel a considerable portion of the time;

That the proofs of completion of works made in connection
with the said Permit No. 30654 were made by the various witnesses
at the request of the holder at a date when said works were in
fact completed and your affiant did not appreciate the significance
or importance of having the proofs actually made on the date
specified in the notice. The reason that the date specified
in the notice did not impress your affiant as being significant
is because the works were in fact completed and your affiant saw
no reason why such witnesses could not bear testimony to the
fact of completion at such time as such witnesses had inspected
said works and were in a position to make proof of such completion;

That as previously set forth your affiant is in and out

of the State on numerous occasions and in the interests of efficiency and precaution because of the considerable amount of expenditure that had been made in connection with the completion of the works simply wanted to assure himself that all of the required forms and paperwork be accomplished at such a time that the same would be in the hands of the Department and in no manner jeopardize the investment of the Corporation;

That the purpose for requesting the proofs of the witnesses to be made was solely for the purpose of convenience and efficiency and was in no manner or intent a device or plan to in any manner deprive any individual or corporation from in any manner asserting the full legal rights accorded them by statute;

In checking the file, we find that the legal notice of your intention to make proof of completion of works under the above noted permit shows that the proofs were to have been made September 5, 1963, at Buhl, before Eugene H. We must have an affidavit from Eugene H. Christofferson, signed before another Notary Public, that his office was open September 5, 1963, and that no one appeared to protest these proofs. Also an affidavit by you as holder, before a Notary Public, showing why you did not make the proofs on the date specified in the legal notice.

Dear Mr. Rangen:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Gooding Leader, all submitted in proof of completion of works ~~XXXXXXXXXXXXXXXXXXXX~~ on Permit No. 30654.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours ,

Gentlemen:

This acknowledges the Notice of Proof of Completion of Works ~~and completion~~
~~of Water to Beneficial Use~~ under Permit No. 30654. The proofs are to be
made at 10:00 o'clock A.M., on the 5th day of September, 1963, before
Eugene H. Christofferson, Buhl, Idaho, Notary Public.

As of this date we have mailed the Notice to the Gooding Leader
Gooding, Idaho, with instructions to publish it once a week for four consecutive
weeks prior to the date set for final proof then mail the affidavit of publication
and statement of costs to you.

It is important that the enclosed depositions be executed by you and two dis-
interested witnesses who are familiar with the terms of the permit and the work
done thereunder, at the place, on the date, and at the time and before the Notary,
as advertised. It is very important and necessary that each question be answered
in detail.

In returning the depositions to this office, be sure that all copies have been
signed, the Notary's seal has been placed on each and that all depositions, (holder
and two witnesses) are being returned. Also be sure to enclose the Affidavit of
Publication.

Very truly yours,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Hird & Mobley
Attorneys at Law
Boiding, Idaho

Boise, Idaho,

Dear Sir:—

June 3, 1963

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 30651.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before Sept. 11, 1963. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

CARL L. TAPPA

Dear Mr. Hobday:

We received your letter of August 2nd with returned copy of the legal notice.

Elimination of the last part of the notice would appear to be satisfactory in this case as the first publication is within 10 days of date of notice. In cases where the notice is received with some delay, the last part would be necessary to show publication within the ten-day limit.

This is the first time this question has been raised.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Attn: Cecil D. Hobday

Dear Mr. Hobday:

Returned herewith is the application for permit with attached check for \$17.25 filing fee.

The source of water supply shown "Curran Tunnel" indicates that it is subterranean water, however the map shows the diversion is from the stream below the tunnel, assuming the circle with arrow of direction of flow is the mouth of the tunnel. Also the maps show another tributary above the point of diversion. In case this diversion is at the same point as mentioned in the decree, could the source of water supply be called Curran Tunnel Creek, tributary of Billingsley Creek? Or could it be called Billingsley Creek, if it is the main source of supply for that creek, as indicated by the map? The present answer to both parts of "3" does not appear to be correct, as the water is diverted from a stream which is Billingsley Creek, or a tributary.

Upon return of the application, we will prepare the legal notice and send it to you, with instructions.

Very truly yours,

GEO. N. CARTER

Gentlemen:

We inclose application for permit together with blue-print and tracing map and also portion of decree referred to in the application.

Also inclosed is our check in the amount of \$17.25 filing fee.

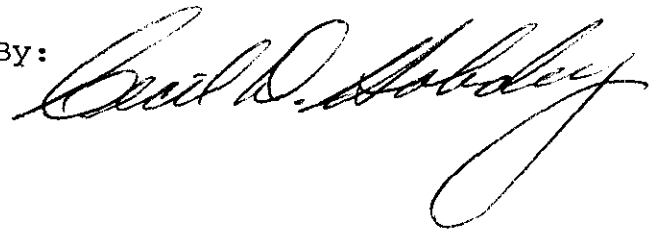

This is the first occasion that the undersigned has had to submit an application where more than 25 cu. ft. are involved. We note from instruction #14 of the regulations and instructions that a notice of the application must be published in three issues in this County. Is there a regular form used for this purpose or should we draft our own?

Awaiting your further advice, we are.

Sincerely yours,

BIRD & HOBDEY
