Application For Permit To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 37322
PERMIT No. 29323
DISTRICT No.

1. Name of Applicant: Village of Hagerman

Postoffice address: Hagerman

County: Gooding

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (b) Treasury stock:

- (c) Bond to be issued:
- (d) Other resources:

2. Quantity of water claimed: Five

cubic feet per second.

3. Source of water supply: Unnamed springs

which is a tributary of Billingsly Creek

4. Location of point of diversion:

feet distant from the

corner of Section , T. , R. , B.M., and is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$
of section 19 , T. 7 S. , R. 14 E. , B. M., County of Gooding

5. Water is to be used for Culinary & Municipal

6. If for mining, milling, power or manufacturing purposes, give:

Village of Hagerman and vicinity

(a) Point of use of water: feet distant from 13, 14, 23, 24 corner of Section
T. 7 S , R. 14 E, B.M., in the of Section of , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 40,000 to 50,000

8. Kind of works: Steel pipeline

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom fee; width at water line feet; depth of water feet;
dimensions of flume:

Diameter of pipe 16" inches; length of conduit approx. 1 $\frac{1}{2}$ mi. miles.

Average grade per mile 24 feet.

12. The time required for the completion of such work is 5 years.

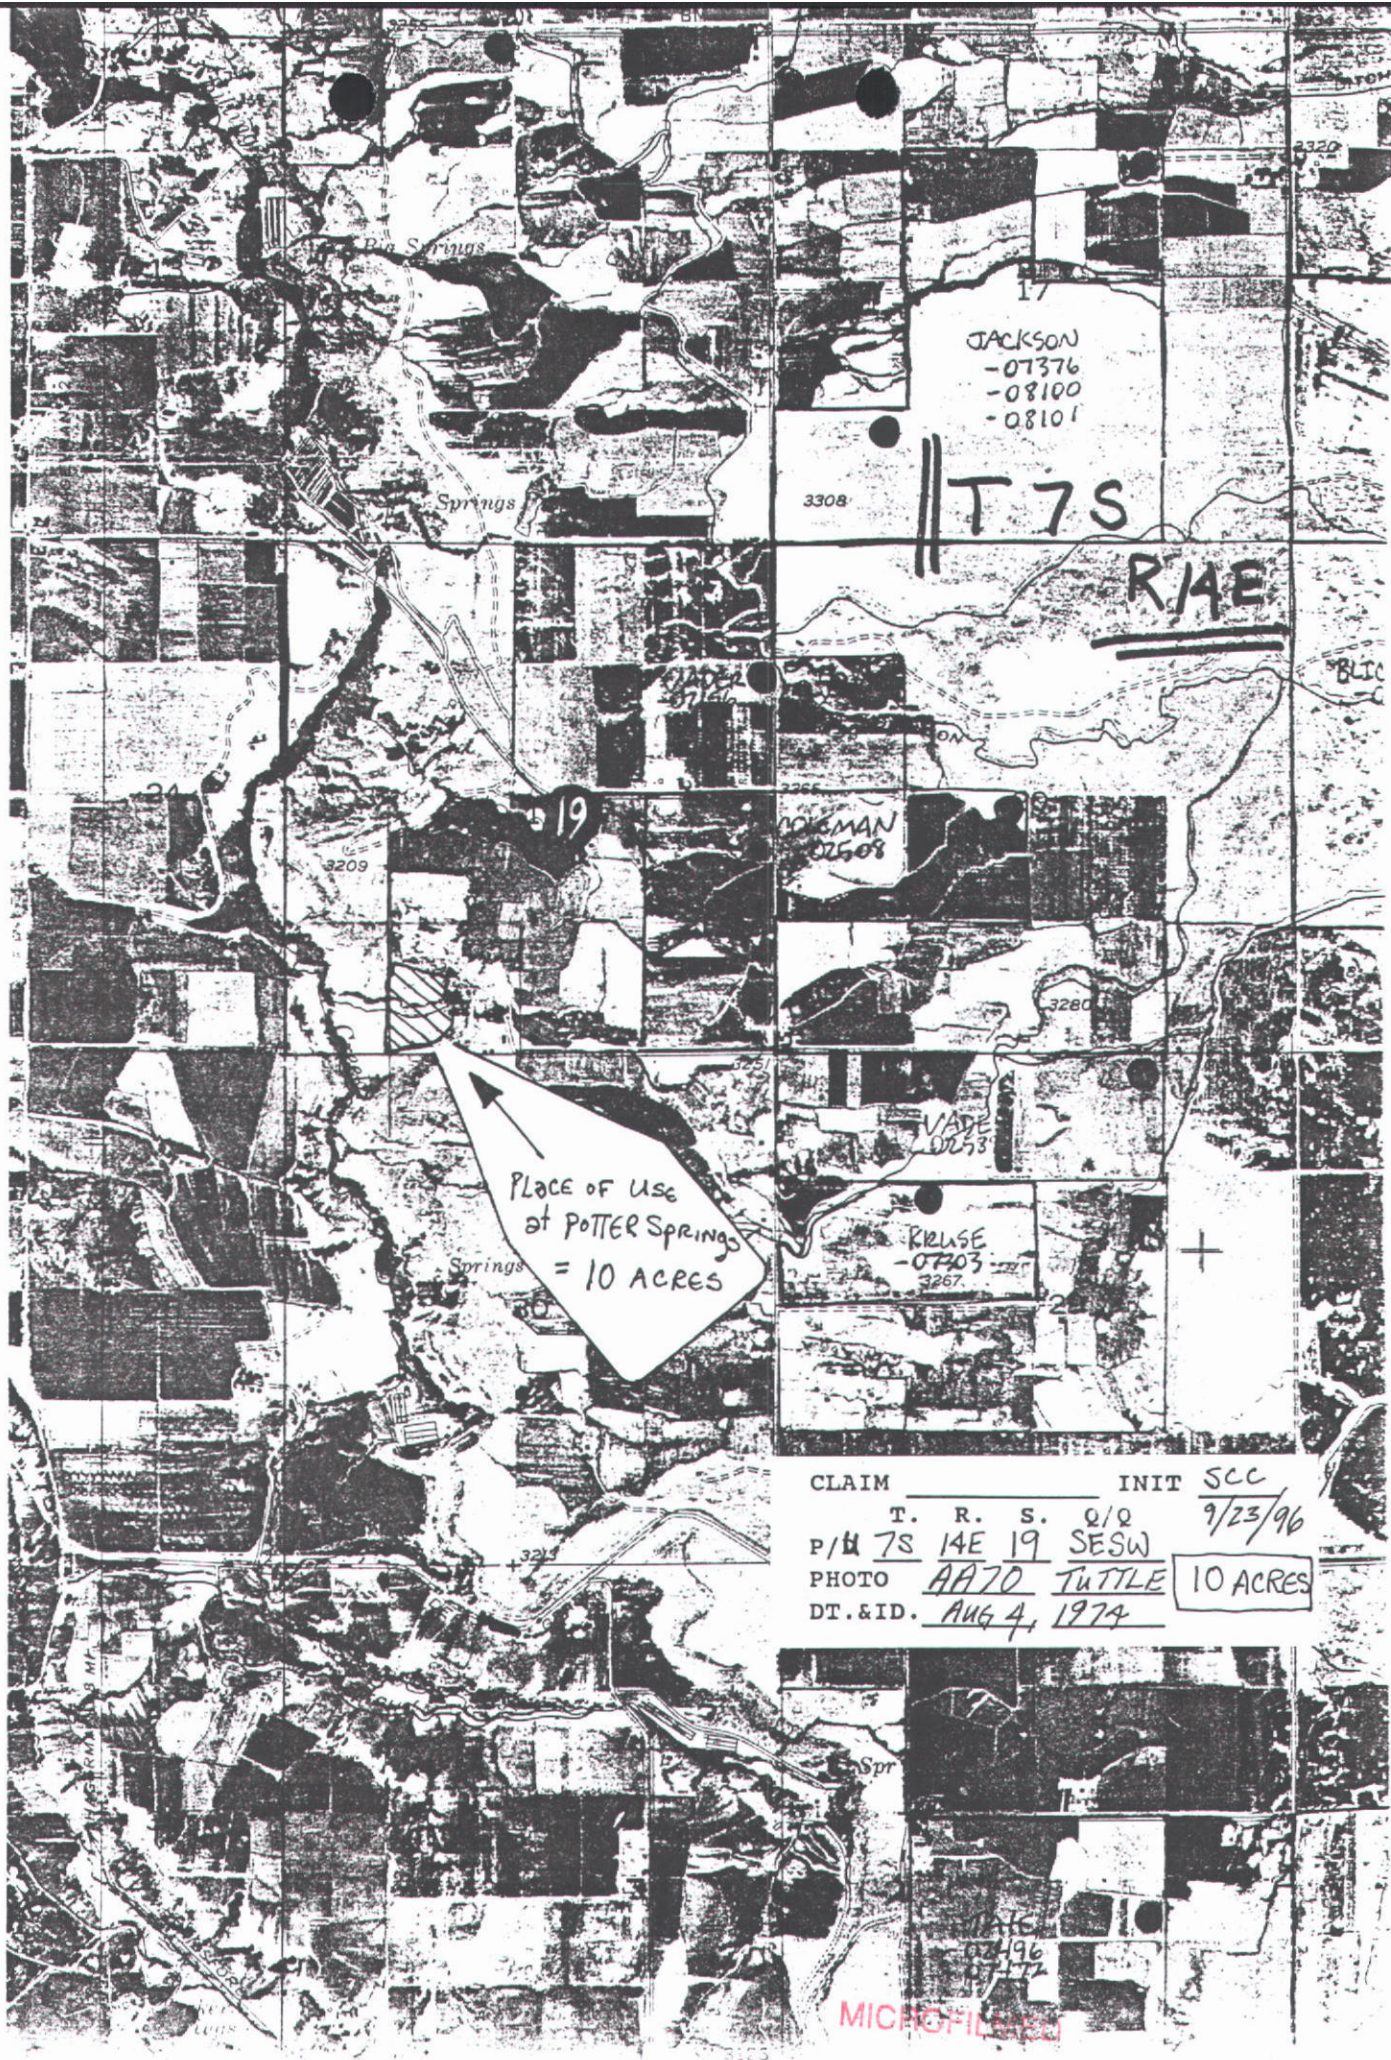

13. The time required for the complete application of the water to the proposed use is 0 additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:

SS.

A/IC Kenneth O. Wester of Walnut, Iowa, a friend of the bridegroom, served as best man. Myron Arthur Cutshall, brother of the bride, and Frank Perry served as ushers.

A reception was held immediately following the ceremony at the bride's home. Assisting at the reception were Mrs. Lawrence George, Mrs. Elmer Baumgartner and Mrs. Lester Hogan.

The new Mrs. Becker attended grade school in Olney, Illinois, and graduated from Amphitheatre high school in Tucson.

Mr. Becker is a graduate of Gooding high school. He is serving in the United States Air Force presently stationed in Iceland.

South Idaho Encampment Will Convene Here

Gooding Encampment No. 56, IOOF, met Friday night with Elmer Jordan, Wendell, chief patriarch in charge. Plans were made to host the Southern Idaho Encampment Association in Gooding December 11.

Gooding will exemplify the Golden Rule Degree in competition, with Robert Bryan, degree captain, in charge.

Officers elected for 1966 to be installed in January were Henry Thomason, chief patriarch; Glenn Bright, high priest; Herbert Savage, senior warden; Don Loper, junior warden; C. A. Reynolds, scribe; E. L. Stilson, treasurer; Ova Everett, trustee, and Robert Bryan, degree staff captain.

Masons Elect Officers

The annual election of the officers for the Masonic Lodge...

AFFIDAVIT OF PUBLICATION

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

NOTICE is hereby given that at 2:00 p.m., on the 22 day of December, 1965, at Hagerman, County of Gooding, State of Idaho, before David P. Nicholson, Notary Public, at City Office, Hagerman, proof will be submitted of the completion of works for the diversion of Five cubic feet per second of the waters of unnamed springs tributary of Billingsley Creek, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 29323, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is: Village of Hagerman, Hagerman, Idaho.
 2. Said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is Five cubic feet per second.
 3. The use to which said water has been applied is culinary and municipal purposes, and the amount applied to beneficial use is five cubic feet per second.
 4. The point of diversion of said water is 250 feet Northwest from the Southeast corner of the SW $\frac{1}{4}$ -SE $\frac{1}{4}$, Section 19, Twp. 7 S. R. 14 E.B.M.
 5. The place where said water is used is Village of Hagerman.
 6. The date of priority which said user is prepared to establish is January 18, 1961.

LICENSE OF WATER RIGHT

License of Water Right No. 29323/36-2465 Priority Jan. 18, 1961 Amount 5.0 cfs

THIS IS TO CERTIFY, that the VILLAGE OF HAGERMAN
of Hagerman, Idaho, has complied with the terms and conditions of Permit
No. 29323/36-2465 issued pursuant to Application for Permit dated January 18, 1961,
and has submitted proof to the Department of Water Administration on December 22, 1965,
that he has applied water to a beneficial use; an examination by the Department indicates that the
works have a capacity of 5.0 cfs, and that the water has in fact been applied to a
beneficial use; a right to the use of water from unnamed springs
tributary of Billingsly Creek, is hereby confirmed in the following amounts:
Amount 5.0 cfs for Culinary & Municipal from Jan. 1 to Dec. 31 (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Amount _____ for _____ from _____ to _____ (both dates inclusive)
Subject, however, to the condition that no more than 5.0 cfs of water be diverted at
any one time, said waters to be diverted within the _____

SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 19, Twp. 7 S, Rge. 14 E, B.M.

in the county of Gooding; and that the amount of water so diverted and to which such
right is entitled and confirmed is for the purposes aforesaid and is limited to the amount which can
actually be beneficially used and shall not exceed 3,614 acre feet per year ~~AK~~

RE: LIMITED ANALYSIS AND CONSIDERATIONS OF PROPOSED TRANSFERS FOR
SRBA CLAIMS A36-00022, A36-00023 & A36-02465; SETTLEMENT OF
A36-10870

Dear Mr. McFadden,

As we discussed by telephone and during the recent settlement conference, here is my analysis of the pending actions stemming from the proposed transfers with the City of Hagerman. Let me say up front this is not intended as legal advice nor is it all inclusive as to the facts; all information is part of the SRBA claims on file at our office. Some recent information is a result of conversations to frame the pending transfers.

POTTER SPRINGS:

SRBA Claim A36-10870 from Potter Springs was disallowed because of forfeiture. Based on current cropping patterns of the fields (as irrigated from other sources of water) and comparison with 1974 aerial photography, the original place of use appears to have measured 10 acres in size. All acres within the T07S, R14E, S19, SESW. These ten acres are to be replaced and irrigated with water from the City of Hagerman, A36-02465, 4.0 cfs also Potter Springs water.

BIG SPRINGS:

Big Springs Water Users Assn. (Assn.) has ownership of the SRBA Claims A36-00022 and A36-00023 (aka A36-15166). The Assn. issues shares to the actual water users and provides delivery of the water. During examination of this pair of water rights in the SRBA conflicting reports were given to IDWR about the number of shares within this company. The trend was the Assn. continues to issue new shares as needed and indicated in it's SRBA claims that the claims included beneficial uses yet to be developed in the future. This, combined with the outstanding objection to the flow rate as recommended for the Association's claims, make it impossible for IDWR to establish any relationship between the shares of the company and the flow rate they are entitled to receive.

There are a couple of citations in the claim files where the shares were equated as one share equals one miner's inch, i.e. memo

MICROFILMED

with City of Hagerman mayor on 4/15/1991. The remainder of this discussion will be based upon that figure.

In reviewing the documentation provided in A36-00022/23, there are conflicting statements as to the number of shares owned by Donnie McFadden. The "official" shares listing provided to IDWR shows 90 shares are the total owned while a statement from you on 10/21/1992 indicates you have 159 shares. This discrepancy is probably a concern within the Assn., and could be dealt with internally by the Assn., since actual shares are not directly related to the water right itself.

PENDING TRANSFERS:

You, Mr. McFadden, have filed your transfer to convey the City's right, A36-02465, to your uses and ownership. The Department is still awaiting the return of the prepared transfer form from the Assn. so the complete proposal can be processed together.

It is my understanding of the proposal that the City will give you the 4.0 cfs from Potter Springs, A36-02465, and you will exchange 107 shares in Big Springs Water Users Assn. to be transferred to the City.

As we discussed at settlement conference on 9/13/1996, you would identify 107 acres to be "dried up" and not be irrigated pursuant to the Assn.'s transfer. This 107 inches, or 2.14 cfs would then be converted to municipal use and conveyed to the City; bringing the total shares of the City to 200 shares (93 existing shares plus 107 shares equals 200). This transfer proposal appears to be simple and straight forward. In my initial review of the acre overlaps between A36-00046 and A36-00022/23, I determined you had 116 acres covered by the Assn. rights; that would cover the 107 acres as requested by the transfer.

The transfer of the 4.0 cfs from the City to Billingsley Creek Ranch poses the most options and questions. The simplest part is the first 2.14 cfs must be converted from municipal use to irrigation use and conveyed to "replace" the 107 acres previously "dried up" in the other transfer action.

The remaining portion of 1.86 cfs is the part that causes concern for IDWR. Although the SRBA claim was allowed in full to the City, the full beneficial use of the right must now be determined and only that portion can be transferred. I posed the question to use some of this water to irrigate the 10 acres at Potter Springs. It remains to be resolved, based on the facts presented along with the transfers filed. Did the City fully beneficially use the 4.0 cfs (when it was available) and if so, how is that use being "dried up" to allow the transfer of the use to Billingsley Creek Ranch? The approved transfer cannot allow expansion of the original use or right.

MICROFILMED

JUN 02 1998

A similar analysis would apply to the conversion of this municipal use right to other uses such as fish propagation, aesthetic uses and/or wildlife habitat. This would also include the proposed mitigation plans outlined in a recent letter from Allen Merritt, dated September 18, 1996.

SUMMARY:

At this point I don't believe complete information has been presented, along with the transfers, to adequately address these issues and questions. I do believe there is a good chance of substantiating the 4.0 cfs to cover the uses of ten acres irrigation at Potter Springs and the amounts needed for mitigation of the pending permits. However, the objections filed against rights A36-00022 and A36-00023 will also delay the review and approval of the transfers until those water right elements are quantified and resolved.

Sincerely,

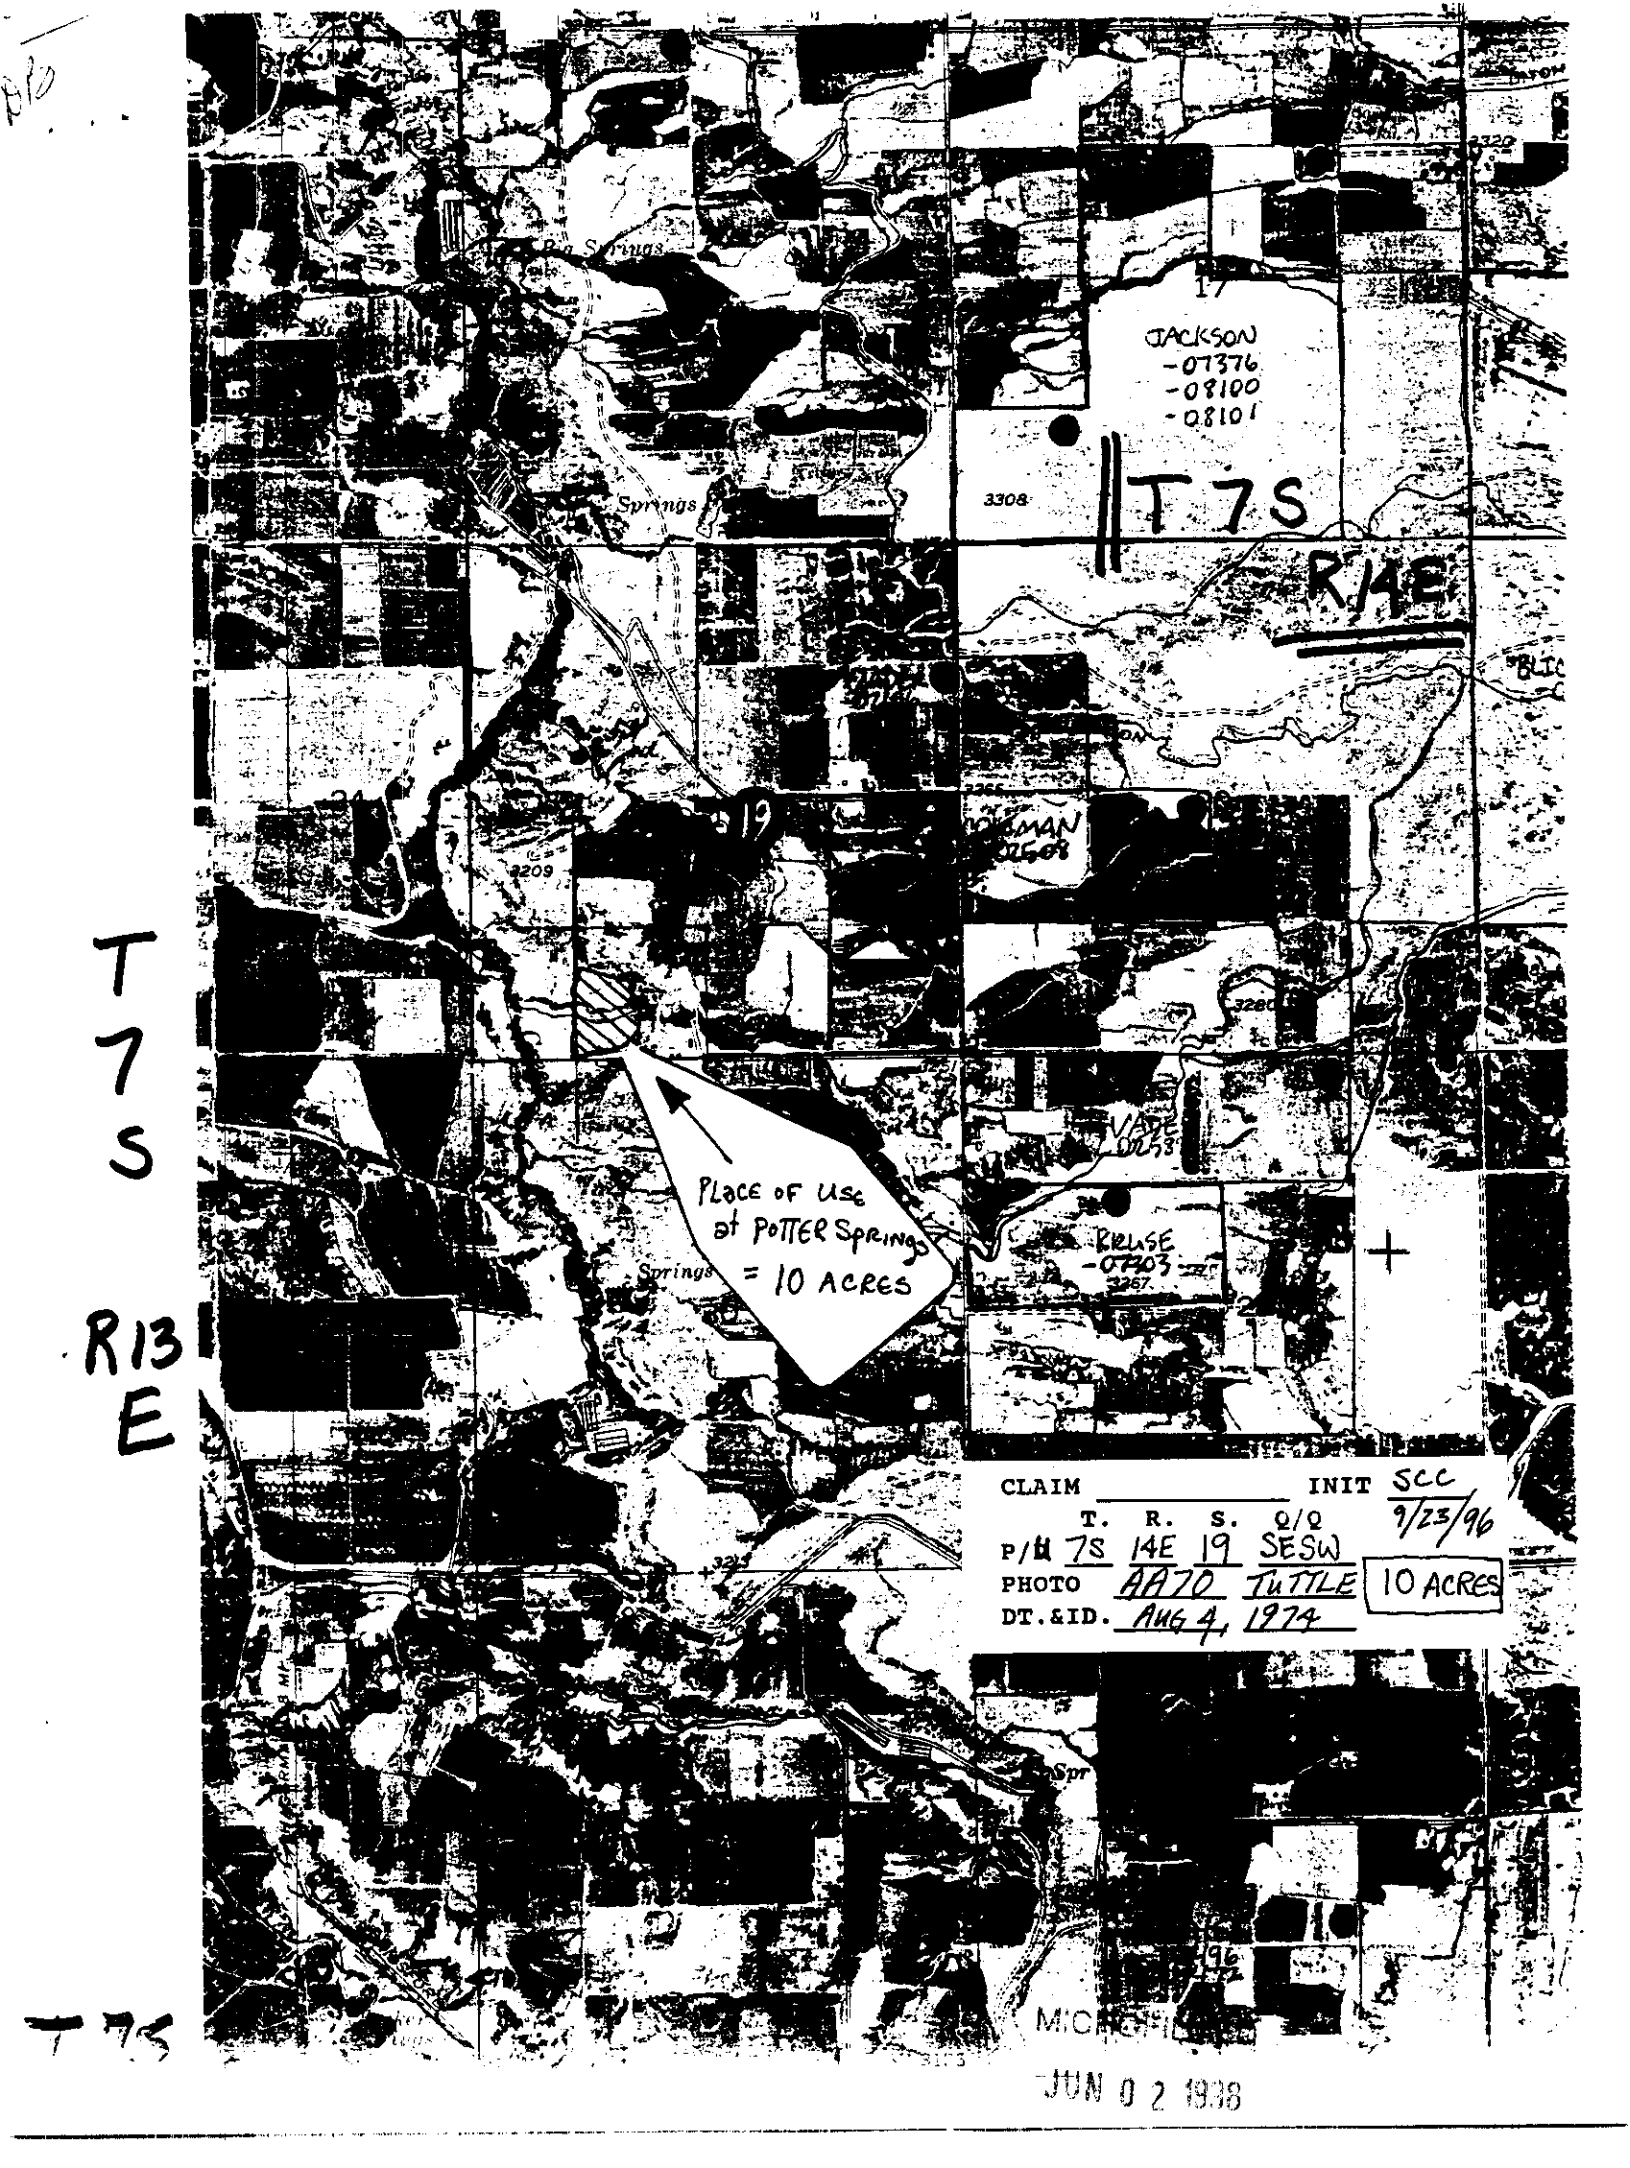

STEVE CLELLAND
Water Resource Agent

RE: Application for Transfer of Water Right 36-02465

Dear Mr. McFadden;

We are still holding the above-referenced application, which you filed last March. I prepared an application for transfer for the Big Springs Water Users to increase the flow rate of their water for municipal use, but they still have not returned the application to this office for processing. I have notified the City of Hagerman about this, but still have received no response from Big Springs. We would plan to process both of these transfers together, as one will not work without the other. So I wanted to let you know why your transfer has not yet been advertised.

Sincerely,

James E. Stanton
Sr. Water Resource Agent

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1

City of Hagerman

Name of applicant Billingsley Creek Ranch Phone 837-6194 837-6636

Post Office address 2926 S 1050 E, Hagerman, ID 83332, PO Box 158

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☒ Change nature of use ☒ Change period of use ☐ Other _____

2. Describe the reason for the proposed changes Water source is contaminated and no longer suitable for municipal use. So I have traded 210 of my shares in the Big Spring Water Users Assn. to the city in exchange for their right in Potter Springs. City will have 200 shares (4.0 cfs) if transfer is approved.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. Right Number	Priority	Amount (cfs/ac-ft)	Nature of Use	Period of Use
<u>36-02465</u>	<u>1-18-1961</u>	<u>4.0 cfs</u>	<u>Irrigation</u>	<u>~~3-15~~ to ~~10-11~~ 11-15</u>
_____	_____	_____	_____	_____ to _____
_____	_____	_____	_____	_____ to _____
_____	_____	_____	_____	_____ to _____

2. Total amount of water being transferred 4.0 cubic feet per second and/or _____ acre-feet per annum.

3. Source of water Potter Springs tributary to Billingsley Creek

4. Point(s) of Diversion: No Change

PART 1

6. General Information:

- a. Description of diversion system Existing headbox & pipeline from spring. Pipeline will be rerouted & buried to co-mingle with other rights on the property. Pumps pressurize mainlines & sprinklers.
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? ✓ Yes No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
Will continue to be irrigated with 52 shares of Big Spring water, & possibly 3.5 to 4 cfs from Three Springs.
- d. Remarks:
Both the applicant and the City of Hagenman agree that this right should be for 4.0 cfs as recommended in the SRBA. Springs have flowed only about 1-2 cfs since about 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Transfer of Water Rights No. _____

Dear Sirs;

Last year I filed an application for a transfer of Water Right 36-02465. The companion application by the Big Springs Water Users' Association has not yet been filed, so my application has been held by IDWR until the second transfer is filed. I now wish to assign my application to the City of Hagerman, who actually owns the water right on Potter Springs.

Thank You,

Donnie McFadden, Owner
Billingsley Creek Ranch

RE: Application for Transfer of Water Rights

**Department of Water Resources
Southern Region**

Dear Mr. McFadden:

This letter is in response to your inquiry regarding the transfer and trade of water rights with the City of Hagerman. You intend to transfer/trade certain of your rights in the Big Spring pipeline for City of Hagerman water rights arising out of Potter Springs.

As you have been informed, there are outstanding objections in the SRBA on the claims you wish to transfer/trade. Although IDWR can proceed on the transfer applications and will assist the parties to the extent possible, it cannot approve the transfers, if appropriate, so long as these outstanding objections are unresolved. Absent resolution of the objections, it is uncertain what the elements of the water right being transferred are.

The two water rights subject to the transfer applications and which have outstanding objections are as follows:

Claim no. 36-00022 is a water right delivered through the Big Spring pipeline by the Big Springs Water Users Association. It has been objected to by the Big Springs Water Users Association and the United States. To the best of my knowledge, there has been no recent action on this subcase.

Claim no. 36-02465 is the City of Hagerman water right. It was objected to by the United States. The City of Pocatello filed a response to the objection. In March of 1995 a Standard Form 5 was filed in this subcase by the parties and IDWR which resolved the objection. The Special Master has not yet acted on the Standard Form 5 or issued a preliminary report. I am uncertain of the current status of this subcase.

By copy of this letter to the Special Master I am requesting that the subcases be expedited to the extent possible. You may also wish to contact the court or the parties to the subcases to determine if and how you can assist in expediting the resolution of these subcases.

MICROFILMED

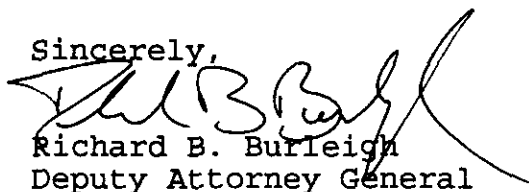

JUN 02 1998

Mr. Donnie McFadden
March 26, 1996
Page 2

Review and approval, if appropriate, of the transfer applications will proceed according to the established procedure notwithstanding the SRBA. However, as noted, no final action will occur on the applications until the objections to the above water rights have been resolved.

If you have any questions or would like to review the files on these claims please feel free to call me or any of the other IDWR attorneys at 1-800-451-4129.

Sincerely,

A handwritten signature in dark ink, appearing to read 'R. B. Burleigh', is written over the typed name and title.

Re: City of Hagerman/Billingsley Creek Ranch
Our File No. 96-1-071

Dear Donnie:

I received your letter dated March 4, 1996 proposing the exchange of 107 shares of Big Springs water from you to the City of Hagerman for the City's right in Potter Springs. Before advising the City about the propriety of completing the exchange, I believe we need to answer three general questions:

1. Will Big Springs Water Users Association support and cooperate in accomplishing the exchange?
2. Will the Idaho Department of Water Resources grant transfers regarding the shares in Big Springs and the Potter Springs right, especially concerning changes in place and nature of uses?
3. Will the Idaho Department of Health and Welfare or other pertinent agencies accommodate the exchange, including by approving the use of the additional Big Springs water by the City for municipal purposes?

Will I am presently unaware of any obstacles to obtaining positive responses to each of the above questions, that should come as no surprise since I have not investigated those matters. It will be less expensive for the City, and perhaps more fruitful, if you, Mr. Norwood or someone else from the City initially approached Big Springs, IDWR and the Department of Health and Welfare about these matters. While I would be glad to do the investigations myself, I will not undertake to do so until I receive some instructions from the City about how it prefers to proceed.

RE: City of Hagerman/Billingsley Creek Ranch
File No. 96-1-071

Dear Pat:

This is the basic information that I have exchanged with the City of Hagerman. It appears to be a "win/win" concept for both parties.

The present situation is this: The City of Hagerman has 93 shares in Big Springs Water Users Association. They also have a right for the entire flow of Potter Springs which originates on my property approximately one mile south of Big Springs. Potter Springs could be a bit of a problem for the city in the future for the following reasons:

1. The spring is high on the canyon wall and therefore the flow has not been dependable due to the continued mining of the aquifer.
2. This spring has been contaminated on several occasions causing the residents of the city to have to boil water. An abandoned septic tank and drain field sit right above the spring. During spring thaw and rain storms, the natural contour of the land channels possible contaminants to the proximity of the spring.
3. The water is transported from the spring to the city's new water storage facility in a pipeline made of WWII bomb casings. This pipeline runs for approximately 1 1/4 miles with about one half of it buried. The buried portion runs through soil that has a high clay content and a high water table. It is already showing

RECORDED
JUN 02 1996

Idaho's Leading Breeder of Race Horses

T# 5208

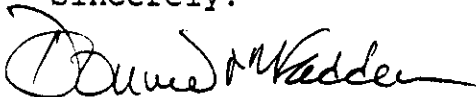

problems from electrolysis and deterioration. To replace this pipeline would be a very costly undertaking for the city. The last portion of the pipeline runs diagonally through the corner of an 80 acre parcel that is presently being subdivided into five acre parcels for residential use. The pipeline becomes a further complication as landowners build over the top of it.

I have met with Mayor Norwood and several members of the City Council. They presented the following concept to the rest of the council members in February and gained approval.

Billingsley Creek Ranch would exchange 107 shares in Big Springs Water Users Association for the City of Hagerman's water right in Potter Springs. That would more than double their right in Big Springs. Billingsley Creek Ranch would be responsible for removal of the old pipeline on its property. Billingsley Creek Ranch would like the opportunity to lease any Big Springs water that the City does not use. Should the City ever be precluded from using Big Springs water for municipal purposes, Billingsley Creek Ranch would like first right of refusal to purchase its Big Springs shares. Conversely, should Billingsley Creek Ranch find that they can no longer use Big Springs water for domestic purposes (we currently have 6 homes on the ranch receiving Big Springs water), the city would have the first option to purchase any ranch shares available.

Please let me know what other information you need from me in order to complete this transfer. If the I.D.W.R. comes up with something to complicate this transaction, advise me and I will see what I can do to work through any problems. The City and I are both anxious to consummate this exchange and certainly appreciate your assistance in this matter.

Sincerely:

Donnie McFadden

Re: City of Hagerman/Billingsley Creek Ranch
Our File No. 96-1-071

Dear Donnie:

This letter is to confirm our previous discussions about the possibility of entering into an agreement for you to exchange water shares out of the Big Spring system with the City of Hagerman for its Potter Spring's rights. As you know, the City of Hagerman does want to see if we can reach a final arrangement. While waiting to receive whatever information you have about the transfer, I will continue to investigate whether there are any pitfalls which could impede an exchange, including by soliciting input from the Idaho Department of Water Resources.

I will let you know as soon I have enough information to discuss the details of an exchange agreement. If you have any questions or would otherwise like to discuss these matters, please give me a call.

Very truly yours,

REPORT OF EXAMINER

Permit No. 29323

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Village of Hagerman

2. Source of water supply: unnamed springs

3. Location of point of diversion: Is in the SW 1/4 of Section 19

T. 7. S. R. 14. E. B.M. County of Gooding

4. Describe works as they exist, giving dimensions and capacities of same:

6' x 11' covered concrete collection box fed by collectors;
14" and 12" pipeline to Village of Hagerman
distribution ~~to~~ system

5. Water is used for: Culinary and Municipal

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

PLACE OF USE: Village of Hagerman and vicinity

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: Not actually measured however based on
the population of Hagerman a peak demand
of 5 cfs is considered reasonable

George Jensen at Hagerman has measured the
flow & should be contacted prior to licensing.

Validity - 1-18-61

ATTENTION: Cecil D. Hobdey

Dear Mr. Hobdey:

We received your inquiry concerning the application of Donnie B. McFadden. It is difficult to determine from the information we have on the permit for the Village of Hagerman and on the application of Mr. McFadden if his point of diversion is above or below that of the Village of Hagerman.

I have enclosed a map from Mr. McFadden's application and perhaps you will be able to determine the relative position of the points of diversion. From the descriptions given in Mr. McFadden's application, it appears to be below that of the Village of Hagerman.

At the present time, the permit of the Village of Hagerman is awaiting a field examination by this Department. For the present time, nothing further is required of the applicants concerning this permit.

If we can be of further assistance, please let us know.

Sincerely,

Bobby D. Fleenor

Gentlemen:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

I need to determine the volume of water used annually by your city, both from the point of diversion specified on the above referenced permit and all other points of diversion used by the city. Please inform me as to the number of water users and the total number of people served. Also, please provide a listing of water used by any large water users, stating the annual use and the months used (a monthly breakdown if there is much variation). We must, also, have the amount used for irrigation of parks and public land.

If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

Very truly yours,

Dennis Timoskevich
Water Rights Administrator

Re: Permit No. 29323

Ralph Miller, Chairman
Village of Hagerman
P. O. Box 355
Hagerman, Idaho

Dear Mr. Miller:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the GOODING LEAFER, all submitted in proof of completion of works and beneficial use on Permit No. 29323.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence occupation and postoffice address: _____
VILLAGE OF HAGERMAN HAGERMAN, IDAHO P.O. BOX 355

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf:
Ralph Miller, Chairman

Ques. 3. State number, approval date of permit, and date of priority: _____
29323 Jan. 19, 1961 Jan. 18, 1961

Ques. 4. State source of water supply: 250 feet Northwest from the Southeast
Give location of point of diversion, showing subdivision, section, township and range
corner of the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 19, Twp. 7 S. R. 14 E. B.M.

Ques. 5. Describe your works of diversion: The diversion of Five cubic feet per
second of the waters of unnamed springs
tributary of Billingsley Creek; state amount of water they are capable of con-
veying from point of diversion to place of use: 5 cubic feet; Give name of canal or ditch
or other works by which water is conducted to such place of use: steel pipeline
_____; if a well, state depth of well _____; depth and size of
casing _____; depth to water _____; if pump is used,
state discharge of pump: _____; tell how it was measured or determined _____
_____; if sprinkler irrigation, give number and size
of nozzles and operating pressure: _____

Ques. 6. State for what purpose water is used: Culinary & Municipal
(If for irrigation, name each subdivision in which used and number of acres in
each subdivision that have actually been irrigated with said water:

State nature of all improvements which have been made as a direct result of said use:

Ques. 6-a: If this is a ground water permit, give name and address of person that drilled the well: _____

Ques. 7. If for other than irrigation purposes, show full legal description of place of use and state purpose for which water is used:

VILLAGE OF HAGERMAN AND VICINITY Sections 13, 14, 23, 24, Twp 7 S. R 14 E.B.M

Culinary and municipal purposes

Ques. 8: If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder:

Quest. 9: State when and in what amount the water diverted under above mentioned permit has been first used: June 1961 - Time used since first use:

to date

Ques. 10. Describe all other water rights appurtenant to same place of use: _____

93 shares of Big Springs water

(sign) Ralph Miller, Chairman

I hereby certify that the foregoing testimony was read to the above subscribed, before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in

Re: Permit No. 29323
Village of Hagerman

November 10, 1965

Mr. Cecil D. Hobday,
Attorney at Law,
P. O. Box 386,
Gooding, Idaho.

Dear Mr. Hobday:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 29323, in the name of Village of Hagerman. Final Proof is to be made before you, **DAVID P. NICHOLSON** as Notary on the 22nd day of December, 19 65, at 2:00 o'clock P.M., at City Office, Hagerman, Idaho.

As of this date, we have mailed the Notice to the Gooding County Leader Gooding, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

DEPARTMENT OF RECLAMATION

Re: Permit No. 29323

Date: Nov. 1, 1965

City Clerk
Village of Hagerman
Hagerman, Idaho

Dear Sir:

Under the terms of your Permit No. 29323 you are required to make proofs of completion of works and application of water to beneficial use on or before **Jan 19, 1966**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

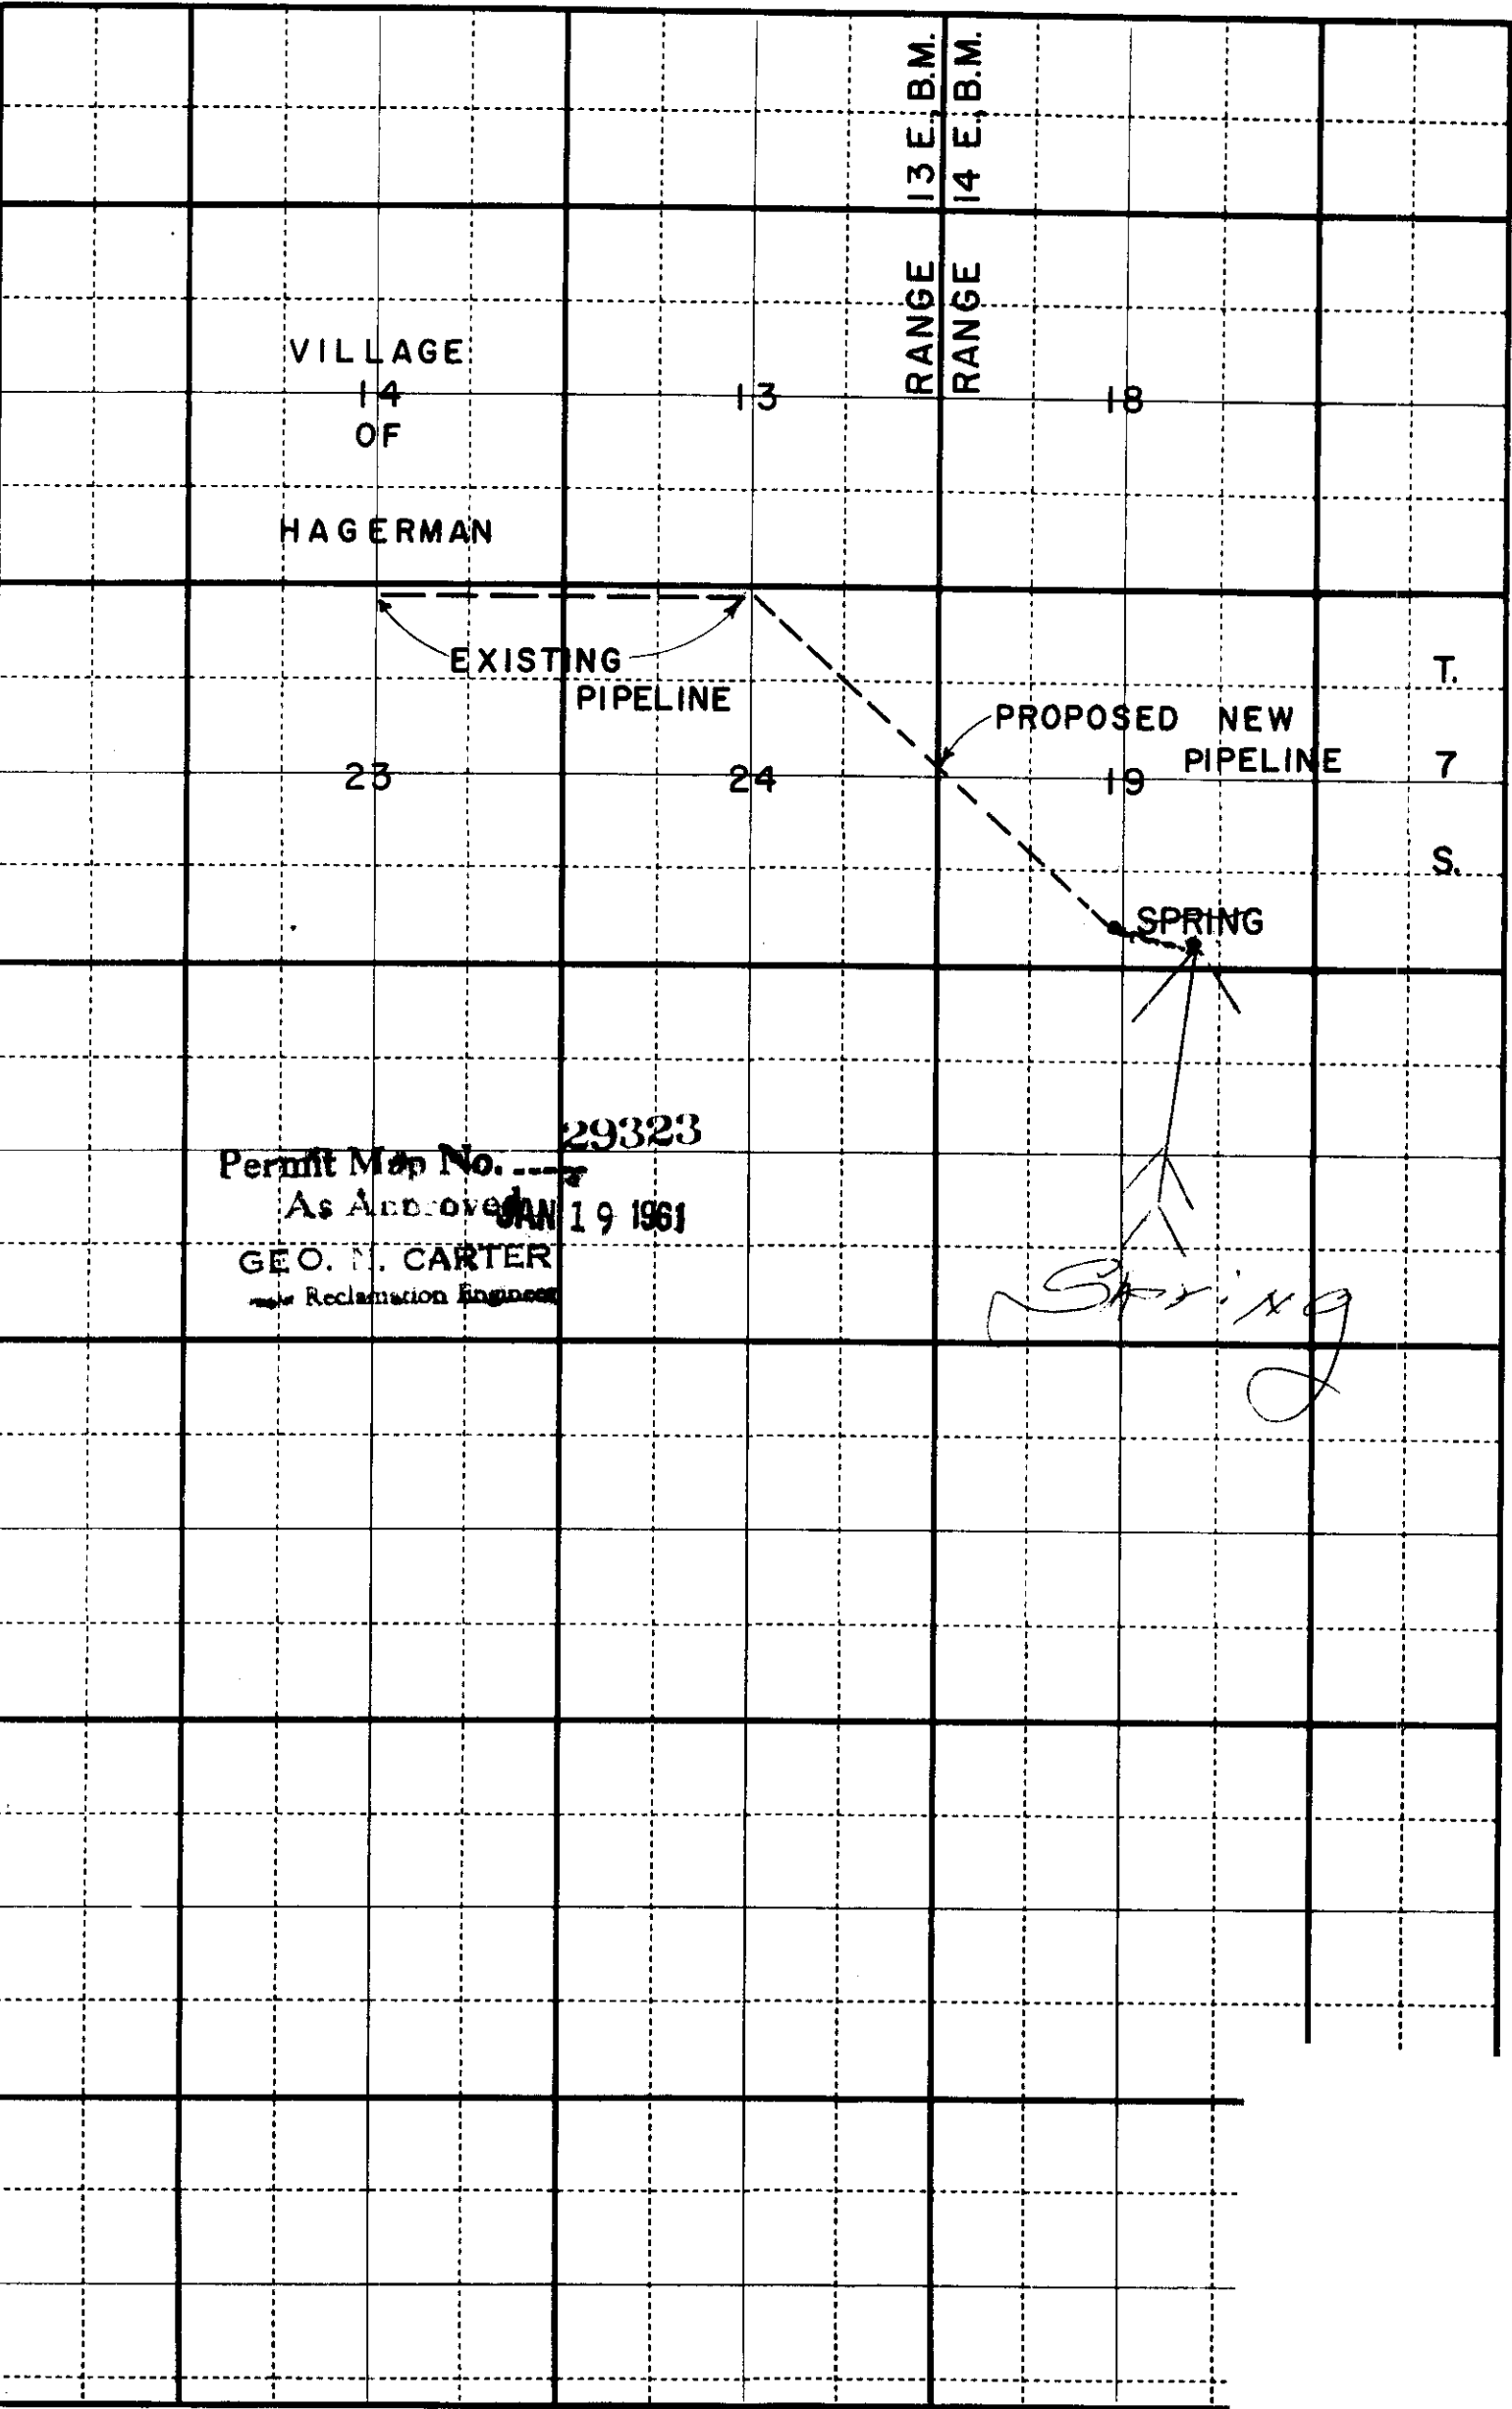

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan

RE: Application for Permit

Ellis B. Allen, Clerk
Village of Hagerman
Hagerman, Idaho

Dear Mr. Allen:

Enclosed is a form, application for permit to divert public waters,
with instructions.

Your letter is not entirely clear, however it appears the village
wants to appropriate additional spring water, provided the water will
pass the tests of the Health Department.

Before making the application it would seem best to test the water from
various springs to determine if there is any preference in the quality
of the water.

The date of priority is the date the acceptable application is received
in this office. The village can obtain an earlier right by condemnation
or purchase of an earlier right for irrigation and change the point of
use of the water.

Very truly yours,
