Important Information About Your Water Right

August 27, 2001

FLAT TOP SHEEP CO
PO BOX 88
CAREY, ID 83320

Dear Water Right Claimant(s):

The reverse side of this letter contains a copy of an ***Order Amending Irrigation Period of Use Element in Partial Decree and Incorporating into Partial Decree An Express Statment Regarding General Provisions, Nunc Pro Tunc*** (hereinafter "***Order***") for water right number 36-02455. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The Purpose of the ***Order*** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the ***Order***, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This ***Order*** also incorporates into the ***Partial Decree*** an express statement that the ***Partial Decree*** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This ***Order*** in combination with the ***Partial Decree*** that was issued for this water right on December 29, 1997, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the ***Partial Decree*** to show evidence of the water right. The original of this ***Order*** and the original of the ***Partial Decree*** for this water right are on file with SRBA Court. If you do not have a copy of the original ***Partial Decree***, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the ***Order*** is entered ***Nunc Pro Tunc***, meaning that the ***Order*** will be treated as if it were issued the same date that the ***Partial Decree*** was originally issued.

Sincerely,

Diana Delaney

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on December 29, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-01 10-31

THE USE OF WATER FOR IRRIGATION UNDER THIS RIGHT MAY BEGIN AS EARLY AS MARCH 15 AND MAY CONTINUE TO AS LATE AS NOVEMBER 15, PROVIDED OTHER ELEMENTS OF THE RIGHT ARE NOT EXCEEDED. THE USE OF WATER BEFORE APRIL 1 AND AFTER OCTOBER 31 UNDER THIS REMARK IS SUBORDINATE TO ALL WATER RIGHTS HAVING NO SUBORDINATED EARLY OR LATE IRRIGATION USE AND A PRIORITY DATE EARLIER THAN THE DATE A PARTIAL DECREE IS ENTERED FOR THIS RIGHT.***

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

Re: Permit No. 36-2455/G-29205

Mr. Roy Matheson

Burley, Idaho 83318

Dear Mr. Matheson:

In 1968, a field examiner from this department made an examination of your system. At that time, he reported only 96 acres being irrigated. This is in error, due to the use of a 1963 aerial photo. We have now obtained a 1967 photo which indicates that 170 acres were being irrigated at that time. Your permit was for 320 acres and 6.4 c.f.s., but the license can be for only the number of acres that are being irrigated at the time when the proof is due. Your proof was due on December 14, 1965; therefore, any land that is developed after that date will be required to have a new permit if it is to be irrigated from your well.

A fee letter is enclosed for your consideration. If any further information is required, please feel free to contact us.

Sincerely,

FRED EISENBARTH, JR.

Dear Sir -

1963 less than half the land was in. 96 acres. 1969 Aerial Photo showed about 158 acres in. 1970 about 22 acres was added and planted to potatoes making 180 there is about 20 acres of ditches that have to be water in at all times. Making 200 irrigated acres in row. I have cleared sage and am in motion to water another 42 acres. The Balance is somewhat Rocky or High and could only with small sprinkle and movable water - be watered for pasture only off season - for crops. Tell me is this a critical water district I was told before I settled in this part of country - that there was times more water here than would be land for. if it was all in - to be watered when completed 232 acres - less 25 of ditches - soaked up. and 5 acres Road. If you want to give the place a good looking over - I would like to have appointment - if the surplus water goes to Calif -

Re: Permit No. 29205

Dear Mr. Matheson:

Be informed that the Department has conducted a field examination and is prepared to issue a license for 1.29 c.f.s., from a well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 21, Twp. 6S, Rge. 23E, B.M., for irrigation of 96 acres within the S $\frac{1}{2}$ of Section 21, Twp. 6S, Rge. 23E, B.M. The acreage estimated by the field examiner and that submitted upon the deposition of proof, however, indicates more acreage than the 96 acres shown irrigated based upon the 1963 ASCS photo copy.

The Department measured the well as producing 3.75 c.f.s. and could issue a license with a maximum of 1 inch per acre for 187.5 acres if the Department can substantiate the acreage beneficially irrigated in each 40 acre subdivision. If you could supply the Department with a recent ASCS photo copy showing the acreage irrigated or a map of the ground submitted in the affidavit form by a member of the ASCS or a professional engineer having knowledge of the ground irrigated, the Department could proceed with the licensing.

If you have any questions, please contact this department.

Very truly yours,

Dear Mr. Matheson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Lincoln County Journal all submitted in proof of completion of works and beneficial use on Permit No. G-29205.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Nielson:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. **G-29205** in the name of **Roy Matheson**. Final Proof is to be made before you, as Notary on the **1st** day of **March**, 19**67**, at **Burley**, Idaho.

As of this date, we have mailed the Notice to the **Lincoln County Journal**, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to ~~xxxx~~ **Roy Matheson**.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Burley, Idaho

Dear Mr. Matheson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29205 are due not later than **March 7, 1967**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,
