Dear Sir:

The fee for recording an assignment is 50¢ which you may remit to this office for permit G-27238.

Regarding the assignment recorded for permit No. G-27618, we feel it would not be necessary to revise the assignment since it was made to the partnership. Since E. A. Wolters is one of the partners his interest in it should not be affected. If it is desired to have his name mentioned in the assignment it will be necessary to make another assignment by the 3 partners to the four.

W. A. Wolters signed the proof of completion of works and beneficial use for the partnership.

Very truly yours,

CARL E. TAPPAN

Attention: Miss Rule

Dear Miss Rule:

See due
We enclose herewith original and copy of Assignment of Water Permit No. G-27238, Notice of Proof of Completion of Works and Application of Water to Beneficial Use and Notice authorizing publication. Insofar as the Notice of Proof is concerned, our records indicate that the date of priority as shown by this permit is February 6, 1958. However, we note that the permit was filed February 13, 1958 and we are wondering whether February 6th might be in error. If so, we would appreciate you changing the date to the earliest possible priority date which we can establish.

In looking through our file, I note in an assignment of Permit No. G-27618 which has been filed in your office that the name of E. A. Wolters was omitted as assignee and as co-partner in Tiny & Sons Construction. On April 9, 1964 we forwarded to you the final proof papers. I am wondering if this error has been compounded throughout this whole proceeding. Would you please advise what requirements your office would make in order to include the name of E. A. Wolters. Thus the assignees named in the assignment of the permit should be W. A. Wolters, M. N. Wolters, M. R. Wolters and E. A. Wolters, co-partners dba Tiny & Sons Construction. In my opinion the partnership is the real entity in these matters,

27618

and I think it would be proper to simply add his name by interlineation.

Would you please advise and send us your bill for filing and recording the assignment.

Dear Mr. Thrall:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 27618 are due not later than Dec. 2, 1963.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses.
