Mr. Harley M. McDowell,
Idaho Land and Appraisal Service,
Box 2161,
Boise, Idaho.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26917, in the name of Thomas A. Rudy and Judith Ann Newcomb. Final Proof is to be made before ~~me~~ Joan Bain as Notary on the 15th day of May, 19 64, at 10:00 o'clock A.M., at 224 Idaho Building, Boise, Idaho.

As of this date, we have mailed the Notice to the North Side News Jerome, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN

Gooding, ID 83330

Dear Mr. & Mrs. Brown:

We are in receipt of the correspondence concerning ownership of the above referenced water right licenses.

In Idaho, a claimed water right is considered real property and is acquired when the property to which it is appurtenant is purchased. Proof of owning the land is proof of owning the water right claim, if the previous land owner did not exclude the water right from the sale. Therefore, we will place your correspondence in the files for future reference only and no further action will be taken.

If you have any questions, please let us know.

Sincerely,

JIM JOHNSON

Dear Sir:

We acknowledge receipt of a check in the amount of \$21.00 issued in connection with Permit No. G-26917.

In as much as Judith Ann Newcomb and Thomas A. Rudy each have an interest in this permit we refer you to our letters of July 7 in which we said, "the fee for each is \$21.00."

I am unable to determine which party should receive the credit for the check, and therefore I am returning same. Please identify or send us a check in the amount of \$42.00 to cover statutory fees for both.

Very truly yours,

Dear Mr. Newcomb:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the JEROME NORTH SIDE NEWS, all submitted in proof of completion of works and beneficial use on Permit No. ~~G-26917~~.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours ,

Permit No. G-26917 *Part*

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Judith Ann Newcomb, Twin Falls, Idaho, Student, 735 Commercial Avenue,
Twin Falls, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. G-26917. Date of permit: June 5, 1957. Date of priority: May 24, 1957

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well located in NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, T 8 S - R 17 E, B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well, pump & motor and sprinkler system, conveys 522 inches of water, sprinkler irrigated. Well is 640' deep, is cased 15' with 20" casing and depth to water is 520'. Pump discharges 522" as determined by the pump company. Sprinkler nozzles are 5/32" with 48 lbs of pressure and there are 528 nozzles.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26917, in the name of Thomas A. Rudy and Judith Ann Newcomb. Final Proof is to be made before Notary Joan Bain as Notary on the 15th day of May, 19 64, at 10:00 o'clock A.M., at 224 Idaho Building, Boise, Idaho.

As of this date, we have mailed the Notice to the North Side News Jerome, Idaho, with instructions to publish it once a week for 4 consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

Dear Mrs. Hills:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 26917 are due not later than Feb. 26, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Dear Mr. McDowell:

Returned herewith are applications for amendments to points of diversion of both permits and assignment of a portion of permit to Mrs. Hills, with attached check for \$2.50.

The application to amend point of diversion under Permit No. G-28558 cannot be approved. The proposed move would be over one mile and certainly would not assist in irrigation of the land.

The application to amend point of diversion under Permit No. G-26917 can be approved. The assignment of 47% of this permit can also be approved provided the land list is amended to include the land mentioned in the assignment.

Dear Mr. McDowell:

Returned herewith is the application for change in point of diversion.

A successful well has been drilled in the nw corner of NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, T. 8 S., R. 17 E., B. M. and this amendment would allow a well to be drilled where there could be considerable interference with the existing well. Both wells would hold the same priority as both applications were received in the same mail.

We can approve the application with provision that any water from the well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 24, will carry priority of March 2, 1963, date of receipt of the application. That would require two sets of certificates. Or the application can be approved if accompanied by written permission from the owner of the well in the adjoining 40-acre subdivision.

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-26917 are due not later than **June 5, 1962.**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
