Dear Mr. Tappan:

Last week I received the notice, a copy of which is enclosed, stating that the terms and conditions of the above permit were not complied with.

Your office has evidently overlooked the fact that Henry C. Jones assigned this permit to the Jones Land and Feed Yards, Inc. Subsequently, proof of completion of works and application to beneficial use was made and forwarded to your office on April 30th, two weeks before the same was due. I enclose a copy of the acknowledgement of the proof which we received from the Department of Reclamation.

In view of the above, please advise Mr. Jones and myself of the status of this matter.

Gentlemen:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-26874 are due not later than **May 1, 1962**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
