RE: Permit No. G-26425

John M. Matani
Jerome, Idaho

Dear Mr. Matani:

The production of your irrigation well was found to be 4.4 c.f.s. by our field examiner. The pump is rated at 2250 g.p.m., or about 5.0 c.f.s. A difference of this size between rated production and actual production is not uncommon; however, as you are not convinced of the validity of the 4.4 c.f.s. figure another measurement will be made during the coming irrigation season to assure that your license is issued for the proper amount.

Very truly yours,

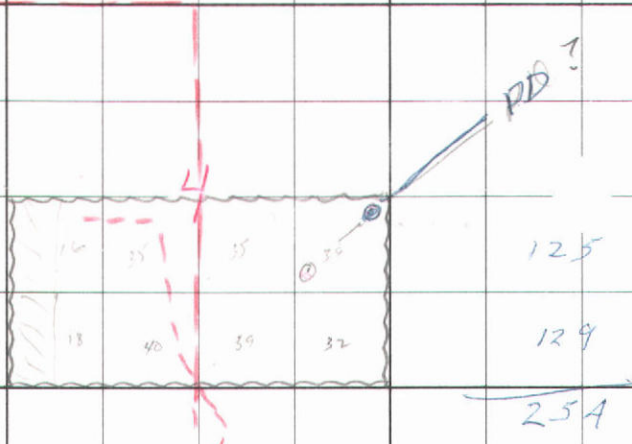

Donald J. Watts
Engineer

DJW:mr

*Check with the Engineer's Office for
approval of the permit. If you wish to
accept this permit, please return the
certification of water right.
The well then becomes the well
during the coming irrigation season.
in accordance with your earlier report.*

Comes now John M. Mitani
represent to the State Reclamation Engineer of the State of Idaho: _____ and

That he is (are) the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-26423.

That the point_ of diversion is described in said Permit as being located:

2 points NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 4, Township 8 South - Range 18 East, B.M.

That he now requests that the point of diversion be changed to a point located: NE 1/4 Sec. 4, Town 18 S, Range 18 E, R.R.

That the reason for desiring to make such change is as follows:

Upon a more complete examination of my land it was decided that the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4 would be a better location for one well to irrigate all my land.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

RE: Permit No. G-26425

John H. Mahani
Jaxco, Idaho

Dear Mr. Mahani:

The production of your irrigation well was found to be 4.4 c.f.s. by our field engineers. The pump is rated at 2000 g.p.m., or about 5.0 c.f.s. A difference of this size between rated production and actual production is not unusual, however, as you are not concerned of the validity of the 4.4 c.f.s. figure. Further investigation will be made during the coming investigation season to assure that your license is issued for the proper amount.

Very truly yours,

Donald J. Watts
Engineer

RE: Permit No. G-26425

May 26, 1966

John M. Mitani
Rt 1, Box 11
Jerome, Idaho

Dear Mr. Mitani:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26425 shows the well ~~(is)~~ is ~~(correct)~~ capable of conveying 220 miner's inches, or 4.4 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees, totaling \$ 21.00 , we will issue the Certificate of Completion of Works for 4.4 c.f.s. and the License and Certificate of Water Right for 4.4 c.f.s. confirming the right, with priority of July 2, 1956 , to the use of subterranean water with the point of diversion in the NE~~1~~SE~~1~~4, Sec. 4 for irrigation of 254 acres in the S~~1~~2, Sec. 4, T. 8 S., R. 18 E., B.M.

Dear Mr. Mitani:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the FIRST RECREATION NEWS, all submitted in proof of completion of works and beneficial use on Permit No. C-26425.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-**26425** are due not later than **July 13, 1961**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,
