RE: SRBA Claim(s) 36-02215, 36-10449

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding which the department has filed with the SRBA Court regarding adjudication claim 36-02215. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Since the legal description on adjudication claim 36-10449 does not match the legal description on the quitclaim deed from Karan, ownership was **not** changed to you. However, after reviewing all other claims in yours and Karan's names, it appears the legal description on claim 36-11163 does match the quitclaim deed. I am enclosing profile reports of both 36-10449 and 36-11163 for your reference. If you wish to list ownership of 36-11163 in your name, please replace the number 10449 with 11163 on the enclosed original ownership change form, initial the change, and return it to me. Once I have received the corrected ownership change form, I will then make the change in ownership.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Trish Fawcett

Dear Mr. Kulp:

On April 8th, 1953, I sent you completed application for underground water.

Recently I have noticed publications of "Notice of Proof of Completion of Works and Application of Water to Beneficial Use." I would like to know whether there are any further papers I should file or whether your office sets a certain period of time within which notice is to be given. Will final proof of application of the water have to be made after the irrigation season this year? May I hear from you.

Thanks.

Dear Mr. Gates:

We are in receipt of your letter of April 8, 1953, enclosing application for permit to appropriate 6 second feet, or 300 inches of underground water for the irrigation of the SW $\frac{1}{4}$ and W $\frac{1}{4}$ SE $\frac{1}{4}$ Section 1, Township 8 South, Range 14 East, B.M., accompanied by your check for \$6.25.

Although the log of well test shows that your well will deliver approximately 300 inches, the statutes only allow a maximum of one inch per acre which would be 240 inches on the land described in the application.

The application can therefore only be approved for 240 inches, unless you wish to include additional land.

We shall await your further advice before proceeding.

Very truly yours,
