Gentlemen:

We have checked the Notice in connection with the above permit which appeared in your issue of October 16, 1958 and find same to be correct, with the following exceptions.

Line No. 7 - "the said administrator at the office of Frank" - it evidently belongs to another notice - should be omitted and in its place should be inserted the following:
"of water from a well located in the NW $\frac{1}{4}$ ".

In order to make this correction more clear, please refer to the copy sent you and made corrections in your subsequent issues, being sure to send us a marked copy of the corrected notice.

Very truly yours,

Dear Mr. McDowell:

On a re-check of the publication submitted on Permit No. G-23850, of Pauline E. McClure, we note that through an inadvertency, notice for proof was published in Twin Falls County whereas the land is located in Jerome County.

Since the statutes require publication in the county in which the land is located, we are of the opinion that in order to avoid any possible question that might arise in the future as to the validity of this water right, it will be necessary to republish in Jerome County.

We have prepared a form of notice and if this meets with your approval, please return to this department and we shall send a copy to the North-Side News of Jerome, with instructions in regard to publishing.
