Of course, this is a comparatively unimportant error but it could have been corrected had we received a copy of your paper as requested.

Dear Mr. Hulet:

This morning's mail brings us duplicate notice for proof of completion of works and beneficial use to be made on Permit No. C-23714 on January 22, 1955.

You evidently misunderstood form letter sent you on December 1 calling attention to the fact that these proofs were due on or before February 20, 1955 and enclosing forms of the notice to be filled out and returned to this office at least 40 days before the date you wished to make the proof.

Before these proofs are made, the notice must be published once a week for four weeks in a county newspaper which we see you have indicated as the Wendell Irrigatorist.

We return other copies of Form 36 which please complete by setting a date far enough ahead to allow four weeks publication and naming the Notary Public before whom the proof is to be made.

Both copies to be returned to this department, upon receipt of which we shall send one copy to the newspaper with instructions in regard to publish and shall send you the forms of deposition to be executed by yourself and two witnesses in making the proof.
