INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

TITLE OF NOTICE
PLAINTIFF ATTORNEY

DEFENDANT

PLAINTIFF

Guy E. Hunter
BILL TO
Rt. 3 Jerome

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a.m., on the 29th day of November, 1957, at 619 Idaho Bldg., Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23260 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit is Guy E. Hunter, Route No. 3, Jerome, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The point of diversion of said water is SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27, Twp. 8 S., Rge. 17 E.

5. The place where said water is used is NE $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 27, Twp. 8 S., Rge. 17 E.B.M.

6. The date of priority which said user is prepared to establish is November 22, 1952.

MARK R. KULP,
State Reclamation Engineer.

	)	ORDER AMENDING IRRIGATION PERIOD OF USE
	)	ELEMENT IN PARTIAL DECREE and
Case No. 39576	)	INCORPORATING INTO PARTIAL DECREES AN
	)	EXPRESS STATEMENT REGARDING GENERAL
	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 to 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

MICROFILMED

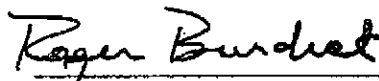

SEP 22 2003

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. G-23260																			
Comes now Guy E. Hunter and represents to the State Reclamation Engineer of the State of Idaho:																			
That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-23260.																			
That the point of diversion is described in said permit as being located NE ¹ / ₄ SE ¹ / ₄ , Sec. 27, T. 8 S., Range 17 E.																			
That he now requests that the point of diversion be changed to a point located SE ¹ / ₄ NE ¹ / ₄ , Sec. 27, Twp. 8 S., R. 17 E.																			
That his reasons for desiring to make such change are as follows: The new highway from Shoshone to Twin Falls border and causes a change in the original irrigation plan. Also, the new location is a better well site.																			
That no one will be injured by such change, and that such change will be made at Permit Holder's own risk,																			
Signed at Boise, this 17th day of December, 1953.																			
of receipt at Department of Reclamation December 18, 1953.																			
APPROVAL OF STATE RECLAMATION ENGINEER																			
I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application permit to appropriate the Public Waters of the State of Idaho, No. G-23260. This approval constitutes a new permit an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved the rights of others will not be adversely affected thereby.

Re: Permit No. G-23260
Guy Hunter
Rt.#3, Jerome, Idaho

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-23260 shows the well is capable of conveying 75 miners' inches (1.5 c.f.s.) of water for irrigation of 102 acres.

Upon receipt of the statutory fees, totalling \$11.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee six dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of November 22, 1952 to the use of 1.5 second feet of subterranean water, with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, for irrigation of 102 acres in the E $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 27, Township 8 South, Range 17 East, B.M.

Re: Permit # G-23260

Mr. Guy Hunter
Rt. # 3,
Jerome, Idaho

Dear Mr. Hunter:

Statutes requires a field inspection in connection with the proofs on Permit # G-23260 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Monday

June 9, 1958

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Guy Hunter, residence 3 miles East and $2\frac{1}{4}$ miles south of Jerome, Idaho, occupation farming, and P. O. Address Route 3, Jerome, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23260, date of the permit is November 29th, 1952 and the priority date I propose to establish is November 22nd, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well to raise subterranean water, located toward the center and the east side of SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 27, T 8 S - R 17 E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works consist of 75 h.p. turbine type pump and motor. The pump here is capable of, and will produce, 75". This has been tested by the pump company and I know from my own knowledge of seeing water pumped that it will go at least this much. All the irrigation here is by gravity through my private ditches. The ditches are about 2 miles in length altogether. My main ditches are 18" to 2' deep, 4' top and 18" bottom. The well is 480' deep, lifts from a level of 370'. For 20' I have an 18" casing, but the pump pipe is 8" in diameter and goes for 390'.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for intensive row crop farming. It is used on 100 acres here. I have 30 acres in the north 40, about 38 acres in the center 40, and about 32 acres in the south 40. The whole thing was developed as a result of this irrigation, and I have invested \$18,000.00 without the buildings and the buildings cost, with my domestic well, about \$12,000.00. You can raise nothing here without irrigation, and there is no natural meadow here.

→ E 2 NE 4 , REASEA, Sec. 27, T 8 S - R 17 E ✓

G 23260

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need at least this entire 75" to irrigate the whole property.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who made this application.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started work on it right after the land was allowed for me under desert entry in April of 1953, and have gone right ahead with it at all times, to the full development.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water diverted, for any part of this land.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
DEC 4 1957
Department of Reclamation

Permit No. G-23260

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is A. F. Hassler, age 69, residence 249 East Avenue B, Jerome, Idaho.
Occupation is retired, P. O. Address is 249 East Avenue B, Jerome, Idaho.

Ques. 2. Are you acquainted with Guy E. Hunter, the holder of Permit No. G-23260? How long have you known him and where does he reside?

Ans. I have known him 21 years and know that he lives 3 miles East and 2 1/4 miles South of Jerome.

Ques. 3. Have you read or heard read said Permit No. G-23260, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Drilled well in SE 1/4 Sec. 27, T 8 S - R 17 E. This is equipped with 75 h.p. turbine type pump and motor. The well is drilled to 480' and lifts from a depth of 370'. This well will produce 75" of water and this is conveyed through his ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 75"

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 75". This was tested by the Pump Company.

23260

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. In the NE¹/₄SE¹/₄, 32 acres are irrigated, in the NE¹/₄NE¹/₄, 30 acres, and in the SE¹/₄NE¹/₄, 35 acres. There is no natural meadow land here, and all the improvements are a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a good volcanic ash soil, and I figure he can't get by with any less than what he already has.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this ever since it first started and I have seen this many times since then, and I know what progress has been made from the beginning of this, to the present time.

Ans. I have seen the pump deliver 75" of water, and I know this was tested by the pump company.

823260

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. In the NE¹/₄ NE¹/₄ 30 acres. in the SE¹/₄ NE¹/₄ 35 acres. in the NE¹/₄ SE¹/₄ 32 acres. There is no natural meadow land, and all the improvements have been made as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This is a potash soil, very good irrigable land, and I figure he needs all the water he has.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this right from the first time when they drilled this, and I have had occasion to follow it right straight through and visited it many times to see just what has been done here.

Mr. Harley M. McDowell
P.O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

This acknowledges receipt of the Notice of proofs of completion of works and application of water to beneficial use under Permit No. G-23260, in the name of Guy E. Hunter. Final proof is to be made before you, as Notary, at 10:00 A.M. on the 29th day of November.

As of this date, we have mailed the Notice to the North Side News, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that the Permit holder and his two disinterested witnesses, who are familiar with the terms and the work done thereunder, execute the depositions before you as Notary, at the time, date and place as advertised in the publication Notice. The signatures of the holder and witnesses, and, your Notary seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Very truly yours,

DEPARTMENT OF RECLAMATION

RE: Permit No. C-23260

Date September 1, 1957

Mr. Guy E. Hunter
Route #3
Jerome, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. C-23260, are due not later than November 29, 1957.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date. This form, filled out in duplicate, is to include the time of day, the date (allowing for four weeks publication), the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Also enclosed is Form 11, which is the authorization for us to have the notice of proof published in the designated county newspaper, at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper, we will also send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
