Subdivisions = Six

Area = ²⁴⁰320 acres.

Q = 156 "

T = 59°F

Used as primary water for
land south of canal.

Supplemental above when needed.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	Water Right 36-02152
	)	
	)	ORDER AMENDING IRRIGATION PERIOD OF USE
	)	ELEMENT IN PARTIAL DECREE and
Case No. 39576	)	INCORPORATING INTO PARTIAL DECREES AN
	)	EXPRESS STATEMENT REGARDING GENERAL
	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 to 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

State of Idaho
License and Certificate of Water Right

Water License No. G-22468

Amount 3.12 second feet

Water District No.

Priority November 9, 1951

THIS IS TO CERTIFY that REX D. MATHEWS
of Twin Falls, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated November 9, 1951; that Permit No. G-22468
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.12 second feet, was issued thereunder on August 19, 1954, showing that said works
were completed on the 14th day of November, 1953; and that on the 14th
day of November, 1953,

REX D. MATHEWS

of Twin Falls, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well

in the NE 1/4 NE 1/4 Sec. 9, Tp. 9 S. R. 16 E., B. M. Jerome County
(subterranean flow), for the purpose of irrigation
under Use Permit No. G-22468 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

9 of Licenses at page 5331, on the 19th day of August, 1954;

The right hereby confirmed dates from November 9, 1951;

The Point of Diversion is located

in the NE 1/4 NE 1/4 Sec. 9, Tp. 9 S. R. 16 E., B. M. Jerome County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 3.12 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

MARK R. KULP
State Reclamation Engineer.

36 2152

APPLICATION FOR PERMIT 36-2152

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-30200
Permit No. G- 22468
District No.

1. Name of Applicant: REX D. MATHEWS

Postoffice address: Box 366, Twin Falls County: Twin Falls State: Idaho

2. Quantity of water claimed:

(a) Rate of withdrawal in cubic feet per second. Four (4) or Idaho
Miners' inches 200 or gallons per minute.

(b) Annual withdrawal in acre feet per annum

3. Source of water supply: Subterranean from well

4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 9
Twp. 9 S. , Rge. 16 E. , B.M., County of Jerome

5. Water is to be used for: Irrigation purposes.

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.

(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.

7. Kind of works: Well and pump

8. Estimated cost of works: \$ 8,500.00

9. (a) Is reservoir to be used?

(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is 30 days
~~years~~

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation:

(b) Amount of capital stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the applicant are (a) Cash on hand: \$

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 240 shares water-Northside
Canal Company

(a) 4 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) (cubic feet per second, inches or gallons per minute) is for new lands.

We expect to get at least 200 inches of water or 4 feet. The water will be used during irrigation season. There are domestic wells around us and we feel sure we will get water at this location.

Remarks:

RE: Permit No. G-22468

Mr. Rex D. Matthews
Box 366
Twin Falls, Idaho

Dear Mr. Matthews:

The report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-22468 shows that your well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 9 Township 9 South, Range 16 East B.M. will deliver 156 inches of water which has been used to irrigate 240 acres in the NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$ of said Section 9.

A Certificate of Completion of Works and License can therefore be issued for 156 inches or 3.12 second feet of water from said well upon receipt of the statutory fees. These amount to \$5.00 for Certificate of Completion of Works and \$12.00 License fee, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

MARK R. KILP

Used as primary water for
land south of canal.

Supplemental above when needed.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

REPORT OF ENGINEER

Permit No. G-22468

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Rex D. Matthews, 257 Walnut St. (Or Box 366) Twin Falls, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 9
T. 9 S. R. 16 E. County of Jerome
4. Describe works as they exist, giving dimensions and capacities of same: Well is 16" by 368' deep, cased 196'. H= 130', draw down is 230'. 8" by 240' column. stage and bowls sizes to be checked with S. A. High, Layne Bowler dealer in Twin Falls; 100 hp. G. E. Motor 440 V., 120.5 A., 1765 RPM, No. SHJ 6919377. Layne Bowler Turbine Pump No. 17739, concrete curb 6' by 6', shed type roof, no walls. Delivery to South or East through an 8" to a 10" pipe line. The East ditch extends across under the road and thence into a concrete head box.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 9, Twp. 9 South, Range 16 East, B. M.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This is considered as primary water for all land South of the main canal. Mr. Matthews states that he has 240 shares of North Side water and that it takes all of that plus the total output of this pump to irrigate because the soil is so sandy.

Examination was made in company with Mr. Matthews and Mr. Karren, the renter.

This examination was made on the 15th day of July, 1954

(Signed)

E. N. Humphrey

Examiner.

22468

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-22468

Messrs. Smith & Jacob
P.O. Box 426
Twin Falls, Idaho

ATT: Mr. Leonard E. Jacob

Dear Mr. Jacob:

We acknowledge receipt of your letter of December 10, 1953, enclosing depositions of Mr. Rex D. Mathews and two witnesses, also affidavit of publication in the Jerome North Side News, all in proof of Completion of Works and Beneficial Use on Permit No. G-22468.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact Mr. Mathews at the time he makes the examination in order that he may arrange to show him over the ground.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Attention: Mrs. Jeanne Anderson

Dear Mrs. Anderson:

Enclosed herewith is a deposition of holder on Form 16 and two depositions of witnesses on Form 17 relative to Proof of Application of Water to Beneficial Use and Completion of Works under Permit No. G-22468 presently in the name of Rex D. Mathews of this city. Also enclosed is the affidavit of publication of the Northside News.

Mr. Shirley was to have sent this directly to your office but since we made arrangements for him to handle the matter, he probably returned it to our office for that reason.

Very truly yours,

SMITH & JACOB

BILL TO

NOTICE OF PROGRESS OF COMPLETION OF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a.m., on the 14th day of November, 1953, at Jerome, County of Jerome, State of Idaho, before J. Shirley, Notary Public proof will be submitted of the completion of works for the diversion of four (4) cubic feet per second of the waters of a well in NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 9, Twp. 9 S. R. 16 E.B.M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-22468 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Rex D. Mathews, Box 366, Twin Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is four (4) cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is four (4) cubic feet per second.

4. The place where said water is used is NE $\frac{1}{4}$ and N $\frac{1}{4}$ NW $\frac{1}{4}$ Section 9, Township 9 South, Range 16 East, B. M.

5. The date of priority which said user is prepared to establish is November 3, 1951.

MARK R. KULP,
State Reclamation Engineer.

BOISE, IDAHO

Permit No. G-22468

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Rex D. Mathews of P.O. Box 366, Twin Falls, Idaho. I live at 257 Walnut St., Twin Falls, Idaho. Occupation: Produce buyer and rancher.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. - - -

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-22468, dated Nov. 9, 1953 with priority dated November 24, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean source with well located in the Northeast Quarter of the Northeast Quarter of Section 9, Township 9 S, Range 16 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Well has been drilled which is 368' deep with water pumped by a Layne-Bowler pump powered by a 100 h.p. electric motor from a depth of 250'. Diameter of well is 18" with a 16" casing. Flow of water has been measured by instruments. Present pump with this motor will deliver 2.9 cubic feet per second of water. With a 125 h.p. electric motor, the pump would deliver in excess of 4 cubic feet of water. Main ditches and feeder ditches carry water over area.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water has been used for irrigation purposes. Water can cover the entire area covered in permit. However, there are 240 share of water appurtenant to the land, from the North Side Canal Company. At the present time, water from the well has been used to irrigate the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and the S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 9. Water from canal company has been used to irrigate the N $\frac{1}{2}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 9. Under this method 120 acres have been irrigated by the well water. Cultivated crops have been grown. \$3,900 spent in leveling land and extra feeder ditches have main lines have been constructed. Formerly only about half the land was under cultivation, now all is under cultivation since leveling and the extra well water.

22468

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. -----

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Eventually 4 cubic feet per second of water will be necessary for adequate irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. -----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water from well has been used during the last two growing seasons, from May until the latter part of September. Water used to irrigate the three 40 acres tracts heretofore described. All water pumped has been used for irrigation purposes over said area.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are 240 acres covered under this water permit. There is presently 240 shares of water from the North Side Canal Company of Jerome, Idaho, appurtenant to said land. This is not enough water to properly irrigate the entire 240 acres. Consequently, before the well was drilled and the pump installed, only about one-half of the land was under cultivation. This was done for many years.

(Sign) *W. R. Matthews*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Jerome, County of Jerome, State of Idaho, on this 14th day of November, A. D. 1953,

J. H. Hurrey
Notary Public for Idaho.

My commission expires Nov 1-1954

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-22468.

Proof of Application of Water to Beneficial Use
and Completion of Works.
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Richard S. High, age 36 of 1979-11th Avenue East, Twin Falls,
Idaho. I am a well driller.

Ques. 2. Are you acquainted with Rex D. Mathews, the holder of Permit No. G-22468? How long have you known him and where does he reside?

Ans. Yes, and I have known him for the past two years. He resides
in Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-22468, and are you familiar with its provisions and conditions?

Ans. Yes., and I am acquainted with the provisions and condtions
therein contained.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from subterranean source with diversion point in the SE $\frac{1}{4}$
SE $\frac{1}{4}$ of Section 9, twp 9 S, R 16 E.B.M. An electric motor driven pump
surfaces the water which is diverted to place of use me means of main
ditches with feeder canals. Water is spread by gravity flow.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. With the 100 h.p. motor which is presently installed, the pump will
only surface about 3 cubic feet per second of water. 4 feet can be pumped
with a 125 h.p. motor.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have long been working and dealing in pumping equipment, and
have been installing the same. I have seen 2.9 cubic feet per
second of water delivered. I judge this from experience.

22468

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes. Water can be delivered to the NE $\frac{1}{4}$ and the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of section 9. However, there is North Side Canal Company water which is used to irrigate the western portion of the above description with the well water being used to irrigate the south and east portion of said description. All of said land is under cultivation. Pump and motor have been installed, with land leverled and feeder ditches and main lines constructed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The eastern portion of the land has been leverled. Land is arid and required irrigation to grow crops. With only 240 shares of water under the North Side Canal Company, the full 4 cubic feet per second provided under the permit is needed to adequately irrigate the 240 acres.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the past two years we have serviced the pump in question, and on those various occasions I have seen the water applied to beneficial use on the land. _____

(Signed) Richard S. High

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Jerome, County of Jerome, State of Idaho, on this 14th day of November, A. D. 1953.

Shurely

Notary Public.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-22468.

Proof of Application of Water to Beneficial Use
Deposition of Witness *and Completion of Works*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Don Henson, age 38 of Route 2, Jerome, Idaho. I am presently engaged in farming.

Ques. 2. Are you acquainted with Rex D. Mathews, the holder of Permit No. G-22468? How long have you known him and where does he reside?

Ans. Yes. He resides at Twin Falls, Idaho, and I have known him during the past 5 or 6 years.

Ques. 3. Have you read or heard read said Permit No. G-22468, and are you familiar with its provisions and conditions?

Ans. yes. I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water is from subterranean source with well located in the northeast quarter of the northeast quarter of section 9, twp 9 S, R 16 E.B.M. A pump, driven by an electric motor sufraces the water which by gravity is dispersed by means of main ditches and feeder ditches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

I have been approximate 3 cubic feet per second of water conveyed with the present motor.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have been approximate 3 ~~xixxx~~ cubic feet per second of water conveyed. I formerly farmed the place and I estimate the amount having been an irrigation farmer for several years.

22468

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes and in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ and S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 9. North Side Canal Co., water has been used to water the other land covered under the permit. However, the water from the well could cover any of the area described in the permit. Cultivated crops have been grown. In addition to the well, pump and motor, the high points in the area have been leveled and can now be irrigated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Reclaimed land was arid. In addition to the 240 shares of water from the North Side Canal Company, the maximum set out in the permit would be required to adequately irrigate the entire 240 acres.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I live in the immediate area where the land in the permit is situated. I have seen crops grow on the place for several years, and have seen that the land has been leveled, which before then could not be irrigated, and have seen the water applied to the land to beneficial use.

(Signed) ✓ Don Fenson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Jerome, County of Jerome, State of Idaho, on this 14th day of November, A. D. 1953.

RE: Permit No. G-22468

Messrs. Smith & Jacob
Box 426
Twin Falls, Idaho

ATT: Mr. Leonard H. Jacob

Dear Mr. Jacob:

We have sent to the Jerome North Side News copy of notice of completion of works and beneficial use proof to be made on Permit No. G-22468 of Rex D. Mathews, with instructions to publish it once a week for four weeks prior to November 14, 1953, and to send Mr. Mathews the affidavit of publication together with statement of costs.

In Paragraph 4 of the notice the land on which the water is used is described as the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 9, but since Mr. Mathews wishes to prove up on 4 cubic feet per second we have changed the notice to conform to the description in the permit, or the NE $\frac{1}{4}$ and NW $\frac{1}{4}$ Section 9.

We enclose the necessary forms of deposition to be used in making this proof and at the time set Mr. Mathews should appear before Mr. J. Shirley, Notary Public, together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 14th
day of November, 19 53, at Jerome, County of
Jerome State of Idaho, before J. Shirley, Notary Public
proof will be submitted of the completion of works for the diversion of four (4)
cubic feet per second of the waters of a well in NE₄, NE₄, Section 9, Twp⁹ S. R. 16 E.B.M. and of
the application to beneficial use of said water, in accordance with the terms and
conditions of Permit No. G-22468 heretofore issued by the Department of Reclamation
of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Rex D. Mathews, Box 366, Twin Falls, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is four (4) cubic feet per second.

3. The use to which said water has been applied is irrigation
_____ purposes, and the amount applied to beneficial use is
four (4) cubic feet per second.

4. The place where said water is used is NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 9,
Township 9 South, Range 16 East, B.M.

5. The date of priority which said user is prepared to establish is
November 9, 1951

RE: Permit No. 22468

Messrs. Smith & Jacob
Box 426
Twin Falls, Idaho

ATT: Mr. Leonard H. Jacob

Dear Mr. Jacob:

Reference is made to your letter of October 2, 1953, in regard to Rex Mathews' Permit No. G-24468.

On checking our record, we think you refer to Permit No. 22468 on which our record shows the following:

Notice for completion of works and beneficial use proof was sent in by Mr. Mathews, setting time for making proof as 2:00 p.m., June 30, 1953, proof to be made before B. L. Reiss.

This notice was sent to the Northside News with instructions to publish it once a week for four weeks prior to June 30, and we have a clipping from their issue of May 21, showing that the notice was being published.

However, no proof has been made and since the time is long past due and there is also the matter of the wrong Notary Public being named, the only thing to do at this time would be to submit a new notice setting a new date, upon receipt of which notice will be sent to the designated newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Rex Mathews

Dear Mrs. Anderson:

We represent Mr. Mathews of this city who is the owner and holder of the above numbered permit.

Sometime ago Mr. Mathews advised us that he was making Proof of Completion of Works and Beneficial Use under the above permit which pertains to land located in Jerome County, Idaho. In checking into the matter we find that the Notary is listed as B. L. Reiss of Jerome. We have written this party and our letter was returned with the notation that no one was known by this name living in Jerome. Mr. Mathews has advised us that he does not know this party. Would you please advise us of the correct name of the Notary and also his address, and we shall attempt to have this matter concluded.

We thank you for your continued help and cooperation.

Very truly yours,

SMITH & JACOB

Dear Mr. Mathews:

We have sent to the Jerome North Side News notice of completion of works and beneficial use proof to be made on Permit No. 22468 on June 30, 1953 with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication, together with statement of costs.

At the time set, you should appear before Mr. B. L. Reiss, Notary Public, together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

MARK R. RULP

Dear Mr. Mathews:

We are in receipt of duplicate copies of notice of proof of completion of works and beneficial use on Permit No. G-22468.

We return this notice in order that Question 4 may give the legal description of the place where the water is used by subdivision, section, township and range.

Very truly yours,

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) March 5, 1953

(P. O.) P.O. Box 366, Twin Falls, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Northside News of Jerome, Idaho published in
the county in which the works are situated.

R. J. Matthews

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

RE: Permit No. G-22468

Mr. Rex D. Mathews
Box 366
Twin Falls, Idaho

Dear Mr. Mathews:

In reply to your letter of March 3, 1953, in regard to completing Permit No. G-22468.

In order to make proof of completion of works and beneficial use the statutes require publication of a notice once a week for four consecutive weeks in a county newspaper before making the proofs. This notice should be made on Form 36 enclosed setting time and place and naming the Notary Public before whom proofs are to be made. The time, of course, should be set sufficiently far ahead to allow for four weeks publication and the proofs may be made at any place convenient for you and your two witnesses.

Both copies of Form 36 to be returned to this department together with Form 11 which is authorization for us to have the notice published in the designated county newspaper at your expense. We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the necessary forms of deposition to be executed by yourself and two witnesses in making these proofs.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Gentlemen:

On or about November 24, 1951 I made application for a permit to drill a well for irrigation purposes on land four miles south and three miles west of Jerome, Twp 9S, Range 16E, Section 9. Your application No. G 30200 and Permit No. G 22468 recorded in Book 80.

This well was completed last spring and pumped approximately three feet of water all summer.

I would like to know what I should do to get this well approved and registered. I would appreciate your sending me this information so that I can have this well approved for the amount of water it is pumping.

Yours very truly,

Rex D. Mathews

Mr. Rex D. Mathews
P. O. Box 366
Twin Falls, Idaho

Dear Mr. Mathews:

We enclose Permit No. G-22468 together with departmental receipt No. 23927 for the \$5.75 filing fee.

You will note that we have allowed two years, or until November 24, 1951, within which to make proofs of completion of works and beneficial use. However, these proofs may be made at any earlier date that you are prepared to make them, and we shall be glad to furnish the necessary forms upon request.

Gentlemen:

We are enclosing an application for a permit for drilling a well on my farm, 4 miles south 3 miles west of Jerome and my check for \$5.75.

If this is not the correct amount, please advise and return the check, and I will send you a check for the correct amount, as I am not sure if \$5.75 is correct.

This well is being drilled on land that I own and need additional water for irrigation purposes.

Yours very truly,

Rex D. Mathews
