Case No. 39576	)	

A ***Partial Decree*** was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on June 24, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 to 11-15

IT IS FURTHER ORDERED that the ***Partial Decree*** for the above-captioned water right is hereby amended and decreed to contain the following:

> This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

Dear Mr. Brown:

We have received your correspondence regarding The Mutual Life Insurance Company of New York's security interest in water rights appurtenant to property now owned by Mainline Ranches, Inc.

Ownership changes for claims in the Snake River Basin Adjudication must be recorded, therefore, copies of your letter and attachments have been forwarded to the Adjudication Bureau for updating of their records.

Such updates are not required in our water right processing, thus copies of your documentation have been placed in our paper files on Right Nos. 36-02097, 36-02259 and 36-02092 for future reference only. The addition of a lienholder into our computer system serves little purpose and correspondence which would be generated on these rights from our processing staff likely would have no application for a lienholder.

In the future, you can direct this type of correspondence directly to the Adjudication Bureau.

If I can be of further assistance, please feel free to contact me.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

Re: MONY Loan No. 12045
Idaho Ag., Inc.
Water Rights - Lienholder's Interest

Gentlemen:

The Mutual Life Insurance Company of New York (MONY) has closed a loan transaction with Mainline Ranches, Inc., an Idaho corporation. In connection with said loan transaction, MONY has mortgaged certain real estate owned by Mainline Ranches, Inc., an Idaho corporation, and taken a security interest in the water rights appurtenant to and used in connection with said real property.

It is my understanding that State of Idaho Department of Water Resources now has all water rights on a computer system and that a notice of MONY's security interest will be entered into that system. For your use, I now enclose duplicate copies of the legal descriptions for the real property encumbered by MONY's mortgage and the water rights appurtenant thereto. It is my understanding that one copy will be dated the day that you receive it and returned to me to acknowledge receipt, and that the second copy will be retained by your department for your file.

The lienholder's name and address to be registered in you system and used for all required notifications and correspondence is as follows:

The Mutual Life Insurance Company of New York
One Mid Rivers Mall Drive
Suite 120
St. Peters, MO 63376

Copy to:
The Mutual Life Insurance Company of New York

New York, NY 10019

RECEIVED
APR 11 1994

Upon receipt of this letter I request that you return one copy of the legal description and appurtenant water rights with your date stamp attached in the enclosed self-addressed, stamped envelope, for our records. If there is anything further you require to register MONY's lienholder's interest in these water rights please contact me at your earliest convenience.

Thank you for your cooperation and assistance in this regard.

Yours very truly,

Dear Mrs. Frazier:

Enclosed are copies of the two licenses about which you requested information by telephone on April 17.

These licenses may be used on the land which was being irrigated at the time the license was issued. Any change in the land irrigated, or point of diversion, must be preceded by an Application for Transfer. A transfer application is enclosed for your consideration.

To determine whether a transfer should be allowed, we must consider the possible injury that the change would cause existing water rights and also if the change would constitute an enlargement of the original licensed right.

We hope this has provided the information you were seeking.

Dear Mr. Daigh:

The report of our field engineer on examination for beneficial use on your Permit No. 21772 shows that your wells in the SW¼NW¼ and SW¼SE¼ Section 8, Township 8 South, Range 26 East, B.M. will deliver 6.8 second feet of water which has been used to irrigate 520 acres in the W½SW¼ Section 9 and that part of Section 8 lying South of the Union Pacific right-of-way.

A License can, therefore, be issued for 6.8 second feet of water upon receipt of the statutory fee of $30.00 which is at the rate of $2.00 for each 40 acres subdivision in which the land is located.

Dear Mr. Deigh:

On October 23, 1952, we returned the depositions of yourself and two witnesses offered in proof of completion of works on Permit No. 21772 for certain corrections.

To date, these depositions have not been returned and if the permit is to be continued in good standing, it is important that the matter be given attention.

RE: Permit No. 21772

Mr. C. W. Deigh
1206 9th Ave. East
Twin Falls, Idaho

Dear Mr. Deigh:

We acknowledge receipt of your letter of October 6, 1952, enclosing depositions of yourself and two witnesses in proof of completion of works on Permit No. 21772 of the Mainline Ranch Company.

We return the depositions for completion as follows:

Question 3 of your own deposition should give the 40 acre subdivision in which each well is located.

Question 8 of your deposition, and Question 6 of the depositions of your two witnesses should give the size and depth of the well and casing.

It would be helpful if the enclosed well logs could be furnished in connection with these proofs.

The affidavit of publication, which the Hailey Times was instructed to send you, is also a necessary part of this proof and if you have not received same, we suggest you take the matter up with them at once and forward the affidavit to this department.

FORM 8

Notice for Publication

Notice is hereby given that at 10:00 A.M., on the 6th day of October 19 52, at Twin Falls, County of Twin Falls, State of Idaho, before Attorney R. N. W. Balleisen, 114 Main Avenue North, Twin Falls, Idaho proof will be submitted of the completion of works for the diversion of 6.8 cubic feet per second of the waters of two wells located in SW¼NW¼ and SW¼SE¼ Section 8, Township 8 S., Range 26 E.B.M. in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation Engineer of the State of Idaho.

1. The name of the perrson or corporation holding said permit is C. W. Daigh a partner in a partnership doing business as the Mainline Ranch Company.

2. The postoffice address of such person or principal place of business of such corporation is 634 Addison Ave. West, Twin Falls, County of Twin Falls, State of Idaho.

3. The number of such permit is 21772, and the date set for the completion of such work is ~~June 5, 1952~~ October 31, 1952

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 6.8 cubic feet per second.

6. The amount of lands for which said water is available is 565 acres, particularly described as follows:

That part of Section 8, Township 8, Range 26 E.B.M. lying South of the Union Pacific right of way, and the West ½ of the Southwest ¼ of Section 9, Township 8, Range 26 E.B.M.

Dear Mr. Daigh:

We have your letter of August 20, 1952, enclosing assignment of the above numbered permit to the Mainline Ranch, and note your explanation in regard to the questions raised in our former letter relative to notice of completion of works proof to be made on this permit.

However, you failed to enclose the 50 cents fee for recording the assignment, as mentioned in that letter. No doubt this was an oversight.

Dear Mr. Kulp:

Re: Permit No. 21772

Your letter of August 12 requesting more information on this application has been received.

This permit should now be recorded in the name of the "Mainline Ranch." The land has been transferred to this name.

For your information, at the present time the Mainline Ranch is a partnership, consisting of Mr. and Mrs. C. W. Daigh of Twin Falls; Mr. and Mrs. Loyd F. Carter of Portland, Oregon, and Mr. and Mrs. A. S. King of Washington D. C.. We are not yet completely organized. We may continue as a partnership and we may incorporate. For the present the entity is a partnership.

With reference to the amount of water, I listed 6.8 second feet of water in the application because that is the amount of water the two wells are discharging. Well #1 is rated at 1860 gallons per minute and Well #2 is rated at 1200 gallons per minute.

Both land descriptions are correct. We are irrigating that part of section 8 lying south of the U. P. right-of-way and are not taking any water north of the track. The 463 acres in that section are as near right as can be measured roughly. The other land in section 9 is correct as can be determined and it also lays south of the right-of-way.

no fee

The assignment form has been executed and is enclosed.

Thank you very much for your help in getting this permit completed.

Re: Permit No. 21772

Mr. C. W. Daigh
634 Addison Ave. West
Twin Falls, Idaho

Dear Mr. Daigh:

We are in receipt of duplicate notice for proof of completion of works to be made under the above numbered permit on October 6, 1952, together with authorization to have it published in the Hailey Times.

Do we understand that this permit should now be recorded in the name of the Mainline Ranch Company, instead of your own name, individually? If so, the enclosed form of assignment should be executed and returned to this department for recording, the fee for which will be Fifty Cents.

We also call attention to some variations in the notice from the permit itself, as follows:

The permit calls for 10.9 second feet of water, whereas the notice is for only 6.8 second feet. Possibly that is all that you wish to prove up on.

Also the land description in the permit is for (Sec. 8) the S½ NE¼, NW¼, SW¼ and SE¼ (463 acres), and also for two acres in the SW¼NW¼ Section 9 besides the W½ SW¼ of said section- a total of 545 acres. Is the above description in Section 8 the same as you have described as "that part lying South of the U. P. right-of-way?

Since there is plenty of time, we shall await your further advice before sending the notice to the newspaper for publication.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. C. W. Baigh
1206 9th Ave., East
Twin Falls, Idaho

Boise, Idaho, August 1, 1952

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21772.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before October 9, 1952. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Your application for permit to appropriate underground water is returned for the following information, which is necessary in order to complete same:

1. Question 2 should state the amount of water applied for. The maximum allowed by statute for irrigation is one inch per acre.

2. Question 4 should give the point of diversion, or location of the well or wells, by subdivision, section, township and range. If more than one well, you can show the several locations under "Remarks" on the third page, and under Question 4 simply say "See Remarks".
