INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on December 29, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

G F IRWIN
JEAN IRWIN
RT 4 BOX 149
RUPERT, ID 83350

Dear Water Right Claimant(s):

The reverse side of this letter contains a copy of an **Order Amending Irrigation Period of Use Element in Partial Decree and Incorporating into Partial Decree An Express Statment Regarding General Provisions, Nunc Pro Tunc** (hereinafter "**Order**") for water right number 36-02069. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The Purpose of the **Order** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the **Order**, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This **Order** also incorporates into the **Partial Decree** an express statement that the **Partial Decree** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This **Order** in combination with the **Partial Decree** that was issued for this water right on December 29, 1997, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the **Partial Decree** to show evidence of the water right. The original of this **Order** and the original of the **Partial Decree** for this water right are on file with SRBA Court. If you do not have a copy of the original **Partial Decree**, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the **Order** is entered **Nunc Pro Tunc**, meaning that the **Order** will be treated as if it were issued the same date that the **Partial Decree** was originally issued.

Sincerely,

Diana Delaney

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

In order to receive payment, an affidavit of publication must be submitted to the Department along with the publication bill.

Sincerely,

Mary A. Newby

Dear Mr. Irwin:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Hailay Times, all submitted in proof of beneficial use on Permit No. 20425.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. ~~20425~~. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than April 30, 1957, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

Dear Mr. Irwin:

We regret to have to return again your affidavit in proof of completion of works on Permit No. 20425 for the reason that you have not answer Question 8 and the legal description of the land given in your letter does not entirely coincide with the description given in the amended permit.

You describe the $W\frac{1}{2}SE\frac{1}{4}$ and the $E\frac{1}{2}SW\frac{1}{4}$ which we assume is in Section 7, Township 8 South, Range 27 East, B.M., although your letter does not give the section, township and range. However, the amended land description describes the $W\frac{1}{2}NE\frac{1}{4}$, $N\frac{1}{2}SW\frac{1}{4}$ and $SE\frac{1}{4}$ of Section 7, which you will note does not include the $SE\frac{1}{4}SW\frac{1}{4}$ *not included*

If there is an error in the description which you give, it can be corrected in your answer to Question 8, but if there has been another amendment to the land list and it should include the $E\frac{1}{2}SW\frac{1}{4}$ an application for such amendment should be made on the enclosed form.

Dear Mr. Irwin:

We acknowledge receipt of your proof of completion of works on Permit No. 20425, accompanied by your check for the \$5.00 fee in connection therewith. We return the affidavit for the following corrections:

Paragraph 3 gives the point of diversion in the Northeast corner of the SE $\frac{1}{4}$ of Section 7, Township 8 South, Range 27 East, B.M., whereas the permit describes two wells as in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ of said section. Which is correct?

Question 8 should give the legal description of the land to which the water is to be available.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Charles Irwin
Route 3
Rupert, Idaho

Boise, Idaho **February 2, 1953**

Dear Sir:-

Under the terms of your Permit No. ~~20425~~ you are required to complete your diversion works on or before ~~April 30, 1953~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

RE: Permit No. 20425
Charles Irwin.

Dear Mr. Kulp:-

Replying to your letter of the 19th inst.

It appears to us that it will be better to apply for an amendment to this permit as Mr. Irwin has sold the N $\frac{1}{2}$ SE $\frac{1}{4}$ of Sec. 12 and the purchaser is securing water from another source. It is anticipated that the present well will supply sufficient water for the irrigation of the land now included in both the original application and the amendment.

Nothing was said in your letter about new maps, but we are enclosing two showing the original acreage and the supplemental as well.

To complete Mr. Irwin's desert land application we will need one certified copy and one additional, together with the amendment, for filing with the Idaho Land and Survey office.

We would appreciate these as soon as possible as Mr. Irwin's application was held up for this information. We will remit promptly upon learning the amount of the fee.

Thanking you, we are

ATT: Mr. A. C. DelMery

Dear Mr. DelMery:

Reference is made to your letter of March 18 in regard to amending Permit No. 20425 of Charles Irwin to include additional land.

This can be done and we enclose a form of application for such amendment. However, we direct attention to the fact that this permit is for 5.5 second feet of water, or 275 inches, to be used on the 280 acres originally described. If the additional land is included, this 275 inches will have to be spread over the additional 240 acres because, while additional land can be included, the permit cannot be amended to include an additional amount of water.

Our suggestion is that it might be better to file a new application for the water to be used on the additional land and we enclose a form of application herewith.

Permit #20425 Charles Irwin.

Dear Mr. Kulp:-

On April 30, 1948 you approved the above permit, the land proposed to be irrigated being: $W\frac{1}{2}NE\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, $N\frac{1}{4}SW\frac{1}{4}$ of Sec. 7; all in T 8 So. R 27 EBM; The $N\frac{1}{4}SE\frac{1}{4}$ Sec 12 in T 8 So. R 26 E.B.M.

Mr. Irwin now wishes to include the following land in this permit: $SW\frac{1}{4}SW\frac{1}{4}$ Sec. 5; $SE\frac{1}{4}SE\frac{1}{4}$ Sec. 6; $E\frac{1}{2}NE\frac{1}{4}$ Sec. 7 and the $W\frac{1}{2}NW\frac{1}{4}$ Sec 8 in T 8 So R 26 E.B.M.

Would it be possible to amend this permit to include this additional land, as Mr. Irwin has applied for a desert entry on this land? If so, we would appreciate your sending us the original endorsement to attach to the original permit, and two copies, one certified, of the original permit with endorsements, to file with the land office in connection with Mr. Irwin's desert entry.

We will promptly remit the charges for this.
