INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10 A. M. on the 12th day of June,
1953, at Rupert, County of Mini-
doka, State of Idaho, before A.
C. DeMary, notary public, proof
will be submitted of the applica-
tion to beneficial use of 5 cubic
feet per second of the waters of
subterranean source in accord-
ance with the terms and condi-
tions of Permit No. 20315 hereto-
fore issued by the Department of
Reclamation of the State of Ida-
ho.

The name and postoffice ad-
dress of the person or corpora-
tion holding said permit are
Lawrence H. Duffin, Fisher Build-
ing, Rupert, Idaho.

The use to which said water
has been applied is irrigation.

The amount applied to benefi-
cial use is 5 cubic feet per second.

The place where said water is
used (if for irrigation, give full
and accurate description of the
land irrigated): East half of Sec.
18, Twp. 7 South, Rge. 25 East
Boise Meridian.

The name of the canal or ditch
or other works by which said
water is conducted to such place
of use is 200 h.p. deep well tur-
bine pump.

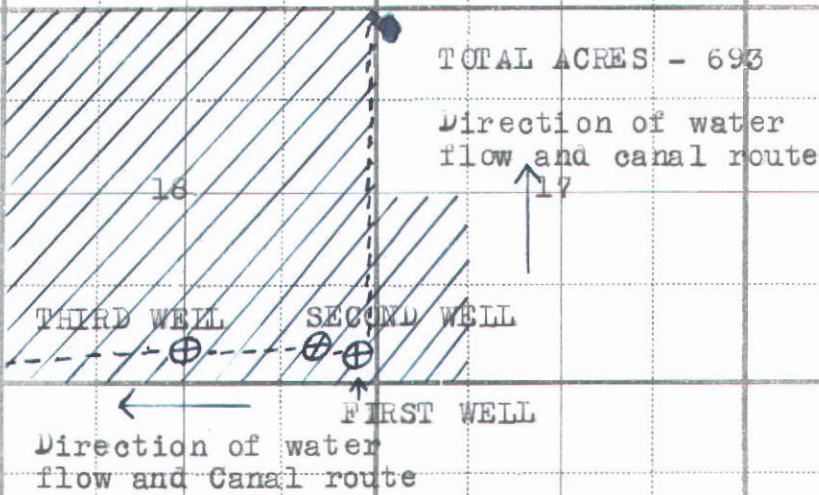

The right to take water from
such works is based upon Per-
mit No. 20315.

The source of supply from which
such water is diverted is

The date of priority
user is prepared to
February 20, 1948.

Water Right 36-02061

Case No. 39576)

ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on January 15, 1998. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

Important Information About Your Water Right

August 27, 2001

SHELLEY HARMAN
TAMARA HARMAN
KENT M HARMAN
JACK M HARMAN
1500 N 465 E
RT 3 BOX 3254
RUPERT, ID 83350

Dear Water Right Claimant(s):

The reverse side of this letter contains a copy of an *Order Amending Irrigation Period of Use Element in Partial Decree and Incorporating into Partial Decree An Express Statment Regarding General Provisions, Nunc Pro Tunc* (hereinafter "*Order*") for water right number 36-02061. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The Purpose of the *Order* is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the *Order*, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This *Order* also incorporates into the *Partial Decree* an express statement that the *Partial Decree* is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). This *Order* in combination with the *Partial Decree* that was issued for this water right on January 15, 1998, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the *Partial Decree* to show evidence of the water right. The original of this *Order* and the original of the *Partial Decree* for this water right are on file with SRBA Court. If you do not have a copy of the original *Partial Decree*, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the *Order* is entered *Nunc Pro Tunc*, meaning that the *Order* will be treated as if it were issued the same date that the *Partial Decree* was originally issued.

Sincerely,

Diana Delaney

To Appropriate the Public Waters of the State of Idaho**

Application No. 27927
Permit No. 20315
District No.

1. Name of Applicant: LAWRENCE H. DUFFIN and WILBERT H. MOLLER

Postoffice address: Box 61, Rupert

County: Minidoka

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand: and U.S. War bonds \$15,000
- (b) Treasury stock:
- (c) Bonds to be issued:
- (d) Other resources: Real property: \$28,000 Farm machinery and equipment - \$10,000 - Crops \$10,000
Other \$5,000

2. Quantity of water claimed: Ten (10) cubic feet per second.

3. Source of water supply: wells drilled on land owned by applicants
Subterranean, located by means of which is a tributary of

4. Location of point of diversion: (See Remarks) feet distant from the
corner of Section , T. , R. , B.M., and is in the
of Section 18 , T. 7 S., R. 25 E., B.M., County of Minidoka

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

- (a) Point of use of water: feet distant from corner of Section
T. , R. , B.M., in the of Section , T. , R. , B.M.
(b) Amount of power generated: H.P., under feet head.
(c) Water is to be returned to at a point feet
distant from the corner of Section , T. , R. , B.M., in the
of Section , T. , R. , B.M.

7. Estimated cost of works: \$ 10,000.00

8. Kind of works: Wells sufficient to furnish Ten (10) second feet of water, Each well estimated to be drilled to est. depth of 400'.

9. Height of dam feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width Average 21" x 21" feet; height feet;

11. Ditch: Width at bottom 6 feet; width at water line 10.5 feet; depth of water 2.5 feet;

dimensions of flume: None

Diameter of pipe inches; length of conduit Two miles.

Average grade per mile 20 feet.

12. The time required for the completion of such work is Five (5) years.

13. The time required for the complete application of the water to the proposed use is Four (4) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

14-A. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

15. (a) Is reservoir to be used? No If so, fill in (b) and (c) below.
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

DEPARTMENT OF RECLAMATION

Boise, Idaho

January 2, 1957

Lawrence H. Duffin & Wilbert H. Moller
Box 61
Rupert, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 20315. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than 3-5-57, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

RE: Permits Nos. 20315 and G-24078

Mr. Leonard H. Jacob
111 2nd Street West
Twin Falls, Idaho

Dear Mr. Jacob:

We have your letter of October 25 enclosing an Assignment of the above numbered Permits from Lawrence H. Duffin and wife to the Idaho Realty and Investments, Inc., accompanied by your check for seventy-five cents to cover recording fees.

We can record the Assignment so far as it relates to Permit No. G-24078, which is for 6.4 second feet of water from two wells for use on the W $\frac{1}{2}$ of Section 18, Township 7 South, Range 25 East, B.M.

So far as Permit No. 20315, two licenses have been issued on this Permit to Lawrence H. Duffin, totaling 5 second feet of water for use on the E $\frac{1}{2}$ of Section 18, Township 7 South, Range 25 East, B.M.

Where a Permit has gone to license, a transfer of title is made by deed the same as real estate and not by an Assignment of record in this Department.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permits Nos. 20315- G-24078

Messrs. Cresson & Cresson
P. O. Box 98
Rupert, Idaho

Gentlemen:

Reference is made to your letter of October 13, 1955, in regard to making proof on the above numbered Permits.

Our records show that two Licenses have been issued on Permit No. 20315 in the name of Lawrence H. Duffin totaling 5 second feet of water from a well in the $SE\frac{1}{4}SE\frac{1}{4}$ Section 18, Township 7 South, Range 25 East, B. M., for use on the $E\frac{1}{2}$ of said Section.

Permit No. G-24078 in the name of Lawrence H. Duffin has no record of an Assignment. This is for 6.4 second feet of water from two wells in the center of the $NW\frac{1}{4}$ and the center of the $SW\frac{1}{4}$, Section 18, Township 7 South, Range 25 East, B. M., for use on the $W\frac{1}{2}$ of said Section 18.

If this is the Permit on which your client wishes to make proof, you may use the forms enclosed, but first there should be an Assignment to the present owners. This Assignment may be made on the form enclosed and there is a 50¢ recording fee.

Before making the proof, both copies of Form 36 are to be completed and returned to this Department together with Form 11.

RE: Permit No. 20315

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

Reference is made to your letter of August 2 in regard to the two Licenses issued on Permit No. 20315.

Since both of these Licenses are in connection with the same Permit and are appurtenant to the same land we can see no necessity for combining the two in the way you indicate.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 20315 - G-24078

Messrs. Greason & Greason
P. O. Box 98
Rupert, Idaho

ATTENTION: H. V. GREASON

Dear Mr. Greason:

Reference is made to your letter of August 3, 1955, in regard to the above numbered Permits in the name of Lawrence H. Duffin.

We have no record in this Department of an Assignment of these Permits to the Idaho Realty & Investment, Inc..

On Permit No. 20315 two Licenses have been issued one for 3.2 second feet and one for 1.8 second feet from a well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Township 7 South, Range 25 East, B. M., with priority of February 20, 1948, for use on the E $\frac{1}{2}$ of said Section 18.

Permit No. G-24078 is for 6.4 second feet of water from two wells in the center of the NW $\frac{1}{4}$ and the center of the SW $\frac{1}{4}$ of Section 18 for use on the W $\frac{1}{2}$ of said Section 18. The proofs are not due on this Permit until May 12, 1958, but, of course, can be made at any earlier date.

We enclose the form of notice for Completion of Works and Beneficial Use proof on this Permit which should be completed in duplicate and returned to this Department together with Form 11 which is authorization for us to have the notice published at Permit Holders expense in the designated county newspaper.

We suggest, however, that if the Idaho Realty & Investment, Inc. are to make these proofs an Assignment to them from Mr. Duffin should be recorded in this Department.

Forms of Assignment are enclosed herewith.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mrs. Anderson:

Receipt is hereby acknowledged of your letter of July 6, 1955, in which you enclosed License and Certificate of Water Right in the amount of 1.8 second feet. This license and certificate does not indicate on its face that it is in addition to the license and certificate of water right granted on the 10th day of September, 1954, for 3.2 second feet.

I am wondering if the total license and certificate on this well in the amount of five second feet should not be indicated some place on this additional water right.

Very truly yours,

Lawrence H. Duffin

RE: Permit No. 20315

Mr. Lawrence H. Duffin
Box 61
Rupert, Idaho

Dear Mr. Duffin:

We now have on file the report of our field engineer on examination for beneficial use on Permit No. 20315.

A supplemental License can, therefore, be issued for an additional 1.8 second feet of water from your well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Township 7 South, Range 25 East, B.M. for use on the E $\frac{1}{2}$ of said Section.

As this is the same land as in your previous License there will be no additional License fee.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20315

This proof is for Beneficial Use (Supplemental proof) In Water District No.

1. Name of applicant Lawrence H. Duffin, Fisher Bldg., or Box 61, Rupert, Idaho

2. Source of water supply: Subterranean from a well

3. Location of point of diversion: Is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18
T. 7 S. R. 25 E. County of Minidoka

4. Describe works as they exist, giving dimensions and capacities of same: This is a supplemental proof for additional water because the first time this was inspected, the pump was not delivering its greatest capacity. See other inspection report for pump and motor specifications. Water flowing to the West into ditch was measured at 3.45 c.f. over a 2' cippolletti weir. Water being delivered through the line to the North was not measured but was in excess of the amount required to make a full 5 c.f.s. from the well.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

East Half Section 18, Twp. 7 South, Range 25 East, B. M.
See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Row crops, hay and grain.

This examination was made on the 7 day of June, 1955

(Signed) E. M. Humphrey Examiner.

RE: Permits Nos. 20315, 20316
and G-24079

Mr. Lawrence H. Duffin
Box 61
Rupert, Idaho

Dear Mr. Duffin:

We have received from Mr. Floyd J. Fruit the depositions of yourself and two witnesses in proof of Beneficial Use on Permits Nos. 20315 and 20316, and in proof of Completion of Works and Beneficial Use on Permit No. G-24079.

This completes the proofs, but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

Very truly yours,

NOTICE APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10 A. M. on the 10th day of Sep-
tember, 1954, at Rupert, County
of Minidoka, State of Idaho, be-
fore Floyd Fruit, Notary Public,
supplemental proof will be sub-
mitted of the application to bene-
ficial use of 1.8 cubic feet per
second of the waters of subter-
anean origin from a well in the
SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18, T. 7 S., Rge. 25
E.B.M. in accordance with the
terms and conditions of Permit
No. 20315 heretofore issued by the
State Reclamation Engineer of the
State of Idaho.

The name and postoffice ad-
dress of the person or corpora-
tion holding said permit: Lawr-
ence H. Duffin, Box 61, Rupert,
Idaho.

The use to which said water
has been applied is crop irriga-
tion.

The amount applied to benefi-
cial use is 1.8 cu. ft. per second,
supplemental to 3.2 cu. ft. per
second upon proof of beneficial
use has already been made.

The place where said water is
used (if for irrigation, give full
and accurate description of the
land irrigated) in the E $\frac{1}{2}$ of Sec.
18, Twp. 7 S., Rge. 25 E.B.M. in
Minidoka County, Idaho.

The name of the canal or ditch
or other works by which said
water is conducted to such place
of use is private ditch.

The right to take water from
such works is based upon Permit
No. 20315.

The source of supply from
which such water is diverted is an
un-named subterranean stream.

The date of priority which said
user is prepared to establish is
February 20, 1948.

Permit No. 20315

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Lawrence H. Buffin, Rupert, Idaho, P.O.Box 61 Rupert

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20315, dated Feb. 20th 1948

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Unnamed Subterranean stream, 200 feet west of the northeast corner of the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 18, Township 7 South, Range 25 E. B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works of diversion consist of well 20' diameter, 380 feet deep with 20 inch casing, water depth 272 feet, a Worthington Pump, a discharge of 2350 GPM, measured by weir

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for the purpose of irrigating 320 acres lying in the E $\frac{1}{2}$ Section 18, T 7 S R 25 E B M. All of the land is cultivated and planted to cultivated crops.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 5 second feet

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. original applicant

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of the above mentioned water has been used since crop year
1950

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Rupert, County of Minidoka,

Permit No. 20315.....

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Paul Hunter, age 32, residence Rupert, Idaho, occupation
farmer, P. O. Box 602, Rupert, Idaho

Ques. 2. Are you acquainted with Lawrence H. Duffin, the
holder of Permit No. 20315? How long have you known him and where does
he reside?

Ans. 20 years and he resides at Rupert, Idaho

Ques. 3. Have you read or heard read said Permit No. 20315....., and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Unnamed Subterranean stream, well is located in the SE corner
of the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 18, T 7 S R 25 E B M; works of diversion
consist of well 20' in diameter, 380feet deep, 20' casing, water
depth 272 feet; Worthington Pump, discharge of 2250 GPM, measured
by weir.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 5 second feet

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. 2250 GPM, estimated by totalsize of stream and weir measure.

20315

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigating the E $\frac{1}{2}$ of Section 18 (320 acres)
T 7 S R 25 E B M, and all the land is under cultivation.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is gentle rolling Minidoka Fine Sandy loam, and I estimate
that 5 second feet is required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. no

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen this land and irrigation works farmed consecutively
during each crop season since 1950.

RE: Permits Nos. 20315, 20346, 24079

Mr. Lawrence H. Duffin
Box 61
Rupert, Idaho

ATTENTION: Eileen Hollinger

Dear Mrs. Hollinger:

We have completed the notices in connection with the above numbered permits, showing the location of the wells as given in your letter of August 10.

The only description required in the published notice is the 40 acre subdivision in which the well is located. This can be given either in Question 4 or in the fifth line of the notice.

We are today sending a copy of the notices to the Minidoka County News with instructions to publish once a week for four weeks prior to September 10, the date set for proof.

We enclose the necessary forms of deposition to be used in making these proofs consisting of one for the Permit Holder and one for each of two disinterested witnesses.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

AUG 11 1954
Department of Reclamation

State Reclamation Engineer
State House
Boise, Idaho

Attention Mrs. Jeanne Anderson
Permits Nos. 20315, 20316, and 24079

Dear Sir:

I have your letter dated August 9, 1954, asking for information as to the location of the wells upon which we would like to make proof under the above-numbered permits.

The wells are located as follows:

- No. 20315 - In the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 18, T. 7S., Rge. 25 EBM approx. 1320 ft. N. and 75 ft. W of SE corner Sec. 18,
- No. 20316 - In the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 19, T. 7S., Rge. 25 EBM approx. 1320 ft. S. and 75 ft. W of NE corner Sec. 19,
- No. 24079 - In the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 19, T. 7S., Rge. 25 EBM approx. 1320 ft. N. and 75 ft. W of SE corner Sec. 19.

I am sorry that I failed to supply this information at the time of submitting the notices. I am not just sure how detailed a description of the location of the pump you require on this published notice. This will necessitate setting all the dates up at least a week. Please do this and advise me as to the time Mr. Duffin is to appear and make proof--or we can get that information from the advertised notices.

Since I am presently working on the notices for a number of wells for the Capital Company and I want to be sure to get them right, please advise me as to the detail in which I should report the location of the well on Form 36, Notice of Proof of Completion of Works and Application of Water to Beneficial Use. I imagine this information would be included in Item 4, along with a description of the area irrigated by the water from the well.

Very truly yours,

(Mrs.) Ellen Hollinger

RE: Permit No. 20315, 20316, 24079

Mr. Lawrence H. Duffin
Fisher Building
Rapert, Idaho

Dear Mr. Duffin:

Your letter of August 3 enclosing notices for publication on Permits Nos. 20315, 20316 and 24079 reached the office this morning.

For that reason it will be impossible for publication to commence before August 12 and the fourth publication would be September 2.

While this does give four publications, it actually does not allow the statutory four weeks, so we suggest that the time be changed to September 10 instead of September 3.

We shall await your further advice before sending the notices to the newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) August 2, 1954

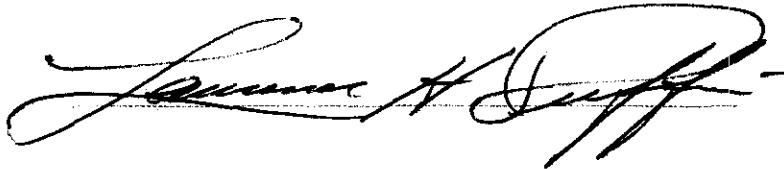

(P. O.) Rupert, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Minidoka County News, a weekly of Rupert, Idaho published in
newspaper,
the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

20315

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 10th day of September, 1954,
at Rupert, County of Minidoka, State of Idaho, before
Floyd Fruit, Notary Public supplemental proof will be submitted of the
application to beneficial use of 1.8 cubic feet per second of the waters of subterranean
in the SE 1/4 Sec. 18, T. 7 S., Rge. 25 E.M.
origin from a well/ in accordance with the terms and conditions of Permit No. 20315
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit ~~is~~

Lawrence H. Duffin, Box 61, Rupert, Idaho

The use to which said water has been applied is crop irrigation.

The amount applied to beneficial use is 1.8 cu. ft. per second, supplemental to
3.2 cu. ft. per second upon proof of beneficial use has already
been made.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated)
in the E 1/2 of Sec. 18, Twp. 7 S., Rge. 25 E.B.M. in Minidoka County,
Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is

private ditch

The right to take water from such works is based upon Permit No. 20315

The source of supply from which such water is diverted is an un-named subterranean
stream.

The date of priority which said user is prepared to establish is February 20, 1948

MARK R. KULP

State Reclamation Engineer.

RE: Permit No. 20315

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

Reference is made to your letter of July 16 in regard to additional proof on Permit No. 20315.

Our records show that although completion of works proof was made for 5 second feet of water from your well, beneficial use proof was only made for 3.2 second feet and license issued for that amount.

You may, therefore, make a supplemental proof of beneficial use for the additional amount your well will produce up to the original 5 second feet.

The procedure is the same as in the original instance, that is, by publication of a notice once a week for four weeks in a county newspaper and submitting depositions of yourself and two witnesses.

We enclose the forms of notice herewith.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 20315

Mr. Lawrence H. Duffin
Box 61
Rupert, Idaho

Dear Mr. Duffin:

The report of our field engineer upon examination for Beneficial Use on Permit No. 20315, shows that your well in the SE corner of Section 18, Township 7 South, Range 25 East, B.M. will deliver 160 inches or 3.2 second feet of water and that you have irrigated 320 acres in the E $\frac{1}{2}$ of said Section 18.

Therefore, upon receipt of the statutory fee of \$16.00, a license will be issued for 3.2 second feet of water from said well.

Very truly yours,

IN. R-DEPARTMENT MEMO--1

DATE August 26, 1953

FROM Chief Clerk

TO Deputy State Reclamation Engineer

SUBJECT

In reference to the attached letter from Lawrence H. Duffin.

This evidently refers to Permit No. 20315 on which an inspection is to be made, which is the only one of the Duffins' for the $E\frac{1}{2}$ of Section 18.

However, this is in the name of Lawrence H. Duffin and not Alan C. Duffin. Alan C. Duffin and Alan C. Duffin, Sr., have two other permits Nos. 23390 and 23396, but neither of these are on the $E\frac{1}{2}$ of Section 18.

Attention Mr. Matthews

Dear Sir:

I have informed my brother, Alan C. Duffin, of this city of the results of the weir measurement on the E $\frac{1}{2}$ of Sec. 18, Twp. 7 S., Rge. 25 E. B. M., and he has requested me to ask you to delay the filing of your report on this 320 acres until he is able to determine the cause of this apparent water deficiency. He advises me that he, himself, together with a registered engineer, measured this flow by weir measurement last year and that this pump was then delivering approximately 2200 gallons per minute. He believes that I might have affected the flow of this well when I installed the new pump directly south on Sec. 19 this spring or that something mechanical has happened to the pump itself to cause this delivery failure.

Very truly yours,

Lawrence H. Duffin

NOTICE FOR PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at
10 A. M. on the 12th day of June,
1953, at Rupert, County of Mini-
doka, State of Idaho, before A.
C. DeMary, notary public, proof
will be submitted of the applica-
tion to beneficial use of 5 cubic
feet per second of the waters of
subterranean source in accord-
ance with the terms and condi-
tions of Permit No. 20315 hereto-
fore issued by the Department of
Reclamation of the State of Ida-
ho.

The name and postoffice ad-
dress of the person or corpora-
tion holding said permit are
Lawrence H. Duffin, Fisher Build-
ing, Rupert, Idaho.

The use to which said water
has been applied is irrigation.

The amount applied to benefi-
cial use is 5 cubic feet per second.

The place where said water is
used (if for irrigation, give full
and accurate description of the
land irrigated): East half of Sec.
18, Twp. 7 South, Rge. 25 East
Boise Meridian.

The name of the canal or ditch
or other works by which said
water is conducted to such place
of use is 200 h.p. deep well tur-
bine pump.

The right to take water from
such works is based upon Per-
mit No. 20315.

The source of supply from which
such water is diverted is
ranean.

The date of priority
user is prepared to
February 20, 1948.

Dear Mrs. Anderson:

We have your letter of June 2 regarding the Duffin water permit. You might recall that we are the Attorneys of the Travelers Insurance Company who have made loans on many of these pump projects. As such attorneys, we hold all water permits for the Travelers and we try to advise the permit holders when their various proofs must be made, since they ordinarily do not have that information.

I had noticed that Mr. Duffin's time had expired or was about to expire hence the letter. I did not know that he had already set the machinery in motion for making his proof. I wish to thank you for your kind consideration in advising us of this matter. We are sending Mr. Duffin a copy of this letter.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20315

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Lawrence H. Duffin, 723 H. St., Rupert, Idaho, Lawyer and Farmer
Fisher Building, Rupert, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. 20315, dated February 20, 1948. Date of priority, February 20, 1948

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Ground water, Subterranean source, Point of diversion location is 100 ft. West and 1320 ft. North of the Southeast corner of Sec. 18, Township 7 South, Range 25 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Works of Diversion consist of one 200 HP electric motor and deep well turbine pump. Well is 375 ft. deep with 30 ft. of 20" casing and 272 ft. to water. Discharge of pump is 2,250 gal. per min. or 250 miners inches or 5 cu. ft. per sec. Discharge was determined by weir measurement.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and all of the E $\frac{1}{2}$ of Sec. 18, T. 7 S, Range 25 E.B.M., consisting of 320 acres, has been irrigated with said water. All of said land is cultivated and crops have been grown thereon since the spring of 1951 and said water is conveyed to said land for the purpose of such irrigation by means of ditches from said well and pump

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 2,250 gal. per min. or 250 miner's inches or 5 cu. ft. per sec.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Not applicable

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. All of said water has been used during the entire irrigation season since May 1951 and has irrigated all of the before described land during the irrigation season of 1951 and 1952.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Laurel A. Duff

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Rupert, County of Minidoka, State of Idaho, on this 12th day of June, A. D. 19 53,

My commission expires July 6, 1955.

A. B. De Mary
Notary Public.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20315

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. L. D. Anderson, 37, 713 E. St., Rupert, Idaho, Farmer.

Ques. 2. Are you acquainted with Lawrence H. Duffin, the holder of Permit No. 20315? How long have you known him and where does he reside?

Ans. Since 1946. Resides at 723 H. St., Rupert, Idaho

Ques. 3. Have you read or heard read said Permit No. 20315, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Works of diversion consist of one 200 Hp electric motor and deep well turbine pump. Well is 375 ft. deep with 30 ft. of 20 in. casing and 272 ft. to water. Discharge of pump is 2,250 gal per min. or 250 miner's inches or 5 cu. ft. per sec. Discharge was determined by weir measurement.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2,250 gal. per min. or 250 miner's inches or 5 cu. ft. per sec.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2,250 gal. per min. delivered or 250 miner's inches or 5 cu. ft. per sec. It was determined by weir measurement

20315

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the E $\frac{1}{2}$ of Sec. 18, T. 7 S.
R. 25, E. B. M., consisting of 320 acres. All of which acres
are irrigated and the land is cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is Minidoka fine, sandy loam and is gentle rolling
in character and the amount of water required is 2,250 gal.
per min.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the application of this water to beneficial
use during the irrigating seasons of 1951 and 1952.

(Signed)

J. D. Anderson

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rupert,
County of Minidoka, State of Idaho, on this 12th day of June,

Permit No. 20315

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Raleigh Walker, 44, 603 J. St., Rupert, Idaho, Farmer.

Ques. 2. Are you acquainted with Lawrence H. Duffin, the holder of Permit No. 20315? How long have you known him and where does he reside?

Ans. Since 1950. Resides at 723 H. St., Rupert, Idaho

Ques. 3. Have you read or heard read said Permit No. 20315, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Works of diversion consist of one 200 HP electric motor and deep well turbine pump. Well is 375 ft. deep with 30 ft. of 20 in. casing and 272 ft. to water. Discharge of pump is 2,250 gal. per min. or 250 miner's inches or 5 cu. ft. per sec. Discharge was determined by weir measurement.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 2,250 gal. per min. or 250 miner's inches or 5 cu. ft. per sec.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 2,250 gal. per min. delivered or 250 miner's inches or 5 cu. ft. per sec. It was determined by weir measurement.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the E $\frac{1}{2}$ of Sec. 18, T. 7 S.,
R. 25, E. B. M., consisting of 320 acres. All of which acres
are irrigated and the land is cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

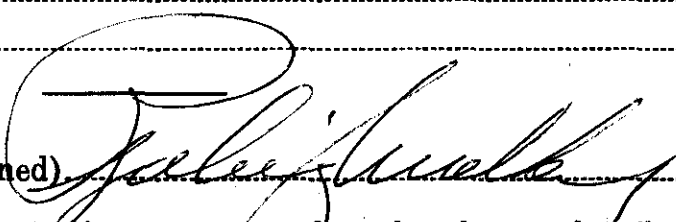

Ans. The land is Minidoka fine, sandy loam and is gentle rolling
in character and the amount of water required is 2,250 gal.
per min.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

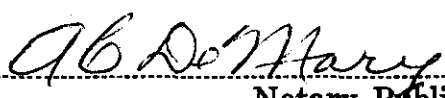

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the application of this water to beneficial
use during the irrigating seasons of 1951 and 1952

(Signed) 

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Rupert,
County of Minidoka, State of Idaho, on this 12th day of June,
A. D. 1953.

RE: Permit No. 20315

Messrs. Smith & Jacob
Box 426
Twin Falls, Idaho

ATT: Mr. Leonard H. Jacob

Dear Mr. Jacob:

We do not quite understand your letter of June 1, 1953, requesting us to forward papers in order for Lawrence H. Duffin to make proof of completion of works on Permit No. 20315.

Proof of completion of works was made by Mr. Duffin on this permit January 28, 1953, and Certificate of Completion of Works issued on February 3, 1953.

Notice is now being published in the Minidoka County News regarding his intention to make proof of beneficial use on Permit No. 20315 on June 12, 1953, before A. C. DeMary at Rupert, Idaho, and the necessary forms of deposition for making this proof were sent to Mr. Duffin on May 6, 1953.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

In accordance with our letter of May 4, 1953, we have sent to the Minidoka County News notice of beneficial use proof on Permit No. 20315 and for proof of completion of works and beneficial use on Permits Nos. 21795 and 21796, combined, with instructions to publish them once a week for four weeks prior to June 12, and to send you the affidavits of publication together with statements of costs.

Although Permits Nos. 21795 and 21796 are combined in the notice, separate proofs must be made for each and we enclose the necessary forms herein, consisting of one for yourself and one for each of two witnesses for completion of works and beneficial use on the above two permits and for beneficial use on Permit No. 20315.

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 12th day of June, 1953,
at Rupert, County of Minidoka, State of Idaho, before
A. C. DeMery, notary public, proof will be submitted of the
application to beneficial use of 5 cubic feet per second of the waters of subterranean
source in accordance with the terms and conditions of Permit No. 20315
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Lawrence H. Duffin, Fisher Building, Rupert, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 5 cubic feet per second

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated).....

East half of Sec. 18, Twp. 7 South, Rge. 25 East Boise Meridian

The name of the canal or ditch or other works by which said water is conducted to such place of
use is 200 h.p. deep well turbine pump

The right to take water from such works is based upon Permit No. 20315

The source of supply from which such water is diverted is subterranean

The date of priority which said user is prepared to establish is February 20
1948

RE: Permits Nos. 20315, 21795 and 21796

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

We acknowledge receipt of your letter of April 30, 1953, enclosing notices for completion of works and beneficial use proof on Permits Nos. 21795 and 21796, also for beneficial use proof on Permit No. 20315.

We can combine the notices on Permits Nos. 21795 and 21796, as both are similar, but the notice for beneficial use proof on Permit No. 20315 will have to be separate.

These notices will be sent to the Minidoka County News with instructions in regard to publishing and we shall send you the necessary forms of deposition to be used in making these proofs.

Dear Mr. Kulp:

Please find enclosed herewith Forms No. 10,
36, and 11 for perfecting water permits numbered
✓ 20315, 21795, and 21796.

It occurs to me that the publication of notice
on these three permits should be consolidated to avoid
unnecessary expense, and we hereby authorize you, in
the event such consolidation is permissible, to include
all of the permits in one publication notice. Please
insert the correct November date on the notices for
Permits No. 21795 and 21796. Our original permits are
in Portland.

Please send us the necessary forms for the
statements of the witnesses. We understand that these
are in the form of depositions and would appreciate
your sending us a sufficient number for proof of all
three of these permits.

Very truly yours,

Lawrence H. Duffin

RE: Permit No. 20315

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

In checking your notice for publication for proof of completion of works on Permit No. 20315, we notice you only state that proof is to be made on 5 cubic feet per second of subterranean water, whereas the permit calls for 10 second feet.

If you are only able to prove up on the 5 second feet, the permit may be amended to reduce the amount from 10 second feet to 5 second feet and in that case proof may be made on Form 6 without the necessity of publishing.

The application for such amendment can be made in the form of a letter as we have no printed forms, and when the proof is made you should give definitely the location of the well or wells on which the works have been completed.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permits Nos. 20315, 20316 and 20325

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

We acknowledge receipt of your letter of January 8th, enclosing partially filled out notices for completion of works proof on the above numbered permits.

We are unable to complete these notices for the following reasons:

First, you say that you wish to complete proof on the applications covering the East half Section 18, and all of Section 16, Twp. 7 S., Range 25 E. B.M. None of these permits include land in Section 16. Permits Nos. 21795 and 21796 are for land in Section 16- and these proofs are not due until November 1955, although, of course, they can be made at any time the works are completed.

Second- All three of the above numbered permits describe several wells, and we should know which locations have the completed well or wells. Each of these permits is for ten second feet.

No. 20315 is for All Section 18 and $W\frac{1}{2}SW\frac{1}{4}$ Section 17;

No. 20316 is for all Section 19, $W\frac{1}{2}$ Section 20 and $NW\frac{1}{4}$ Section 30;

No. 20325 is for lands in Sections 29 and 30; All in Twp. 7 S., Range 25 East, B.M.

Completion of works on all three must be made on or before March 5, 1953.

Very truly yours,

MARK R. KULP

Dear Sir:

I am enclosing herewith requests, signed by myself, for publication of the notices required for proof of completion of works for Permits #20315, #20316, and #20325.

We have forwarded the original permits issued by your office to the Traveler's Insurance Company in Portland, Oregon, and do not have the land description or the amount of water claimed for any of these three permits. However, it is our desire to complete proof on the applications which cover the East one-half (E $\frac{1}{2}$) of Sec. 18 and all of Sec. 16, both in Twp. 7 South, Rge. 25, E.B.M.

Would you please complete the notices which cover such land, that is, the cubic feet of water applied for and the land covered in the description on the water permit?

Very truly yours,

Lawrence H. Duffin

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Lawrence H. Duffin
Fisher Bldg.
Rupert, Idaho

Boise, Idaho, January 2, 1953

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 20315.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before March 5, 1953. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

RE: Permit Nos. 20315 and 20316

Messrs. Smith & Jacob
P. O. Box 426
Twin Falls, Idaho

ATT: Mr. Leonard H. Jacob

Dear Mr. Jacob:

We return the assignment of Permit Nos. 20315 and 20316 from Wilburt H. Moller and Velva D. Moller, to Lawrence H. Duffin and Doris E. Duffin, which have been duly recorded.

We also enclose departmental receipt No. 23893 for the \$1.00 fee for recording this assignment.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 20315

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

On May 3, we sent you a certified copy of
Permit No. 20315 in the name of yourself and Wilbert
H. Moller, the fee for which was \$1.50.

We assume you have overlooked this small
item as we do not seem to have received your check
in payment.

Very truly yours,

MARK R. KULP

Re: Permit No. 20315

Mr. Lawrence H. Duffin
Fisher Building
Rupert, Idaho

Dear Mr. Duffin:

In reply to your letter of April 30th, we enclose a certified copy of Permit No. 20315. The fee for this is \$1.50, for which you may send us your check.

We are not sure from your letter whether you are prepared to make both proof of completion of works and beneficial use on the three permits named, or only the first or proof of completion of works.

On Permits Nos. 21795 and 21796 proof of completion of works may be made on Form 6, enclosed, executed before a Notary Public, and returned to this Department with the statutory fee of \$5.00 each.

On Permits for more than 6.4 second feet the law requires publication of a notice in a county newspaper once a week for four consecutive weeks prior to making the proof. If only proof of completion of works is to be made at this time, the notice should be made in duplicate on Form 8; but if both proofs are to be made, Form 36 may be used. The notice should set time and place and name the Notary Public before whom the proofs are to be made; and both copies of the notice to be returned to this Department, together with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper.

Notice of beneficial use proof on Permits Nos. 21795 and 21796 should be made in duplicate on Form 10 enclosed, and both returned to this Department, with Form 11.

Upon your advice that you wish to make the final proofs at this time, and return of the forms of notice, we shall be glad to furnish you with the necessary forms of deposition to be used by yourself and two witnesses in making the proof.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp:

We seem to have misplaced Water Permit No 20315, and we are wondering if we could get a photo-static copy or certified copy of the same at our expense. If your office is in a position to furnish us with such copy, please do so and send me a statement of your fees.

I am ready to prove up on my Water Applications Numbered as follows: 20315, 21795, and 21796. Would you please send me the necessary papers and information to complete these permits. Any day in the month of June would be satisfactory to me for the submission of evidence. Mr. Floyd Fruit of this city is a competent notary, and I am certain he would be willing to conduct this hearing.

Very truly yours,

Lawrence H. Duffin

**NOTICE FOR PUBLICATION
NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 12th day of June, 1953, at Rupert, County of Minidoka, State of Idaho, before A. C. DeMary, notary public, proof will be submitted of the application to beneficial use of 5 cubic feet per second of the waters of subterranean source in accordance with the terms and conditions of Permit No. 20315 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Lawrence H. Duffin, Fisher Building, Rupert, Idaho.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 5 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the land irrigated): East half of Sec. 18, Twp. 7 South, Rge. 25 East Boise Meridian.

The name of the canal or ditch or other works by which said water is conducted to such place of use is 200 h.p. deep well turbine pump.

The right to take water from such works is based upon Permit No. 20315.

The source of supply from which such water is diverted is subterranean.

The date of priority which said user is prepared to establish is February 20, 1948.
