The name and postoffice address of the person holding said permit are Earl Hall, Hazelton, Idaho.

The use to which said water has been applied is irrigation and domestic.

The amount applied to beneficial use is 3.5 cfs.

The place where said water is used $S\frac{1}{2}SW\frac{1}{4}$ Sec. 8; $NW\frac{1}{4}$ Sec. 17; $N\frac{1}{2}NE\frac{1}{4}$ Sec. 18, all in T. 10 S. R. 21 E. BM.

The right to take water from such works is based upon Permit No. 19617.

The source of supply from which such water is diverted is unnamed stream.

The date of priority which said user is prepared to establish is March 26, 1945.

MARK R. KULP,
State Reclamation Engineer.

CONDITIONS OF APPROVAL AND REMARKS

1. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.0 afa per acre for the lands above.
2. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
3. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
4. Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
5. The total instantaneous diversion of water from all points of diversion under Transfer No. 4803 shall not exceed 3.32 cfs, nor total combined annual volume of 1088.0 af.
6. The right holder shall install a suitable measuring device at each point of diversion or shall enter into an agreement with the department to determine the amount of water diverted from power records and shall annually report the information to the department.
- * 7. Right Nos. 36-02052 and 36-02313 when combined with Right No. 36-04154 are limited to the total combined diversion rate of 5.60 cfs, a total combined annual diversion volume of 1120 af, a total combined annual consumptive use volume of 840 af and to the total combined irrigation of 280 acres.
- * 8. Right Nos. 36-2052 and 36-02313 when combined with Right Nos. 36-02171, 36-04154 and 36-07527 are limited to a total combined diversion rate of 8.60 cfs, a total combined annual diversion volume of 2114 af, a total combined annual consumptive use volume of 1585.5 af, and to the total combined irrigation of 528.5 acres.
- ** 9. Right No. 36-02052 is limited to the irrigation of 247 acres in the place of use described above in a single irrigation season.
- ** 10. Right No. 36-02313 is limited to the irrigation of 25 acres in the place of use described above in a single irrigation season.

RE: Transfer of Water Right Nos. 36-02052/36-02313

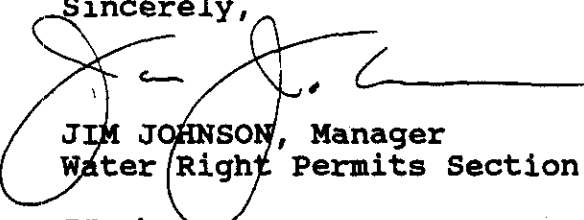

Dear Water Right Holder(s):

Enclosed is a copy of your approved Transfer of Water Right for the above referenced water rights (Transfer No. 4803). Please be sure to thoroughly review the "Conditions/Remarks:" as listed on the transfer.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR to July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Failure to report these changes could result in a \$100 late filing fee. Contact any office of the department to obtain the proper reporting form.

Sincerely,

JIM JOHNSON, Manager
Water Right Permits Section

MEMORANDUM

TO: FILE NOS. 36-02052 & 36-02313

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER NO. 4803

DATE: August 14, 1996

=====

Transfer No. 4803 is one of two transfers filed to combine the use of water rights from two systems into a single combined system with a permissible place of use. Transfer No. 4802 addresses the groundwater rights and Transfer No. 4803 addresses the surface water rights.

Two pivots are being installed to replace the old system of handlines and the wells will be connected. Diversion volume was adjusted to current standards under each right and combined limits applied to reflect the limits recommended under each right.

Recommended conditions include measuring devices/annual reporting, irrigation overlap, combined limits from the two separate systems & all the rights when combined, and standard transfer conditions.

FROM: Allen Merritt *AM*

DATE: June 3, 1996

TO: Transfer Files #4802 & #4803 & Amendment of 36-08498

SUBJECT: Review and Recommendation

The above three applications deal with the same proposed PPU of 528.5 acres and should be reviewed together. As taken as a package the purpose is to tie existing water sources together into a common supply system on an existing farm with a slight change in place of use to facilitate a land swap with neighbor.

Transfer 4802 deals with groundwater rights 36-02171, 36-07527 and 36-04154. The first two were recommended in the SRBA in a 250 acre PPU and limited when combined to 3.0 cfs. 36-04154 is recommended on a 280 acre P/U.

Transfer 4803 deals with waste water rights 36-02051 and 36-02313 recommended in a 280 acre PPU being the same acres as those for 36-04154. These three rights when combined are limited to 5.60 cfs or 1"/acre.

Permit 36-08498 is for more water out of the same well on the same 250 acre PPU involved with rights 36-02171 & 36-07527.

Recommendation

I recommend that all applications be approved with the following conditions:

Transfer #4802

- Subject to SRBA Review.
- Rights 36-02171 & 36-07527 when combined limited to 3.0 cfs.
- Right 36-02171 limited to 200 acres in 528.5 acre PPU.
- Right 36-07527 limited to 48.5 acres* in 528.5 acre PPU.
- Right 36-04154 limited to 280 acres in 528.5 acre PPU.

Transfer #4803

- Subject to SRBA Review.
- Right 36-02052 limited to 247 acres in 528.5 acre PPU.
- Right 36-02313 limited to 25 acres in 528.5 acre PPU.

Amendment of 36-08498

- Limit to 248.5 acres* in 528.5 acre PPU.

COMMON TO ALL:

- When all rights combined on PPU shall not exceed 1"/acre nor 4.0 Afa diversion volume.
- Measuring device with totalizing meter on all P/Ds.

*Note that the 1.5 acres were reduced to fit rights into smaller description since original P/U totaled 530 acres.

Amendment of Permit No. 36-08498

Dear Mr. Carlquist:

The Department of Water Resources acknowledges receipt of the Applications as listed above.

This office has scheduled advertising the applications in The North Side News for 4/24 and 5/1/96. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If an application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

State Office personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely yours,

MEMORANDUM

TO: Carlquist Brothers Transfer Files

FROM: Corey Skinner *CS*

DATE: April 1, 1996

SUBJECT: Staff Review

Carlquist Brothers have filed the two enclosed transfer applications in order to tie their water rights together into a permissible place of use on their farm. The first transfer application covers their groundwater rights based on claims recommended in the Director's Report (36-02171, 36-04154, and 36-07527). The second transfer application covers their wastewater rights based on claims recommended in the Director's Report (36-02052 and 36-02313). In addition, Carlquist Brothers have a permit 36-08498 (amendment to permit has been filed, permit currently awaiting final field exam) for groundwater that is proposed to be a part of the proposed permissible place of use.

On February 22, Lyn Carlquist and I examined his farm and the permissible place of use proposed with these transfer applications. The farm has been all tied together via a connected mainline system. From my observations in the field and aerial photos and slides at the Jerome ASCS office, the entire farm has been recently irrigated and forfeiture since the filing of the Director's Report of the individual rights is not an issue.

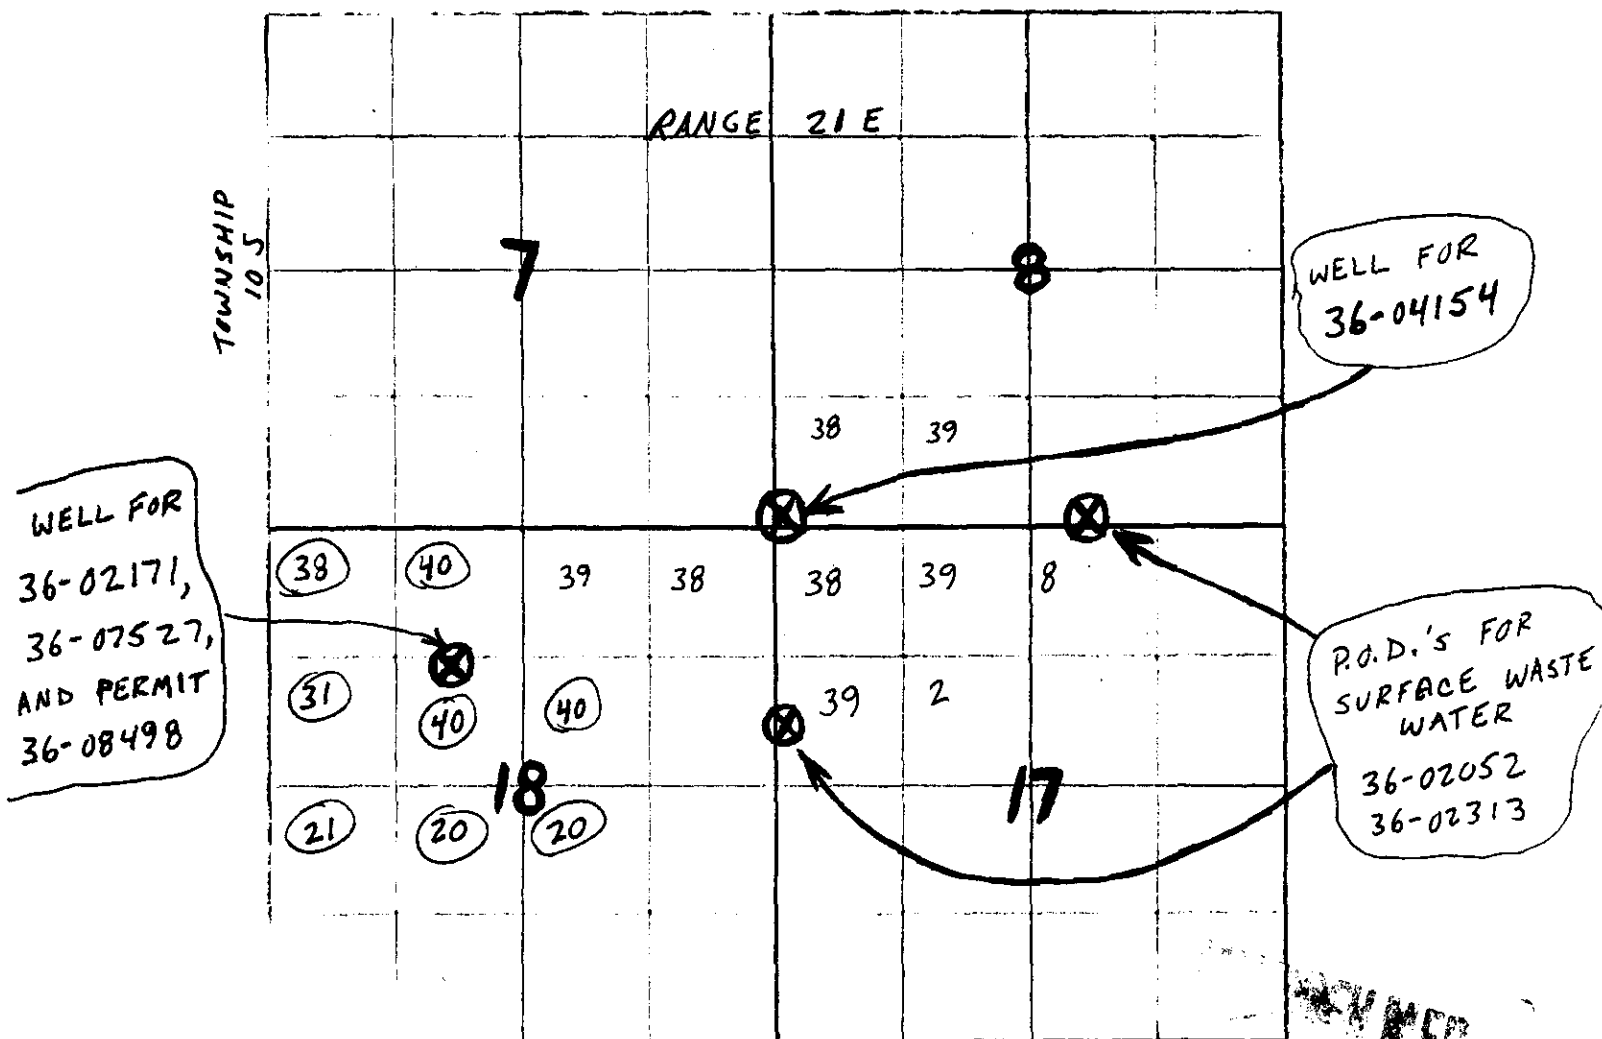

There appears to be no possibility of expansion with these two proposed transfer applications, as long as the appropriate limits are part of the approval conditions. The five recommended claims involved with this transfer are limited to 8.6 cfs for the irrigation of 530 acres. The related water right permit, 36-08498, is for 250 acres that overlap with the 530 acres involved with these two transfer applications. All together, after the proposed transfers and the amended permit, there will be a total of 9.6 cfs appurtenant to 528.5 acres. This would still provide less than an inch to the acre. I have attached a summary that explains the limits of these five claims and the permit as they currently stand, before the two proposed transfers and the amendment to the permit.

Re: Transfer application No. 3650
Attn: Tim Luke

Dear Mr. Luke

As per our phone conversation of the other day I am writing to confirm our decision to cease the above mentioned transfer application, pending the approval of the Permit for additional water No. 36-8498. With the dates that you mentioned of approval sometime in February we will not need the transfer processed.

If there are any further problems with the approval or if we can assist in any further way please let me know.

6. General Information:

a. Description of diversion system. Two existing wastewater pumps feeding sprinklers. Additional

portable mainline to be added so wastewater can be used to supplement the well on

the west side of the farm.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or

contracts? Yes ☒ No. If yes, provide a notarized statement from the holder of the lien, deed of

trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:

The east well can be pumped more to make up for the shortage of surface water that

was being used elsewhere on the farm.

d. Remarks:

No additional acres will be irrigated as a result of this transfer.

Re: Transfer Application No. 3650/Application for Permit
No. 36-8498

Dear Applicants:

In January of 1990, you filed an application for permit (no. 36-8498) for appropriation of 1.0 cfs of groundwater from an existing well for irrigation of 250 acres in section 18, T10S, R21E (see attached application). The Department did not immediately process this application because of an existing backlog of applications at that time which resulted from the Swan Falls litigation and settlement.

In February of 1990, you filed an application for transfer of water right no.s 36-2313 and 36-2052. The stated intent of the transfer was to spread these existing rights, which you referred to as wastewater, over the whole farm unit until a permit for additional groundwater could be obtained.

For one reason or other, processing of your transfer was delayed. The transfer should have been approved within a few months of filing. Instead, our office has just received the transfer from our regional office. We are currently reviewing the transfer for final approval. I also have learned that we are also in the middle of processing your groundwater application. We still need to advertise the application but I believe we can complete processing and issue approval by the first of February. Actually, processing of the application should have been completed by now. I apologize on behalf of the Department for the delays.

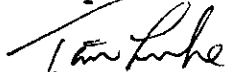

The purpose of this letter is to ask how you wish to proceed with the transfer. Since it has not been approved, and approval of the groundwater application is likely within the next two months, it appears that the transfer will no longer be needed. You may want to consider withdrawing the transfer. If so, please inform me at this office either in writing or by calling me directly at 327-7864.

MICROFILMED

JAN 16 1992

We ask that you respond to this inquiry at your earliest convenience. The earlier you respond, the earlier I think we will be able to approve the groundwater filing and resolve all pending matters.

Respectfully,

Tim Luke

Sr. Water Resource Spec.

SUBJECT Carlquist Bros. Transfer

I assisted applicants with filing of this transfer. At that time, I advised them that water rights could not be expanded thru the transfer process. The transfer was prepared as they requested, even though it was an obvious expansion. I feel that they were properly advised as to possible (probable) denial of the transfer as filed.

Re: Application for Permit No. 36-2052, 36-2313

Gentlemen:

The Department of Water Resources acknowledges receipt of your Application for Transfer.

This office will be advertising the application in the North Side News on 5/2 & 5/9/90. A period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.

RE: Enclosed Application for Transfer of a Water Right

Dear Sirs,

As a courtesy the Department is informing you of the pending application for transfer filed by the Carlquist Bros. Partnership, copy enclosed. An application similar to this was recently advertised; however, the current application identifies the unnamed streams (wastewater) as tributary to the Milner/Gooding Canal. You are not required to respond to this notification as the water does not appear to be diverted from an AFRD stream.

If you have any questions please contact us.

Sincerely,

Douglas Jones, EIT

Carlquist Bros. Transfer File 36-23134-2052

SUBJECT

Expansion of acres

There are groundwater rights to cover about 531 acres at about $\frac{1}{2}$ " per acre. GW ^{license} right 36-7527 is conditioned to limit diversion to 3 cfs and 1000 AFA (~250 acres) in combination with 36-2171. Stat. Claim 36-4154 (groundwater) covers 281 different acres at diversion rate of 3.12 cfs. Surface water rights are licensed for about 272 acres. Applicants have groundwater app in Swan Falls hold status for additional water to cover ground better. Earlier transfer incorporated groundwater rights but was amended to exclude them due to complications in future if farm is split up.

PART 1

6. General Information:

a. Description of diversion system Two wells & pumps, two wastewater pumps with connecting

mainlines to sprinklers.

b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? Yes No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.

c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer: Land will all be irrigated. Flow rate and water source can be varied as needed to serve crops on different parts of the farm.

d. Remarks:

No new land will be irrigated due to this transfer. We have filed an application for a water permit to increase the flow rate in the west well.

Gentlemen:

The Department of Water Resources acknowledges receipt of your
Application for Transfer.

This office will be advertising the application in the North Side News
on 2/7 and 2/14/90. The advertisement will be published for two
weeks, and a period of ten days following the second publication will
be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the
protest. The protest must be resolved before the application is
approved or denied. If the protest is not resolved voluntarily, this
Department will conduct a conference and/or hearing on the matter.

State Office personnel will conduct a complete review prior to final
processing of the application and will notify you of the outcome of
this review.

Please feel free to contact this office if you have any questions
regarding this procedure.

Very truly yours,

Douglas Jones, E. I. T.

Dear Mr. Hall:

We acknowledge receipt of the Deposition of the Holder and two witnesses, also affidavit of publication in the First Segregation News, all submitted in proof of beneficial Use on Permit No. 19617.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Duncan:

We wish to state that Earl Hall of Hazelton, Idaho, has no well filing of record in this department with a well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 8, Township 10 South, Range 21 East, Jerome County, and might add that he has no well filing in this Township and Range or any other Township and Range in Jerome County.

Our records do show that Earl Hall has Permit No. 19617, filing for 6.4 cubic feet per second from a source of supply, un-named stream, point of diversion located in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 17, Township 10 South, Range 21 East; Place of Use, NW $\frac{1}{4}$ Section 17, N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 18, S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 8, all in Township 10 South, Range 21 East. Completion of Works due March 27, 1950, made October 27, 1952. He was granted an extension of time for making completion of works proof to January 19, 1953. This would extend his time for making beneficial use proof on said Permit to January 19, 1956.

Dear Sirs:

I was unable to find a permit listed to Earl Hall, Hazelton, Idaho during a recent check we made of your records. The only permit that was listed was for an unnamed stream from which he pumps waste water.

I have contacted Mr. Hall and he says that he has made application for permit and that it should be listed in your records. The well is located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section Eight, Township 10 S., Range 21 E.B.M. (Jerome County)

We would appreciate any information that you have on the above case so that we can complete our records. We are especially interested in the required completion of works date and the required date for the beneficial use of water appropriated.

ORDER GRANTING AN EXTENSION OF TIME FOR COMPLETION OF WORKS

ON PERMIT NO. 19617.

WHEREAS, on March 26, 1945, Earl Hill filed an application for Permit to appropriate 6.4 cubic feet per second of water from an unnamed stream for the irrigation of the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 18, NW $\frac{1}{4}$ Section 17, and S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 8, Township 10 South, Range 21 East; and

WHEREAS, On March 27, 1945, Permit No. 19617 was issued upon said application, which Permit requires Completion of Works on or before March 27, 1950; and

WHEREAS, the holder of said Permit, Earl Hill, has filed a petition with the State Department of Reclamation, stating that he had been unable to proceed with the work of construction by reason of delay in the approval of his desert entry application, by the Bureau of Land Management, and requesting an extension of time for completion of the works required under said Permit:

NOW, THEREFORE, I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, do hereby grant an extension of time for completion of works under Permit No. 19617 to January 19, 1953, or the length of time said applicant has been prevented from proceeding with such work, as provided by Section 42-204, Idaho Code.

In WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of the Department of Reclamation at Boise, Idaho, this 17th day of February, 1950.

IN THE DEPARTMENT OF RECLAMATION OF THE STATE OF IDAHO.

IN RE; APPLICATION OF EARL HALL
TO APPROPRIATE PUBLIC WATERS OF
THE STATE OF IDAHO UNDER PERMIT
NO. 19617.

PETITION FOR EXTENSION
OF TIME TO COMPLETE
IRRIGATION WORKS.

Comes now Earl Hall and petitions the Department for an extension of time in which to complete the irrigation works required by permit No. 19617, dated March 27, 1945, for the following reasons:

That permit No. 19617 was issued for the appropriation of public waters of the State of Idaho to be put to a beneficial use on the South Half of the Southwest Quarter ($S\frac{1}{2}SW\frac{1}{4}$) of Section Eight (8), the Northwest Quarter of Section Seventeen (17), the North Half of the Northeast Quarter ($N\frac{1}{2}NE\frac{1}{4}$) of Section Eighteen (18), all in Township Ten (10) South, Range Twenty-One (21) East of Boise Meridian.

That on the 3rd day of November, 1944, petitioner filed desert land application Blackfoot 054866, for the above described public lands of the United States of America, together with a petition for classification and opening of the land for entry in accordance with the provisions of the Taylor Grazing Act of June 28, 1934 (48 Stat. 1269; 43 USC 315f) as amended, with the United States Land Office.

That said application was held up on the adequacy of the water right by the Bureau of Land Management of the United States until May 5, 1948 when it rendered its decision adversely to petitioner on the sufficiency of the water rights for said land. Thereupon petitioner requested and received a hold order

19617

from the Bureau to enable petitioner to gather facts and present them to the Department of the Interior .

That the entire matter was submitted to the Department of the Interior and after considerable delay, on January 19, 1949, the department finally approved petitioner's water-right and notified him of said allowance.

That petitioner has therefore been delayed in completing said irrigation works required in permit No. 19617, as considerable time and money was necessarily expended by petitioner in his efforts to secure approval of his entry application from the United States Government. That petitioner has expended more than \$4000.00 on the reclamation of said land and the construction and development of said irrigation works. That petitioner has been and now is proceeding diligently and in good faith to complete said irrigation works, and during the year 1949 did raise crops on 130 acres of said land.

Wherefore petitioner requests that the time in which he is required to complete the irrigation works, be extended from March 27, 1950 to January 19, 1953 as provided for by 42-204 Idaho Code.

Earl Hall
Petitioner.

Earl Hall being first duly sworn deposes and says: That he is the petitioner in the foregoing petition for extension of time to complete irrigation works on homestead entry. That he has read said petition, knows the contents thereof and that he believes the facts therein stated to be true.

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Earl Hall

Boise, Idaho **January 3, 1950**

Hazelton, Idaho

Dear Sir:-

Under the terms of your permit No. 19617 you are required to complete your diversion works on or before ~~March 27, 1950~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KUTP
