Re: Permit No. 18906

Idaho Power Company,
Boise, Idaho.

Attention- Mr. A. C. Inman

Gentlemen:

We acknowledge receipt of the deposition of the holder, depositions of two witnesses, and affidavit of publication from the Twin Falls News, and also from the Gooding Leader, all in connection with beneficial use proof under the above numbered permit.

Before final action can be taken however, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since the department has but one field engineer, who makes examinations all over the state. But Mr. Tolman, our field engineer, will try and contact your representative on this property at the time of examination, so that arrangements may be made to show him over the grounds.

The statutory fee in connection with this proof is \$2.00 for each legal 40-acre subdivision, or \$28.00, which you may send at your convenience, and as soon as the engineer's report is on file, license will be issued in accordance therewith.

Very truly yours,

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Myron Swendsen, Age 49, Box 156, Boise, Idaho. Civil Engineer.

Ques. 2. Are you acquainted with Idaho Power Company, the holder of Permit No. 18906? How long have you known him and where does he reside?

Ans. Yes - about 20 years, Boise, Idaho.

Ques. 3. Have you read or heard read said Permit No. 18906, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Riley Creek, which is a tributary of Snake River, and is a canal or ditch through headgate 57 inches wide, 43 inches high, built of concrete, securely anchored to rock bottom and sides.

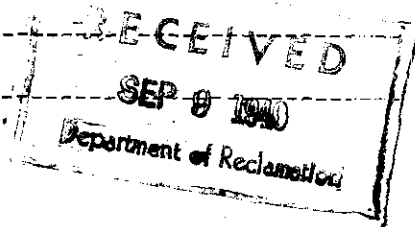

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Will safely conduct to place of use about 25 c.f.s. Have seen 20 c.f.s. being conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each sub-division in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvement which have been made as a direct result of said use.

Ans. Irrigation and domestic use. All land that has been irrigated is cultivated or alfalfa land. Land has been leveled, ditched and corrugated.

(See * on reverse side.)

18906

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans. Limited amount for domestic and stock watering purposes. No power.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. In my judgment this land will require about 8.00 c.f.s. at the diversion for successful irrigation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen on September 5, 1940 water being applied and growing crop or evidence of growing crops on all land described in about list.

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) July 23, 1940

(P. O.) 1220 Idaho Street, Boise, Idaho.

TO THE COMMISSIONER OF RECLAMATION:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
The Gooding Leader of Gooding, Idaho, and
/ The Twin Falls News of Twin Falls, Idaho, published in
ies lands and
the county in which the works are situated.

IDAHO POWER COMPANY,

By

B. J. Strick
President

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water
per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

A. C. INMAN
SECRETARY
GENERAL COUNSEL

Department of Reclamation,
State House,
Boise, Idaho.

Gentlemen:

I am enclosing herewith proposed notice for publication of proof of application of water to beneficial use under this Company's Permit No. 18906, covering $3\frac{1}{2}$ c.f.s. of the waters of Riley Creek, in Gooding and Twin Falls Counties, Idaho.

In the enclosed letter authorizing the publication of this notice, you will note that publication is authorized in two papers instead of one, - the Gooding Leader, of Gooding, and the Twin Falls News, of Twin Falls, Idaho. This is for the reason that the point of diversion is in Gooding County, as is also a considerable portion of the lands which are irrigated; on the other hand, the larger portion of the irrigated lands lies across Snake River, in Twin Falls County. For your information, the lands in question are located close to the Owsley Bridge crossing Snake River on the main highway.

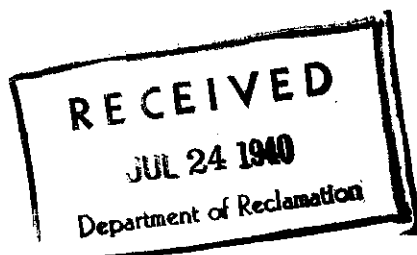

For the above reasons, and in order that there will be no controversy as to the fulfillment of legal requirements in publication, it is our desire that this notice be published in one paper in each county, as indicated in the attached authorization.

It will be appreciated if you will furnish us with the necessary forms upon which to make formal proof of application of water to beneficial use under this permit.

Very truly yours,

A. C. Inman
