ORDER AMENDING IRRIGATION PERIOD OF USE ELEMENT
IN PARTIAL DECREE AND INCORPORATING INTO PARTIAL
DECREE AN EXPRESS STATEMENT REGARDING GENERAL
PROVISIONS, *NUNC PRO TUNC*

A *Partial Decree* was entered for the above-captioned irrigation water right on December 05, 1996. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, IDWR filed a *Supplemental Director's Report, Reporting Area 3, IDWR Basin 36, Regarding Revision of Period of use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this recommendation and the time period for filing objections has now expired.

THEREFORE, IT IS ORDERED that the period of use for the irrigation element of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-15 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court at a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify any subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

RE: Water right number(s): 36 15455

Dear Water Right Holder(s):

The purpose of this letter is to notify you in advance that present drought conditions in Eastern Idaho may result in the flow of the Snake River falling below the minimum stream flow of 3,900 cubic feet per second ("cfs") established by the Swan Falls Agreement at the Murphy gage on the Snake River. Your water right bears a later priority date than July 1, 1985, the priority date for the minimum stream flow. As a result, if the flow falls below 3,900 cfs, the department will send you another letter advising you to cease diversion of water.

This notice is being provided so that you have advance warning to make arrangements to minimize impacts to growing crops or other loss that could occur if your water diversion is curtailed. Such arrangements may include temporary transfers as provided under Section 42-222A, Idaho Code, for areas declared a drought emergency. Declaration of a drought emergency can be initiated by petition of the Board of County Commissioners to the director of this department subject to approval by the Governor.

There are many variables that affect stream flows in the Snake River. Normally, the flows in the Snake River at Murphy gauge are lowest during June and July.

Information about your water right can be found on the department's website at the following address: <http://www.idwr.state.id.us/apps/ExtSearch/SearchWRAJ.asp>. Real time flow data for the Murphy gage can also be found at the following address: <http://www.idahopower.com/riversrec/waterlevels/streamflow/showgraph.cfm>.

Thank you for your cooperation in this matter. If you have questions, please feel free to contact the department.
