RE: License No. 36-8762 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
APR 26 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Overlap with 36-02037

Date: April 18, 2001

.....

I called and left a message at Idaho Power Shoshone Falls plant regarding the use of the spring water under Rt. 36-02037. Dennis Braman, of Idaho Power, returned my call with a voice mail and relayed the following information.

The well and the spring are both active sources for the homes at Shoshone Falls power plant operator's village. The well is used for domestic use in 2 homes only. The spring is used for watering the lawns around the homes and other areas within the operator's village, along with cooling purposes at the power plant.

In light of the above information, we should limit the domestic use when the two rights are combined.

E. NARRATIVE/COMMENTS/REMARKS

FILE: 36-08762

FROM: AMANDA FOLSOM

DATE: DECEMBER 6, 1999

The field exam for Idaho Power was conducted on December 3, 1999. There is one well located in the NWSW 1/4 of Sec 31, T09S, R18E of Lot 09. This well provides water for two homes not three.

The lawn surrounding the homes, is not irrigated by the well. A flowing spring is used to accomplish this under water rights 36-07269, -08127A, and -08127B. However, the well is set up to be used for irrigation, but under normal circumstances is not used.

I preformed a bucket and stopwatch measurement of the well from a spigot approximately 100 yards away from the well. The measurement came to 3 gallons per 10 seconds which equaled 0.04cfs. Because only two homes are using the water and the measurement rate, I am recommending 0.04cfs.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 36-08762

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's **SOUTHERN** Regional Office in Twin Falls at (208)736-3033.

PROOF DUE NOTICE

RE: PERMIT NO. 36-08762

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 36-08762

Dear Permit Holder:

The Department of Water Resources (IDWR) has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a preliminary order issued by IDWR pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by IDWR unless a party petitions for reconsideration or files an exception and/or brief as described in the enclosed information sheet.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed, you should complete and submit this form immediately.

Also, please note that as of July 1, 1996, water right owners are required to report any change of water right ownership and any change of mailing address to the department. If you have acquired a water right or have changed your mailing address PRIOR TO July 1, 1996, you have until July 30, 1998, to notify the department. If you acquire a water right or change your mailing address AFTER July 1, 1996, you must notify the department within 120 days of the change.

Responding to Preliminary Orders Issued by the Idaho Department of Water Resources

The Idaho Department of Water Resources (Department) issues water right permits, licenses, and transfers as preliminary orders pursuant to section 67-5243, Idaho Code. **A preliminary order can and will become a final order without further action of the department unless a party petitions for reconsideration or files an exception and/or brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of the order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from a preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, a preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to a preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review a preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

RECEIVED
MAY 21 1997

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with a preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

ADDITIONAL INFORMATION:

Allen,
one of the IPCO applications with multiple home, single ownership, that we talked to Shelley Keen about. May need 42-111 limits as part of the approval conditions. Also, domestic uses are covered under right 36-02037 out of a spring. IPCO memo, submitted by Sharon Strickland, addresses overlap. Sounds like application replaces domestic use for homes covered under 36-02037.

Re: Applications for Permit - Idaho Power Company

Dear Mrs. Strickland:

The Department of Water Resources acknowledges receipt of the four (4) water right applications for permit filed on behalf your client, Idaho Power Company. Each application has been assigned an identification number. Please refer to this number in all further correspondence.

This office has scheduled advertising the applications for two (2) consecutive weeks as listed below. A period of ten days following the second publication will be allowed for the submittal of protests.

<u>Application No.</u>	<u>County of P/D</u>	<u>Newspaper</u>	<u>Dates</u>
36-08761	Gooding	Gooding Leader	2/19 & 2/26/97
36-08762	Jerome	Northside News	2/19 & 2/26/97
45-07736	Twin Falls	Times News	2/20 & 2/27/97
47-08408	Twin Falls	Times News	2/20 & 2/27/97

If an application is protested you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely yours,

Corey Skinner, E.I.T.
Safety of Dams Engineer

RE: IDAHO POWER COMPANY/GROUNDWATER APPLICATIONS

Dear Cory:

This is in follow-up to your phone call concerning the recent groundwater applications filed for domestic uses at Idaho Power Company's sites at Shoshone Falls, Niagara Springs and Upper Salmon. Some checking of the Company's files turned up a couple of internal memos which address your question about whether these wells replace spring rights at Niagara, Shoshone and Upper Salmon "B" Plant. Copies of the memos with the pertinent information highlighted are enclosed.

Also enclosed, per your request, is a copy of the Power of Attorney authorizing Jim Tucker to sign the applications, and a listing of Idaho Power's corporate officers.

Please feel free to contact me if you need any additional information.

Re: Water Rights for New Potable Water Wells
Milner, Shoshone Falls & Strike Hydro Projects
Niagara Springs Steelhead Hatchery

Date: January 26, 1996

To: Nathan Gardiner

From: David Joerger

Please find attached the water right claim forms for the four subject wells. I have filled the claim forms in with red for your review.

The only question I had related to item 13 for the Shoshone Falls and Niagara Springs wells. Prior to drilling the wells, we utilized surface spring water for both domestic and irrigation uses at those projects. With the new wells, the domestic use is now from the new well rather than from the surface spring water source. However, the surface spring water source is still being used for irrigation purposes. I wasn't sure how to respond to item 13 in this situation, so I left it blank for you to fill in.

Please have your staff type up the final version of the claim forms after you complete your review. In addition, your staff will need to attach the photocopy of the location map onto the third page of each water right claim form.

Unless I hear otherwise from you, I'll assume you will complete the claim process for these wells from this point onward. Please call me at 2946 if you have questions.

RE: APPLICATIONS FOR PERMIT/IDAHO POWER COMPANY

Dear Water Rights Agent:

Enclosed herewith, please find applications for permit for existing domestic wells at Idaho Power's sites as follows: Upper Salmon "B" Plant, Shoshone Falls Plant, Milner Power Plant, and the Niagara Springs fish hatchery. These wells were drilled in April 1995, September 1995, and January 1996; however, we are advised that no permits were obtained. Also enclosed is the filing fee in the aggregate amount of \$200.00.

Please feel free to contact me if you have any questions, and as always, thanks for your help.
